

PUNTO

SWITCH!

Wouldn't you like to turn everything boring, expensive, polluting and complicated into something fun, convenient, eco-friendly and simple? Today you can with the new Punto. **Change perspective.** Forget boredom with the brilliant engines in its range. Observe its exterior lines - a perfect balance between the characterising elements of its design and constant evolutionary progress - from a new point of view. Enjoy state-of-the-art technology that is straightforward to use. Start off: choose your trim level and don't keep fun waiting.

BOREDOM

FUN

Model shown fitted with optional black painted roof

ENGINES

Start up your Punto and switch on the fun. All the engines in the new range are designed to deliver the best in performance and efficiency with low emissions and running costs. This result is achieved by the MultiAir petrol engines, second-generation MultiJet diesel engines and, above all, the innovative TwinAir, the most eco-friendly, fun-to-drive two-cylinder petrol engine you can imagine.

Model shown fitted with optional black painted roof

AIR TECHNOLOGIES

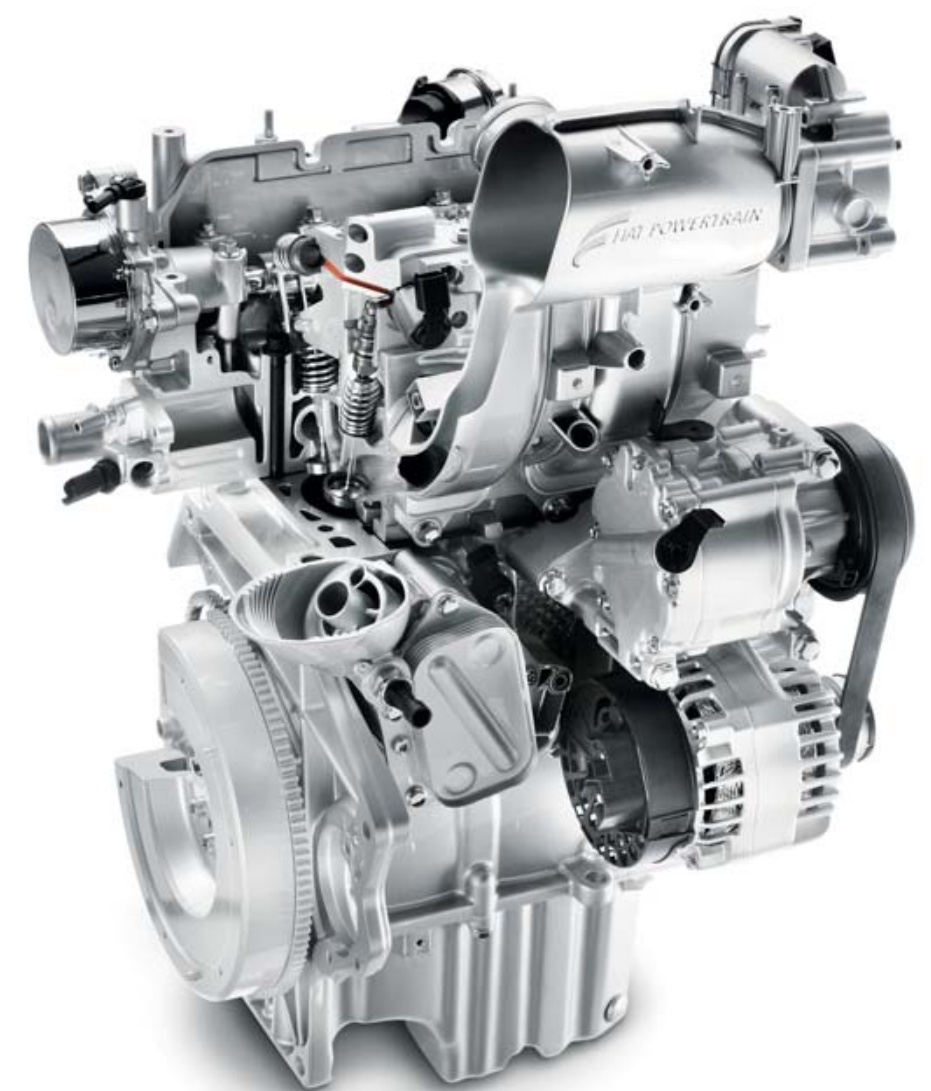

Air Technologies is not only a byword for eco-friendliness. It means more than just efficiency, and more than just saving money. Air Technologies are an array of solutions designed and developed by Fiat to improve your driving experience. TwinAir, second-generation MultiJet, MultiAir, Start&Stop, eco:Drive, Dualogic™ gearbox, Blue&Me™ TomTom LIVE: these technologies, all shaped from simple, light, transparent ideas, are available right now.

