

Fiesta

At Ford, with such a long and successful motoring heritage behind us, we understand that everyone's lifestyle is different. What you look for in a vehicle will be different from the next person. It could be a vehicle that allows you to fit in all the family and hit the open road for the weekend, a zippy urban car that's perfect for tackling the city traffic, or maybe you need a vehicle that allows you to play as hard as you work. We'd like to think that our family of vehicles is proof that Ford never stops looking forward, designing and engineering vehicles that catch your eye, are technologically advanced, consider the environment and keep you safe. The Fiesta EONetic is our greenest car ever and further proof of the future thinking that is behind every vehicle we design and build. In short, no matter what your lifestyle, you're sure to find a Ford that can help you live more of your life.

Irresistible Design:

Because everyone's idea of the perfect car is different, Ford has designed and engineered a family of exciting, athletic and sleek vehicles that look great inside and out.

Great to sit in, great to drive:

There's nothing quite like driving a Ford. That's because every Ford is built from the ground up to be exhilarating to drive, with high levels of interior comfort along with the very latest safety systems that help keep you in control and protect you and your passengers.

Sustainability:

Ford recognises that climate change is a significant global challenge. We have an ongoing commitment to caring for the environment in every facet of our business, including delivering alternative fuel solutions such as diesel and LPG.

Innovation and Technology:

Thinking smarter means a comfortable, safe and enjoyable drive every time you turn the key. Our innovative solutions to everyday tasks using the latest technology save you time and connect you to the digital world.

Built to Last:

Every Ford is built not just for today but for tomorrow as well. So, when you buy a Ford you enjoy the type of quality that you can rely on, day in day out. From the way it looks and the way it feels, to the way it performs and the way it lasts.

There's no denying it, your life moves faster than ever before. Work. Friends. Weekends away. Family. Nights out. Making up for it in the gym the next day. Life's busy. But who'd want it any other way. So when you live life in overdrive you want a car that keeps pace, right? The Ford Fiesta shouts "Yes!" With its bold, sculpted design and vibrant colours, it's a car that can't be ignored. And what makes every drive even more exciting is that Fiesta's tech-filled interior keeps you connected wherever the road takes you.

Your kind of style.

Talk about making a good first impression. The Fiesta is a small car that makes a big statement. It sparks an instant desire. From its athletic stance to the sexy look of the front grille and headlamps to the sweep of the hatch. The Fiesta's precisely sculptured surfaces and dynamic lines say to you "Go on, be bold!" And the eye-catching looks are brilliantly matched with a palette of vivid colours. Add sporty options, a choice of 3 or 5 doors* and you've got a car that projects confidence and suits your individual style.

*Fiesta LX and ECOnetic only available as a 5 door.

Fiesta Zetec 5 door shown in Vision.

Fiesta Zetec shown with Dotts Syracuse interior trim and Fairland dash trim.

Fresh design.

Sculptured design-as-art. That's the Fiesta's interior. The sexy surfaces, smooth finishes and the intuitive mobile phone-inspired centre console design are edgy and fresh. You'll also be impressed by the vibrant seat trims and colours. So regardless of whether you're simply zipping through traffic or taking off on a road trip for the weekend, it's an interior that means you can live life to the max. Plus, as well as ample storage for your personal items, there's plenty of space to load in your friends and their gear.

Vibrant modern seat trims. Dotts Soho interior shown.

Stylish air conditioning dials.

Easy to use cruise control* buttons on the steering wheel.

*Not available on Fiesta CL.

Elegant lines with satin finish on door trims.

Live your life.

Get connected. Slip inside the Fiesta and you'll feel right at home. Want to chat with friends? Easy. Play your favourite music from your iPod[^] or a USB^{*} stick? No problems. That's because behind the wheel of the Fiesta you can be connected 24/7. Adjust your music volume with a simple click using the steering wheel mounted audio controls. Keep in touch with friends using the hands-free Bluetooth[®] and Voice Control system.[#] So wherever you're heading, you'll never miss an opportunity. Fiesta keeps you in control and connected every step of the way.

iPod connectivity[^]

Take your library of tunes wherever the road takes you. You can connect an iPod directly into Fiesta's audio system. What's more, a USB port on the Fiesta Zetec and ECONetic allows you to integrate your player so that you're able to control your iPod using the on-board audio controls, including those located on the steering wheel.

