

TRITON
TRITON

TESTED BY THE BEST IN THE BUSINESS

Not just tested. Pushed to the absolute limit. Rally championships around the world have become the testing grounds for Mitsubishi production vehicles. And we've been doing it for over 40 years. These include testing grounds such as the punishing desert terrain of the Dakar - the world's toughest off-road rally, where Triton is used as a support vehicle for the undisputed champion Mitsubishi Pajero.

Constantly evolving technology from each and every gruelling challenge, culminating in vehicles of uncompromising durability, reliability and engineering excellence. What's more, we can't wait to go back and learn more.

DAKAR CHAMPION TWELVE TIMES OVER

A 9,000 kilometre race over the most inhospitable, treacherous terrain in the world. The searing heat of the Sahara desert, endless, mountainous sand dunes, gruelling conditions and roads through remote forests. The Dakar rally is the pinnacle of off-road racing. Even to finish is no mean feat.

To be the undisputed champion twelve times altogether, the last seven in a row, is extraordinary.

THE ULTIMATE TESTING GROUNDS

Over 40 years of rally championships around the world have become the testing grounds for production of Mitsubishi vehicles. These are the places true off-road vehicles are born. The places we choose to test and develop the advanced 4WD technology and innovative driver confidence systems you'll find in every Mitsubishi production vehicle. These deliver proven reliability and durability in 4WD innovations.

4WD AND COMMERCIAL VEHICLE RANGE

The Mitsubishi range of 4WDs has been transformed, based on everything we have learned from the twelve time Dakar-winning Pajero. This leads the range into the next generation boasting advanced technology and active driver systems, making all other 4WDs seem second best.

Mitsubishi delivers the latest and greatest in 4WD technology, style, sophistication and unquestionable reliability, giving you the confidence to go anywhere and take on almost anything. Whether you need a tough workhorse, serious off-roader or a more premium luxury model, Mitsubishi's leading range of rally-proven vehicles has the 4WD for you.

PAJERO

The classic five-door, long-wheelbase Pajero, has a sophisticated exterior, a modern interior, and two powerful yet efficient engines. Each member of the long-wheelbase Pajero range - the luxurious Exceed, the sporty VRX and the rugged GLX - is more technologically advanced, more comfortable, more powerful, and tougher than ever. A choice of a petrol engine with great power and torque, or a quiet and efficient diesel. Everything you could possibly wish for in a 4WD.

PAJERO 3 DOOR

The pocket-rocket addition to the Mitsubishi 4WD range. All of Pajero's advanced features are now loaded into a slick three-door package, with stand-out good looks and a shorter wheelbase for heightened off-road ability.

Pajero 3 door is the closest you can get to the acclaimed Pajero Evolution, the 4WD that wows the world in the Dakar Rally each year. Without a doubt, Pajero 3 door is a serious high performance 4WD.

OUTLANDER

The Outlander range is more versatile, distinctive, powerful and technologically advanced than ever before. It has the flexibility of a 7 seat configuration, plus unique automatic fold-and-tumble second row seats.

Loaded with technology including a Rockford Fosgate premium audio system, rear DVD entertainment system, Smart Key entry, on-demand 4WD and a choice of powerful 4-cylinder or V6, fuel-efficient MIVEC engines, the Outlander is designed to fit with your life.

EXPRESS

Mitsubishi Express knows how to get down to business, it's your perfect business partner. The economical, yet hard working Express delivers the power and torque you need to get on with the job. Plus first class manoeuvrability and reliability have made it one of Australia's favourite light commercial vans.

DEPENDABLE TRITON

Triton has become part of the Australian Landscape - on the farm, the building site, in the outback, around town, even at the beach. Its dependability and toughness is unquestionable. The next generation Triton range is stronger, safer and more manoeuvrable. And there's a Triton that caters to your every need with a choice of three engines available in single or double cab.

You can also choose between the economical 4x2 models or the gutsy 4x4s. From the workhorse GLX, to the sporty GLX-R or the sophisticated GLS, the entire Triton range offers a no nonsense attitude which makes all Tritons better at getting the hard jobs done.

Triton offers the latest technology with unique features such as the Bluetooth hands free phone capability on the GLX-R and GLS. With a powerful turbo diesel engine, a generous payload and 2300kg towing capacity, Triton will easily get the jobs done during the week while towing the boat for the weekend. Add to this, the comfort of a very spacious cabin and the end result is a better driving experience for you and your mates.

Don't forget that the Triton is always backed by the Mitsubishi Diamond Advantage including the 5-10 year Warranty and 5 years Roadside Assist giving you a truly dependable ute that won't let you down.

