

PAJERO
PAJERO

TESTED BY THE BEST IN THE BUSINESS

Not just tested. Pushed to the absolute limit. Rally championships around the world have become the testing grounds for Mitsubishi production vehicles. And we've been doing it for over 40 years.

Constantly evolving technology from each and every gruelling challenge, culminating in vehicles of uncompromising durability, reliability and engineering excellence. What's more, we can't wait to go back and learn more.

DAKAR CHAMPION TWELVE TIMES OVER

A 9,000 kilometre race over the most inhospitable, treacherous terrain in the world. The searing heat of the Sahara desert, endless, mountainous sand dunes, gruelling conditions and roads through remote forests. The Dakar rally is the pinnacle of off-road racing. Even to finish is no mean feat.

To be the undisputed champion twelve times altogether, the last seven in a row, is extraordinary.

Australian Off Road
Championship
(Class 7)

THE ULTIMATE TESTING GROUNDS

Over 40 years of rally championships around the world have become the testing grounds for production of Mitsubishi vehicles. These are the places true off-road vehicles are born. The places we choose to test and develop the advanced 4WD technology and innovative driver confidence systems you'll find in every Mitsubishi production car. These deliver proven reliability and durability in 4WD innovations.

MITSUBISHI 4WD RANGE

The Mitsubishi range of 4WDs has been transformed, based on everything we have learned from the twelve time Dakar-winning Pajero. This leads the range into the next generation boasting advanced technology and active driver systems, making all other 4WDs seem second best.

Mitsubishi delivers the latest and greatest in 4WD technology, style, sophistication and unquestionable reliability, giving you the confidence to go anywhere and take on almost anything.

Whether you need a tough workhorse, serious off-roader or a more premium luxury model, Mitsubishi's leading range of rally-proven vehicles has the 4WD for you.

PAJERO 3 DOOR

The pocket-rocket of Mitsubishi's 4WD range. All of Pajero's features are loaded into a slick three-door package, with stand-out good looks and a shorter wheelbase for heightened off-road ability.

Pajero 3 door is the closest you can get to the acclaimed Pajero Evolution, the 4WD that wows the world in the Dakar Rally each year. Without a doubt, Pajero 3 door is a serious high performance 4WD.

TRITON

The tough, dependable Triton is an Aussie workhorse, equally at home on the farm, the building site, in the outback and around town.

The Triton range offers the latest technology with a powerful turbo diesel or petrol engine, a generous payload and the comfort of a large and quiet cabin. You'll find it tough to outweigh the powerful carrying capacity of the Triton. The Triton is a hard working ute that gets the job done.

OUTLANDER

The Outlander range is versatile, distinctive, powerful and technologically advanced. Outlander offers the flexibility of a 7 seat configuration, plus unique automatic fold-and-tumble second row seats.

Loaded with technology including a Rockford Fosgate premium audio system, rear DVD entertainment system, Smart Key entry, on-demand 4WD and a choice of powerful 4-cylinder or V6, fuel-efficient MIVEC engines, the Outlander is designed to fit with your life.

ADVENTUROUS PAJERO

Revolutionary 4WD technology, tested and tested again in the most gruelling conditions on earth, the Dakar Rally.

The Mitsubishi Pajero has also been part of Australia's greatest adventures since 1983. From Uluru to the Bungle Bungles, and, more importantly, back again. Whatever you put in front of it, Pajero will rise to the challenge.

The Pajero boasts advanced, powerful, fuel-efficient engines through a 3.8 litre MIVEC and a quiet 3.2 litre

Common Rail turbo diesel. All Pajeros are also equipped with MATT™ (Mitsubishi All Terrain Technology), and a multitude of advanced driver confidence systems with the availability of a rear diff lock to enhance driving control.

Pajero also boasts a tough RISE (Reinforced Impact Safety Evolution) monocoque body design for outstanding protection plus the safety of optional side and curtain SRS airbags and optional reversing sensors and reversing camera.

Every innovation in this next generation 4WD has been

developed so you can enjoy a better driving experience; satellite navigation, the premium 860 Watt 12 speaker Rockford Acoustic Design™ stereo with 10 inch subwoofer, rear entertainment system with 9 inch wide-screen DVD and third row seats that store under the rear floor for greater cargo space.

