

595

**PLAY WITH
STYLE...**

Abarth 595 range.

Developed with both performance and style in mind, the Abarth 595 range is a real head-turner. The irresistible look is complimented by the new Asphalt Grey and Adrenaline Green exterior colour. Leather seats, carbon fibre mirror covers and dam inserts gives an extra touch of elegance while the Urban Pack allows you to keep focused on the road, with rear parking, rain and dusk sensor.*

** Available on vehicles ordered from November*

**...PLAY WITH
PERFORMANCE**

Inspired by our heritage the the Adrenaline Green available on the 595 Competizione, all fired up and ready to go with 180 hp of power. The New Active Record Monza exhaust lets you bring out the true voice of your Abarth 595.

**WARNING:
YOU WILL GET NOTICED. A LOT.**

URBAN PACK*

-  REAR PARKING SENSORS
-  RAIN SENSORS
-  DUSK SENSORS

Elegance and comfort on board.

Have a look inside the new Abarth 595: high-quality materials, leather seats, satin chrome details and for the first time, Urban Pack comes standard on the 595 Turismo with the rear parking, rain and dusk sensor.

** Standard on 595 Turismo.
Optionals on 595,
595 Competizione and
595 Trofeo.*

THE NEXT LEVEL OF FUN.

Abarth corsa seats by Sabelt with carbon shell (Optional)

New Active Record Monza exhaust

Empowering your ride with Abarth 595 Competizione's racing features.

Get the true racing feeling inside your Abarth 595 Competizione with Abarth corsa seats by Sabelt, with carbon shell, and the New Active Record Monza exhaust.

By activating the Sport Button you can switch the exhaust from a gentle sporty chorus to full blown racing growl, producing a clearer and more intense sound.

Either way undoubtedly Abarth.

Active Sport button to boost the roar of your Abarth 595

CONNECTING PERFORMANCE.

The specification (B) indicates the value of CO₂ and fuel consumption determined on the basis of the measurement / correlation method referring to the NEDC cycle as per Regulation (EU) 2017/1152-1153. The CO₂ and fuel consumption values obtained according to applicable regulation are indicated in order to allow the comparison of vehicle data. The homologation values of CO₂ and fuel consumption may not reflect the actual values of CO₂ and fuel consumption, which depend on many factors related, by way of example but not limitation, to the driving style, the route, the weather and road conditions, the condition, use and equipment of the vehicle.

The indicated value of CO₂ and fuel consumption refers to the versions of the vehicle with the highest and the lowest values. Those values may change with the subsequent configuration depending on equipment selected and/or size of tires selected. The indicated values of CO₂ and fuel consumption are not definitive and may evolve as a result of changes in the production cycle; more up-to-date values will be available at the selected official dealer of the FCA network. In any case, the official values of CO₂ and fuel consumption of the vehicle purchased by the customer will be provided with the documents accompanying the vehicle. In cases where the values of CO₂ and fuel consumption are relevant for the purposes of calculating taxes and duties related to the vehicle, reference should be made to the applicable laws in each country.