ADVANCED TECHNOLOGY

POWER & PERFORMANCE

A choice of three engines makes it easy to select the power package to help you get the job done.

Featuring the latest in diesel engine technology, the 3.2 litre common rail turbo-charged diesel generates impressive power and torque.

With a grunty 343Nm of torque at 2000rpm and 118kW of power at 3800rpm, Triton's common rail diesel gives you the power to suit all your towing and carrying needs.

For comfortable cruising on the open road, the 3.5 litre V6 24-valve SOHC petrol engine is an excellent choice. The V6 delivers great low to mid-range torque with 309Nm at 3500rpm and a maximum power output of 135kW at 4750rpm.

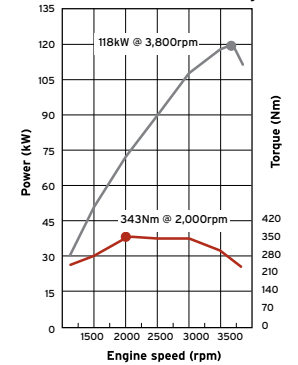

The efficient 2.4L 4-cylinder engine is ideal for jobs around town and available on all 4x2 models with a dependable 94kW of power and 194Nm of torque.

With all three engines offering exceptional fuel efficiency, you will go further for less.

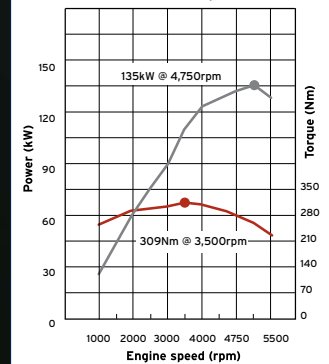

And, Triton's reliable engines are backed by Mitsubishi's 5-10 year warranty to make sure the job's done even better for years to come.

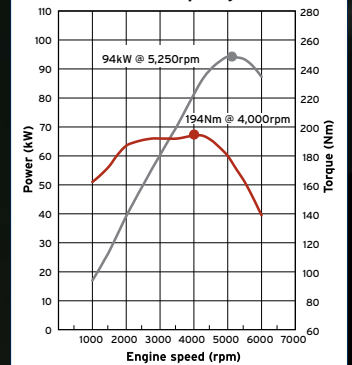

3.2L Common Rail DI-D Engine

3.5L V6 Engine

2.4L 4 Cyl Engine

TRANSMISSION AND TRACTION

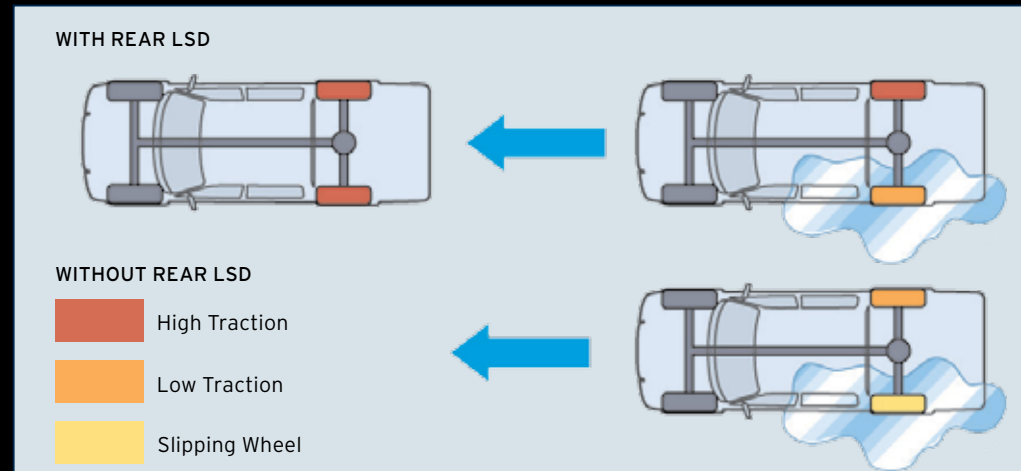

MANUAL OR AUTOMATIC

Getting the best out of the petrol and turbo-charged diesel engines is a smooth-shifting, 5-speed manual gearbox, or for those that want to take it a little easier, there's a very responsive 4-speed automatic.

REAR LSD (LIMITED SLIP DIFFERENTIAL)

Triton is fitted with a Rear Limited Slip Differential to provide superior traction in slippery conditions through the transfer of driving torque to the other three wheels. 4WD models are also available with an optional rear diff lock for those incredibly tough situations.

