

LANCER LANCER

LANCER AND RALLY HERITAGE

It all started with the 1600 GSR. In 1973, the first Lancer hit the streets and the world of motor sport, taking a remarkable 1-2-3-4 victory in the Southern Cross Rally. A legend was born.

1974

1977

Lancer has never looked back. Over the past three decades, Lancer has evolved into a sports machine like no other, turning heads on city streets and rally stages alike. It has dominated the WRC (World Rally Championship), establishing milestone after milestone since the first season opener in 1993. Mitsubishi quickly gained a fearsome reputation and the Lancer Evolution's speed, ruggedness and reliability mean it continues to dominate.

1990

1997

1979

1982

1988

And it's in the heat of these battles that Mitsubishi's new technology has been proven - technology that finds its way into every road-going Lancer. Each car is created in the same vein as its rallying brother, embodying the same competitive passion and spirit, combined with a style that is undeniably Lancer. It's a car that offers uncompromising power, strength and performance - and it will have sports driving connoisseurs instantly hooked.

2003

2006

ALL-NEW LANCER RANGE

The new generation Lancer is definitely a cut above the rest, with a range that offers more innovation, style and excitement than ever. Lancer has a proven heritage in motor sport, and what we've learned in competition goes into our cars. The result? A range that boasts the very latest, highly advanced technological features - making Lancer the perfect car if you love driving.

Lancer is stylishly sleek with a bold, sporty and aggressive design incorporating the latest engineering technology. And thanks to its lighter, more fuel-efficient 2.0 litre alloy MIVEC engine, Lancer is greener - yet every bit as powerful.

Lancer is also brimming with cutting edge technology, including voice activated Bluetooth® phone connectivity, dusk sensing headlamps and rain sensing wipers. It's also safer than ever, with class-leading Active Stability Control, Active Traction Control and seven SRS airbags including a driver knee airbag.

The dynamic new Lancer range pushes the boundaries of the sports sedan concept to deliver a driving experience you'll never forget.

LANCER ES

For a well equipped all-round exciting sedan, you can't go past the Lancer ES. Boasting the sporty lines and aggressive styling that marks out the new Lancer range, ES comes equipped with a host of impressive features as standard, such as power windows, electric mirrors, cruise control with steering wheel remote control and MP3 compatibility CD player. Other standard features are Active Stability Control, Active Traction Control, RISE body shell, driver, front passenger and driver knee airbags. All designed to make Lancer safer than ever before.

LANCER VR

Lancer VR is a stylish sedan that offers sheer comfort and a great driving experience every time you sit behind the wheel. With sleek and smart inclusions such as a rear lip spoiler, front fog lamps, audio controls on the steering wheel, dusk sensing headlamps and rain sensing wiper technology, the VR is guaranteed to satisfy any style-conscious driver. Seven SRS airbags including side and curtain airbags are standard, providing complete driver confidence and safety.

LANCER VRX

If you're looking for a bold, sporty sedan, you've found it in the new Lancer VRX. With an aerodynamic sculpted body and a sporty rear spoiler it's bound to attract attention. Advanced technology such as Smart Key and voice activated Bluetooth® phone connectivity make life so much easier, and sports-tuned suspension offers advanced handling and stability on every drive. Lancer VRX has got it all: athletic looks, exhilarating sporty performance and the latest technology at your fingertips.

NEXT GENERATION LANCER

With athletic, purposeful styling and an enviable motor sport heritage, the all-new Mitsubishi Lancer delivers an exhilarating driving experience. Its looks and performance may have been forged in competition, but its road manners are utterly refined.

There are three models in the new Lancer range: ES, VR and VRX. Powering each is the all-new 2.0 litre MIVEC engine which develops a spirited 113kW of power @ 6,000rpm and 198Nm of torque @ 4,250rpm.

A choice of two transmissions is available across the range - a responsive 5-speed manual or optional Continuously Variable Transmission (CVT) with INVECS III 'Sports Mode' automatic.

To provide the ultimate protection for you and your occupants, the Lancer range is equipped with superior passive and active safety features including driver and front passenger SRS airbags, a driver knee airbag, side and curtain airbags (VR and VRX models, optional on ES), Mitsubishi's RISE safety body shell, Anti-lock Braking System (ABS) with Electronic Brakeforce Distribution (EBD) and Brake Assist (BA), Active Traction Control (ATC) and Active Stability Control (ASC) across the range.

