

## Sports performance

### The all new Audi A3

The design of the all new Audi A3 portrays an immediate sense of sportiness and emotion. The clear-glass headlamps, high shoulder line, short overhangs front and rear and a silhouette reminiscent of a classic sports coupe clearly emphasise the dynamism of the stunning all new Audi A3. The interior design concept, in perfect harmony with the exterior, offers increased comfort, luxury and style.

With the all new A3, Audi showcases a new range of advanced engines. The introduction of the new 2.0-litre FSI (Fuel Stratified Injection) petrol, and 2.0-litre TDI (Turbocharged Direct Injection) diesel engine, both incorporate direct fuel injection technology creating sporty performance with minimal fuel consumption. The further refined 1.6-litre petrol engine offers improved dynamism, whilst the 184 kW 3.2-litre V6 offers pure sports performance. Perfectly matching these dynamic engines is a new generation of transmission technology. Thanks to the new six-speed manual, six-speed tiptronic and six-speed DSG® (Direct Shift Gearbox) transmissions, the all new Audi A3 offers sports-style performance with unmatched levels of refinement and economy.

The Audi A3 also introduces a new level of chassis technology. With the introduction of electromechanical speed-sensitive steering, in combination with an independent four-link rear suspension and aluminium front suspension technology, the all new Audi A3 offers precise steering with a perfectly-balanced dynamic yet comfortable ride. With Audi's famous quattro® all-wheel drive technology, the new Audi A3 offers surefooted sports performance.

The all new A3 boasts a myriad of safety features including driver and front passenger frontal and side airbags, SIDEGUARD head airbag curtain for front and rear passengers and active front head restraints for the driver and front passenger. Standard active safety features also include Audi's Electronic Stabilisation Program (ESP), incorporating Anti-lock Braking System (ABS), Electronic Differential Lock (EDL), Anti-Slip Regulation (ASR) and Brake Assist.