REAR DIFF LOCK (OPTIONAL)

Triton's rear diff lock provides superior traction for heavy duty four wheel driving. With the rear diff locked, both wheels receive the same amount of driving force - making it easier to conquer difficult terrain. The rear diff lock is easily engaged and disengaged with the switch mounted on the instrument panel.

EASY SELECT 4WD

The hard-working Triton inherits all the 4WD-handling heritage of the long line of Mitsubishi rally champions. Enabling smooth control from the driver's seat, Triton's Easy Select 4WD system uses three transfer modes to deliver high-speed driving comfort and superior traction on all surfaces. When added traction is required, the free-wheeling front differential enables you to shift on-the-fly (at speeds of up to 100km/h) from 2WD to 4WD mode, and when conquering the roughest terrain, Triton's Easy Select 4WD also offers a 4WD low range mode.

2H (2WD HIGH RANGE)

Delivers a smooth, quiet ride for highway cruising, rear wheel drive for everyday driving, plus optimum fuel economy.

4H (4WD HIGH RANGE)

Increased traction offers the stability needed in tough weather conditions like rain and light snow, as well as untamed surfaces like loose dirt and gravel.

4L (4WD LOW RANGE)

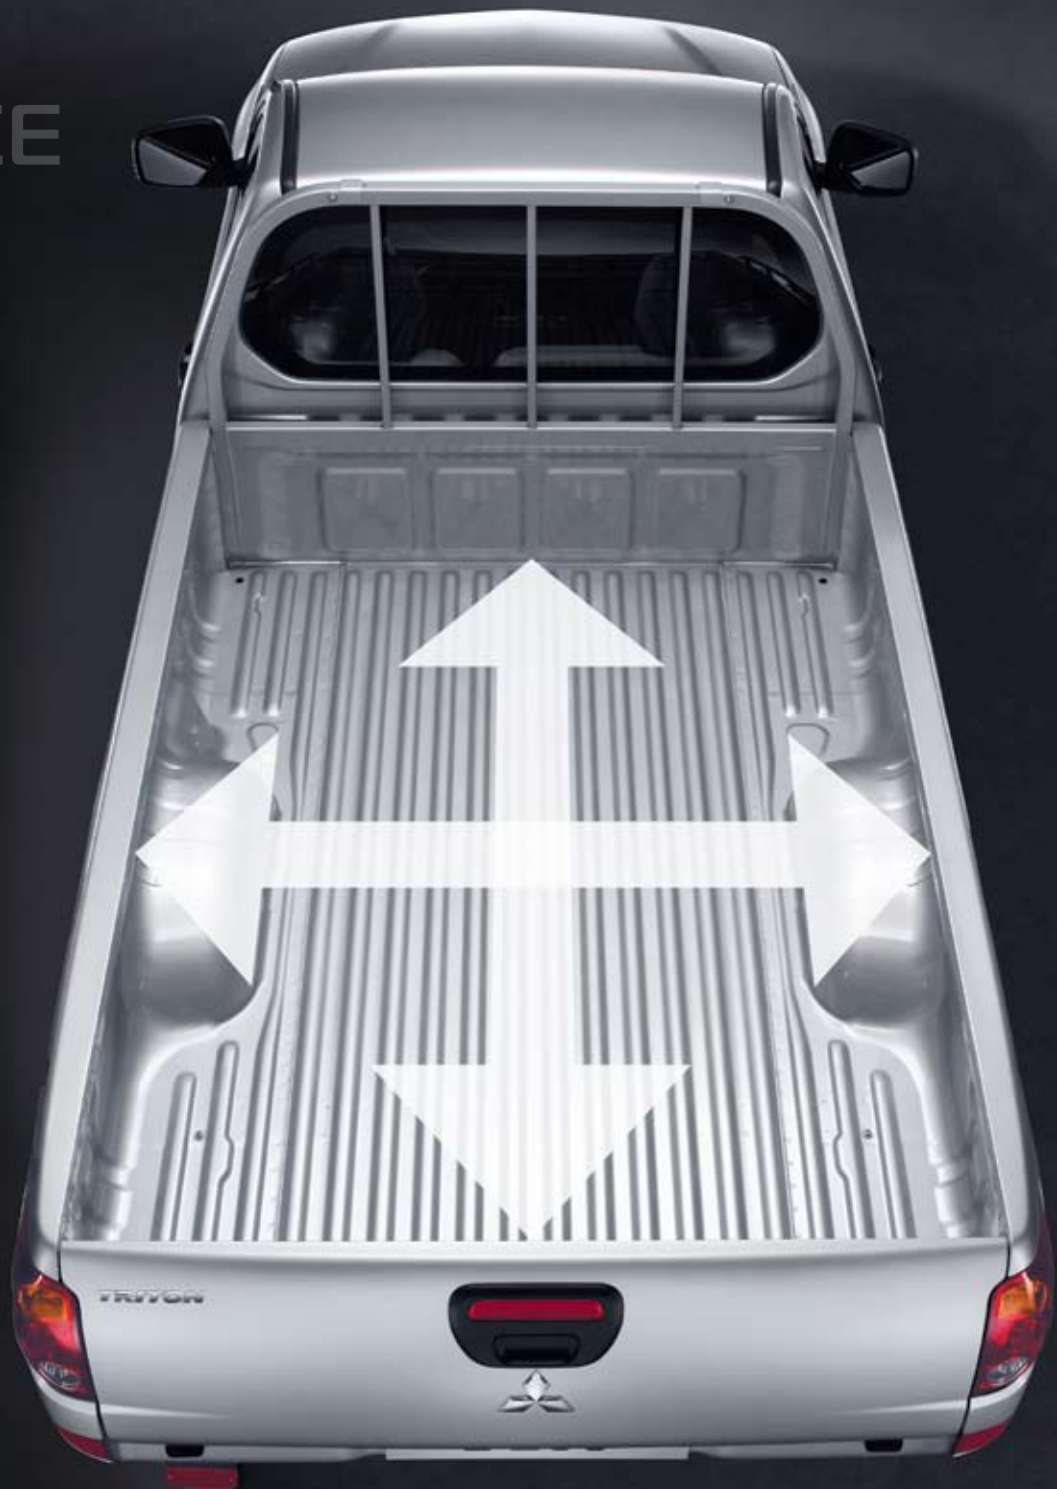