The new Lancer has plenty of brains to match the brawn, with a host of innovative features and clever technology to enhance your enjoyment behind the wheel.

An impressive Smart Key entry system (VRX) enables you to open the doors, boot and start the vehicle with the key still in your pocket. Paddle gear shifters (VRX CVT) and audio controls have been added to the steering wheel, giving you the control you want without ever needing to take your eyes off the road ahead. Voice activated Bluetooth® phone connectivity (VRX) allows you to drive safely and talk freely without moving your hands away from the steering wheel.

A spacious interior unlike most in its category delivers superior head, leg and shoulder room - providing supreme comfort to you and your passengers. In addition, ample storage compartments and 60/40 split fold rear seats offer complete flexibility and convenience.

Sport is not a specification, a colour, or an option on a list. It exists in the heart of the driver, and the soul of the Lancer.

CONVENIENT TECHNOLOGY

ENHANCED EXPERIENCE

New Lancer is packed with next-generation convenient technology to enhance your driving experience. From motor sport paddle gear shifters for instant and handy gear changes to the voice activated Bluetooth® phone connectivity that enables you to use your mobile hands-free whilst still concentrating on the road ahead. Lancer is ready to put the fun back into driving and put you in control behind the wheel.

ROCKFORD FOSGATE® PREMIUM AUDIO SYSTEM

The Rockford Fosgate® premium audio system is designed to provide crystal clear, low-distortion fidelity to make any type of music come alive. With a 6 stacker CD player with MP3 compatible auxiliary input and 9-surround sound speakers including an integrated 10-inch subwoofer, delivering a massive 650 watts. Available as an option only on VRX.

AUTO RAIN SENSING WIPERS

The Lancer VR and VRX come equipped with rain sensing wipers, technology normally found in more premium cars. A sensor automatically detects moisture on the windscreen, and according to the amount of rain present, the system will activate the wipers at the appropriate speed.

DUSK SENSING HEADLAMPS

Lancer VR and VRX do the thinking for you so you can stay focused on the road at all times. Your lights automatically come on when it gets dark outside or when you're travelling through a tunnel.

CRUISE CONTROL AND STEERING WHEEL MOUNTED AUDIO

In the new Lancer range everything is designed conveniently around your fingertips. On long drives, you'll love the convenience of having the cruise control built into the steering wheel for fully intuitive operation. Volume, track selection and sound mode controls are arranged on the steering wheel of the VR and VRX for easy access, allowing you complete control over what you're listening to - without taking your hands from the wheel.

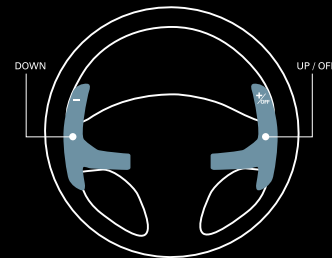

SMART KEY

Smart Key is Mitsubishi's advanced security transmitter, which means completely key-less operation. Thanks to Smart Key, Lancer VRX can recognise the key occupant within a 70cm radius. So, you can lock and unlock the doors, open the boot and even start the engine, all whilst the Smart Key is still tucked in your pocket or bag. The days of searching and fumbling for keys are no longer in your new Lancer.

PADDLE SHIFTERS

Take command of the driving experience in a whole new way with the Lancer VRX's racing-inspired paddle shift system. Built directly into the steering wheel, they provide the thrill of total control in your CVT automatic without taking your hands off the steering wheel.

VOICE ACTIVATED BLUETOOTH® PHONE CONNECTIVITY

Drive safely. Talk freely. Lancer VRX has the latest hands-free phone system technology, with voice activated Bluetooth® connectivity, allowing you to make calls with simple voice commands and receive calls at the touch of a button, all integrated through the vehicle's audio system. So you can

stay focused on the road.

AUTOMATIC CLIMATE CONTROL

Thanks to this clever system in Lancer VR and VRX, you'll never feel too hot or too cold. Temperature, fan speed and air

CONVENIENCE

IMPROVED COMFORT

The all-new Lancer provides an environment free from the distractions of the outside world with insulated doors keeping out unwanted noise and the use of high-quality materials giving it a relaxing feel similar to your own home. A spacious cabin setting makes the Lancer range a pleasure to drive before you've even started on your way; just sit back and feel the difference.