From the 5 door hard-working GLX, to the sporty VRX, and the style of the premium Exceed model, every Pajero delivers high levels of advanced technology and driver

confidence systems. The slick Pajero 3 door available as an R model and a top end X model, delivers a true high performance experience.

Experience your adventure in the best Pajero ever.

ADVANCED TECHNOLOGY

POWER & PERFORMANCE

The people, the journey. These are our inspiration, our driving force for the latest and greatest technology. Every next-generation innovation has been developed so that both driver and passengers enjoy an improved Pajero driving experience.

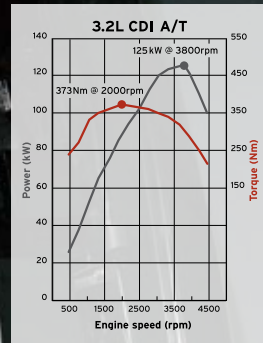

With a choice of two powerful, efficient engines, Pajero has never been better equipped for your off-road and on-road adventures. Pajero's impressive power and torque ensure you can take on the toughest terrain or tow your boat, caravan or trailer with confidence.

COMMON RAIL TURBO DIESEL ENGINE

The very latest in diesel engine technology delivers power without compromise. The 3.2 litre Common Rail turbo-charged diesel yields not only next generation quietness, smoothness and fuel efficiency through an advanced common rail system, but delivers 125kW of power and 373Nm of grunty torque.

MIVEC ENGINE

The 3.8 litre V6 MIVEC Engine (Mitsubishi Innovative Valve timing and lift Electronic Control) offers the latest technology with a lighter engine and intelligent valve timing technology to deliver improved fuel efficiency and lower emissions, while providing improved driveability. The MIVEC Engine matches your driving style to minimize fuel consumption at lower revs while increasing air flow at high revs for greater performance and an awesome 184kW.

ADVANCED TECHNOLOGY

ADVANCED TRANSMISSIONS

Pajero offers a choice of intelligent transmissions perfectly matched to either engine and your preferred driving style. A smooth-shifting 5-speed, all syncromesh manual gearbox delivers the ultimate hands-on driving experience.

Or if you prefer automatic, the INVECS II 'Smart Logic' 5-speed automatic transmission with Sports Mode will be sure to provide the control you need.

MANUAL TRANSMISSION

SPORTS MODE AUTOMATIC TRANSMISSION

Sports Mode allows you to manually shift gears without using a clutch. The advantage is that this clutch-free operation reduces rev and torque loss usually associated with engaging gears, maintaining precious momentum in off-road situations.

COMPARISON OF SHIFT RESPONSE

5-SPEED AUTOMATIC WITH INVECS II 'SMART LOGIC'

To provide smoother shifting, the INVECS II 'Smart Logic' transmission system's on-board computer learns and adapts to each driver's preferences by recording engine and foot braking data. The control logic then adapts the gearshift timing to suit the driver's style. You'll have effortless acceleration and a more predictable ride.

ADVANCED TECHNOLOGY

NEXT GENERATION TECHNOLOGY

The latest next-generation communications and entertainment technology has been incorporated inside the cabin to enhance the enjoyment of your Pajero journey. Sit back and enjoy.

MITSUBISHI MULTI COMMUNICATION SYSTEM (MMCS)

MMCS has not only advanced navigation functions and touch screen functionality, but integrated information tools that inform the driver of an array of information from the vehicle such as maintenance instructions and audio settings. It is also iPod compatible which enables you to charge and control your iPod through the touch screen MMCS.

MMCS SATELLITE NAVIGATION SCREEN

MMCS AUDIO SETTING SCREEN

* Dealer accessory required to connect to iPod.

MULTI-FUNCTION DISPLAY

Actively monitoring your journey, Pajero's multi-function display can provide endless information about your environment. A barometer to help track weather conditions and keep you comfortable, an altimeter to show you how high you've climbed, a compass to point you in the right direction and average vehicle speed and fuel consumption calculations to name a few.

REAR-ENTERTAINMENT DVD SYSTEM

Why should the driver have all the fun? Pajero Exceed rear-seat passengers can enjoy sophisticated in-car entertainment with their very own DVD player with a 9" full-colour screen.

PlayStation® game-compatible, it includes two infrared cordless headphones. As passengers watch a DVD, the rest of the car can listen to music, or simply tune out and take in the surrounding scenery.

