Saloon

# ACCORD Saloon

In this brochure we proudly present new Honda Accord Saloon – the latest in a line of truly superb vehicles that have set new standards of luxury, design, performance, style and finish.

Even a quick glance at the smooth, flowing lines will tell you that this Accord Saloon is truly new and yet, it still retains that distinctive tradition

of excellence that has become a mark of the Honda automobile, a tradition that identifies the basic function of the modern car but then refines it to the point where each model takes on its own distinctive personality.

Perhaps the most significant example of this refinement process will only be revealed when you drive Accord Saloon because now, it's powered by a totally new 1.8 litre, 12 valve, cross-flow engine that offers more performance potential than ever before.

Coupled to a five-speed manual gearbox or the optional, new four speed fully automatic with a special lock-up torque-converter.

As Honda owners have come to know well, owning an Accord Saloon

can be an experience of discovery as much as an experience in driving pleasure.

As has often been said, the car offers very few options because most features are built-in as integral parts of the car from the very beginning.

Features like central locking, electric windows, speed-responsive power-steering and tinted window

glass are but few of the many, many exciting, innovative and useful features you'll discover and use with pleasure in your Accord Saloon.

## New 4AT Automatic Transmission

It's fully automatic and it's four-speed – fourth being an overdrive ratio – and it's one of the lightest and most compact systems available – A triumph for Honda engineering design.

The new system also features

a lock-up torque converter system which eliminates slippage in the torque converter when the vehicle is operating in fourth ratio at highway cruising speeds.

This increases the efficiency of the transmission and improves fuel economy.

## Power Steering

Honda's advanced system again ensures that you get the best of both worlds – maximum assistance at low and parking speeds, decreasing

gradually to the point where, on the highway, assistance is minimal and road feel is maximised.

Optional Honda alloy wheels fitted to this model.

## Power Windows

All windows can be opened or closed at the touch of a switch – individually, or from the master panel located on the driver's door.

## Music While You Drive

Accord Saloon is fitted with an exceptionally high quality 4-speaker AM/FM stereo cassette music system with the added benefit of an electrically operated antenna.

## New Front Seat Belt Comfort And Safety

So often, the top anchor point on driver and front passenger seat belts can be less than perfectly positioned for your own driving position and style. In Accord Saloon, that problem is a thing of the past because both belts have an adjustable top anchor point that moves in 20mm increments over a distance of 60mm. Now, virtually everyone can find exactly the right setting for comfort and safety.

## Airconditioning

The most desirable option available for your Accord Saloon will almost certainly be Honda's fully integrated, all-year-round airconditioning system which

allows you to control the temperature inside the cabin to your exact needs in all seasons.

Accord Saloon is undoubtedly one of the finest four-cylinder luxury cars ever built, offering levels of performance, comfort, appointment and style matched by few at any price but, above that, it offers something else to be found in almost no other car today – the opportunity to experience genuine pride of ownership and true driving pleasure.
