

The Ford Transit line-up makes choosing the right van, cab chassis or bus for your business simple. The Transit range definitely means business with bold exterior styling, diesel power, advanced safety and superior comfort. Left to right: Transit Cab Chassis shown with aftermarket tray, Transit Bus, and Transit Van LWB shown with high roof and accessory full partition.

# Big on choice.

When it comes to vans, the Transit range gives you stacks of choice. There are short, medium and long wheelbase models, plus two Jumbo vans. Three roof heights, two powerful common rail turbo diesel engines, front-wheel-drive models and with the introduction of the dual-rear-wheel model,\* your options grow even further. Front-wheel-drive gives you excellent fuel economy, a lower cargo floor for easier loading and unloading, and a lower total height allowing greater access to covered carparks. This complements the rear-wheel-drive range, which is ideal for heavier payloads or if you need superior towing capability. So no matter how big or small the job is, there's a van in the range that'll suit your needs right down to the ground.

\*Dual-rear-wheel available on the Transit Jumbo Van.

The 2.4 litre Duratorq turbo diesel engine on rear-wheel-drive models features advanced high pressure common rail technology to boost performance and efficiency.

The 2.2 litre high pressure common rail Duratorq turbo diesel engine is available on front-wheel-drives and delivers excellent fuel economy.

## The power to deliver.

Running a business can be non-stop day in and day out. That's why you need a van that can keep pace with your demands. Transit's engines tick all the boxes when it comes to power and fuel economy. Take the 2.4 litre TDCi engine with an impressive 103kW of power and 375Nm of torque @2000rpm. This tireless diesel is available with a six speed manual transmission on rear-wheel-drive models. Then there's the 2.2 litre turbo diesel TDCi. Available on front-wheel-drives, it delivers excellent fuel economy while offering 85kW of power and a handy 300Nm of torque. Whichever way you go, you'll be able to hit the ground running.

The feature-packed interior makes time at the wheel more comfortable. Transit Van FWD with optional Professional Pack interior shown.

One of the two lidded storage compartments on the dashboard is fitted with a 12-volt power socket so you can discreetly charge a mobile phone away from prying eyes.

Clever ideas include rails in the larger than normal glovebox so you can hang A4 files.

## Your mobile office.

Spend the best part of your day on the road and not surprisingly, comfort becomes a priority. That's where Transit's car-like interior is making a strong case for better working conditions. Start with the 6-way adjustable driver's seat providing crucial lumbar support. Then add standard features like air-conditioning, CD player with auxiliary audio input for an iPod or MP3 player, remote audio controls mounted on the steering column, power front windows and power side mirrors plus optional cruise control with leather wrapped steering wheel,\* and journeys are bound to be more relaxing. Overall, the cabin has a real feeling of spaciousness and is open to light. It's designed specifically to help you better manage your day with attention to detail like a tray on the dashboard that provides a useful workspace, a handy carpark pass holder and two 2-litre bottle holders. Combine all this with a more than ample number of storage compartments and it's easy to see why Transit provides the ultimate in functionality and comfort.

\*Only available in optional Professional Pack.

The remote central locking key fob incorporates an innovative self charging feature, so it's always ready to use.

Dynamic Stability Control (DSC) helps avoid understeering and oversteering by correcting the driving line through a combination of brake application to the appropriate wheel and a reduction in engine torque.

### Safe and secure.

In business, there's nothing more precious than you and your cargo. So when it comes to safety Transit delivers big time. The solid body structure offers end-to-end strength and surrounds you with a protective shell. Inside, a driver's airbag and the latest generation ABS with Electronic Brakeforce Distribution are standard across the range. Plus, for added protection the optional Professional Pack includes front passenger airbag, Dynamic Stability Control (DSC) with Traction Control and Hill Launch Assist, cruise control with leather wrapped steering wheel and reverse parking sensors. DSC helps to avoid loss of control that could otherwise lead to an accident by sensing when the vehicle is deviating from the driver's chosen line and automatically applying the necessary power and braking adjustments to correct its road position. Hill Launch Assist makes it easier for drivers to pull away on a slope, without the need to use the parking brake. The DSC system also includes Hydraulic Brake Assist and Load Adaptive Control for even greater safety and peace of mind. Driver and passenger are further protected by optional front side airbags! that provide increased protection from side impacts in the event of an accident. In terms of vehicle and cargo security, Transit is equipped with an alarm, engine immobiliser and unique security coded keys standard on every vehicle. Transit also helps safeguard your cargo with features such as load area protection kit' and power door deadlocks which make it impossible to open the doors from the inside should an intruder break into the vehicle. Add it all up and you can see why Transit is a safe bet for you and your business.

\*DSC is standard on 4490kg GVM Dual-rear-wheel Jumbo Van model. \*Front side airbags must be specified with optional Professional Pack and single passenger seat. \*Except Jumbo Vans.

**Weathershields.** Provide improved visibility by reducing window fogging and deflecting wind and rain.

**Partition.** Designed to maximise cabin and load space, the partition helps protect the driver from objects in the cargo area in the event of sudden braking.

**Rear ladder.** Attaches to the rear cargo door and allows easy access to the roof rack (overseas model shown).

## Personalise your Transit to suit your needs.

Having the right equipment for the job is all important. That's why Ford Vehicle Personalisation allows you to customise your van with accessories tailored to suit your business needs. To help make the most of Transit, consider handy items such as a rear ladder or an extra rear step for easy access in and out of the vehicle.

## Making your ownership experience even more rewarding.

### A great vehicle is just the beginning.

After you've bought your Transit, we support you with a wide range of services that aim to make you one of the most satisfied vehicle owners in Australia. Speak to your Ford Dealer today about how to make the most out of your vehicle ownership experience.

#### Vancare Roadside Assistance.

Our commitment to your complete satisfaction plays a major role in everything we do. That is why we provide Ford Vancare Roadside Assistance for all Ford Transit Vans, Cab Chassis and Buses. Wherever and whenever you need emergency roadside assistance, help is available 24 hours a day, 365 days a year. If your vehicle breaks down and cannot be repaired, we will organise to transport your vehicle to the

nearest Ford Dealer or approved service centre for repair. Ford Vancare Roadside Assistance is valid for 1 year from the vehicle's first registration.

### 3 year/100,000km new car warranty!

For three years or 100,000km, whichever comes first, your Ford is covered against any defects in factory materials or workmanship. This also applies to Genuine Ford Accessories you may have had fitted before you took delivery.

#### 5 year warranty against perforation corrosion.\*

It's reassuring to know that the original body of your gleaming new Ford is guaranteed against perforation corrosion for the first five years of its life. If perforation corrosion occurs, we'll fix it for free.

### myFord Warranties & Insurance.

When you first turn the key of your brand new Transit you want to do so without a care in the world. Our range of myFord products gives you that extra peace of mind. For more information about myFord Warranties, Insurance and Roadside Assistance visit your participating Ford Dealer for further details on the plans that best suit your needs. Terms, conditions and eligibility criteria apply.

#### Want to contact us?