Extreme off-road mode ensures maximum traction for serious conditions like deep snow or sand, as well as steep inclines or descents.

DRIVER CONFIDENCE

GETTING THE JOBS DONE WITH EASE

GENEROUS CARRYING CAPACITY

You'll find it tough to outweigh the powerful towing and carrying capacity of the Triton. It has a huge 2300kg towing capacity for the 4x4 and 1800kg for 4x2. This means that even with a full load, Triton 4x4 can still tow over two tonnes. Couple this with impressive power and torque and Triton makes light work of heavy loads. Towing the farm equipment, dirt bikes or boat has never been easier.

LARGE AND QUIET CABIN

With an incredible amount of cabin space Triton easily carries five adults with plenty of leg, shoulder and headroom. Triton also boasts rear seat roominess and clever ergonomically designed wide rear door openings to get in and out with ease. Ride comfort is also smooth with superior cabin quietness and decreased vibration and interior noise levels.

CARGO BED TOUGHNESS

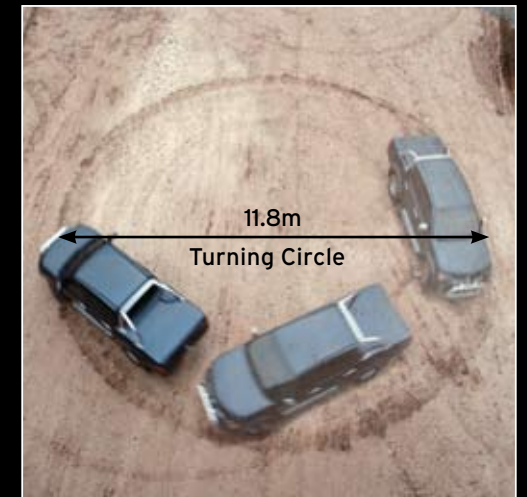

Roomy enough for recreational gear and tough enough for working materials, the cargo bed has double-walled support structures to ensure long-term performance. Whether for work or play, Triton's cargo bed hauls loads with ease. Inner hooks let you tie down your gear securely while the single handle in the rear gate gives you easier access when your hands are full.

