GRANDIS

V7X

GRANDIS' REVOLUTIONARY RANGE

GRANDIS VRX

Grandis VRX offers the ultimate in style and ability. 17" alloy wheels outside match alloy pedals inside; a sleek, sporty cabin with privacy glass on all rear passenger windows just shouts 'style'. Rear parking sensors make getting into the tightest spaces a breeze.

GRANDIS LS

It may be the standard model, but the Grandis LS comes equipped with a host of features. There's the rear roof spoiler with high-mounted stoplight, dual front and curtain SRS airbags, cruise control, speed-sensitive intermittent wipers and anti-lock brakes, all as standard. And the LS is hugely practical, with heaps of generously-sized storage compartments throughout the interior.

The Mitsubishi Grandis is the versatile 7 seater. It revolutionises the concepts of 'people mover' by combining versatility, style and comfort in to one sophisticated package. With two variants available, Grandis is tailored to meet your family's needs.

The Grandis LS model comes standard with a host of creature comforts and versatile solutions for your family. Complementing the stylish exterior, ergonomic interior and advanced technology, Mitsubishi includes important safety features like driver and front passenger SRS airbags, side and curtain airbags, cruise control and anti-lock braking system (ABS).

The sporty Grandis VRX adds even more luxurious options like sumptuous leather seats and rear parking assist.

Both Grandis models offer sheer versatility. Generous legroom, a multitude of seating and luggage configurations, space, impressive features, luxurious finishes – the Grandis is unrivalled as a multi-purpose vehicle. With safety and comfort a priority, Grandis is the ideal choice to meet any family's most demanding lifestyle requirements.

CARGO AND PASSENGER FLEXIBILITY

The 60:40 split second row bench seat and 50:50 split third row seats offer a range of versatile seating configurations.

To revive after long trips, passengers can lie back and enjoy the flat folding function or make use of the variety of drink holders. The third row seats flip entirely for spectator viewing out of the rear of the vehicle when stationary.

Whether you are carrying a carload of passengers, or bulky cargo, seating configuration can be easily manipulated to suit specific requirements – making sure any load is a comfortable load.

Superior levels of comfort are provided not only for passengers. Grandis drivers are able to experience the ultimate in comfort with a three-position adjustable driver's seat and cushion, reclining seat back and centre armrest.

There are storage compartments under the third row seats to keep tools and valuable items out of sight, an illuminated lockable glovebox and unique easy-access compartments to assist in keeping sunglasses, CDs and other items secure.

Generous legroom, a multitude of seating and luggage configurations and ample storage compartments all add up to an unrivalled multi-purpose vehicle.

*Overseas model trim shown.

ADVANCED TECHNOLOGY

Grandis comes equipped with a 2.4 litre MIVEC, 16-valve engine specifically designed for performance and responsiveness, loaded with Mitsubishi's most innovative technologies that maximise economical performance.

Lightweight aluminium replaces traditional engine parts, saving on weight and provides greater durability, heat dispersion, fuel consumption, increased power and torque.

With added sporty performance derived from the INVECS II 'Smart Logic' transmission, with 'Sports Mode' gearshift, the Grandis offers a quiet ride with variable valve timing that adjusts to various driving conditions.

ENGINE POWER.

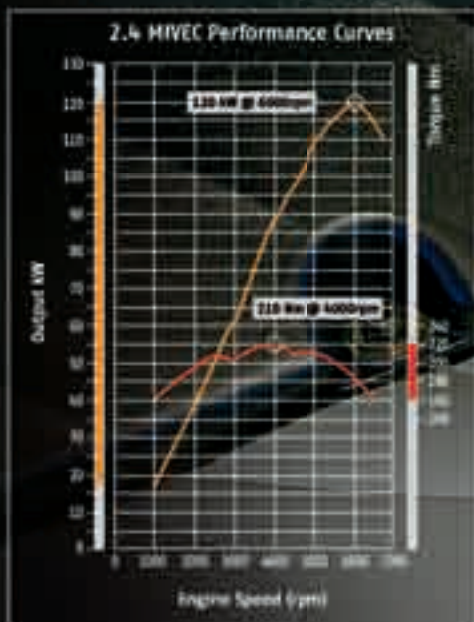

Mitsubishi's MIVEC (Mitsubishi Innovative Valve timing and lift Electronic Control) engine technology utilises a lightweight variable timing mechanism that perfectly matches engine performance to driving conditions.

At low revs Grandis uses MIVEC technology to increase torque while maintaining traction, even on slippery roads. At high revs the engine intelligently adapts to increase the flow of air to the cylinders, thus increasing power.

This has the advantage of delivering exceptional fuel economy, low exhaust emissions, a quiet drive and superior acceleration and overtaking ability. With 120kW power output, the MIVEC engine gives the Grandis exceptional acceleration not usually found in larger people movers.

INVECS II 'SMART LOGIC' AUTOMATIC TRANSMISSION.

Grandis features Mitsubishi's acclaimed Intelligent and Innovative Vehicles Electronic Control System (INVECS II) 'Smart Logic' 4-speed automatic transmission with 'Sports Mode' sequential gear shifting.

INVECS II 'Smart Logic' transmission system has an on-board computer that learns each driver's preferences by recording engine, steering and foot braking data. The control logic then adapts the gearshift timing to suit the driver's style, while minimising torque fluctuations for effortless acceleration and a more predictable ride.

