500^L
TREKKING

FIAT 500L TREKKING.

There are two sides to the Fiat 500L Trekking. There's the metropolitan, the city-dweller at home navigating the urban jungle. Then there's the adventurer, the traveller with an eye on the horizon. Put them together and you have a car that's always ready for a new challenge.

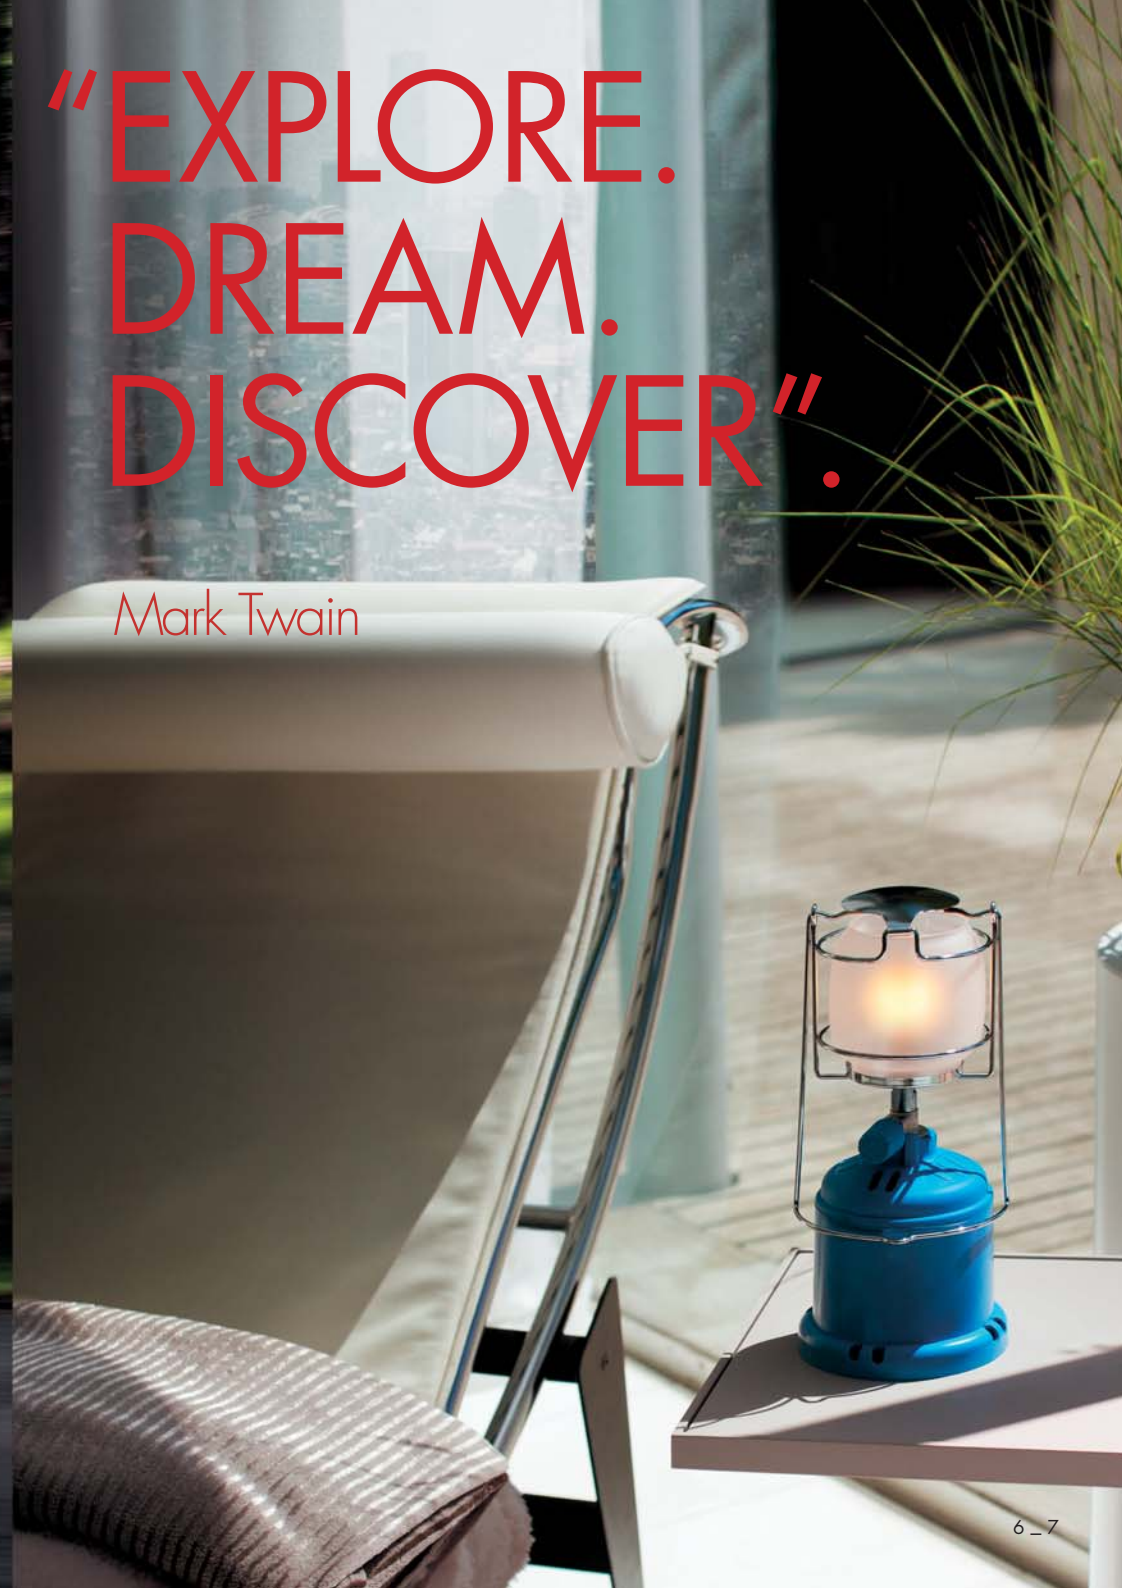

A FREE MAN
CANNOT STAY
ASLEEP.

SEE WHAT'S OUT THERE. IN STYLE.

If you're going to travel, travel well. The **Fiat 500L Trekking** has a vibrant **crossover look**, a high ride and bespoke bumpers with a protective shield fitted as standard. But the styling doesn't stop there. It's also equipped with new **17" diamond finished alloy wheels**, satin handles and brushed steel side panels.

“EXPLORE.
DREAM.
DISCOVER”.

Mark Twain

TAKE WHATEVER YOU NEED, WHEREVER YOU GO.

The adventure begins as soon as you get on board the Fiat 500L Trekking, with **3.17 m³ of cabin space**, a **400 litre boot** and a **host of technology** to keep you connected to your world.

If your life is fast-paced you'll appreciate flexibility. The **Fiat 500L Trekking** offers a host of seating configurations, like the front passenger seat with its folding table backrest, or the split rear seats which, thanks to the **fold&tumble function**, fold down onto themselves to provide a flat load platform along the entire length of the car. There are two interior combinations: **grey fabric with brown eco-leather inserts** for a more rugged feel, or **black fabric with white eco-leather inserts** for a more urban-chic vibe. Add in the Fiat 500L Trekking's wraparound glazing and glazed windscreen pillars for enhanced visibility, as well as a load of convenient storage compartments and you've got a car that can handle whatever you throw at it.