TURNING CIRCLE

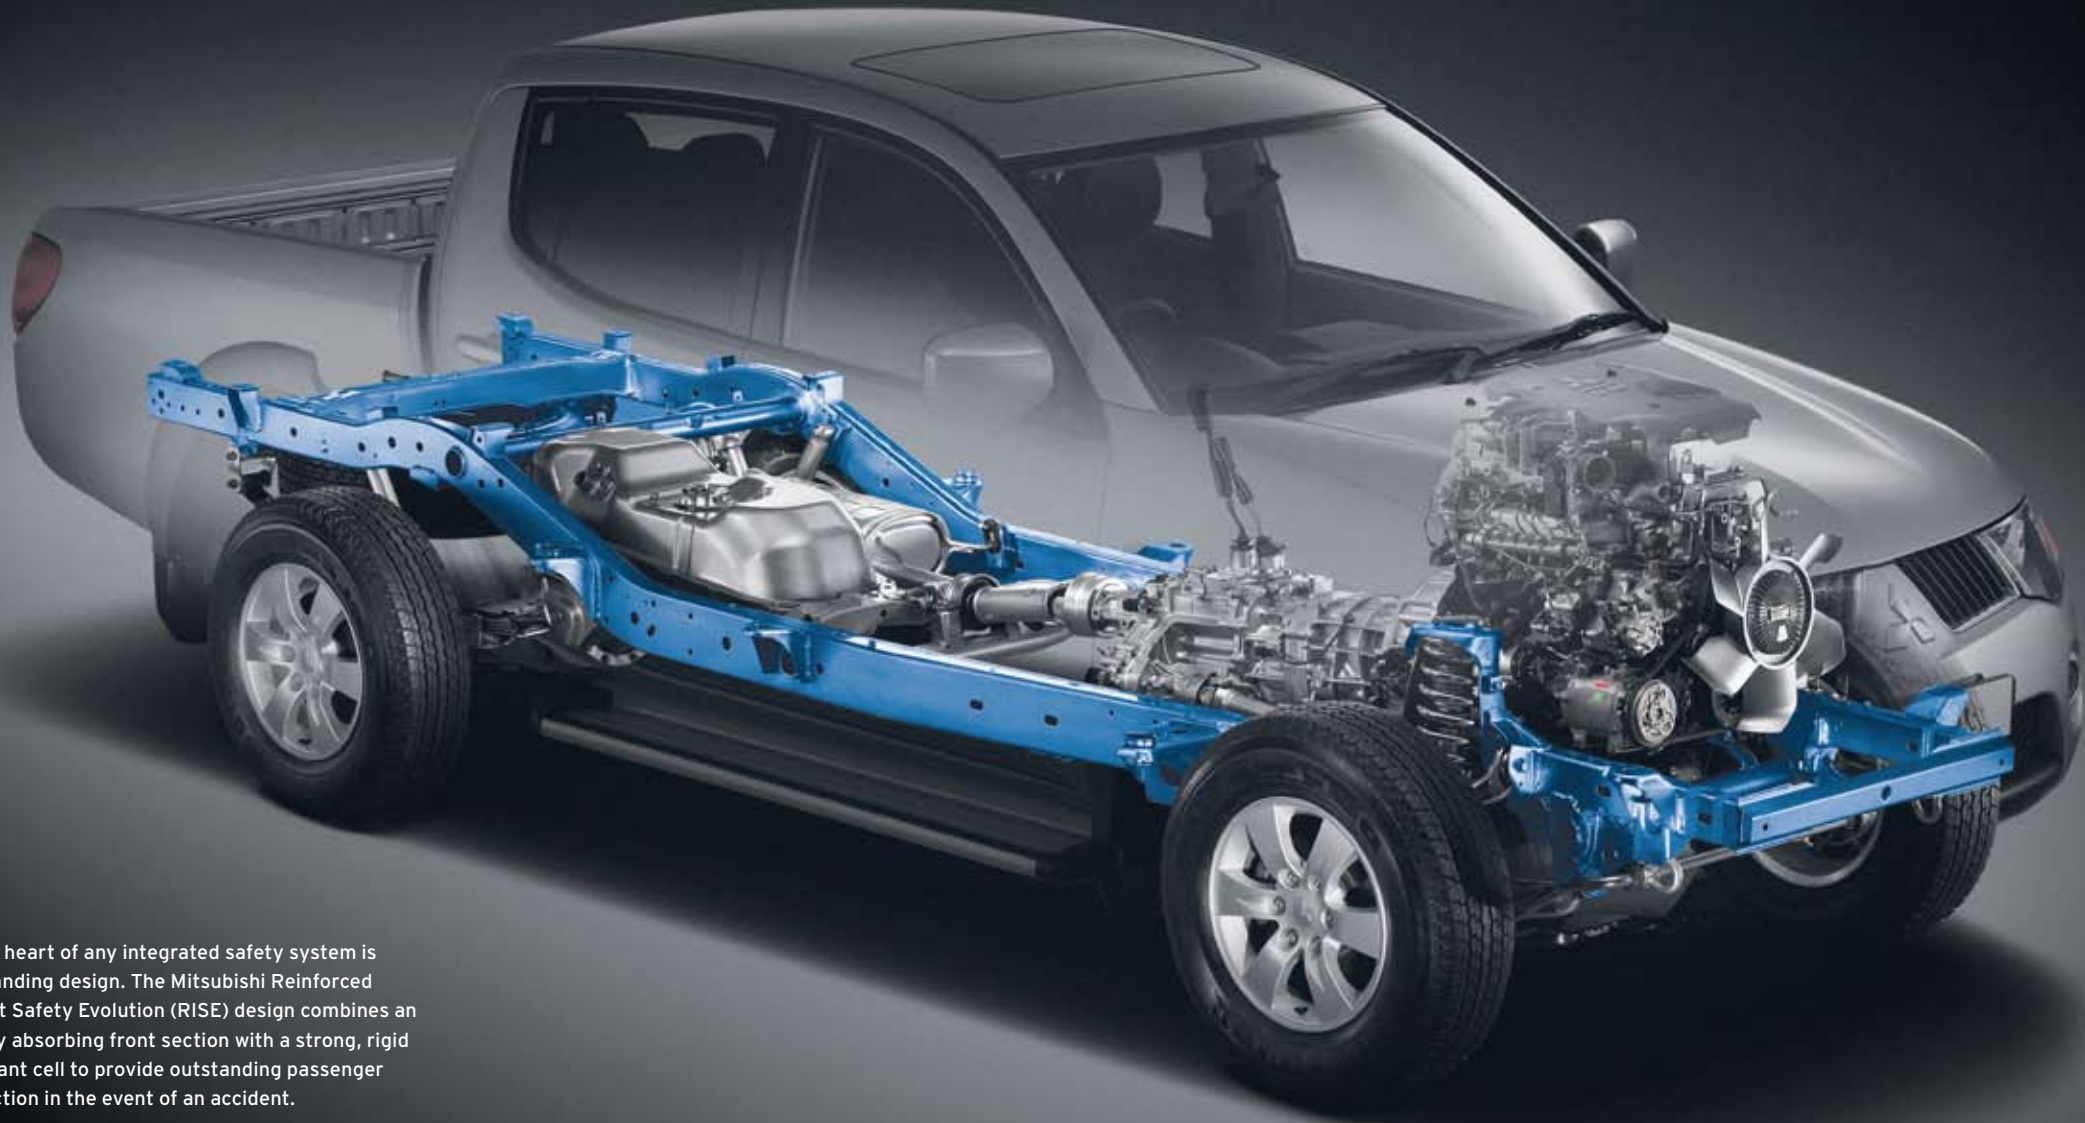

The power assisted rack and pinion set-up means the Triton's 11.8m kerb-to-kerb turning circle provides terrific manoeuvrability.

So not only are you comforted with passenger car like interior, you will also be able to steer around work sites and farms with a lot more ease.

DRIVER CONFIDENCE

TECHNOLOGY DESIGNED TO SAVE LIVES

At the heart of any integrated safety system is outstanding design. The Mitsubishi Reinforced Impact Safety Evolution (RISE) design combines an energy absorbing front section with a strong, rigid occupant cell to provide outstanding passenger protection in the event of an accident.

The RISE body is coupled with a rigid ladder frame, side impact bars, and collision absorbing joints. As evidence of the Mitsubishi commitment to safety in motoring, the Triton is well specified with a raft of active and passive safety features.

LSPV (LOAD SENSING PROPORTIONING VALVE)

