

The Audi A3 Sportback

A new approach to elite performance.

Ian Thorpe and the Audi A3 Sportback have much in common – each is a finely-tuned combination of form and function. The A3 Sportback is a fresh new concept: offering you the practicality of a 5-door hatchback, but with the sportiness of a classic coupe. Its striking front design, high shoulderline, and distinctive rear, embrace a unique set of dynamic and emotional characteristics.

You can choose from an exclusive range of high-performance engines. The 1.8 TFSI petrol and 2.0-litre TDI (Turbocharged Direct Injection) diesel engine both incorporate turbo-charging and direct fuel injection for improved responsiveness and economy.

The powerful 147 kW 2.0 TFSI guarantees breathtaking performance and enjoyment. The refined 1.6-litre petrol engine offers greater driving flexibility, whilst the 184 kW 3.2-litre V6 ensures unmatched dynamism. Thanks to the six-speed manual, tiptronic and S tronic dual clutch transmissions, the Audi A3 Sportback offers sports-style performance, with class - leading refinement and economy.

The Audi dynamic chassis, combined with electro-mechanical speed-sensitive steering creates a perfectly balanced, sporty yet comfortable ride. With Audi's famous quattro® all-wheel drive technology, the Audi A3 Sportback offers surefooted sports performance. The A3 Sportback boasts numerous standard safety features including driver and front passenger two-stage frontal, and side airbags, SIDEGUARD head airbag curtain for front and rear passengers. Standard active safety features also include Audi's Electronic Stabilisation Program (ESP), incorporating Anti-lock Braking System (ABS), Electronic Differential Lock (EDL), Anti-Slip Regulation (ASR) and Brake Assist.

It's a combination of refined technology and unique design that makes the Audi A3 Sportback an exhilarating car to drive – and a rewarding car to own.
