

Jeep
Patriot

Say hello to living the Jeep® life.

It is an impressive vehicle with capabilities that extend well beyond it's frame. This is the Jeep Patriot and like any Jeep vehicle, it takes it's rugged prowess as seriously as its ability to tackle the inner city streets. Equipped with brilliant standard features, Patriot delivers a rare blend of what is expected from a legendary Jeep vehicle with efficiencies that will suprise you. Welcome to Jeep Patriot.

AIMED TO PLEASE. Patriot's interior features soft-touch surfaces and smartly designed and fitted vents, knobs and dials that control a plethora of convenient features. Adjust the temperature control dials to keep the cabin consistently comfortable. Patriot Limited's standard six-way power-adjustable and reclining driver's seat puts you in a very comfortable position and the optional 458-watt nine-speaker Boston Acoustics® audio system is the envy of every ear.

Jeep® Patriot. Proven off-road adventurer.

With Patriot, fun and freedom are efficiently appealing.

When it comes to capability in a compact package, Jeep® Patriot is unmatched. Standard Electronic Stability Control (ESC)⁽¹⁾ includes All-speed Traction Control (ASTC) and Electronic Roll Mitigation (ERM). These life-saving computer-controlled systems work in seamless harmony to allow Patriot's driveline to react instantly to ever-changing conditions and help ensure that control is maintained in the most challenging circumstances.

Go the extra distance thanks to the Jeep Freedom Drive™ active full-time 4WD system with LOCK mode. When the system's 4WD LOCK handle is engaged, torque is sent equally to the front and rear axles for improved low-speed traction and control. And to help you reach your peak destinations, Patriot's standard Hill Start Assist employs automatic braking to help get you safely up each mountain or over rolling city streets. The available Constantly Variable Transmission (CVT) with Auto Stick features an infinitely variable number of gear ratios that transmit a constant stream of quiet power for both optimum fuel economy and highway-passing muscle when needed. The Auto Stick manual shift mode allows the driver to maximise engine braking, control upshifts and downshifts, and add to overall driving performance.

(1) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt.

TAMED TERRAIN. Patriot is built to help you maintain traction and control on the toughest terrain and keep you moving on the steep slopes and slippery conditions.

HANDLE IT. Patriot's four-wheel independent touring-tuned suspension improves on-road handling and cornering and helps to provide a smooth and even ride.

GROUND CLEARANCE. Go forth boldly, knowing you've got a full 205 mm between you and ground beneath.

Jeep® Patriot Sport.

SPORT. Adventure enthusiasts get their best game on with Sport's cache of standard equipment, including Electronic Stability Control (ESC)⁽¹⁾ with Electronic Roll Mitigation (ERM), a four-wheel anti-lock brake system (ABS) and All-speed Traction Control (ASTC). In the unlikely event of an accident, Patriot's standard advanced crumple zones, dual front and side-curtain air bags and other safety systems will help keep you safe and secure.

Sport provides a standard five-speed manual transmission for smooth shifting and ultimate control. Alternatively, you can opt for the Constantly Variable Transmission (CVT) with Auto Stick manual shift mode and control the system's upshift and downshift to expertly cover challenging urban conditions.

Inside the cabin, you can take your toys with you by lowering the 60/40 split-folding reclining rear seats to open up a roomy 1,357-litres of cargo volume.

Patriot Sport shown in Blackberry Pearl
(Front fog lamps packaged in Comfort & Convenience Group)

PATRIOT SPORT: BEGIN LIVING THE JEEP LIFE.

Sport's standard features include Electronic Stability Control (ESC)⁽¹⁾, Electronic Roll Mitigation (ERM), Brake Assist, All-speed Traction Control (ASTC), anti-lock brake system (ABS), advanced multi-stage driver and front-passenger air bags⁽²⁾, supplemental side curtain air bags⁽²⁾, Sentry Key[®] anti-theft engine immobiliser, Freedom Drive II[®] active full-time 4WD system, Hill Start Assist (HSA)⁽³⁾, Uconnect™ Media Center 135 CD/DVD/MP3 radio with audio jack, black side roof rails, power-heated manual folding mirrors and 12-volt accessory power outlet.

(1) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. (2) Always sit properly in the seat with the seat belt fastened. Children 12 and under should always be in a backseat correctly using an infant or child restraint system, or with the seat belt positioned correctly for the child's age and weight. (3) Packaged with manual transmission, standard with CVT transmission.

Jeep® Patriot Limited.

LIMITED. It's touched by impressive details and creature comforts inside and out. Step inside Limited and immerse yourself in a luxurious leather-trimmed interior. You'll find chrome highlights throughout and standard illuminated cup holders, situated in the full-length centre console, giving off a pleasant glow during night-time driving.

From Limited's convenient keyless entry to it's new Jeep brand three-spoke leather-wrapped steering wheel with audio and cruise controls and optional power sunroof, you'll see the world from a comfortably open position.

Take it to the next level in Jeep Patriot Limited.

PATRIOT LIMITED: LUXURY IN A COMPACT PACKAGE.