The LSPV modulates rear brake pressure depending on vehicle load. Under light or no load conditions, it applies reduced braking pressure to the rear to prevent rear wheel lock-up.

With LSPV when not carrying cargo

With LSPV when cargo bed fully loaded

Without LSPV when cargo bed fully loaded

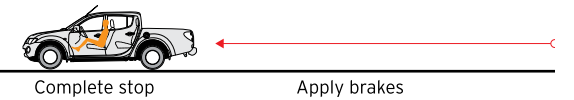

ABS WITH EBD

Triton 4WD's 4-sensor, 4-channel, Anti-lock Braking System (ABS) delivers lock-free braking power and control. Even in emergency braking conditions on slippery or uneven roads you'll be able to steer safely around obstacles without losing traction.

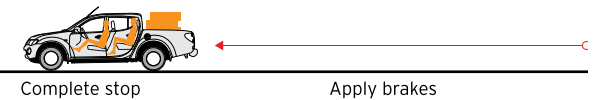

Electronic Brakeforce Distribution (EBD) actively monitors different wheel speeds and evenly distributes brake pressure across the front and rear wheels depending on vehicle load. Under heavier loads, EBD provides shorter braking distances while enhancing overall control.

ABS is standard on GLX-R, VR and GLS and optional on GLX and GL models.

