YOU'LL KNOW WHERE YOU'RE GOING

With satellite navigation included, you'll always know exactly where you are and where you're going anywhere in Australia. The navigation unit uses 24 satellites orbiting the earth and a map database to guide you step by step. And even if you make a wrong turn, it will automatically get you back on the right track again. You can also personalise the settings and pre-program your preferences, so your Tourer is set up just the way you like it.

LIMITED EDITION ACCORD EURO TOURER.

Imagine where it can take you.

▶ YOU'LL KNOW WHERE IT'S COME FROM

The Limited Edition Accord Euro Tourer certainly lives up to its heritage. You'd be excused for thinking you've strapped yourself into a sports car and in effect, you have.

Beneath the Limited Edition Accord Euro Tourer's stylish design and sophisticated features, which often embody an equally important engineering feat, lies the heart of a pure-bred racing machine. It includes advanced technology made possible through our 40 years of Formula One experience. This is especially evident in the superb handling, and the exhilarating performance delivered by its 2.4 litre DOHC i-VTEC engine.

After all, what is the point of having race technology if you can't share it with someone?

▶ IT KNOWS YOUR LIMITS

Also included are rear parking sensors, which provide an audible warning of how close you are to the car behind when reversing, putting an end to guesswork.

▶ PEOPLE WILL NOTICE YOU

More value is added with fog lamps which as well as being an obvious safety feature in unclear conditions enhance the appearance of your vehicle.

▶ YOU'RE IN A SAFE PLACE

The Limited Edition Accord Euro Tourer has a number of leading edge safety features, such as SRS airbags for driver and front passenger. Adding to this security is Vehicle Stability Assist (VSA). This not only provides traction control, but also keeps the vehicle on course by detecting and correcting oversteer or understeer.

We've also equipped the car with Anti-lock Braking System (ABS), which applies brakes to each wheel as needed to help stabilise the vehicle. ABS then works with Electronic Brake-force Distribution (EBD), which distributes front-to-rear brake pressure according to the front or rear weight balance of the vehicle.

These advancements in safety and technology, coupled with an impressive list of features and luxuries make the Limited Edition Accord Euro Tourer not just a pleasure to drive, but a pleasure to own. Imagine it.

▶ THE POWER IS YOURS

Now, we reach the nerve centre of the Limited Edition Accord Euro Tourer, i-VTEC technology. The name is derived from the 'intelligent' combustion control technologies used in the 2.4 litre 140kW DOHC engine. It works to deliver outstanding power and torque at the exact moment you need it, with outstanding fuel efficiency.

Couple this with either a 6-speed manual transmission, or 5-speed sequential shift automatic and you can start to imagine what it might feel like to drive a Limited Edition Accord Euro Tourer.