USB port^{*}

Simply pop your USB stick into the port and your MP3 music files can be played and controlled through the Fiesta's sound system.

Bluetooth[®] connectivity with Voice Control[#]

Why miss a phone call just because you're driving? With Bluetooth voice-activated connectivity you can keep in touch with your friends without your hands ever leaving the steering wheel. And the ability to change radio stations is at your 'voice command' too.

[^]Requires connection cable, sold separately. iPod is a trademark of Apple Inc. ^{*}USB input facility available only on Fiesta Zetec and ECONetic. [#]Not available on Fiesta CL. Bluetooth[®] is a registered trademark of Bluetooth SIG Inc., and is used under licence.

The city awaits...

Feel alive...

to drive.

Exciting. Fun. Responsive. With its razor sharp handling, driving a Fiesta is all these things, and more. You'll discover that whizzing through city traffic is a breeze, and parking in tight spaces is no drama. The zippy 1.6L engine and racy 5-speed manual transmission delivers responsive acceleration, while the optional 4-speed automatic with a 1.4L engine* is no slouch either. And cruise control^ will help make weekend escapes even easier. In fact, you sense the Fiesta was designed and engineered to ensure every drive gives you a real buzz and makes you feel alive.

*1.4L auto not available on Fiesta Zetec 3 door or ECONetic. ^Not available on Fiesta CL.

Fiesta Zetec shown with Dotts Syracuse interior trim and Fairland dash trim.

ECOnetic. Future thinking.

The environment is everyone's responsibility. At Ford, our 'sustainability vision' plays a key role in shaping the cars we design, engineer and build. We are continually looking for ways to make our cars greener. Things like greater fuel efficiency, the demand for lower CO₂ emissions, but of course, you still can't forget the need for cars to be fun to drive. So we created ECOnetic, a design and

engineering concept that brings together a whole range of clever thinking and technologies that are available right now. Technology like a specially calibrated diesel engine, low rolling resistance tyres and improved aerodynamics, to deliver highly fuel efficient, environmentally advanced vehicles that rival their hybrid competitors and ensure we lessen our environmental impact.

ECOnetic. Australia's most fuel efficient car.

It's easy to feel good when you're behind the wheel of the Fiesta ECOnetic, and not just because every drive makes you feel alive. You see, Fiesta ECOnetic perfectly balances a stylish, affordable car that considers the environment and our future, without compromising the style or technology that has made the Fiesta one of Australia's most popular small cars. From every aspect, the designers and engineers at Ford have created a 'greener' machine which ensures Fiesta ECOnetic provides amazing fuel economy (a tiny 3.7L/100km), delivers over 1000km per tank,* dramatically reduces CO₂ emissions (just 98g/km) and slashes your fuel costs. In fact, Fiesta ECOnetic delivers the kind of fuel efficiencies that even beats a hybrid. It's all about economy without compromise, which has less of an impact on the environment and is good for your budget.

Green Shift Indicator.

The Fiesta ECOnetic features a unique indicator as part of your instrument cluster that lets you know exactly the optimum point to change gear. This maximises your fuel economy by helping to avoid unnecessarily high engine speed, cutting fuel costs and reducing CO₂.

Low rolling resistance tyres.

Typically, about 20% of fuel consumption is used to overcome rolling resistance. Low rolling resistance tyres are both stiffer and inflated to a higher pressure than conventional tyres, these tyres cause about half the drag of regular tyres, meaning the engine uses less power (and fuel) to move the car forward.

Temporary Mobility Kit.

By replacing a mini-spare tyre with the Temporary Mobility Kit weight is further reduced and fuel efficiency is increased, not to mention an increase in available luggage space. The design is simple and easy to use which quickly allows the driver to restore mobility in the event of a tyre puncture.

