THE
DREAM:
TO CREATE THE LUXURY
CAR THAT DELIVERS
MORE
THAN YOU'D
EXPECT

A STEP UP IN STYLE

The Accord is a true prestige vehicle, available in four tempting models: the four cylinder VTI and its new luxury model, the VTI-L, as well as the V6 and the V6 Luxury. The Accord is the epitome of world-class design. Carefully sculpted corners and sides create a muscular, agile look. This is matched with a stylish rear, sporting tail pipe finishers and Honda's innovative LED taillights. The LEDs, or Light Emitting Diodes, are also incorporated into the Accord's high mounted stop light at the back, giving you not only style, but safety too. These features perfectly complement the Accord's existing exterior attributes, like its monocoque body, chic halogen type headlights and alloy wheels. And let's not forget the twin exhausts on both V6 models, and front fog lamps on the V6 Luxury. What more could you ask for?

V6 Luxury model shown.

MORE POWER TO YOU

Beneath the stylish exterior of the Accord VTi and VTi-L is a machine with ample performance capabilities. In the engine room, the four cylinders deliver an impressive 125 kW. This power is produced by the refined 2.4 litre DOHC i-VTEC engine. An intelligent combination of VTEC (Variable Timing and lift Electronic Control) and VTC (Variable Timing Control) technologies delivers the extra power, while maintaining low emissions and enviable fuel efficiency. VTEC reacts to engine load and revolutions per minute to continuously vary the phasing of the intake camshaft, delivering low-end torque and high-end power on demand. Along with this power increase, the VTi and VTi-L benefit from a drive by wire throttle. The drive by wire system enables better communication with the transmission for a smoother drive.

VTi & VTi-L engine shown.

MUCH TORQUE ABOUT V6

The VTi models aren't the only Accord models to benefit from Honda's advanced VTEC technology. The Accord V6 and V6 Luxury both boast a powerful 3.0 litre SOHC V6 VTEC engine, equipped with a drive by wire throttle. This superbly crafted machine produces a very sporty 177 kW of power, and an outstanding 287 Nm of torque. The clever V6 engine manages to produce all that power while remaining amazingly fuel efficient.

V6 & V6 Luxury engine shown.

ACCORD GOES THE EXTRA MILE

A remarkable safety feature that you'll find in the latest V6 models is Honda's Vehicle Stability Assist (VSA). This system uses sensors to monitor the vehicle's speed and position. If the vehicle is not heading in the direction that the driver is steering, the VSA system uses the Accord's Anti-lock Brakes (ABS) and engine management system to help bring the car back under control. In this way, VSA helps maintain control during cornering, acceleration and sudden manoeuvres such as swerving to avoid a collision.

All four Accord models also include 5-speed automatic transmission with Grade Logic Control. This system monitors throttle position, vehicle speed and acceleration/deceleration to determine when climbing power or engine braking is needed - reducing gear hunting and improving driveability and fuel economy. Which allows you to go that extra mile.

IT JUST KEEPS ON GIVING...

If you thought the Accord could give no more, think again. Once you step inside, you realise just how well outfitted it is. The first thing you'll notice is the slick metal look console, set strikingly against the black interior design, giving the cabin a fresh, sporty flavour. Or there's the elegance of an ivory interior with woodgrain look trim. The interior of the Accord has been meticulously designed around its passengers for complete comfort and safety. Large ergonomic seats with additional driver lumbar support allow you to sit back and relax in comfort. The Accord range also comes with the luxury of dual zone climate control, 6 stack in-dash CD tuner, power steering, cruise control and keyless entry. Standard features also include map lights, power windows and mirrors, sunglasses holder, illuminated vanity mirrors, childproof door locks and tilt adjustable steering wheel so you can choose your ideal driving position. In fact, many of the standard inclusions of the Accord are normally regarded as luxury extras.

V6 Luxury model shown.

...AND GIVING

Along with the standard comforts available across the Accord range, there are now two luxury choices to consider - the four cylinder VTi-L or the V6 Luxury. In the VTi-L you'll find leather† trim seats, a leather† steering wheel and 8-way power driver's seat standard.

Of course, the V6 Luxury redefines the very word. Every aspect of design has been considered and reconsidered to ensure a 5-star drive. Along with a plush leather† interior and an 8-way power driver's seat, the V6 Luxury model includes an electric sunroof and rain-sensing wipers. The V6 Luxury (and, incidentally, the V6) has the added convenience of steering wheel-mounted audio controls. And amazingly, in the V6 Luxury, satellite navigation comes standard. This highly sophisticated Global Positioning System (GPS) utilises 24 satellites orbiting the Earth and a map database, to guide you to a desired destination. So you'll always know precisely where you are.

V6 Luxury model shown.

† Leather interior includes some PVC vinyl material.

SAFETY UPON SAFETY...

The Accord is very giving in the safety department too. In fact, it's positively laden with advanced safety features. Like its Anti-lock Brakes (ABS), complemented by Electronic Brake force Distribution (EBD), which spreads the optimum braking force equally between the front and rear brakes, depending on passenger and cargo positioning; resulting in less distance travelled after braking to avoid a collision.

Even the structure of the Accord, its unibody, offers greater protection. It has been made both stronger and lighter by using a high strength steel. This increases rigidity and torsional strength for improved handling and safety. Together with Honda G-Force Control technology (G-Con), the safety of the passenger compartment is strengthened in the event of a collision. With G-Con, crumple zones in the front and rear of the car absorb crash forces by progressively deforming, while a combination of high-tensile steel components contribute to a highly protective shell that protects from every direction.

VTI-L model shown.

...UPON SAFETY

Both Accord V6 models also feature the extra safety of Vehicle Stability Assist (VSA), which enhances vehicle stability and provides greater control.

And to top it all off, all Accord models possess dual front and side SRS airbags for the driver and front passenger with an innovative Occupant Position Detection System, to ensure they deploy in the most effective possible way. 3-point seatbelts are provided in front and rear, with pretensioner and load limiter systems for the front seats. The Accord V6 Luxury even has front and rear SRS curtain airbags. All because at Honda, we believe that there is no greater luxury than safety.

AT YOUR SERVICE

As an Accord owner, you'll have access to personalised online services through our exclusive HondaONE website. This secure site offers you an up-to-date service history, vehicle records, maintenance tips and personalised service reminders. The people who look after you and your Honda are also constantly updating their knowledge, to build on the factory training they all receive. No one can service and tune your Honda Accord as well as your Honda Dealership. They also stock a comprehensive inventory of Genuine Honda Parts and Accessories, so you'll never need to accept anything less. Regular maintenance of your new Accord is, of course, recommended, to ensure you can enjoy many years of driving pleasure, and to maintain its value. Our faith in the Accord's durability, quality and reliability is reflected in the 3 year/100,000 km warranty we are proud to offer with every Honda. You also receive a 3-year paint protection warranty and a 6-year rust perforation warranty. Together, we can ensure you are as happy with your Accord in years to come as you are on the day you drive it out of the showroom.

ACCESSORIES: FOR THOSE WHO WANT EVEN MORE

We understand that sometimes, you can't get enough of a good thing. Although the Accord is the best equipped yet, for those who desire even more, this section is for you. On offer is a wide range of stylish accessories for your Accord, all designed to further enhance your driving experience. How much more you give your new Accord and yourself, is up to you.
