

THE CAR THAT GIVES YOU MORE, NOW GIVES YOU...

EVEN MORE.

Leather[†] seats

Leather[†] steering wheel

Front fog lights

8-way power driver's seat

Reverse parking sensors

Metallic/Pearlescent paint

Meet the extremely rare Accord Special Edition.

When designing the latest Accord, we went to great lengths to give you more. And now, with the new Accord Special Edition, we're giving you more still. It's an Accord with all the standard trimmings, but with even more luxury, style, comfort and safety.

At its base is the spacious and comfortable Accord VTI, that has then been enhanced by a very impressive list of extras. With the addition of metallic/pearlescent paint and front fog lights, the exterior is more eye-pleasing than ever. While inside, there are plenty of extras to please your other senses too. Plush leather[†] seats, a leather[†] steering wheel and an 8-way power driver's seat make the interior especially comfy. And, to help protect your precious Accord Special Edition, reverse parking sensors are also included. This really is a very special, very rare Accord indeed.

Of course, underneath the extras is a technologically clever, beautifully engineered car. A car that sets the standard for both comfort and design. Take its superbly appointed interior, flawlessly tailored for

the well-being of its occupants in all driving conditions. Dual zone climate control comes as standard, allowing both driver and passenger to manage their own personal environment. Cabin space is plentiful, providing ample leg room for both rear and front seat passengers. While the large, sumptuous leather[†] seats are perfect to sit back and relax in. And for the driver, additional lumbar support comes as standard.

Occupant satisfaction is further enhanced with a 6 stack in-dash CD tuner, cruise control positioned on the steering wheel, and a multifunction 'wave blade' ignition key that can lower all windows at once whilst offering keyless entry to the doors and boot. And for an extra touch of class, the interior now comes in ivory with woodgrain look trim or, for a more sporty flavour, black with metal look console. To top it all off, the Accord has been designed to maximise smoothness and interior quietness. With incredibly low noise levels, the cabin cocoons its occupants in luxurious calm.

Yet despite its cosy interior, the Accord Special Edition still has a

definite edge to it. Its streamlined body and restyled rear, which includes Honda's innovative LED taillights, gives it a look that is elegant yet menacing. Combine that with its powerful engine, and the Accord Special Edition has a commanding presence on any road. Its refined 2.4 litre DOHC i-VTEC engine produces a potent 125 kW of power and 218 Nm of torque. Yet it still maintains the Accord's legendary fuel efficiency. An intelligent combination of VTEC (Variable Valve Timing and Lift Electronic Control) and VTC (Variable Timing Control) technologies benefit both driver and the environment, delivering power, low emissions and exceptional fuel economy. So it means that the Accord Special Edition is as responsible as it is responsive.

Which brings us to passenger safety. The structure of the Accord has been made both stronger and lighter by using high strength steel. When integrated with G-Force Control technology, it means that the whole body, the unibody, serves as a strong protective cage that can absorb and dissipate impact.

To assist the driver to achieve optimum braking performance, the Accord Special Edition also features Anti-lock Brakes (ABS), complemented by Electronic Brake Force Distribution. This spreads the optimum braking force equally between front and rear, depending on passenger and cargo positioning; resulting in less distance travelled under brakes.

In the unlikely event of an impact, dual stage front airbags for the driver and passenger are now flanked by side SRS airbags with an innovative Occupant Position Detection System, to ensure they deploy in the most effective possible way. 3-point seatbelts are provided in the front and rear, with pre-tensioner and load limiter systems for the front seats.

So as you can see, the luxurious new Accord Special Edition has been designed to exceed your expectations. With so much more to it, from just \$32,790*, it really is very special indeed. Moreover, as a strictly limited edition, it's also extremely rare.

To fully appreciate how much more the new Accord Special Edition has to offer, why not test drive one today?