EXTRA STORAGE

Intelligent interior design means there's a place for everything in the new Lancer. In fact, everywhere you look you'll discover a clever place for storing items. So it's easy to keep your car clutter free.

CARGO SPACE

Lancer's boot has been smartly redesigned, with anti-intrusion hinges on the lid creating a more efficient use of space. This smart innovation means Lancer now provides up to 400 litres of useful storage capacity in the rear.

SPLIT FOLD REAR SEATS

Carrying extra large or long items is so much easier thanks to Lancer's split folding rear seat, which gives you direct access to the boot and expands your storage space. As a result, it's easier than ever to load and transport the bulkiest of items.

REAR SEAT ADJUSTABLE HEADRESTS

The perfect combination of form and function, these headrests not only look stylish but provide added comfort and head support for your rear passengers - as well as added safety benefits in the event of a rear-end collision.

ADVANCED TECHNOLOGY

ENGINE AND TRANSMISSION

Exhilaration behind the wheel: it's been the philosophy of every generation of Lancer. And new Lancer does not disappoint. From the powerful all-new 2.0 litre DOHC MIVEC engine to the sporty responsiveness of the transmission, you'll discover the true essence of performance and technology in this rally-bred car. Put your foot down and go.

MIVEC ENGINE

The new all-alloy MIVEC (Mitsubishi's Innovative Valve timing Electronic Control) engine delivers a spirited 113kW of power @ 6,000rpm and 198Nm of torque @ 4,250rpm. It offers the latest technology in the form of a lighter engine with intelligent valve timing technology to deliver excellent fuel efficiency and lower emissions, while providing improved drivability. It matches your driving style to minimise fuel consumption at lower revs, while increasing airflow at high revs for greater power and performance.

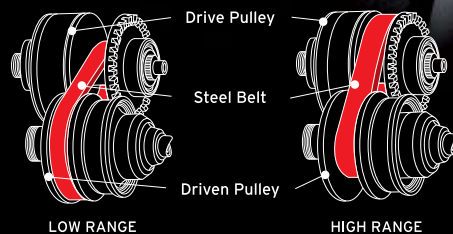

CONTINUOUSLY VARIABLE TRANSMISSION (CVT)

CVT automatic transmission is electronically integrated with MIVEC to ensure Lancer is operated in the best gearing for optimum revs. This ensures maximum power, excellent fuel economy and a smoother ride with seamless gear changes.

The transmission's advanced INVECS-III adaptive shift control system even tailors its response to your driving habits. The on-board computer learns and adapts to each driver's preferences by recording engine and foot braking data. The control logic then adapts the automatic gearshift timing to suit the driver's style. That makes for a better driving experience - and a more efficient one.

SPORTS MODE

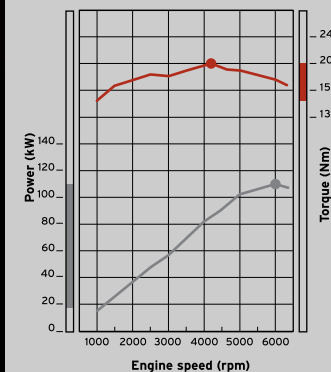

Enjoy an added level of control with six close steps neatly dividing the Continuously Variable Transmission's (CVT) gear range. You get the ease and convenience of an automatic or the control and flexibility of a clutch-less manual. And no clutch means you don't lose revs or torque. Combine this with Lancer VRX's paddle gear shifters for sporty, lightning fast gear changes. Driving just got a whole lot more fun.

RESPONSIVE 5-SPEED MANUAL TRANSMISSION

Driving enthusiasts may opt for the sporty performance of the smooth-shifting 5-speed manual transmission that offers the excitement of hands-on performance and control. This precisely tuned system features keyless synchronizers on all gears to achieve a superior shift-feel and tighter gear ratios.

