ACCORD

The new generation Accord is the biggest, most powerful Accord ever created. A true prestige vehicle, it is designed for a sophisticated and dynamic drive. And with three different models to choose from, you can be sure to find an Accord that moves you. The Accord VTI is a sizeable yet economical vehicle, the Accord V6 delivers 177 kW of pure power, and the Accord V6 Luxury was born to indulge your every driving desire.

The multi-award winning Accord is designed to impress. At 4830 mm long and 1820 mm wide, it is a large vehicle, while its elegant silhouette credits the Accord with a quiet authority. The Accord is a high performance machine. All three Accords have an advanced VTEC engine and 5 speed automatic transmission as standard. An enhanced Grade Logic Control system monitors throttle position, vehicle speed and acceleration/deceleration

to determine when climbing power or engine braking is needed - reducing gear hunting and improving fuel economy and driveability.

The Accord interior is designed around its passengers for complete comfort and style. Sit back and relax in large ergonomic seats with additional driver lumbar support. The Accord range also comes standard with dual-zone climate control, 6 stack in-dash CD tuner, cruise control and multifunction 'wave blade' ignition key that can lower all windows at once, whilst also offering keyless entry to the doors and boot. Standard features also include map lights, power windows and mirrors, sunglasses holder, illuminated vanity mirrors, child-proof door locks and tilt and telescopic steering wheel so you can choose your ideal driving position. But which Accord is right for you? Read on to discover driving at it's finest.

THE BIGGER, MORE POWERFUL ACCORD.

Accord VTI model shown.

ACCORD VTi. A SIZEABLE ADVANTAGE.

The Accord VTi is an imposing vehicle with all the benefits of a 4 cylinder engine. It has the large Accord body, impressive standard features and a spacious interior while maintaining enviable fuel efficiency. Now that's an idea.

The refined 2.4 litre DOHC i-VTEC engine produces 118 kW of power and 218 Nm of torque. An intelligent combination of VTEC (Variable Timing and lift Electronic Control) and VTC (Variable Timing Control) technologies benefit both driver and the environment, delivering

power, low emissions and fuel economy. The VTEC and VTC react to engine load and revolutions per minute to continuously vary the phasing of the intake camshaft, delivering low-end torque and high-end power on demand. The engine is also pivoted at 180 degrees to lessen the distance to the catalytic converter which, in turn, reduces emissions. The Accord VTi delivers not only exceptional motoring, but also outstanding value for money.

The Accord V6 was engineered to go. At an exceptional 177 kW, it truly needs to be experienced to fully comprehend. The exquisitely crafted 3.0 litre SOHC V6 VTEC (Variable Timing and lift Electronic Control) engine produces a sharp 287 Nm of torque. This world class performance is further complimented by the Electronic Throttle Control System (ETCS) which enables slick gear changes through computer controlled throttle adjustment during transmission shifts. Put simply, the ETCS works by replacing mechanical throttle operations with a series of sensors that relay the accelerator pedal

position to a computer to instantly activate the throttle. This exact relationship is consistently tailored by the computer to suit varied driving conditions.

And the high-tech mechanics don't stop there. Precise cornering is ensured by the inclusion of an Electronic Traction Control System (ETCS). This computer-controlled innovation restricts wheel spin and is, literally, a life saver on low-grip road conditions. Because power is nothing without control.

ACCORD V6. A POWERFUL PROPOSITION. 

Accord V6 model shown.

ACCORD V6 LUXURY. A CUT ABOVE.

The Accord V6 Luxury redefines the very word. Every aspect of design has been considered and reconsidered to ensure a 5-star drive. Many of the standard features of the Accord are normally regarded as luxury extras, such as the woodgrain look console, power windows and mirrors, illuminated vanity mirrors, dual zone climate control and 6 stack in-dash CD tuner. However, you'll find that the Accord V6 Luxury pushes luxury to the limit with a plush leather interior*, an

8-way power driver's seat and an electric sunroof. This luxury is coupled with the 177kW of effortless power generated by the V6 VTEC (Variable Timing and lift Electronic Control) engine. Extreme power and extreme luxury, the Accord V6 Luxury is the best of both worlds.

*Leather interior includes some PVC vinyl material.
Accord V6 Luxury model shown.

Part of the Accord's sophistication is in its advanced safety features.

The Anti-lock Braking System (ABS) is complemented by Electronic Brake force Distribution (EBD) which spreads the optimum braking force equally between front and rear, depending on passenger and cargo positioning; resulting in less distance travelled after braking to avoid a collision.

The structure of the Accord, its unibody, has been made both stronger and lighter by using a high strength steel. This increases rigidity and torsional strength for improved handling and safety. Together with G-Force Control technology, the safety of the passenger compartment is strengthened in the event of a collision.

Dual stage front airbags for the driver and passenger are now flanked by side SRS airbags with an innovative Occupant Position Detection System to ensure they deploy in the most effective possible way. 3-point seatbelts are provided in front and rear, with pre-tensioner and load limiter systems for the front seats. The Accord V6 Luxury even has SRS curtain airbags.

Because at Honda we believe that there is no bigger luxury than safety.

SAFETY IS PARAMOUNT.

SERVICE THAT DOES NOT STOP AFTER SALE.

As a new Accord owner, you'll have access to personalised online services through our exclusive HondaONE website. This secure site offers you an up-to-date service history, vehicle records, maintenance tips and personalised service reminders. The people who look after you and your Honda are also constantly updating their knowledge to build on the factory training they all receive. That's why no one can service and tune your Honda Accord as well as your Honda Dealership. They also stock a comprehensive inventory of Genuine Honda Parts and Accessories, so you'll never need to accept anything less. Regular maintenance of your new Accord is of course, recommended, to ensure you can

enjoy many years of driving pleasure, and to maintain its value. Our faith in the new Accord's durability, quality and reliability is reflected in the 3 year/100,000km warranty we are proud to offer with every Honda. You also receive a 3-year paint protection warranty and a 6-year rust perforation warranty. Together, we can ensure you are as happy with your Accord in years to come as you are on the day you drive it out of the showroom.