Air Technologies

twinair

Two cylinders which deliver like four: this is the magic of the engine that won the prestigious Engine of the Year 2011 award and is the very best example of the downsizing concept that is characterising so many Fiat innovations. This engine, combined with a 6 speed gearbox makes Punto more respectful of the environment (98 g/km of CO₂) yet great to drive at the same time (85 HP at 5500 rpm). With a Dual Mass Flywheel, the vibrations and noise of the TwinAir engine are minimised and running is smooth. Press the ECO button to choose from two driving styles: "normal" to enhance dynamism and liveliness and "eco" for more cost-effective running.

International Engine Of The Year
Fiat 875cc TwinAir

multi^{air}

Patented by Fiat, this innovative electro-hydraulic valve control system guarantees direct, dynamic air and combustion management. In this manner, in addition to a more responsive engine, power is boosted by 10%, low-rpm torque is improved by 15% and consumption and emissions are reduced by 10%.

multijet

Second evolution of the Common Rail system, this engine ensures better fuel injection management, with injections increased from 5 to 8 in each cycle. Even quieter than the previous version, it allows savings of up to 3% in fuel and a reduction in nitrogen oxide emissions of as much as 20%. The 85 HP MultiJet is packed with new technologies (Intelligent Alternator and Intelligent Flow) and reaches record-breaking low emissions of only 90 g/km of CO₂.

START&STOP

This innovative, efficient system stops the engine of your car when you are standing at the lights or in traffic and starts it again instantly when you set off. But it does so intelligently: the system recognises intermittent queues and automatically turns itself off. It turns itself back on after you reach a speed of 6 mph. The smart alternator automatically recharges the battery of your car when you brake to decrease engine load and fuel consumption.

 PUNTO

Model shown fitted with optional front fog lights

COMPLICATIONS

INTUITION

TECHNOLOGY

You see it everyday: technology is impressive and saves time only when it is simple, user-friendly and designed to work well. This is the principle which underpins all the infotainment solutions of the new Punto from the next-generation Blue&Me™ TomTom LIVE navigator to the eco:Drive system.

This device allows safe, centralised use of all the entertainment, information and communication systems of your car. All this without ever having to take your hands off the wheel or your eyes off the road. With a tap of the finger, or using voice commands, you can call up the telephone keypad screen, the navigator screen or the music player, all integrated via Bluetooth® connectivity and the USB interface and AUX input for flawless networking across the systems.

eco:Drive™

Your eco-friendly personal driving trainer is always at your service. The system analyses the real consumption and emissions of your car according to your driving style and provides useful tips for reducing fuel consumption and CO₂ emissions. Simply record your driving data on a flash drive plugged into the Blue&Me™ USB port and download the data to a computer. Details can be viewed either on the computer or directly on your TomTom LIVE navigator.

USB port with AUX input

Sharp, bright display in all conditions

Model shown fitted with optional alloy wheels

SAFETY

- ABS electronic braking control
- ESP electronic stability control system with ASR traction control
- HILL HOLDER for safely starting off uphill
- FOG LIGHTS with cornering function

No nasty shocks, it's all thrill in the new Punto. The utmost safety is guaranteed by a high-strength steel element body, seat belts with pretensioners and airbags (up to seven). Enjoy your trip without any worries with active safety equipment designed for perfect control of the vehicle, like ABS and ESP* which integrates with the Hill Holder* system for assisting when starting uphill, and front fog lights** with adaptive cornering function which adapt automatically and illuminate the bends as you steer.

Comfort and space for all occupants

EXCESS

NEW INTERIORS

The best design is one that combines beauty and comfort without being excessive or over-the-top. This is the guiding principle adopted for the interiors of the new Punto, capable of satisfying both your eyes and your need for comfort on all your trips. Starting from who you are, you can choose from the many trim levels, all new and appealing, each one in its own way.

POP

Simple and functional. This is the Pop version: attractive and suited for those who love practicality, with its Spicy Grey interiors and seats with red stitching on the back. Standard equipment includes four airbags, electric front windows and height-adjustable driver's seat. A car that knows how to make itself useful day after day.

