

MITSUBISHI
MOTORS
engineered to excite

TESTED BY THE BEST IN THE BUSINESS

At Mitsubishi our cars face the ultimate test - rally driving. The lessons learnt from driving on bone-shaking, suspension-shattering terrain give all of our cars uncompromising durability and reliability. Grandis is no exception.

Over forty years of rally championships around the world have become the testing grounds for production of Mitsubishi vehicles. Like the punishing desert terrain of the Dakar - the world's toughest off-road rally - plus the Australian and World Rally Championships, where Mitsubishi vehicles have been consistent winners.

It's Mitsubishi's commitment to constantly evolving technology that has seen our cars win some of the world's toughest rally races time and time again.

ENGINEERED TO EXCITE

The Mitsubishi Grandis multi-purpose vehicle revolutionises the form in which style, comfort and performance come together. While comfortably carrying seven passengers, Grandis breaks through traditional people-moving mentalities with levels of design perfection and refined elegance usually seen only in concept cars.

Borrowing MIVEC engine performance technologies from the rally-dominating Lancer Evolution, Grandis' 2.4 litre engine boasts power to match its sophisticated style. Complementing the stylish exterior, ergonomic interior and advanced performance, Mitsubishi includes standard safety features such as driver and front passenger SRS airbags, side and curtain airbags, cruise control and anti-lock braking systems (ABS).

With such impressive features and luxurious finishes - and with safety and comfort a priority - Grandis is the multi-purpose vehicle engineered to excite.

GRANDIS LUXURY

The optional Luxury pack takes the Mitsubishi Grandis to lavish levels of luxury and refinement, offering stylish additions to both the interior and exterior.

Further adding to the unprecedented levels of performance and safety, the Luxury pack consists of 17" alloy wheels, privacy glass on all rear passenger windows, profile-hugging integrated roof rails and a dual sunroof. Rear reversing sensors act as a preliminary warning for unseen obstacles when parking.

- 1 Privacy Glass
- 2 17" Alloy Wheels
- 3 Integrated Roof Rails
- 4 Dual Sunroof
- 5 Rear Reversing Assistance

Infotainment system with a digital display and various control buttons. The display shows "FM 103.5" and "103.5".

Three circular air vents with silver accents and illuminated dials.

Manual gear shifter with a black knob and a silver base.

D

Storage compartment with a silver handle and a small logo.

GRANDIS LUXURY

The refined elegance of Grandis' Luxury interior invites you to step inside. Designed as a secure ambient space with ergonomic control features, the interior is luxurious, functional and undoubtedly comfortable. Elevated seating positions create a commanding view from within, while further luxurious refinements include silver mesh dash panel surrounds and chrome inner door handles.

The sophisticated interior of the Luxury model further boasts black leather seating with heated front seats and a pollen filter in the automatic climate control air conditioning. A 6-speaker stereo with 6 CD changer is included for beautiful ambient sound so you are assured that transporting your family and friends will be an enjoyable experience.

- 1 Leather and Wood Grain Steering Wheel
- 2 Leather Seat Facings (Front Seats Heated)
- 3 6-Speaker AM/FM Stereo with 6 CD Changer
- 4 Illuminated Vanity Mirror

GRANDIS

Grandis has all the options and sophisticated stylish features you'd expect from a well-refined vehicle. With an impressive range of standard features, including power windows, integrated front fog lamps, engine immobiliser and electric fold control door mirrors, the Grandis is dressed to impress.

A rear roof spoiler and high mounted stop light is standard across the range, along with driver and front passenger SRS airbags, side and curtain SRS airbags, cruise control, speed-sensitive intermittent wipers and anti-lock brakes.

Moulded into the centre of the upper dash is a cleverly concealed, generous-size storage compartment while a roof-mounted sunglasses holder and illuminated lockable glovebox keep items safe and secure. Stylish dash controls drive the security coded 4-speaker CD stereo and the automatic front and rear air conditioning features individual controls for rear passengers.

