

## Pushing the limits. The Audi A4 Avant

Versatile. Elegant. Dynamic. The Audi A4 Avant pushes the limits in every sense. From its versatile design to its sporty performance, the A4 Avant is the ultimate vehicle for carrying everything from luggage for your holiday to sporting equipment for the weekend. It's generous load-carrying area of 442-litres, or 1,184-litres with the rear seats folded, easily swallows all of the essential items for modern couples and families. Not only is the A4 Avant flexible and practical, but also leads the way with contemporary design.

More power from every drop of fuel. The 2.0 T FSI® Turbocharged direct fuel injection petrol engine creates a new benchmark in refinement and performance.

Developing 147 kW and an amazing 280 Nm of torque, the 2.0 T FSI® guarantees breathtaking responsiveness and driving enjoyment. Developed for Audi's Le Mans motorsport program, FSI® direct injection technology harnesses more power from every drop of fuel.

The Audi A4 Avant with the sporty 2.0 T FSI® engine also offers a dynamic and surefooted performance, thanks to Audi's famous quattro all-wheel drive performance.

The powerful 1.8-litre Turbo and all-alloy 2.0-litre petrol engines both offer a high level of performance and unmatched refinement. Working hand-in-hand with these powerful engines, Audi's ingenious multitronic® continuously variable transmission ensures seamless power and greater responsiveness.

The Audi dynamic suspension, incorporating four-link front and self-tracking trapezoidal link rear suspension, represents pioneering engineering.

The dynamics of the Audi A4 Avant have been optimised even further with a servotronic speed-sensitive steering system.

A truly safe car doesn't just minimise the effects of an accident, it minimizes the risk of an accident happening. Standard active safety features include Audi's Electronic Stabilisation Program (ESP), incorporating Anti-lock Braking System (ABS), Electronic Differential Lock (EDL), Anti-Slip Regulation (ASR), brake disc wiping system and Brake Assist. In case of an accident, standard passive safety features in the Audi A4 Avant include active front head restraints, intelligent two-stage frontal airbags, seat-mounted side airbags for front and rear passengers and SIDEGUARD head airbag curtain for front and rear passengers.

The A4 Avant pushes the limits.  
Experience it. The Audi A4 Avant