Limited's standard features include driver manual adjustable lumbar, Electronic Vehicle Information Center (EVIC), bright side roof rails and exterior accents, premium leather-trimmed seats with heating, Media Center Centre 430 CD/DVD/HDD radio with audio jack, 458-watt nine speaker Boston Acoustics® audio system, liftgate speakers, front and rear fog lamps, leather-wrapped steering wheel with cruise and audio controls and deep tinted glass. Optional features include power sunroof and Uconnect™ Media Centre 731N CD/DVD/HDD/NAV radio.

WARMTH AT WILL. It's said that those who've experienced the nearly instantaneous cosy warmth of heated seats deem them a must-have feature. Fitting the bill are the standard heated front seats for both the driver and front passenger on Limited. The feature offers High and Low heat options so you can customise your comfort level to meet whatever chill factor the day brings.

Patriot puts your safety first.

Head out with confidence, knowing you're outfitted with a comprehensive set of safety and security features. Patriot's emphasis on incident preventive packages, like Electronic Stability Control (ESC)⁽¹⁾ with its robust range of sensor indicators, are key to occupant protection. A strong cage structure contains a front crumple zone that absorbs energy during a front impact, as well as a high-strength crossbeam in the rear seat area that helps transfer side-impact energy from one side of the vehicle to the other.

ELECTRONIC STABILITY CONTROL (ESC).⁽¹⁾ Integrates a host of systems that includes All-speed Traction Control (ASTC), a Brake Assist system that automatically helps provide quicker braking power in emergency situations, and Electronic Roll Mitigation (ERM) steering actions that can apply strategic braking to appropriate wheels and reduce engine power when overly sharp steering actions and/or impending wheel lift are detected.

A SAFE, SECURE AIR BAG SYSTEM.⁽²⁾ Advanced multi-stage air bags provide nearly instantaneous occupant protection by matching air bag output to crash severity. Available supplemental front-seat side-mounted air bags deploy from the outboard side of each front seat to enhance protection of the driver and front passenger in certain impacts. Each side air bag has its own sensor to autonomously trigger the air bag on the side where the impact occurs.

HILL START ASSIST (HSA). Standard on manual transmission models, Hill Start Assist helps stop that annoying "roll-back" when you tackle uphill climbs.

SENTRY KEY.⁽³⁾ A unique embedded key code matched only to your vehicle helps keep your Patriot safely where it belongs.

(1) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. (2) Always sit properly in the seat with the seat belt fastened. Always observe the passenger air bag indicator lamp to determine if the Occupant Classification System (OCS) is appropriate. Children 12 and under should always be in the backseat correctly using an infant or child restraint system or the seat belt positioned correctly for the child's age and weight.

Uconnect™ - Stay connected to the people, music and devices that matter most.

PHONE. Uconnect Phone⁽¹⁾ is an in-vehicle, voice-activated communication system that allows you to pair up to 7 Bluetooth compatible phones and then talk virtually hands-free. The system is clever enough to synchronise with your phone's address book with up to 1,000 entries.

VOICE COMMAND.⁽²⁾ It simplifies driving by letting you keep your eyes on the road and your hands on the wheel. Vocally select radio stations and record memos. This smart system technology can also be trained to better recognise your voice and can understand commands in Dutch, English, French, Italian, and Spanish.

ENTERTAINMENT. Manage all of your media with six ways to access audio, including an integrated 30 GB hard drive built into the radio, iPod control, Voice Command and Bluetooth streaming audio, which allows you to play digital audio files.

NAVIGATION.⁽³⁾ Enjoy safe travels with the available GPS Navigation, providing voice guidance and visual display. It can also locate nearby petrol stations, restaurants, shopping, hospitals or points of local interest.

(1) Must use Bluetooth compatible phone. See your dealer for a current list of compatible phones and any limitations your phone may have. (2) Requires Uconnect Phone. (3) Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. See dealer for details.

(1) Always sit properly in the seat with the seat belt fastened. Always observe the passenger air bag indicator lamp to determine if the Occupant Classification System (OCS) is appropriate. Children 12 and under should always be in the backseat correctly using an infant or child restraint system or the seat belt positioned correctly for the child's age and weight. (2) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. (3) Requires Uconnect Phone. (4) Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. See dealer for details. (5) Must use Bluetooth® compatible phone.

Jeep®

GENUINE ACCESSORIES BY MOPAR

CHROME NUDGE BAR. Add style and practicality to your Patriot with this heavy-duty stainless steel nudge bar. Nudge bars help protect the front end of your vehicle from minor bumps and scratches.

CHROME TUBULAR SIDE STEPS. Extra-wide stepping surfaces to help prevent slipping, while offering easier entry and exit in style.

TOW BAR KIT.⁽¹⁾ This towing kit includes tow bar, tongue, tow ball and wiring harness.

UCONNECT™ MEDIA CENTRE 731N.

Provides entertainment, information, communication and navigation all through a CD/DVD/HDD/NAV radio. A 30 GB drive lets you store photos, playlists and maps, as well as rip, stash, organise and shuffle up to 4,200 music files from CDs, integrated USB port or exterior input jack.

(1) Check Owner's Manual for load capacity and heavy-duty equipment required. Do not exceed rated tow capacity of the vehicle as equipped.