With its 2.4 litre MIVEC engine as standard and INVECS II 'Smart Logic' automatic transmission with 'Sports Mode', Grandis offers all members of the family the perfect balance of exciting performance and sophisticated style.

- 1 Electric Fold Control Door Mirrors
- 2 Halogen Headlamps and Fog Lamps
- 3 Cruise Control
- 4 Independent Rear Air Conditioning Controls
- 5 Roof-Mounted Sunglasses Holder

MITSUBISHI
GRANDIS

PERFORMANCE

Grandis comes equipped with a 2.4 litre MIVEC, 16-valve SOHC engine specifically designed for performance and responsiveness. A true performer, the 2.4L MIVEC engine is loaded with Mitsubishi's most innovative technologies that maximise economical performance.

Lightweight aluminium replaces traditional engine parts, not only saving on weight, but also providing greater durability and heat dispersion, better fuel consumption and increased power and torque.

With added sporty performance derived from the INVECS II 'Smart Logic' transmission, with 'Sports Mode' gearshift, the Grandis offers a quiet ride with variable valve timing that adjusts to various driving conditions. Mitsubishi could not have tailored a better package for their sporty multi-purpose people mover. Grandis is sure to add excitement to the driving experience.

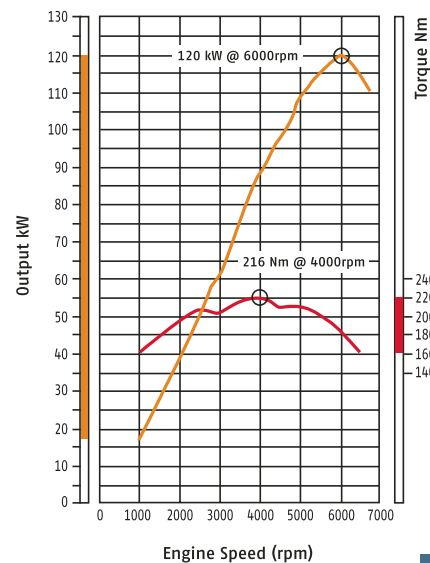

ENGINE POWER.

Mitsubishi's MIVEC (Mitsubishi Innovative Valve timing and lift Electronic Control) engine technology utilises a lightweight variable timing mechanism that perfectly matches engine performance to driving conditions. At low revs Grandis uses MIVEC technology to increase torque while maintaining traction, even on slippery roads. At high revs the engine intelligently adapts to increase the flow of air to the cylinders, thus increasing power.

This has the advantage of delivering exceptional fuel economy, low exhaust emissions, a quiet drive and superior acceleration and overtaking ability.

With 120kW power output, the MIVEC engine gives the Grandis exceptional acceleration not usually found in larger people movers.

