It takes a performance car enthusiast to appreciate a car that has been developed by people who share the same passion for taking an already great car, and turning it into the ultimate driving experience.

The very fact that you're reading this brochure means you see a car as more than just a way of getting from A to B. It has to have style, it has to have performance and it has to have street cred.

The team at Renaultsport gives you all that in bucket loads.

They've taken the already exciting Mégane and introduced some of the performance enhancing DNA that Renault developed during the last century of motor sport. From the classic city-to-city races at the dawn of the automobile, through Le Mans and the Monte Carlo Rally to today's Formula 1, Renault has always been a winner.

All that winning experience is distilled and purified by Renaultsport, the specialist unit that creates the high-performance cars like the Mégane Renaultsport 225.

The result is a choice of high performance vehicles that take an uncompromising approach to performance and comfort, for the ultimate Renault driving experience.

PASSION, PERFORMANCE, PANACHE.

### MEGANE RENAULTSPORT 225 - 3 DOOR

With a turbocharged power unit putting out a whopping 225hp (165KW), you might think the Mégane Renaultsport 225 3-door would be a stripped-out competition special with very little in the way of creature comforts. But you'd be wrong.

This is a car for the driver who wants mind-blowing performance, but not at the expense of their comfort. The contoured seats gently cradle your body during fast cornering, while providing support and comfort for long distance motorway cruising. The track-honed chassis has been finely tuned to give crisp, responsive handling and plenty of feedback to the driver. The race-bred suspension is rigid enough to augment cornering ability without diminishing ride quality.

The Renaultsport 225 3-door - Enjoy your drive.

DON'T BUY ONE UNLESS YOU'RE SERIOUS ABOUT HAVING FUN.

## MEGANE RENAULTSPORT 225 – 5 DOOR

The latest evolution of the 5-door Renaultsport Mégane retains the awesome power of the 225hp (165 kW) turbo engine and shows its race-bred credentials through every corner.

The aggressive, yet sleek bodywork houses a finely tuned chassis, engineered to give crisp feedback to the driver. The Brembo brakes inspire confidence every time you need to wash off speed quickly.

For extra street cred the interior is trimmed in carbon leather. Nobody said that a performance car interior couldn't be radically stylish.

The Renaultsport 225 5-door: this is one serious driving experience, begging to be enjoyed.

POWERFUL, RESPONSIVE AND OH SO CHIC.

## RENAULT. CRÉATEUR D'AUTOMOBILES

Renault creates unique automotive concepts to match your lifestyle. Design, adaptability, driving pleasure and on-board experience... Imagination and technology combine to make your journey easier. Vehicles from the Renault range offer practical and user-friendly solutions for everyday driving situations.

Formula 1 provides Renault with a perfect testing ground for

technological innovation (a constant feature at Renault), an excellent insight into the marque's expertise, and an accurate reliability-testing lab. Constant improvements in performance are achieved through Renault's passion and through the transfer of skills between the Renault Technocentre and the F1 team. Their underlying motivation is to offer you the best technology available today.

2005 FIA FORMULA 1 DRIVERS' WORLD CHAMPION

PASSION GIVES RISE  
TO THE GREATEST VICTORIES

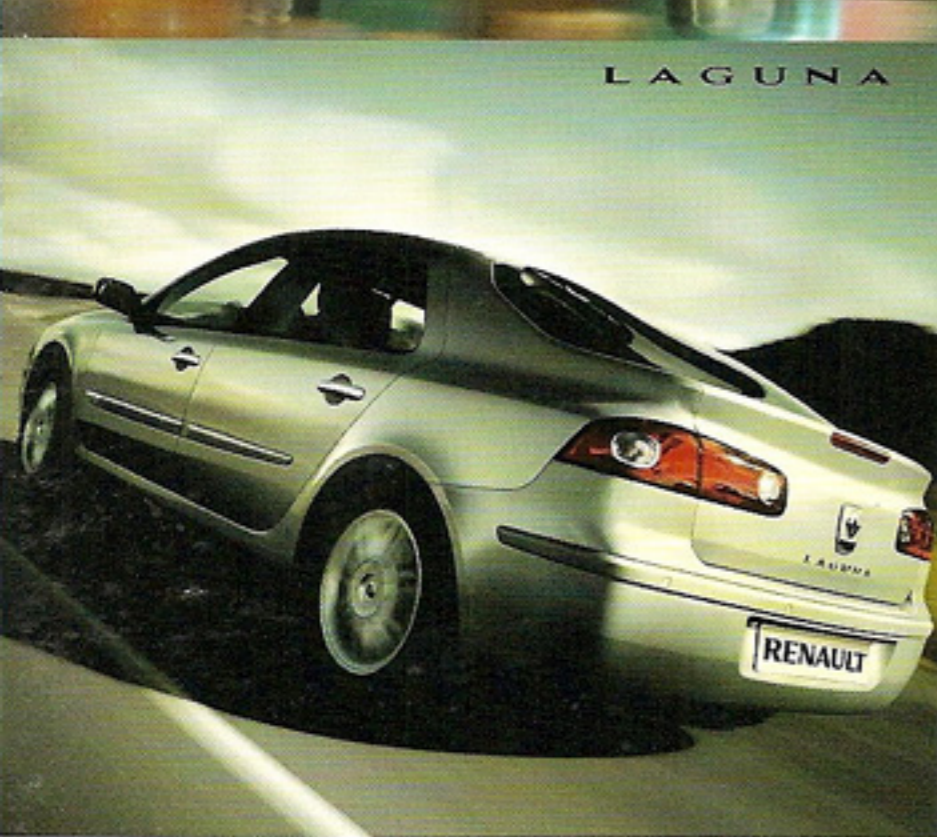

Since the win by Louis and Marcel Renault at Paris-Trouville in 1899, Renault's history and culture have been closely linked to sporting feats.

Renault's successful involvement in Formula 1 is not only for the beauty of the sport, but also in order to safeguard performance. Combined with the talents of drivers such as **Fernando Alonso, 2005 FIA Formula 1 Drivers' World Champion**, technological

innovation has enabled Renault to win six Drivers' and seven Constructors' titles to date. These successes lie in the Renault F1 Team's passion and desire to constantly achieve more.

A testing lab par excellence, today formula 1 enables Renault to design and develop the technology that will go on to benefit its road vehicles.

2005 FIA FORMULA 1 CONSTRUCTORS' WORLD CHAMPION

## RENAULT THE STANDARD IN SAFETY.

Renault's continuous work in the field of safety has reaped rewards: with eight vehicles\* awarded 5-star ratings in Euro NCAP crash tests, Renault is now the leading manufacturer in terms of occupant protection. Renault's expertise in safety is applied from the very start of the vehicle design process, and incorporates high quality systems in order to:

**Prevent** risks thanks to the driving safety features (speed limiter, rain sensors, etc.).

**Correct** driving errors to prevent accidents as far as possible with Electronic Stability Programme (ESP), Emergency Brake Assist (EBA), Anti-lock Braking System (ABS), etc.

**Protect** all of the vehicle's occupants in the event of an accident, no matter where they are seated. Protection is provided by the reinforced body structure, which can bend to absorb impacts, as well as the exclusive Renault System for Restraint and Protection, which offers adaptive airbags, and seatbelts with pretensioners and load limiters.