You can stay in touch with everyone in a **Fiat 500L Trekking** thanks to the onboard Uconnect system. Equipped with a 5" colour **touchscreen**, it allows you to access the radio as well as your multimedia devices, which can be connected via the **USB** and **AUX-IN** socket. Thanks to **Bluetooth®**, you can handle calls and read text messages, while the innovative Audio Streaming system means you can play music files and web radio from your smartphone wirelessly (where compatible). And of course the music system is state of the art, with a 520-watt **Beats Hi-Fi Audio System** available on request, providing a powerful, clean, studio sound.

IMAGE SHOWN IS FITTED WITH OPTIONAL EQUIPMENT

“AS WE
THINK,
SO WE LIVE”.

Demosthenes

GET READY FOR ANYTHING

Which road will you take today? With the **Fiat 500L Trekking** you can switch from city streets to more adventurous routes at the press of a button, thanks to **Traction+**. This innovative control system ensures excellent performance when tackling low-grip surfaces. And the Fiat 500L Trekking is also equipped with **M+S (Mud&Snow) all-season tyres** as standard, so you can safely handle even the most difficult conditions.

A car made for the great outdoors can't help but be eco-conscious.

The Fiat 500L Trekking is equipped with four eco-friendly and cost-effective engines, combined with 5 or 6-speed manual gearboxes, to exploit their potential to the full. There's the tried and tested **95 hp 1.4 16V petrol**, the **85 hp 1.3 MultiJet II turbodiesel**, also available with Dualogic™ 5-speed robotised automatic transmission and the powerful and decisive **105 hp 1.6 MultiJet II turbodiesel**, ensuring fun, high travel range, low running costs and long service intervals. Recently introduced to the 500L family, the **120hp 1.6 MultiJet II turbodiesel** offers high performance, while remaining eco-friendly.

Given five Euro NCAP stars, the Fiat 500L Trekking delivers maximum safety and superlative protection for both the driver and the environment. Take 'City Brake Control', as just one example. It detects the presence of obstacles in front of the car and automatically brakes to prevent collisions. **'City Brake Control' comes as standard** and can also help to **lower your insurance premium**.