Economical diesel engine.

A specially calibrated diesel engine delivers ultra low fuel consumption, which means significant savings at the pump and longer distances between refills. With a highly efficient Diesel Particulate Filter, CO₂ emissions are significantly reduced.

Aerodynamics.

Lowering the Fiesta's suspension and adding an aerodynamics kit as standard minimises drag and improves fuel economy.

Fiesta LX 5 door shown in Moondust Silver.

No worries.

When you're busy living life the last thing you need to worry about is your car, right? That's the beauty of driving the Ford Fiesta. Because it's engineered and built in Germany you can sense the quality of the build, attention to detail and the inherent reliability every time you get behind the wheel. And besides giving you stress-free driving, Fiesta's great fuel economy keeps more money in your wallet and these days that's a real bonus. Choose the Fiesta EONetic and you'll find the fuel savings are even greater, as well as it being our greenest car ever!

Safety.

Just because you're in a small car doesn't mean you should be any less safe. That's why you'll be glad to know the Ford Fiesta, from the CL right through to the ECONetic, packs in just as many safety features as your average family sedan. Besides an army of airbags, Fiesta is equipped with an impressive list of safety features to help you avoid an accident.

Adding to your peace of mind is the fact that Fiesta comes with a 5 Star ANCAP safety rating on Zetec and ECONetic as standard. Fiesta CL and LX also achieve a 5 Star ANCAP rating when you choose the optional safety pack.

- 1 Driver and front passenger airbags.**
It's reassuring to know driver and front passenger airbags are standard across the Fiesta range.
- 2 Head and thorax side front airbags.**
Standard on Fiesta Zetec and ECONetic for added driver and front passenger protection. Optional as part of a safety pack for Fiesta CL and LX models.
- 3 Driver's knee airbag.**
Fiesta Zetec and ECONetic include the added benefit of a driver's knee airbag. Optional as part of a safety pack for Fiesta CL and LX models.
- 4 ABS with EBD.**
The Anti-lock Braking System (ABS) with Electronic Brakeforce Distribution (EBD) help ensure a safer drive. Standard on every Fiesta.
- 5 Dynamic Stability Control with Traction Control and Emergency Brake Assist.**
Dynamic Stability Control (DSC) strengthens your connection to the road and helps you avoid the problems of oversteer and understeer. DSC tracks the vehicle's movement and then works in tandem with Traction Control and ABS to help keep the vehicle under control. Standard on Fiesta Zetec and ECONetic and available as part of an optional safety pack on Fiesta CL and LX models.
- 6 Safety cell.**
For greater all round strength and protection, the Fiesta's high-strength steel passenger safety cell greatly reduces intrusion into the passenger space, minimising the likelihood of occupant injuries.

Fiesta vehicle range.

In addition to bold, sleek looks, a truly high-tech interior and sharp, zippy performance, the Ford Fiesta range gives you loads of options and accessories. A choice of 3 models. 1.4L auto or 1.6L manual. 3 or 5 doors. Features like Ford Easy Fuel[®]~ and power front windows. Plus a vibrant colour range that'll really catch your eye. No matter what your lifestyle, the Fiesta range has a vehicle that's just perfect for you.

Fiesta CL 3 Door

- Engine: 1.6L with 5 speed manual, or 1.4L with 4 speed auto
- CD audio system with input facility for iPod[®] / MP3 player
- Steering wheel mounted audio controls
- Driver and front passenger airbags
- ABS and air conditioning
- Ford Easy Fuel[®]~

Fiesta CL 5 Door

- Engine: 1.6L with 5 speed manual, or 1.4L with 4 speed auto
- CD audio system with input facility for iPod[®] / MP3 player
- Steering wheel mounted audio controls
- Driver and front passenger airbags
- ABS and air conditioning
- Ford Easy Fuel[®]~

Fiesta LX 5 Door

Includes features found on Fiesta CL, plus:

- Bluetooth[®] and Voice Control system*
- Leather wrapped steering wheel
- Cruise control
- Power rear windows[†]
- 15" alloy wheels**
