

## The new Audi TT Coupé Progressive design and a sporty driving experience

The new Audi TT reflects a sharper, more mature design yet remains a symbol of iconic style and power, delivering dynamic acceleration thanks to its race-bred engine.

The TT Coupé is available with a choice of two engines - the award-winning 2.0 TFSI engine, voted "Engine of the Year" for two consecutive years by a panel of 56 judges from 26 countries globally. There is also a potent 3.2 V6 engine with 184 kilowatts, incorporating Audi's legendary quattro permanent all-wheel drive, with greater stability and precision road handling.

Both engines feature the innovative, race-bred dual-clutch transmission - S tronic - which provides seamless and exhilarating performance. An additional sporty manual transmission is also available on the 2.0 TFSI.

The new Audi TT Coupé is a clear embodiment of Audi's "Vorsprung" philosophy - leading performance, superior design and the ultimate in prestige.

The new Audi TT Coupé – Pure energy

## Pure energy The new Audi TT Coupé

A new generation of power. The new Audi TT Coupé is an uncompromising sports car, bursting with energy down to the smallest detail and exploding with dynamism on the road. The TT's new Audi Space Frame ASF, is an innovative combination of aluminium and steel components to optimise weight efficiency for agile and sporty handling.

The new Audi TT Coupé offers an even more dynamic drive, greater stability and improved acceleration.

Pure energy....
