

The Audi A6 Avant

Following your own rules

The Audi A6 Avant

The Audi A6 Avant, a unique blend of design and dynamism, driving pleasure and functionality. The classic proportions of the Avant silhouette with its coupé-like roofline have been infused with a degree of tension. From the powerfully contoured arch of the shoulder line to the sweeping motion of the dynamic line above the side sills, the entire body of the car has a forward-moving, athletic and dynamic appearance. The distinctly-domed centre of the bonnet reflects the power of the engines beneath.

The A6 Avant is available with a choice of two powerful petrol engines. The award winning 2.0 TFSI, voted Engine of the Year for two consecutive years by a panel of judges from 26 countries globally, develops 125 kW of power and 280 Nm of torque. The 2.0 TFSI is combined with Audi's ingenious multitronic® transmission, offering smooth, seamless power to deliver fast acceleration, greater response and low fuel consumption.

There is also a potent 3.2 V6 FSI engine developing 188 kW of power and 330 Nm of torque. The 3.2 FSI is combined with the six-speed tiptronic transmission offering pure sporting performance, and thanks to Audi's Dynamic Shift Program (DSP), analyses your driving style to maximize engine responsiveness and refinement. The 3.2 V6 also combines Audi's legendary quattro® permanent all-wheel drive technology, which perfectly transmits power to the road with no compromise in safety or handling. With 25% of the engine's power distributed to each wheel, Audi's quattro® technology offers maximum levels of active safety under all driving conditions.

Dynamic driving behaviour that is beyond compare is assured by virtue of the Audi dynamic chassis, based on proven sports technology. The refined four-link front suspension is acknowledged as a typically

outstanding Audi feature, as is the self-tracking trapezoidal-link rear suspension carried over from the Audi A8 and A6 sedan a combination used on both the front-wheel-drive and quattro® models.

Sportiness, clarity and driver-integrating architecture are the characteristic features of the new cockpit design. The high standard is immediately confirmed by the premium quality of the materials and finish. The Audi A6 Avant also features the logical Multi Media Interface "MMI" comprising the 7-inch colour display, with integrated radio and CD changer.

Developed in conjunction with Audi's motorsport engineers, the A6 3.2 V6 FSI Avant is available with tiptronic shift paddles integrated into the multifunction steering wheel for maximum efficiency and driver enjoyment. The 2.0 TFSI offers the comfort of the multi function leather steering wheel with operational functionality to Audi's MMI system.

The load area of the new A6 Avant radiates sophistication and innovation. Capacious storage and an ingenious securing concept, with numerous clever features, permits an unprecedented level of versatility. With the optional automatic boot lid actuation, the boot lid is able to open and close automatically, even allowing the driver to set the height limit to which it opens. A handy feature in confined spaces. The A6 Avant's class-leading 1,660 litres of luggage room is flexible and versatile, exactly suited to meet the needs of an active and elegant lifestyle.

	A6 Avant 2.0 TFSI	A6 Avant 3.2 FSI quattro®
Technical Data		
Cylinders/valves per-cylinder	4/4	6/4
Capacity (cc)	1,984	3,123
Power (kW/rpm)	125/4,300 – 6,000	188/6,500
Torque (Nm/rpm)	280/1,800 – 4,200	330/3,250
Transmission	multitronic®	6 tiptronic with DSP and sports program
Acceleration 0-100km/h (sec)	9.0	7.4
