

# FULLY BLOWN

THE F6 R SPEC LIMITED EDITION

PERFORMANCE INC.™

When you've created a car that won the 2006 Motor Magazine's Australian Performance Car of the Year, what could you possibly do to make it better? Especially when it's regarded as one of the most powerful sedans available in Australia, thanks to its six-cylinder turbo-charged engine delivering a staggering 550Nm of torque. With this new FPV F6, we decided to refine the package in order to get all that available power to the ground in a more dynamic way. The result is the limited edition F6 R Spec. This purpose built performance car boasts our Trakpak suspension components engineered and designed by Prodrive. The F6 R Spec exhibits much faster turn-in, better mid-corner response, improved roll control, greater transitional stability and overall balance. Put simply, this is a car that puts even more excitement into driving a performance machine. The Limited Edition F6 R Spec. Fully blown.