ROCKFORD ACOUSTIC DESIGN™ PREMIUM AUDIO SYSTEM

Delivering a massive 860 Watts with 12 surround-sound Dolby 5.1 channel speakers and an integrated 10-inch subwoofer, Pajero Exceed has the sound to match its looks.

8CM ROCKFORD SPEAKER

25CM SUBWOOFER

Diagram is for illustration of speaker location only.

VERSATILITY

FLEXIBLE SEATING

Pajero comfortably seats seven people. The third row seats can be completely removed, or simply fold and store under the rear floor, providing greater rear cargo storage.

DRIVER CONFIDENCE

MATT: MITSUBISHI ALL TERRAIN TECHNOLOGY

Mitsubishi brings you the latest in superior 4WD technology. All Pajero models are equipped with Mitsubishi's rally proven MATT™ (Mitsubishi All Terrain Technology).

This sophisticated MATT™ package, derived from technology tested in the brutal Dakar rally operates using numerous intelligent sensors constantly monitoring your vehicle's wheel speeds, lateral and longitudinal g-forces and yaw rates. The on-board computer then processes this data and matches it to driver intentions via steering wheel and throttle sensors to provide optimum driving performance.

MATT

MITSUBISHI ALL TERRAIN TECHNOLOGY

MATT™: MITSUBISHI ALL TERRAIN TECHNOLOGY

MATT™ incorporates the following advanced systems to enhance your driving control:

- Active Stability Control (ASC)
- Active Traction Control (ATC)
- Engine Brake Assist Control (EBAC)
- Super Select 4WD II
- Multi-Mode Anti-lock Braking System (ABS)
- Electronic Brakeforce Distribution (EBD)
- Rear diff lock (optional)
- Mitsubishi Body Optimised Suspension (MBOS)

MULTI-MODE ANTI-LOCK BRAKING SYSTEM (ABS)

Make driving on slippery roads safer. Pajero's intelligent 4-channel, 4-sensor braking system monitors different wheel speeds and activates brakes to individual wheels when required to deliver superior control. This allows you to manoeuvre around objects under heavy braking conditions.

ACTIVE STABILITY CONTROL (ASC)

Maintains stability and prevents loss of control when cornering, automatically recognising under-steer and over-steer, and applies braking to the diagonal wheel to keep you on-line through corners.

ELECTRONIC BRAKEFORCE DISTRIBUTION (EBD)

Stopping distances are reduced as EBD detects when you are carrying passengers or heavier loads and automatically increases rear-braking force.

**STOPPING DISTANCE
WITHOUT EBD**

ACTIVE TRACTION CONTROL (ATC)

Maintain traction on the most slippery or rugged of surfaces with Active Traction Control. This intelligent system automatically controls the engine output so driving wheels are prevented from spinning. Sensing loss of traction in an independent wheel, it applies braking force to that wheel and sends extra power and torque to other wheels with traction to keep you moving.

ENGINE BRAKE ASSIST CONTROL (EBAC)

You'll have superior control when stepping down steep descents with the incorporation of Engine Brake Assist Control (EBAC), because you won't be losing engine braking and traction due to slipping wheels. This system works automatically when descending steep slopes in 4LLc mode.

INDEPENDENT MULTI-LINK REAR SUSPENSION

For superior handling, Pajero boasts independent multi-links with coil springs combined with increased suspension travel and track. The result is maximum tread contact on rough terrain. The independent layout also reduces understeer and improves cornering stability to enhance ride comfort both on and off the road.

SUPER SELECT 4WD II

Super Select II lets you have full-time 4WD with selectable 2WD mode - the choice of around town fuel efficiency and off-road traction whenever you want. This unique system allows you to alternate between 4WD and 2WD modes at speeds of up to 100 kilometres per hour on any surface.

2H (2WD HIGH RANGE)

When you're cruising down the highway or just going across town, 2H shifts you into rear-wheel drive for smooth, quiet, fuel-efficient performance.

4H (FULL-TIME 4WD)

When the weather turns bad and the road gets rough, get added traction in 4H mode. The dynamic front/rear torque split adjusts between 33:67 and 50:50 for greater control in high-speed driving.

4HLC (4WD HIGH RANGE WITH LOCKED CENTRE DIFFERENTIAL)

Keeping you on track in rugged or slippery conditions, 4HLC distributes power equally to all four wheels to meet off-road challenges with a steady sense of control.