2.0L MIVEC DOHC Engine

ADVANCED TECHNOLOGY

SUSPENSION

PERFORMANCE

Power without stability will get you nowhere fast. Lancer's advanced handling and stability should come as no surprise. Incorporating the lessons of the racetrack and the rally stages, Lancer fuses quick-responding suspension with a rigid body construction for high performance driving that's sure and confident.

The Lancer range makes sure work of unpredictable conditions. Responding exactly as needed, the independent suspension keeps all four wheels firmly on the road for performance that's as reliable as it is comfortable.

RIGID BODY AND SUBFRAMES

The Lancer body has been reinforced at key points to minimise bending and twisting, keeping everything smoothly on track through strength and stability. The flat front sub-frame helps resist flex-inducing forces, so the wheels keep their precise relationship with the road for impressive grip. This allows the suspension to do its job - keeping bumps and potholes out of the cabin compartment. Lancer offers a truly enjoyable drive with its great road-holding ability and smooth ride.

SPORTS-TUNED SUSPENSION

Lancer VRX's suspension was developed with handling and performance in mind. It has front and rear suspension that's as effective as it is high tech - MacPherson struts up front and rear multi-link independent system helps keep the wheels going right where you want them. This Lancer is not about to let forces of nature push it around.

Lancer VRX is also equipped with 16" front and rear brakes, providing controlled stopping power for everyday performance. The brake booster further increases stopping power, especially for emergency situations. All this is matched with a muscular set of 18" lightweight 10-spoke alloy wheels and high performance tyres for improved grip, cornering and overall stability.

FRONT STRUT BRACE

Lancer VRX suspension is more rigid with the incorporation of a front strut tower brace under the bonnet for more precise, directional handling and enhanced driving performance.

DRIVER CONFIDENCE

PASSIVE AND ACTIVE SAFETY

Your safety is important, and your family's safety is paramount. That's why Lancer is designed with the latest technology, offering some of the most comprehensive active and passive safety features available. You'll enjoy peace of mind on every journey taken in the all-new Lancer, knowing that it's built with safety of its occupants as a top priority

ACTIVE STABILITY CONTROL (ASC)

ASC maintains stability and prevents loss of control when cornering by automatically recognising understeer and oversteer. It then applies the brakes to the appropriate wheels to keep you on a straight line and in control through corners. ASC is standard across the Lancer range.

ELECTRONIC BRAKEFORCE DISTRIBUTION (EBD)

EBD helps you to stay in control and stop more quickly and safely. When carrying passengers or heavier loads, EBD distributes braking force between the front and rear wheels to ensure optimum braking and reduce stopping distance.