'SPORTS MODE' AUTOMATIC TRANSMISSION

When 'Sports Mode' is engaged this unique transmission delivers a responsive, sporty and dynamic performance that allows for superior acceleration and overtaking.

The innovative gearshift turns your regular automatic into a responsive clutchless manual by allowing the driver to simply push the lever forward to go up a gear or pull it back to shift down a gear.

Clutch-free operation improves responses by reducing the rev and torque loss associated with disengaging and engaging gears, allowing every driver to experience Grandis' advanced performance.

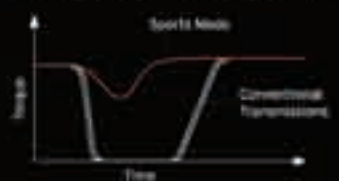

ADAPTIVE SHIFT CONTROL GOING DOWNHILL

ADAPTIVE SHIFT CONTROL DURING ACCELERATION

COMPARISON OF SHIFT RESPONSE

DRIVER CONFIDENCE

The excitement of driving performance is nothing without peace of mind. Grandis offers comprehensive active and passive safety features to keep you and your passengers at ease, including RISE body design, ABS, EBD, 6 SRS airbags and ELR seatbelts.

Grandis VRX also features rear parking assistance with four sensors to warn you of obstacles when reversing.

SIDE AND CURTAIN AIRBAGS

SRS AIRBAGS

Driver and passenger safety is enhanced by 6 SRS airbags. Grandis comes standard with dual-stage driver and front passenger SRS airbags, and standard side (first row seats) and extended curtain airbags (first and second row seats) protect occupants in the event of a side impact. A collapsible steering column, side-impact beams and anti-intrusion brake pedals have been designed to minimise harm in the event of an accident.

SEATBELTS

These seatbelts provide better head and chest protection for the driver and front passenger. Front ELR seatbelts are equipped with height-adjustable anchors, pretensioners and force limiters. Second row seats are equipped with three 3-point ELR, and Automatic Locking Retractor (ALR) seatbelts enabling baby capsules to be fitted securely.

RISE BODY DESIGN

Mitsubishi's Reinforced Impact Safety Evolution (RISE) monocoque body design combines an energy-absorbing front section with a strong, rigid occupant cell to provide outstanding protection in the event of an accident.

3-POINT EMERGENCY LOCKING RETRACTOR (ELR)

ANTI-LOCK BRAKING SYSTEM (ABS)

The 4-sensor, 4-channel, Anti-lock Braking System (ABS) delivers lock-free braking power and control in emergency situations and on slippery roads.

ELECTRONIC BRAKEFORCE DISTRIBUTION (EBD)

As the name suggests, it works hand-in-hand with your Grandis' ABS computer to assess load and distribute braking force between the front and rear wheels. As such, it enables you to stop in a shorter distance than with standard brakes.

STOPPING DISTANCE WITHOUT ABS OR EBD

GRANDIS VRX

The Grandis VRX takes the Mitsubishi Grandis to lavish new levels of luxury and sports detailing, with stylish additions to both the interior and exterior.

Not only has it exceeded unprecedented levels of performance and safety, the VRX is a forerunner in refined sports styling with roof rails, 17" alloy wheels, privacy glass on all rear passenger windows and reflector type fog lamps. Plus, its rear parking sensors provide a warning for unseen obstacles when reversing.

The sporty, yet sophisticated VRX interior invites you to step inside. Designed as a secure, ambient space with ergonomic control features, the interior is luxurious, functional and most importantly, comfortable.

Elevated seating positions create a commanding view from within, while further top of the line refinements include additional stereo speakers, alloy pedals and chrome inner door handles.

The distinguished interior of the VRX model further boasts black leather seating* and numerous storage and utility compartments. A 6-speaker stereo with an MP3 / WMA compatible 6-disc CD Changer also assures you an enjoyable driving experience, every time.

*Leather seat facings on 1st and 2nd row seats.

LS MODEL SHOWN

GRANDIS LS

Grandis LS has all the options and sophisticated stylish features you'd expect from a well-refined vehicle.

With an impressive range of standard features, including power windows, integrated front fog lamps, engine immobiliser and electric fold control door mirrors, the Grandis LS is dressed to impress. A rear roof spoiler and high mounted stop light is standard across the range, along with driver and front passenger SRS airbags, side and curtain SRS airbags, cruise control, speed-sensitive intermittent wipers and anti-lock brakes.

Moulded into the centre of the upper dash is a cleverly concealed, generous-size storage compartment while a roof-mounted sunglasses holder and illuminated lockable glovebox keep items safe and secure. Stylish dash controls drive the security coded 4-speaker MP3/WMA compatible CD stereo and the automatic front and rear air conditioning features individual controls for rear passengers.

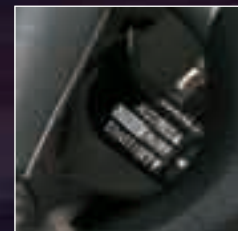

With its 2.4 litre MIVEC engine and INVECS II 'Smart Logic' automatic transmission with 'Sports Mode', Grandis LS offers all members of the family the perfect balance of exciting performance and sophisticated style.