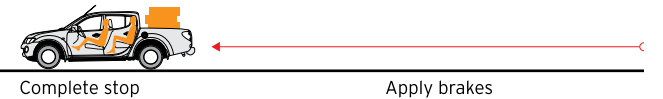

A. Driver only with EBD.

B. With passengers and cargo with EBD.

C. With passengers and cargo without EBD.

SRS AIRBAGS

To provide ultimate protection in the event of a frontal collision, Triton is fitted with driver and front passenger SRS airbags.

The front seatbelt systems also include pretensioners and force limiters that combine to minimise the potential for serious injury in the event of a collision.

SETTING THE STANDARDS IN SUSPENSION

Independent double wishbone and coil springs - just as tough, just as dependable, but giving you a far better ride than the old torsion bar front suspension traditional amongst older utes.

INTERIOR

MODERN AND DURABLE INTERIOR

Triton's modern interior has many standard features that you wouldn't expect in a ute. Across the Triton range interior features include air conditioning, remote central locking, power windows, CD player with MP3 compatibility and lots of clever storage compartments.

Inside the sporty GLX-R 4WD (shown), the features are impressive, with leather steering wheel and gearshift lever, multi-function display, fifth power window providing access to the rear and GLX-R embroidered floor mats. Plus with Bluetooth mobile phone connectivity you'll be able to keep working while on the move.

TRITON

TRITON GLS DOUBLE CAB 4x4

This Triton is a revelation - the stylish interior is sleek and shapely, the dials bright and modern. Behind the privacy glass of the Triton GLS you'll find a spacious cabin with everything at your fingertips. Featuring remote keyless entry with central locking and automatic climate control air conditioning, you'll find your hard work's been made easier when travelling in luxury.

AUTOMATIC CLIMATE CONTROL AIR CONDITIONING AND 6-SPEAKER STEREO

With an 8-way power driver's seat including dual height adjustment, you'll be able to enjoy sitting back and making use of the 6-speaker premium stereo system and optional electric sunroof. Quality finishes and attention to detail include a leather bound steering wheel, gearshift and transfer lever, 16" alloy wheels, leather seat trim and plenty of truly clever storage areas.

But don't think for one moment that Triton has gone soft, it's strong, safe, stable and powerful.

REAR POWER WINDOW

LEATHER SEAT FACINGS

ELECTRIC SUNROOF (OPTIONAL)

TRITON GLX-R DOUBLE CAB 4x4

If you want a reliable workhorse to get the job done during the week but which looks good enough to go anywhere on or off-road with a group of mates, then you can't go past the sporty Triton GLX-R.

The Triton GLX-R is fully-loaded with features including chrome nudge bar, rear sports bar, side steps, 16" alloy wheels, electric chrome mirrors, privacy glass, fender flares and the practicality of a lockable hard tonneau cover.

Four doors and five seats mean that there's room inside for family and friends, room in the back for all your gear and plenty of brawn for towing.

Improved levels of safety are important which is why the GLX-R comes with ABS brakes with Electronic Brakeforce Distribution (EBD), front seatbelt pretensioners, driver and front passenger SRS airbags and side impact bars as standard.

REAR SPORTS BAR AND LOCKABLE HARD TONNEAU COVER

NUDGE BAR AND FOG LAMPS

TRITON

TRITON VR DOUBLE CAB 4X4

With the grunt you need to tackle the week and your weekend you can rely on the Triton VR.

With features such as 16" alloy wheels, fog lamps, fender flares and rear privacy glass, it's a sports utility that allows you the flexibility to individualise your VR. Choose from a range of Genuine Mitsubishi accessories to customise to your needs.

The VR is loaded with features for driving ease and comfort such as remote keyless entry, electric chrome mirrors, multi-function display and power windows (including rear window).

FOG LAMPS

16" ALLOY WHEELS

REAR PRIVACY GLASS

TRITON GLX DOUBLE CAB

You can count on the Triton GLX Double Cab range for reliability, flexibility and toughness. With the choice of 4x4 and 4x2 it offers power steering, intermittent wipers and halogen headlamps with the security of an engine immobiliser.

Whether you're hauling your tools to the work site or farm, or you're heading out fishing, the Triton can take loads with a generous carrying capacity, large storage areas and hidden storage compartments.

The GLX Double Cab offers space for the whole crew along with the comfort of front sports style seats and seating for three in the rear. You can also be assured with the safety of driver and front passenger SRS airbags and child-proof rear door locks.

POWER WINDOWS

AM/FM RADIO/CD/MP3

FRONT SPORTS SEATS

REAR PROTECTION BAR

TRITON SINGLE CAB

The Triton Single Cab is a dependable one-tonne workhorse for the farm or building site and is available as a 4x4 or 4x2. Each combines power, carrying capacity and flexibility.

