THE ULTIMATE PERSONAL COUPE

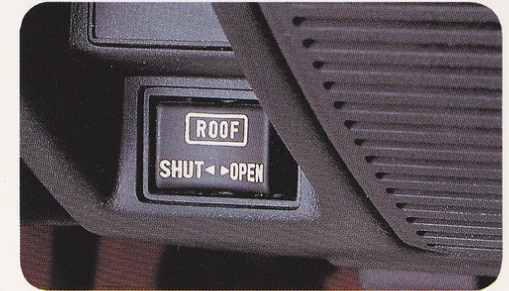

Honda Prelude is a very personal motor car. Drive Prelude and you will discover its many unique qualities. In Prelude you can enjoy the pleasures of open-air touring with the practical advantages of a sedan. The electrically operated sun roof with its tinted glass is controlled by the touch of a button but, if things get too hot,

close the roof, adjust the sun-shield and switch on Prelude's Honda-designed air-conditioning.* For superb fuel efficiency on the highway, there's the standard five speed gearbox or optional Hondamatic transmission featuring an extra overdrive ratio.

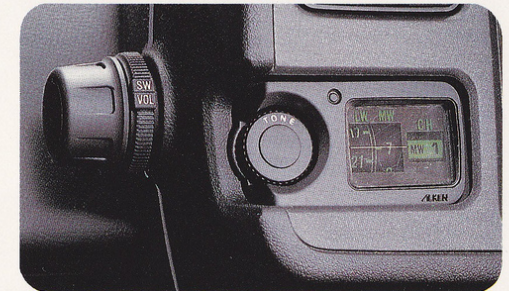

*Standard - SQ type only.

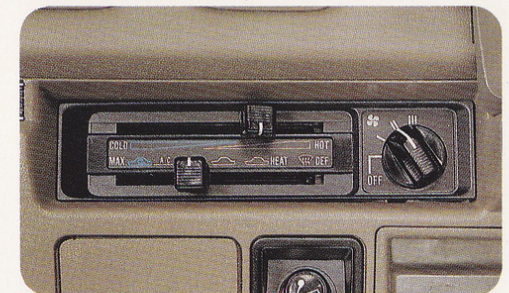

5 speed transmission is standard

Fingertip sun-roof operation

The unique radio - Stereo FM of course

Airconditioning is standard on SQ type

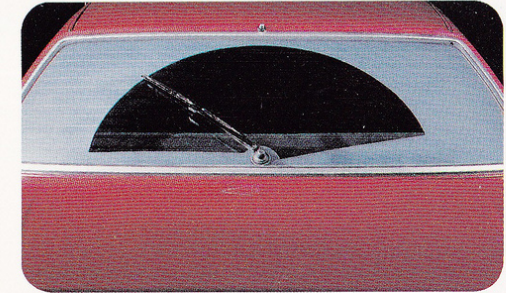

LUXURY WITH SAFETY AND STYLE

In keeping with Prelude's total design concept, the interior is complete in every detail. From the thick, one piece, fitted carpet and the rally-style bucket seats to the unique, rotary-dial, AM/FM stereo radio, Prelude's attention to comfort and luxury is instantly apparent. Great emphasis has been placed on driver and passenger safety in the design and development of the Honda Prelude.

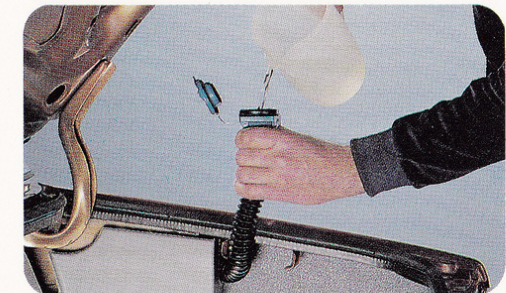

A laminated, band-tinted windscreen, heated rear-window and rear wiper/washer is standard and the high efficiency heating/cooling system even demists the side windows. Honda Prelude's head-turning style leaves nothing to be desired. Drive Prelude - You'll find it the ultimate motoring experience.

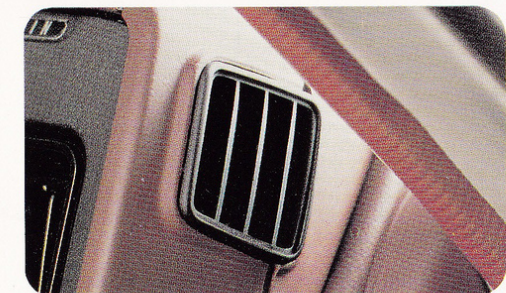

Rear/wiper washers

Rear washer reservoir filler

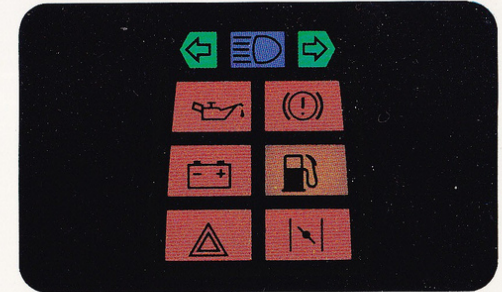

Side window demisting

80s EFFICIENCY PLUS PERFORMANCE

Energy crises and fuel shortfalls no longer mean you have to sacrifice performance because Prelude's amazing 1.6 litre engine delivers all the power you'll want with superb economy. Prelude returned a mighty 6.2 litres per 100km (45.7 mpg) in the 1980 Total Oil Economy Run, earning the title of "Best consumption by a 4 or 6 cylinder petrol vehicle."

Naturally, your driving style and the conditions of operation will affect the figures you record, but Prelude is undoubtedly a most efficient and economical motor car. Honda Prelude's handling is nothing short of excellent – Sporty, responsive and precise.
