PURE DESIGN

THE *legend* IS BACK.

THE ICONIC FIAT 124 SPIDER IS BACK 50 YEARS LATER, ROARING MORE THAN EVER.

ITALIAN DESIGN AND UNMISTAKABLE ELEGANCE IN A COMBINATION OF TRADITION AND INNOVATION: A TRULY MODERN BEAUTY THAT CARRIES THE IMPRINT OF ITS GLORIOUS PAST.

LET YOURSELF BE SEDUCED BY ITS SMOOTH LINES INSPIRED BY THE GREAT CLASSIC OF 1966 AND DISCOVER THE PURE PLEASURE OF RELIVING AN UNFORGETTABLE ERA.

LINES THAT HEAD STRAIGHT TO YOUR *heart*.

PURE DESIGN

ONLY THE GREAT ICONS OF THE PAST ARE ABLE TO REINVENT THEMSELVES WITHOUT LOSING THOSE DETAILS THAT MADE THEM IMMORTAL. IT IS WITH THIS SPIRIT THAT THE NEW FIAT 124 SPIDER FULLY REINTERPRETS THE LINES OF THE 1966 MODEL IN A MODERN VEIN, WITH ITS SVELTE SILHOUETTE, PERFECT PROPORTIONS, LOW CENTER OF GRAVITY, PASSENGER COMPARTMENT MOVED BACK AND LONG BONNET TRUE OF AN AUTHENTIC SPORTS CAR. PERFECT DOWN TO THE FINEST DETAIL, SLEEK AND SEDUCTIVE, ABLE TO MAKE YOU FALL IN LOVE WITH IT. NOT ONLY WITH EVERY BEND IN THE ROAD, BUT ALSO AT EVERY GLANCE.

PURE DESIGN

The 1966 wild one is back with a vengeance: classic bodywork and perfect proportions. Even the hexagonal-shaped front grille is inspired by the air intake of the historic model. A horizontal line emerges from the front wing, kicks up over the rear haunch and flows toward the rear light.

Lightness, safety and rigidity: these are the three pillars with which the roadster body was created. Built with aluminium and high-resistance steels, it is designed to dynamically respond to every one of your commands.

THE MOST *captivating* ROAR SINCE 1966.

EXHILARATING PERFORMANCE

THE NEW FIAT 124 SPIDER IS DESIGNED TO OFFER YOU EXCELLENT PERFORMANCE AND A TRULY ENGAGING DRIVING EXPERIENCE.

DISCOVER ITS 1.4 MULTIAIR TURBO ENGINE, PAIRED WITH THE 6-SPEED MANUAL TRANSMISSION, THAT DELIVERS 140 HP OF POWER AND 240 NM OF TORQUE.

HANDLING, POWER AND EFFICIENCY: ALL THIS PROVIDED BY THE COMBINATION OF REAR-WHEEL DRIVE, A SPORTS SETUP AND AN ULTRALIGHT BODY.

EXHILARATING
PERFORMANCE

The pleasure of driving the new Fiat 124 Spider is endless thanks to its smooth transmission, light 6-speed gearbox and outstanding manoeuvrability of the lever. The rear-wheel drive, together with the balanced distribution of weight and the low center of gravity, makes every driving experience enthralling.

In the front, the new Fiat 124 Spider uses a refined double wishbone suspension, whereas the rear adopts a multilink architecture for

total vehicle control in a curve. The sophisticated calibration of suspension and steering, along with the high rigidity of the chassis, ensure reactive and precise steering.

The high torque, combined with the light weight of the body and the optimum weight/power ratio, offer an exceptional sensation of acceleration and swiftness of response.

EXCLUSIVE INTERIORS

YOUR *sky*, FROM A PRIVILEGED VIEWPOINT.

ONLY A ROADSTER LIKE THE NEW FIAT 124 SPIDER IS ABLE TO GIVE YOU A SENSATION OF TRUE FREEDOM. THE PRIVILEGE OF DRIVING IT FINDS ITS NICHE IN THE CAR'S INTERIOR FEATURING MATERIALS OF THE FINEST QUALITY AND WELL-STUDIED DETAILS: OPTIMUM DRIVING POSITION, LEATHER STEERING WHEEL AND GEAR KNOB, SOFT TOUCH MATERIALS AND SPORT SEATS DESIGNED TO OFFER YOU MAXIMUM COMFORT AND LATERAL SUPPORT.

The exclusive design of the dashboard, with a glossy black or silver accent further enhances the interior of the car. The optimum driver's position is guaranteed by the vertical steering wheel and floor hinged accelerator pedal. The rev counter placed in the centre of the instrument cluster and the position of the gear knob with short lever are designed to enhance sports driving and benefit the car's handling.
