

The 2023 **Tiguan**

The 2023 Tiguan

A suburban legend

Stylish. Versatile. Fun-to-drive. Comfortable. Family-friendly? Make no mistake about it. The 2023 Tiguan is our most adaptable SUVV yet, designed to tackle whatever family life throws your way, and look good doing it.

Whether for long drives or spins around the block, the Tiguan makes driving with your family a breeze. The standard **4MOTION® All-Wheel Drive** lets you stick to the game plan come rain or shine or snow, and feel confident in all conditions. The standard **Digital Cockpit** with 8" digital display serves up driving info like travel time and route guidance at a glance. Upgrade to the available 10.25" Digital Cockpit Pro for even more personalized options. This tech is a road trip's best friend.

Speaking of tech, it spans far beyond the Tiguan driver seat. With the available **Car-Net®** app¹, you can stay connected to your Tiguan in over 20 ways. Check your vehicle status, unlock/lock and remote start your Tiguan, find where you last parked, and more – all from your smartphone. From anywhere.

¹ Requires compatible mobile device running iOS 12, Android 8, or higher, with cellular service. Access to the desktop web portal requires a compatible internet browser. Microsoft Internet Explorer is not supported.
² Driver assistance feature. Drivers must continue to perform manual checks and pay full attention to the road and safe driving at all times. See owner's manual for important information and feature limitations.

Smart design and smarter tech

Style and comfort come together in the Tiguan. The available **Panoramic Sunroof** nearly stretches the entire roof for an impressive view, the 40/20/40 split folding second row lets you store long items like skis and hockey sticks down the middle, and the optional third row ups your seating to 7. Plus, the bold, available **R-Line Styling** in two distinct options of interior and exterior enhancements makes your Tiguan the envy of your neighbours' driveway.

Above all, your family's safety comes first in the Tiguan thanks to a full suite of active, peace-of-mind-inspired safety features. Like standard **Side Assist (Blind Spot Monitor)** with **Rear Traffic Alert**² and **Front Assist with Autonomous Emergency Braking**² which acts as an extra set of eyes, and a quicker set of brakes to help prevent accidents before they happen.

Get ready to make family life look way too easy in this versatile, compact SUVV.

Cost of maintenance

The Tiguan is built to go the distance. With a longer than-average warranty and world-class German engineering, owning and maintaining one is a lot more affordable than you think. In fact, it's among the most cost-effective vehicles to maintain in its entire segment.¹ Use the convenient third party [Vincentric cost of maintenance tool](#) at [vw.ca](#) to see for yourself.

¹Based on a comparison to other 2023 vehicles available at the time of publication.

²Up to 26% savings compared to the cost of paying for maintenance, on a per service basis. Potential savings percentage determined using the average savings amount of all model/year plans vs. the retail cost of individual services in 2022. See dealer for details.