2.4 MIVEC Performance Curves

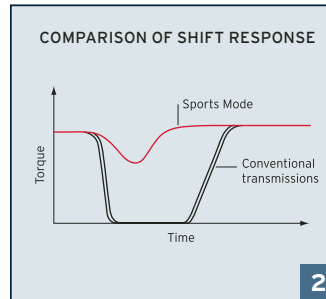

TECHNOLOGY AND TRANSMISSION

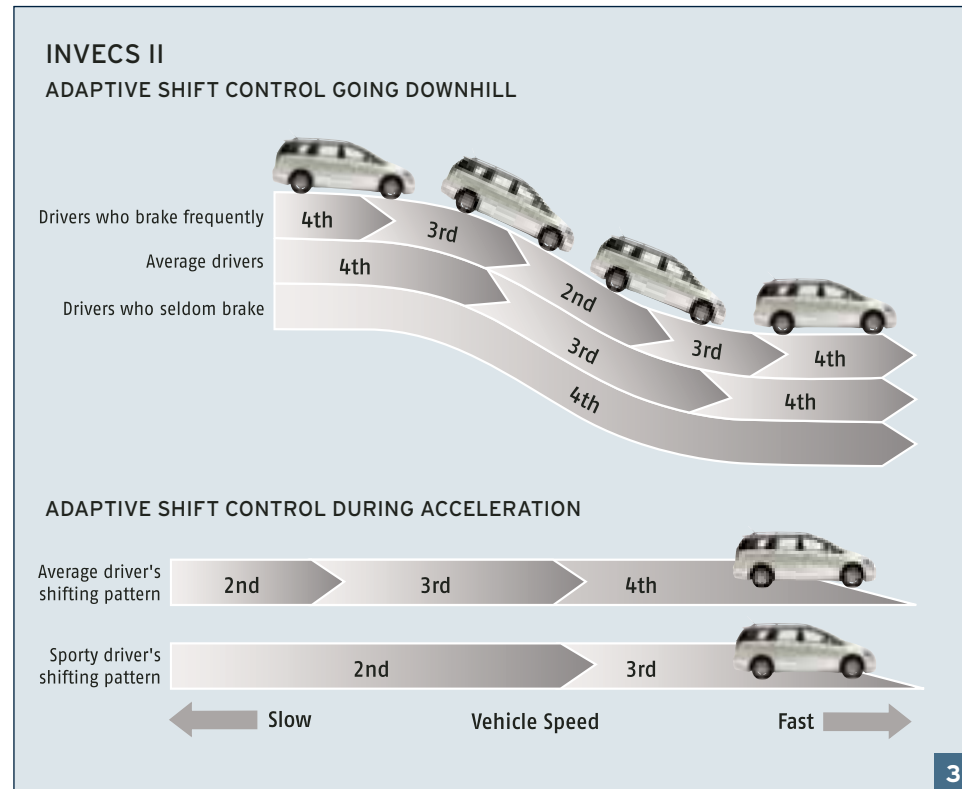

INVECS II 'SMART LOGIC' AUTOMATIC TRANSMISSION.

Grandis features Mitsubishi's acclaimed Intelligent and Innovative Vehicles Electronic Control System (INVECS II) 'Smart Logic' four-speed automatic transmission with 'Sports Mode' sequential gear shifting.

INVECS II 'Smart Logic' transmission system has an on-board computer that learns each driver's preferences by recording engine, steering and foot braking data. The control logic then adapts the gearshift timing to suit the driver's style, while minimising torque fluctuations for effortless acceleration and a more predictable ride.

2

3

'SPORTS MODE' AUTOMATIC TRANSMISSION. When 'Sports Mode' is engaged this unique transmission delivers a responsive, sporty and dynamic performance that allows for superior acceleration and overtaking.

The innovative gearshift turns your regular automatic into a responsive clutchless manual by allowing the driver to simply push the lever forward to go up a gear or pull it back to shift down a gear. Clutch-free operation improves responses by reducing the rev and torque loss associated with disengaging and engaging gears, allowing every driver to experience Grandis' advanced performance.

4

McPHERSON STRUT & MULTI-LINK SUSPENSION.

Grandis' suspension system combines McPherson struts up front with a multi-link rear to ensure maximum tyre grip, optimum handling stability and greater driving comfort.

By minimising roll during cornering and improving stability on bumpy roads, Grandis provides the perfect balance of comfort and control. The four-wheel independent layout assures quick response to the driver's commands by reducing understeer and improving cornering ability, even when road conditions deteriorate.

5

- 2 'Sports Mode' Shift Response Comparison
- 3 INVECS II
- 4 'Sports Mode' Gearshift
- 5 McPherson Strut & Multi-link Suspension