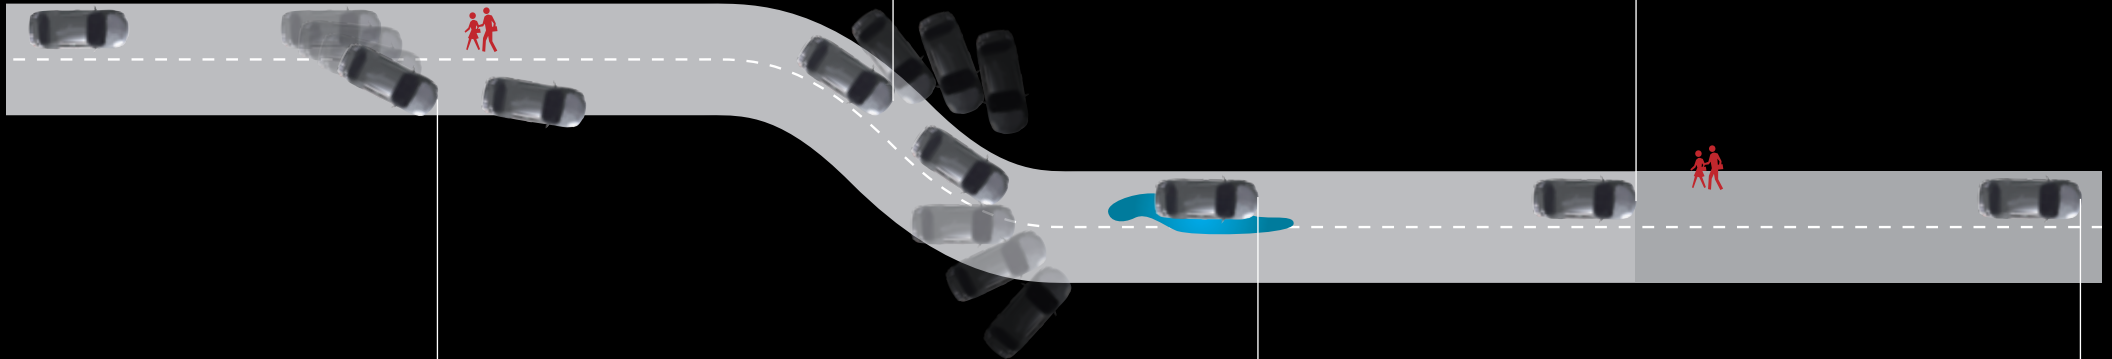

ANTI-LOCK BRAKING SYSTEM (ABS)

Lancer is ready to perform if you're faced with the unexpected. ABS helps the driver maintain steering control to avoid hazards by adjusting the braking pressure to prevent the wheels from locking up under hard braking or during an emergency stop.

ACTIVE TRACTION CONTROL (ATC)

ATC automatically controls and improves the stability and acceleration of the car by minimising wheel spin, maintaining traction at all times even in the most slippery conditions. ATC is standard across the Lancer range.

STOPPING
DISTANCE
WITHOUT EBD

SRS AIRBAGS

To provide ultimate protection in the event of a collision, Lancer is available with up to seven Supplementary Restraint System (SRS) airbags. Driver, front passenger and driver knee airbags are standard on all models, while side and curtain airbags are standard on VR and VRX, and optional on ES.

DRIVER KNEE AIRBAG

Lancer is the only car in its class to come equipped with a driver's knee airbag as standard across all models. In some head-on accidents, it stabilises the driver's legs and lower body. This allows the other airbags to do their job of protecting the upper body even more effectively.

SEATBELT PRETENSIONERS AND FORCE LIMITERS

Designed to work in conjunction with the SRS airbags, the driver and front passenger seatbelts feature pretensioners and force limiters, which combine to help protect you in the event of an accident. The pretensioners instantly draw back the belt, maximising restraint, while force limiters help reduce the sudden impact on you and your passengers.

ANTI-INTRUSION PEDAL SYSTEM

In the event of a front-on collision the brake pedal automatically moves away from the driver, protecting the legs and feet from injury.

REINFORCED IMPACT SAFETY EVOLUTION (RISE)

Lancer is safer than ever before, thanks to Mitsubishi's next-generation RISE rigid frame design. The RISE body system combines an energy-absorbing front section with a strong, rigid occupant cell to provide outstanding protection in the event of an accident. Crushable zones teamed with a straight frame chassis and octagonal section frames are designed to absorb and dissipate energy from the passenger compartment. The all-new Lancer offers 50% better bending rigidity and 56% increased torsional rigidity: that's unquestionably superior strength.

In addition, curved floor panels reduce vibration and further add to body strength, keeping you and your passengers cocooned and protected in the event of an accident

STATE OF THE ART INTERIOR

STYLISH INTERIOR DESIGN

Take a look at Lancer's VRX's stylish, fresh interior design. It has all the innovative functionality you'd expect on the inside, with an all-new sports styled interior incorporating exciting new design features to ensure your complete comfort and entertainment.

The first thing you'll notice is the ergonomically designed dashboard, with clean and simple lines. Then you'll notice how roomy the interior is, thanks to the superior head, leg and shoulder room. Sit in the body-hugging rally-inspired bucket seats and feel the exhilaration building. Then, when you start the engine, you'll appreciate how quiet the interior is and how everything you need is truly at your fingertips.

SPORTS INSTRUMENTATION WITH MULTI-INFORMATION DISPLAY

In another nod to its rally heritage, Lancer's sporty instrumentation displays feature stylish and simple-to-read silver and black speedometer and tachometer faces. Laid out to give you vital information at a glance, the display panel features stylish LCD digital read-outs, such as current gear position (CVT models), fuel level, distance until empty, average vehicle speed, average and instantaneous fuel consumption, engine and outside temperature and more. You can configure the display to show exactly the information you want.

