

## Technology meets design

### The new Audi A3 3-door

From first glance, the new Audi A3 3-door portrays a sense of sportiness and emotion. Audi's dynamic single frame grille, combined with the clear-glass headlights and distinct V-line on the bonnet give the A3 a very contemporary face. The high shoulder line, short overhangs at the front and rear and a silhouette reminiscent of a classic sports coupe clearly emphasise the dynamism and forward urge of the stunning new Audi A3 3-door. The interior design concept emerges as the perfect partner to the sporty exterior yet also offers increased comfort, luxury and style.

As always with Audi, our engineers have ensured that this model is at the head of the field with the latest technology. A powerful 2.0-litre FSI engine incorporates direct fuel injection technology to create agile performance with minimal fuel consumption. Developed for Audi's Le Mans motorsport program, FSI® direct injection technology produces more power from every drop of fuel. The refined and efficient 1.6-litre petrol engine offers optimum driving flexibility. Two transmissions perfectly match these dynamic engines with a five-speed manual for the 1.6-litre model and a state-of-the-art six-speed tiptronic for the 2.0 FSI, the latter incorporating shift paddles on the sports multifunction steering wheel.

The latest in chassis technology is also a highlight of the new Audi A3 3-door. With electromechanical speed-sensitive steering, in combination with an independent four-link rear suspension and aluminium front suspension technology, the new Audi A3 3-door offers precise steering with a perfectly balanced, dynamic and comfortable ride.

The new A3 3-door boasts numerous safety features to ensure that its occupants are always protected. The driver and front passenger frontal and side airbags, SIDEGUARD head airbag curtain for front and rear passengers and active front head restraints for the driver and front passenger all offer the highest level of passive safety. The comprehensive list of standard active safety features includes Audi's Electronic Stabilisation Program (ESP), incorporating Anti-lock Braking System (ABS), Electronic Differential Lock (EDL), Anti-Slip Regulation (ASR) and Brake Assist.

	1.6 Attraction	2.0 FSI Ambition
<b>Technical Data</b>		
Cylinders	4	4
Capacity (cc)	1,595	1,984
Power (kW/rpm)	75/5,600	110/6,000
Torque (Nm/rpm)	148/3,800	200/3,500
Transmission	5 speed manual	6 speed tiptronic with DSP and Sport Program
Acceleration 0-100km/h (sec)	11.9	9.5
Wheels	17" alloy 5 spoke star design	17" alloy 5 arm design
Tyres	225/45	225/45