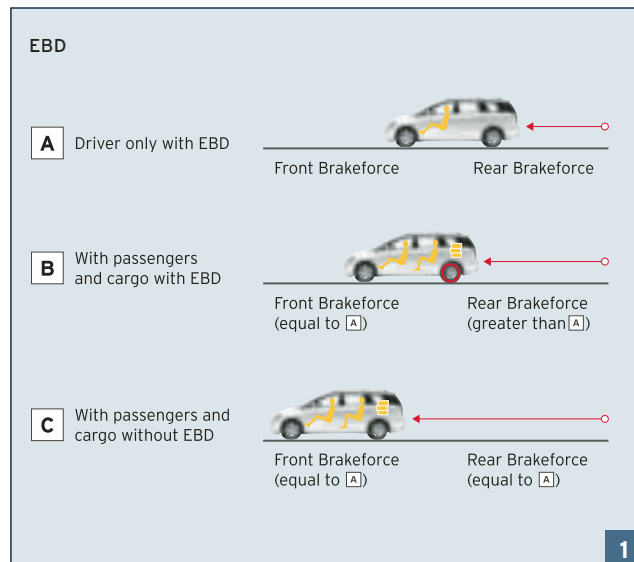

SAFETY

The excitement of driving performance is nothing without peace of mind. Grandis offers comprehensive active and passive safety features to keep you and your passengers at ease - no matter what the road ahead or weather have to offer. Grandis also features optional rear parking assistance with four sensors to warn you of obstacles when reversing. With advanced safety features, including RISE body design, ABS, EBD, six SRS airbags and ELR seatbelts, Mitsubishi makes sure you have total driver control and your passengers travel with a relaxed peace of mind.

ABS WITH EBD.

The four-sensor, four-channel, Anti-lock Braking System (ABS) delivers lock-free braking power and control. Even in emergency braking conditions on slippery roads, the driver is able to steer safely around obstacles in emergency situations.

The Electronic Brakeforce Distribution (EBD) actively monitors different wheel speeds and evenly distributes brakeforce between all four wheels for faster stopping - regardless of passenger and/or cargo loads.

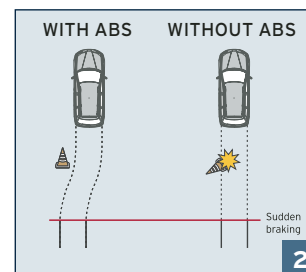

BUILT WITH SAFETY IN MIND.

Mitsubishi's Reinforced Impact Safety Evolution (RISE) monocoque body design combines an energy-absorbing front section with a strong, rigid occupant cell to provide outstanding protection in the event of an accident.

3-POINT ELR/ALR SEATBELTS.

3-point Emergency locking Retractor (ELR) seatbelts provide better head and chest protection for the driver and front passenger. Front ELR seatbelts are equipped with height-adjustable anchors, pretensioners and force limiters. Second row seats are equipped with two 3-point ELR, and Automatic Locking Retractor (ALR) seatbelts enabling baby capsules to be fitted securely.

SRS AIRBAGS.

Driver and passenger safety is enhanced by six SRS airbags. Grandis comes standard with dual-stage driver and front passenger SRS airbags, and standard side and extended curtain airbags protect both the front and second row seats in the event of a side impact. A collapsible steering column, side-impact beams and anti-intrusion brake pedals have been designed to minimise harm in the event of an accident.

- 1 Electronic Brakeforce Distribution (EBD)
- 2 Anti-lock Braking System (ABS)
- 3 RISE Monocoque Body
- 4 3-point ELR Seatbelt
- 5 Front SRS Airbags
- 6 Side and Curtain Airbags

CARGO AND PASSENGER FLEXIBILITY

The 60:40 split second row bench seat and 50:50 split third row seats offer a range of versatile seating configurations. To revive after long trips, passengers can lie back and enjoy the flat folding function or make use of the variety of cup holders. The third row seats flip entirely for spectator viewing out of the rear of the vehicle when stationary.

Whether you are carrying a carload of passengers, or bulky cargo, seating configuration can be easily manipulated to suit specific requirements - making sure any load is a comfortable load.

Superior levels of comfort are provided not only for passengers. Grandis drivers are able to experience the ultimate in comfort with a three-position adjustable driver's seat and cushion, reclining seat back and centre armrest.

There are storage compartments under the third row seats to keep tools or luggage, an illuminated lockable glovebox and unique easy-access compartments to assist in keeping sunglasses, CDs and other items out of sight.

Generous legroom, a multitude of seating and luggage configurations and ample storage compartments all add up to an unrivalled multi-purpose vehicle.
