

Transit Bus

Transit Bus shown in Frozen White.

The Ford Transit line-up makes choosing the right van, cab chassis or bus for your business simple. The Transit range definitely means business with bold exterior styling, diesel power, advanced safety and superior comfort. Left to right: Transit Cab Chassis shown with aftermarket tray, Transit Bus, and Transit Van LWB shown with high roof and accessory full partition.

Just the ticket for your business.

If your business relies on moving people safely and comfortably, your choice of bus is all important. That's why the 12-seater Ford Transit Bus is the best candidate for the job. Transit allows your passengers to travel in first-class comfort. Power front windows and supportive seats, each with a height adjustable headrest, make for a relaxing journey. While an interior designed with sound deadening surfaces all but eliminates noise and vibration. Match this with Ford's respected light commercial heritage, and you can be sure your Transit will be reliable, hungry for work and able to handle the rigours of long trips. In fact, Ford Transit's reputation for hard work has been recognised with a jury of independent commercial vehicle journalists voting Transit 'International Van of the Year 2007.' Top this off with Transit's modern looks, and you and your passengers are guaranteed to arrive in style.

The power to move people.

Transporting passengers can be non-stop day in and day out. That's why you need a bus that can keep pace with your demands.

The 12-seater Transit Bus has all the power you need thanks to its 103kW 2.4 litre high pressure common rail Duratorq turbo diesel engine. Matched with a six speed manual transmission and offering a tireless 375Nm of torque at 2000rpm, this super responsive diesel reacts instantly to the driver's demands. Whether you're ferrying people around in congested city traffic or on longer journeys through hilly countryside, Transit's up to the task because it has more grunt where it counts. And what's more, it can keep a lid on your running costs thanks to its sophisticated, fuel efficient Duratorq diesel engine.

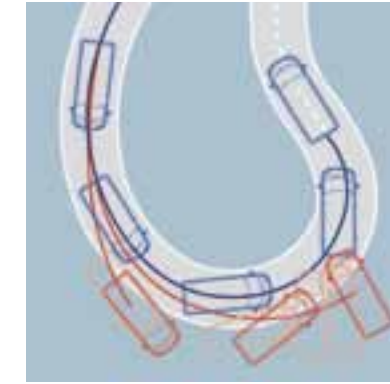

First class comfort.

Spend the best part of your day on the road and not surprisingly, comfort becomes a priority. That's where Transit's car-like interior ensures both driver and passengers arrive at their destination refreshed. Start with the 6-way adjustable driver's seat providing crucial lumbar support. Then add standard features like front and rear air-conditioning, CD player with auxiliary audio input for an iPod or MP3 player, remote audio controls mounted on steering column, power front windows and power side mirrors plus optional cruise control with leather wrapped steering wheel,* and journeys are bound to be more relaxing. There are clever ideas like having rails in the larger than normal glove box so you can hang A4 files. One of the two lidded storage compartments on the dashboard is fitted with a 12-volt power socket so you can discreetly charge a mobile phone away from prying eyes. Plus there's a handy carpark pass holder, multiple cup holders and two 2-litre bottle holders. Combine all this with a more than ample number of storage compartments and a generous luggage area and it's easy to see why Transit becomes a very functional travel companion.

iPod is a trademark of Apple Inc. *Only available in optional Professional Pack.

Dynamic Stability Control (DSC) gives you a greater ability to steer your way out of trouble.

DSC helps avoid understeering and oversteering by correcting the driving line through a combination of brake application to the appropriate wheel and a reduction in engine torque.

Safe and secure.

You and your passengers are precious cargo. So when it comes to safety Transit delivers big time. The solid body structure offers end-to-end strength and surrounds you with a protective shell. Inside, a driver's airbag and the latest generation ABS with Electronic Brakeforce Distribution are standard across the range. Plus, for added protection the optional Professional Pack includes Dynamic Stability Control (DSC) with Traction Control and Hill Launch Assist, and cruise control with leather wrapped steering wheel. DSC helps to avoid loss of control that could otherwise lead to an accident by sensing when the vehicle is deviating from the driver's chosen line and automatically applying the necessary power and braking adjustments to correct its road position. Hill Launch Assist makes it easier for drivers to pull away on a slope, without the need to use the parking brake. The DSC system also includes Hydraulic Brake Assist and Load Adaptive Control for even greater safety and peace of mind. Driver and passenger are further protected by optional front side airbags[†] that provide increased protection from side impacts in the event of an accident. Plus individual 3-point lap/sash seatbelts are standard for driver and all passenger seats. In terms of vehicle and cargo security, Transit is equipped with an alarm, engine immobiliser and unique security coded keys standard on every vehicle. Transit also helps safeguard your cargo with features such as power door deadlocks which make it impossible to open the doors from the inside should an intruder break into the vehicle. Add it all up and you can see why Transit is a safe bet for you and your business.

[†]Front side airbags must be specified with optional Professional Pack and single passenger seat.

ENGINE AND TRANSMISSION	
2.4L High pressure common rail turbo diesel (TDCi), 103kW@3500rpm, 375Nm@2000rpm (EEC) with 6-speed manual transmission	S

OPTIONAL PACK	
Professional Pack:	O
- Cruise control with leather wrapped steering wheel	
- Dynamic Stability Control (DSC) including Traction Control and Hill Launch Assist (HLA)	

S - Standard. O - Options that can be ordered before a vehicle is manufactured. P - Part of optional pack.

¹ Payload does not include the mass of the vehicle occupants, options or body additions. The mass of these items needs to be deducted from the stated payload to give the available cargo mass. ² Subject to State and Territory regulations. ³ Only available with optional Professional Pack and optional single front passenger seat.

Making your ownership experience even more rewarding.

A great vehicle is just the beginning.

After you've bought your Transit, we support you with a wide range of services that aim to make you one of the most satisfied vehicle owners in Australia. Speak to your Ford Dealer today about how to make the most out of your vehicle ownership experience.

Vancare Roadside Assistance*

Our commitment to your complete satisfaction plays a major role in everything we do. That is why we provide Ford Vancare Roadside Assistance for all Ford Transit Vans, Cab Chassis and Buses. Wherever and whenever you need emergency roadside assistance, help is available 24 hours a day, 365 days a year. If your vehicle breaks down and cannot be repaired, we will organise to transport your

vehicle to the nearest Ford Dealer or approved service centre for repair. Ford Vancare Roadside Assistance is valid for 1 year from the vehicle's first registration.

3 year/100,000km new car warranty*

For three years or 100,000km, whichever comes first, your Ford is covered against any defects in factory materials or workmanship. This also applies to Genuine Ford Accessories you may have had fitted before you took delivery.

5 year warranty against perforation corrosion*

It's reassuring to know that the original body of your gleaming new Ford is guaranteed against perforation corrosion for the first five years of its life. If perforation corrosion occurs, we'll fix it for free.

myFord Warranties & Insurance.

When you first turn the key of your brand new Transit you want to do so without a care in the world. Our range of myFord products gives you that extra peace of mind. For more information about myFord Warranties, Insurance and Roadside Assistance visit your participating Ford Dealer for further details on the plans that best suit your needs. Terms, conditions and eligibility criteria apply.