ROCKFORD FOSGATE® PREMIUM AUDIO SYSTEM

The Rockford Fosgate® premium audio system is for you. With a 6 stacker CD player with MP3 compatible auxiliary input and 9-surround sound speakers including an integrated 10-inch subwoofer, delivering a massive 650 watts. Available as an option only on VRX.

LANCER VRX

ALL-NEW LANCER VRX

If you're looking for a bold and stylish sports sedan, you'll love the new Lancer VRX.

For drivers who like an energetic, flexible and dynamic on-road experience, there is only one choice - the range-topping Lancer VRX. Its sculptured body will certainly turn heads, with chiselled lines through the midsection and an aggressive, shark-like front end. But it's not all just about looking good... the VRX features sports-tuned suspension, larger brakes, front and side air dam, rear spoiler and 18" ten-spoke alloy wheels.

SPORTS PEDALS

SPORTY INTERIOR

The stylish interior boasts geometric check print instrument panel and door trim, sports seats with larger bolsters for lateral stability, 6-way adjustable driver seat function, audio steering wheel controls and lightweight, rally-inspired alloy sports pedals.

PADDLE GEAR SHIFTS

Rally-inspired paddle shifters, built directly into the steering wheel, give you ultimate control in an automatic, allowing you to make lightning quick gear changes in Sports Mode without your hands leaving the wheel.

VOICE ACTIVATED BLUETOOTH® PHONE CONNECTIVITY

Lancer VRX has the latest hands-free phone system technology, with voice activated Bluetooth® phone connectivity, allowing you to make calls with simple voice commands and receive calls at the touch of a button. All this is integrated through the vehicle's audio system, allowing you to stay focused on the road.

ELECTRIC SUNROOF

The fully automatic electric sunroof with tilt function enables you to enjoy fresh air and the warmth of the sun whilst on the move. This feature is only available as a combined option with the Rockford Fosgate® audio system.

LANCER VR

ALL-NEW LANCER VR

Lancer VR is a sleek and stylish sports sedan that offers sheer comfort and a great driving experience every time you sit behind the wheel. With bold aerodynamic lines and smart innovative features, it's guaranteed to satisfy any style conscious driver.

STYLISH INTERIOR

Sit inside the Lancer VR, and the latest technology and interior design will make you feel right at home. Steering wheel, gearshift knob and parking brake lever are leather-wrapped, and steering wheel audio controls are at your fingertips. VR also features front map lamps, floor console with lid for all your personal needs, chrome plated door handles and a unique audio 6 CD system with six speakers.

SPORTY EXTERIOR

As you'd expect from a stylish sports sedan, Lancer VR's exterior features a 16" 5-spoke alloy wheels, front fog lamps, side air dams, a rear lip spoiler and a chrome exhaust.

AUTO RAIN SENSING WIPERS

The Lancer VR comes equipped with rain sensing wipers, technology normally found in more premium cars. A sensor automatically detects moisture on the windscreen, activating the front wipers, which is especially handy when it's raining intermittently - as you can focus 100% on the road ahead.

DUSK SENSING HEADLAMPS

Lancer VR does the thinking for you so you can stay focused on the road at all times. Your lights automatically come on when it gets dark outside or when you're travelling through a tunnel.

SIDE AND CURTAIN SRS AIRBAGS

To provide ultimate protection in the event of a collision, Lancer VR is fitted with seven Supplementary Restraint System (SRS) airbags; driver, front passenger and driver knee airbags, as well as side and curtain airbags.

AUTOMATIC CLIMATE CONTROL AIR CONDITIONING

For the comfort of driver and passengers, Lancer VR features a fully automatic climate control system for front and rear seats.

6 STACKER CD

7 AIRBAGS

LANCER ES

ALL-NEW LANCER ES

For a well equipped all-round stylish sports sedan, you can't go past the Lancer ES. The new Lancer ES handles with the sure-footedness you'd expect from a model with such a distinguished sporting heritage. Boasting the sporty lines and aggressive styling that distinguishes the new Lancer range, ES comes equipped with a host of impressive features.

SPACIOUS INTERIOR

The superior seating provides an enjoyable ride for everyone on board. Lancer ES is a very comfortable place to be, thanks to the superior head, shoulder and leg room and a higher hip point for easier entry and exit.