4LLc (4WD LOW RANGE WITH LOCKED CENTRE DIFFERENTIAL)

Switch to 4LLc when you need all the tractor-like crawling power your Mitsubishi 4WD is capable of. Maximised low-end torque pulls you through even the roughest terrain, stickiest mud and deepest snow.

REAR DIFF LOCK

Pajero has optional rear diff lock to enhance the MATT™ package. This provides superior traction for heavy duty four wheel driving. With the rear diff locked, both rear wheels receive the same amount of driving force regardless of surface to provide the maximum possible traction in difficult conditions.

FRONT SUSPENSION

REAR SUSPENSION

FOUR WHEEL VENTILATED DISC BRAKES

Large disc brakes provide better stopping power, and, combined with 17" or 18" alloy wheels, enable true off-road capability.

DRIVER CONFIDENCE

TECHNOLOGY DESIGNED TO SAVE LIVES

Your safety is important, and your family's safety is paramount. That's why Pajero is designed with both driver and passenger safety front of mind.

RISE MONOCOQUE BODY

Mitsubishi's RISE (Reinforced Impact Safety Evolution) monocoque body system with integrated chassis is a highly rigid one-piece shell that has come through the punishing ups and downs of the world's toughest rally like a true champion.

MONOCOQUE BODY INCORPORATING STRAIGHT FRAMES WITH LARGE CROSS SECTIONS

The super-strength cabin will cocoon your family with the protection of a safety cage. In the event of an accident, impact-absorbing crushable zones will minimise the impact to passengers. A lower centre of gravity and reinforced critical points increase vehicle stability to deliver superior handling. Mitsubishi's RISE body provides not only safety but also strength for recovery and towing. It's an ingenious design ensuring passenger car safety and handling with all the off-road prowess of a rally champion.

HIGH RIGIDITY DECK

Joining A-pillars with deck realises high rigid cabin structures: construction minimises backward movement of steering column reducing injury to the driver.

LARGE BODY JOINT REINFORCEMENTS

Addition of large reinforcements to each body joint significantly increases rigidity of joints.

REAR STRAIGHT FRAMES

In rear collisions, rear straight frames efficiently absorb energy and combine with high rigidity of tailgate area to minimize cabin intrusion to protect passengers in the rear.

CRUSHABLE ZONES

Two crushable zones fore and aft of engine and suspension mounts, absorb energy; if collision intrusion reaches the engine, engine and second crushable zones will absorb and dissipate collision energy.

SIDE AND CURTAIN AIRBAGS

Standard on Exceed and X models and optional across other models, for optimal protection of driver and passengers - front and back - in the event of a side-on collision.

DRIVER AND PASSENGER SRS AIRBAGS

Standard Supplementary Restraint System (SRS) airbags on all models provide essential protection in the event of a frontal collision.

OVERSEAS MODEL SHOWN.

VISIBILITY CONCEPT

Mitsubishi's superior visibility concept combines with many different features to give you greater visibility of your environment while ensuring other drivers are aware of your Pajero on the road.

REVERSING CAMERA

See out back before you hit the road. The Pajero Exceed has a rearview camera that supports the driver's rear field of view, automatically appearing on screen when reverse gear is engaged, helping to restore sight to the biggest blind spot of all.

CENTRALLY MOUNTED SPARE WHEEL

A centrally mounted spare wheel in a lowered position provides greater rearward visibility. Combined with reversing sensors on X model and reversing camera on Exceed, Pajero gives you confidence when reversing.

HIGH INTENSITY DISCHARGE HEADLAMPS

Exceed and X models take the Pajero visibility concept to the next level with High Intensity Discharge (HID) headlamps providing optimal night time visibility with a wide view and a bright, daylight-type illumination.

Automatic headlamp levelling ensures the headlamp beam's aim is accurate and can help to prevent dazzling drivers of oncoming vehicles. This is coupled with headlamp washers to ensure maximum visibility is maintained.

SIDE INDICATOR LIGHT

Integrated turn indicators on large exterior rear view mirrors on the X, VRX or Exceed models provide greater visibility and clear indications to other road users of your actions.

STATE OF THE ART INTERIOR

Take a look at Exceed's luxury interior, and ask yourself if this isn't how you want to enjoy your next on-road or off-road adventure. Everything is at your fingertips.

And your passengers will be more comfortable too, with state-of-the-art entertainment and climate control to make long trips more enjoyable. For everyone.

