

The Audi A4

The Audi A4

– Pushing the limits

The Audi A4 redefines the concept of character and luxury in its class. Its exterior promises dynamic performance, which its engineering delivers. The A4 demonstrates its superiority at first glance. The single frame radiator grille stands for the new Audi design language. The distinctive shoulder line emphasizes its size. Influences of such show cars as the Audi Nuvolari quattro® are reflected in its elegance and sportiness too.

The A4 performs convincingly under the bonnet as well: equipped with the latest generation of Turbo, Turbo FSI® and turbo diesel TDI® engines, it sets standards in the areas of power, efficiency and acceleration. The car responds to differences in road surfaces and weather conditions with controlled handling.

The optional quattro® permanent all-wheel driveline provides perfect traction in any situation, so that the car always remains enjoyable and safe to drive. The Electronic Stabilization Program ESP 8.0 ensures that the A4 can be steered effectively at all times. Your safety is given top priority in the A4, for example by the two-stage full-size front airbags and the SIDE GUARD head airbag curtains.

The dynamic chassis of the A4 enables maximum comfort to be maintained even when driving very dynamically. Character traits it is worth experiencing personally. In the first corner, for instance. The Audi A4 has the power to stand apart. It stands complete. But for a driver. How about you?

“Winner in the middle class”
auto motor und sport magazine, 2005.