TECHNOLOGY AT YOUR FINGERTIPS

With cruise control on the steering wheel, and power windows and electric door mirrors, it's easy to stay relaxed and comfortable, however long the journey.

EXTRA STORAGE

There's a place for everything in the new Lancer ES. Lancer's intelligent interior design means there's a host of locations for storing items, with front door pockets, cup holders in the centre console and front doors, cup holders in the rear arm rest for those in the back and a glove box.

SPLIT FOLD REAR SEATS

Carrying extra large or long items is so much easier thanks to Lancer's split folding rear seats, which gives you direct access to the boot and expands your storage space. As a result, it's easier than ever to load and transport the bulkiest of items.

AUSTRALIA'S BEST

MITSUBISHI DIAMOND ADVANTAGE

**DIAMOND
ADVANTAGE**
AUSTRALIA'S BEST
NEW CAR WARRANTY AND
CUSTOMER CARE

Mitsubishi's rally credentials are second to none. You don't win the world's most notorious rallies time after time without breakthrough, advanced engine technology and superior technological innovations.

Every Mitsubishi rally driver starts a race knowing they have a support system to back them up through every torturous, testing kilometre. It's a level of commitment every Mitsubishi driver can expect, and it's why we've created a comprehensive, efficient and sophisticated support system.

DIAMOND WARRANTY 5/10 YR ADVANTAGE

Mitsubishi Motors Australia Limited offers a 5 year/130,000km (whichever comes first) New Vehicle Warranty, a 10 year/160,000km (whichever comes first) non-transferable Powertrain Warranty and a 5 year Perforation Corrosion Warranty on all Mitsubishi cars and light commercial vehicles. Service conditions apply. See your dealer for details.

DIAMOND CUSTOMER ASSIST 24/7 ADVANTAGE

We're here to help, 24 hours a day, seven days a week. So just call Mitsubishi Motors Australia Customer Assistance Centre on 1300 13 12 11 if you have any questions, or for the location of your nearest Mitsubishi Dealer.

DIAMOND 200+ DEALER NETWORK ADVANTAGE

With a network of more than 200 dealers, Mitsubishi is never too far away.

DIAMOND 5 YR ROADSIDE ASSIST ADVANTAGE

Peace of mind is guaranteed anywhere in Australia with our free 5 year/130,000km (whichever comes first) Roadside Assist, 24 hours a day, 365 days a year. Our fast, comprehensive roadside service offers assistance, repairs, towing and storage. Our Premium Roadside Assist clients also enjoy the added benefits of accommodation, medical and transport facilities. Service conditions apply.

DIAMOND GENUINE PARTS ADVANTAGE

Your Mitsubishi will be serviced regularly by skilled Mitsubishi-trained technicians. Only genuine Mitsubishi parts are fitted to your car during scheduled servicing - parts that have been fully tested and meet Mitsubishi's stringent quality control. All these parts carry the Mitsubishi Genuine Parts 12 months unlimited kilometres guarantee.

DIAMOND FINANCE ADVANTAGE

Take the burden out of financing your new Mitsubishi vehicle with our competitive range of finance products, developed by Mitsubishi Motors Australia Limited and St. George Motor Finance Limited.

DIAMOND LEASING ADVANTAGE

Our tailored fleet leasing services offer innovative, highly competitive features such as card purchasing, roadside assistance, specialist maintenance services, accident and claims management, optional insurance and more.

DIAMOND INSURANCE ADVANTAGE

With the sound backing of Swann Insurance and Mitsubishi Motors Australia Limited, Mitsubishi owners can choose between vehicle and personal protection solutions including motor vehicle, gap cover and loan protection insurance as well as a range of tailored warranty policies.

DIAMOND GENUINE SERVICE ADVANTAGE

Diamond Advantage Genuine Service guarantees that your Mitsubishi is serviced as the maker intended. Mitsubishi Dealer Technicians are factory trained and have access to the latest technical information and service procedures relating to your vehicle and the tools and diagnostic equipment developed by the maker specifically for your vehicle. Enjoy peace of mind motoring by ensuring that your Mitsubishi gets the specialist care that only Diamond Advantage Genuine Service can deliver.

Always consult your authorised Mitsubishi Dealer for the latest details on specifications, options, prices, availability and conditions on New Vehicle Warranty.