Standard features include steering column tilt control, heavy duty suspension and 16" wheels.

The Single Cab offers AM/FM radio with in-dash MP3 compatible CD player and air conditioning for comfort, as well as central locking with remote keyless entry and a lockable illuminated glove compartment.

The Triton Single Cab provides exceptional value and is a great option when you need to get the hard jobs done.

AUSTRALIA'S BEST

MITSUBISHI DIAMOND ADVANTAGE

DIAMOND ADVANTAGE

AUSTRALIA'S BEST
NEW CAR WARRANTY AND
CUSTOMER CARE

Mitsubishi's rally credentials are second to none. You don't win the world's most notorious rallies time after time without breakthrough, advanced engine technology and superior technological innovations.

Every Mitsubishi rally driver starts a race knowing they have a support system to back them up through every torturous, testing kilometre. It's a level of commitment every Mitsubishi driver can expect, and it's why we've created a comprehensive, efficient and sophisticated support system.

DIAMOND warranty 5/10 YR ADVANTAGE

Mitsubishi Motors Australia Limited offers a 5 year/130,000km (whichever comes first) New Vehicle Warranty, a 10 year/160,000km (whichever comes first) non-transferable Powertrain Warranty and a 5 year Perforation Corrosion Warranty on all Mitsubishi cars and light commercial vehicles. Service conditions apply. See your dealer for details.

DIAMOND CALL CENTRE 24/7 ADVANTAGE

We're here to help, 24 hours a day, seven days a week. So just call Mitsubishi Motors Australia Customer Assistance Centre on 1300 13 12 11 if you have any questions, or for the location of your nearest Mitsubishi Dealer.

DIAMOND 200+ DEALER NETWORK ADVANTAGE

With a network of more than 200 dealers, Mitsubishi is never too far away.

DIAMOND 5 YR ROADSIDE ASSIST ADVANTAGE

Peace of mind is guaranteed anywhere in Australia with our free 5 year/130,000km (whichever comes first) Roadside Assist, 24 hours a day, 365 days a year. Our fast, comprehensive roadside service offers assistance, repairs, towing and storage. Our Premium Roadside Assist clients also enjoy the added benefits of accommodation, medical and transport facilities. Service conditions apply.

DIAMOND GENUINE PARTS ADVANTAGE

Your Mitsubishi will be serviced regularly by skilled Mitsubishi-trained technicians. Only genuine Mitsubishi parts are fitted to your car during scheduled servicing - parts that have been fully tested and meet Mitsubishi's stringent quality control. All these parts carry the Mitsubishi Genuine Parts 12 months unlimited kilometres guarantee.

DIAMOND FINANCE ADVANTAGE

Take the burden out of financing your new Mitsubishi vehicle with our competitive range of finance products, developed by Mitsubishi Motors Australia Limited and St. George Motor Finance Limited.

DIAMOND LEASING ADVANTAGE

Our tailored fleet leasing services offer innovative, highly competitive features such as card purchasing, roadside assistance, specialist maintenance services, accident and claims management, optional insurance and more.

DIAMOND INSURANCE ADVANTAGE

With the sound backing of Swann Insurance and Mitsubishi Motors Australia Limited, Mitsubishi owners can choose between vehicle and personal protection solutions including motor vehicle, gap cover and loan protection insurance as well as a range of tailored warranty policies.

DIAMOND SERVICE ADVANTAGE

Mitsubishi offers one of Australia's best service intervals of 15,000km or 6 months. Regular scheduled servicing ensures the long-term reliability and safety of your Mitsubishi and our Scheduled Service Program also helps protect your car's resale value.

ACCESSORIES

PERSONALISE YOUR VEHICLE

From the alloy nudge bar to the lockable hard tonneau cover, Mitsubishi has the accessories to suit your individual needs. Ask your Mitsubishi dealer for the complete list and brochure of accessories available for your new Triton.

Mitsubishi Genuine Accessories go through an extensive program of design, development and testing to ensure they meet all applicable Government standards as well as Mitsubishi's own rigorous internal engineering specifications and performance targets. Using Mitsubishi Genuine Accessories will ensure you get the best quality accessories that are both as durable and reliable as you should expect.

When genuine Mitsubishi Accessories are fitted to your new vehicle at time of delivery, they are covered by the Mitsubishi 3-year/130,000km (whichever comes first) Warranty. When they are fitted after purchase of your new vehicle they are covered for the remainder of the warranty or for 12 months/20,000km (whichever comes first).
