FUNCTION & ECONOMY

Honda Accord is proof that a car can provide luxury and style at a realistic price without loss of function or economy. Economy not only means that your tankful of petrol will take you a great deal further than in many similar size cars, it also means that Accord is designed to cost you less over a long, long period. Accord's five speed gear box or optional Hondamatic with overdrive contributes greatly to highway cruising economy

as well as engine life. Inside Accord, instruments and controls fall readily to hand, making safe, efficient driving a practical certainty. The service interval reminder panel, comprehensive array of warning lights, tailgate release from the driver's seat and the many other thoughtful driving aids make motoring a real pleasure.

Standard 5 speed transmission

Accord tells you when it needs service

Hondamatic ratio indicator

Quartz halogen headlights

LUXURY & STYLE

The first thing that you notice about Honda Accord is its aura of elegance. The smooth, clean styling displays a distinct image of quality.

Inside, the theme is continued as you slide easily behind the steering wheel. The deep, contoured luxury of the seats, fitted carpet and full instrumentation tell you that this is a true driver's car.

Standard appointments in Accord include illuminated

ashtrays for the passengers, a dashboard coin-tray and in the Saloon, there's even a cassette tape-player, a magazine rack and a rear passenger armrest. Drive Honda Accord on the highway and you'll find it whisper quiet, with you and your passengers riding in supreme comfort.

Accord luxury, Accord style - Honda excellence

Inside the Hatchback - Space with luxury

Hatchback - Sports style, wagon function

Accord Saloon - Elegance par excellence

PERFORMANCE & SAFETY

Honda's unquestioned leadership in automotive technology has produced in Accord an engine that out-performs many others of similar and even larger capacity. When you match this engine performance with Accord's independent suspension, rack and pinion steering, power-assisted disc brakes, steel belt radial tyres and quartz halogen headlamps, it's clear that in overall performance and

safety Honda Accord is a leader. But safety considerations do not stop there: Warning light systems cover such items as a malfunction in the brake hydraulics, low fuel level, stop-light failure and incomplete closure of all doors. Honda Accord is a superbly matched package of performance with safety.

AIRCONDITION YOUR ACCORD

Developed by Nippondenso in co-operation with Honda engineers, airconditioning is a superb safety and comfort option for your Accord. Fully integrated and highly efficient, even in Australia's mid-summer. Accord airconditioning is designed for maximum output, minimum service and power drain.

ACCESSORIES & OPTIONS

There is a large range of factory approved options available for your Accord. They provide you with extra comfort, convenience and safety. Ask your dealer about roof consoles, stereo tape players and many more.

COLOURS

Select your Accord from the range of colours available. Due to shipping and freight uncertainties, both colour and model availabilities may vary from time to time. Check with your Dealer for current information.

NOTE

Some illustrations used in this brochure may not conform exactly to Australian specifications and colour availabilities. If you are in doubt, please check with your Authorised Honda Automobile Dealer.