EASY/GBT

The Easy and GBT versions are combination of style and technology. You can see it at a glance, with their special dashboard with Diamond embossing and their distinctive charcoal interiors. Upholstered embellishments to the seats are available in three colours (bordeaux, blue and grey). The interiors are enhanced by silver details, paintwork and a leather steering wheel and gear knob.

LOUNGE

Elegance and sportiness meet in the Lounge, with the precious new soft-touch finish of the embossed dashboard, and the refined black Castiglio fabric seats. Standard equipment is selected to respond to the needs of the most demanding motorists, a perfect combination of style and technology to give you the best: automatic dual-zone climate control, Skydome electric sunroof, 15" Sportline alloy wheels, wrap-around seats and a front arm rest.

TWINAIR

(As Easy, plus)

- Unique pattern 15" multi-spoke diamond finish alloy wheels
- Gloss black mirror covers
- Gloss black door pillars
- Unique TwinAir seats
- Dark tinted privacy glass
- Front fog lights with cornering function
- Rear bench seat

When you see an Unplugged Green Punto you can be sure of one thing: there is a TwinAir engine under the bonnet. This engine has a special trim level all to itself that stands out because of its unique colour as well as all its other details, like its special pattern gloss black 15" diamond finish alloy wheels, pillars and gloss black door mirrors as well as the TwinAir logo proudly displayed on the tailgate on the dashboard and on the headrests. TwinAir is available in the full range of colours, plus the unique Unplugged Green and can be combined with an exclusive optional gloss black roof.

CIAO FIAT
MOBILE

CIAO FIAT MOBILE is the original Fiat application for your iPhone. It's designed to always be on hand, wherever you go, and offers you all the information and services you want, quickly and simply. Launched first in Europe, this iPhone application is dedicated to all motorists, offering customers an innovative, simple and direct service. With a touch of a finger, access a wide range of services: YOUR PROFILE, FIND A DEALERSHIP, ROAD TEST, OWNER HANDBOOK, CONTACT US, NEWS AND PROMOTIONS, FIND YOUR CAR, DUE DATES, TRAFFIC AND ROADSIDE ASSISTANCE. CIAO FIAT MOBILE is completely free. Download it now from App Store. For more details, visit the website: www.ciaofiatmobile.it.

CIAO FIAT
00 800 342 800 00

CIAO FIAT is the customer support and relations service which can be contacted on the universal freephone number 00800 3428 0000. The number can be reached from major European countries and is easy to remember as it corresponds to entering "FIAT" on your telephone keypad (00800-FIAT 0000 becomes 00800-3428 0000). CIAO FIAT is ready to provide you with roadside assistance and information services; anything you need to know about our models (versions, optional extras, promotions, prices), our services, test drive bookings and FIAT dealerships, meeting any need or request linked to the car's use. The service is available from 8 am to 8 pm, Monday to Saturday for customer relations and information, and 24 hours a day, 7 days a week for roadside assistance services. Calls are free from both landlines and mobiles. In some European countries, a fee may be charged to the caller by some mobile networks depending on the tariffs applied by the particular local operator.

FIAT CUSTOMER BENEFITS When you buy a new Fiat, you buy more than just a CAR. Behind every car we sell there is the reassurance of a whole range of customer benefits and services designed to make the ownership of your Fiat as enjoyable, affordable and trouble free as possible.

2 YEAR, UNLIMITED MILEAGE MANUFACTURER WARRANTY Any repairs required as the result of faulty materials or manufacture are carried out free of charge – both for parts and labour.

3RD YEAR DEALER WARRANTY This warranty covers most electrical and mechanical components in the third year, or up to 60,000 miles from the date of registration, whichever occurs first. The warranty is provided free of charge and is subject to conditions (full details are available from your Fiat dealer).

3 YEAR PAINTWORK WARRANTY Any paintwork defects due to faulty materials or manufacturer will be rectified free of charge during the first three years.

8 YEAR ANTI PERFORATION WARRANTY Any perforation of the bodywork due to corrosion will be repaired free of all parts and labour charges during the first 8 years.

FIXED SERVICE COSTS All Fiat dealers operate a "Menu Pricing" programme, which guarantees fixed service and replacement costs, with no hidden extras. The price you see is the price you'll pay, unless you have given your consent for further work to be carried out.

FIAT FINANCIAL SERVICES*