MULTI-MEDIA SYSTEM

Long family drives just got shorter with a 9" full-colour panoramic screen, which includes two infrared cordless headphones so your rear passengers can watch a DVD and not bother other passengers. They can even plug into an auxiliary jack that is PlayStation gaming compatible.

SPORTS INSTRUMENTATION

The Pajero boasts stylish blue illuminated dials that are aeronautically inspired.

PAJERO EXCEED

The Pajero Exceed. You couldn't ask for a 4WD that provides a higher level of comfort, power, safety features and luxury than this - standard.

Whether you live in the city or in the country, you'll love the luxury appointments. And if you expect the highest quality, you'll get it.

Exceed boasts the premium Rockford Acoustic Design™ 12 speaker 860 Watt stereo system, unique 18" alloy wheels, HID headlamps with headlamp washers, and inside you'll find luxuries such as driver and passenger power seats, rear entertainment unit with 9" colour widescreen DVD, separate rear seat air conditioning, and the safety of side and curtain airbags.

HEATED LEATHER SEATS

Exceed has leather facing front and second row seats with heated front seats for comfort.

REAR-ENTERTAINMENT DVD SYSTEM

PlayStation® compatible, it includes two infrared cordless headphones.

ELECTRIC SUNROOF

The optional full-sized sunroof helps bring the outdoors in.

REVERSING CAMERA AND REVERSING SENSORS

SATELLITE NAVIGATION

PAJERO VRX

The perfect blend of sports styling and creature comforts. On the outside, you'll be impressed by the 18" alloy wheels, front and rear fog lamps, side steps, spoiler and privacy glass.

On the inside, you're going to love the heated driver and passenger seats with power adjustable driver's seat to keep you sitting comfortably on your journey. The sports styling continues inside the cabin too with leather-bound steering wheel, gear shift and handbrake lever and illuminated vanity mirrors.

It's a sporty 4WD, and you can't beat its off-road credentials.

ALLOY PEDALS

Alloy pedals finish off the sporty feel of the interior*.

*Shown with Accessory carpet mats.

PAJERO GLX

Off-road adventurers secretly tell us they've always preferred the rugged, capable GLX because it truly looks and feels the part.

To enhance your off road experience it is equipped with MATT™ 4WD technology with Super Select II 4WD engagement. GLX is also crammed with features - power steering, cruise control and power door mirrors that all make for effortless driving. Auto air conditioning, a six stacker CD and 17" alloy wheels raise the GLX driving experience to new standards for an entry-level 4WD. To ensure the utmost safety for your family, there are driver and passenger SRS airbags and seatbelt pre-tensioners.

LEATHER STEERING WHEEL WITH AUDIO AND CRUISE CONTROLS

The luxury of leather with on-wheel controls puts you in charge of audio and cruise at the touch of a button, without ever having to shift your focus from the road ahead.

6-CD STACKER

The MP3 compatible 6-CD stacker will allow you to go wherever radio reception won't and still have hours of the music you like.

MULTI-FUNCTION DISPLAY

X model exterior.

PAJERO 3 DOOR

The Pajero 3 door offers unheralded performance from either a blistering 182kW 3.8 litre MIVEC V6 petrol engine to a mountain-climbing 3.2 litre Common Rail turbocharged diesel. More manoeuvrable in the city, and with the heightened off-road ability of its shorter wheelbase, the new Pajero 3 door's sportier look, slick interior and pocket-rocket performance make it a standout winner. Available in the bush racer R model or the 4WD sports coupe X model it's the closest you can get to rallying a Pajero Evolution in Dakar.

MITSUBISHI POWER SOUND SYSTEM

The X model now comes with MPSS, a premium audio system with 420 Watt power amplifier and eight speakers in six locations.

R model interior.

MATT

MITSUBISHI ALL TERRAIN TECHNOLOGY

THE WHOLE MATT™ PACKAGE

The 3 door may be compact, but it doesn't miss out on the performance of the MATT™ package for superior driver confidence.

AUSTRALIA'S BEST

MITSUBISHI DIAMOND ADVANTAGE

Mitsubishi's 4WD rally credentials are second to none. You don't win the world's most notorious rallies time after time without breakthrough advanced engine technology and superior 4WD technological innovations.

Every Mitsubishi rally driver starts a race knowing they have a support system to back them up through every torturous, testing kilometre. It's a level of commitment every Mitsubishi driver can expect, and it's why we've created a comprehensive, efficient and sophisticated support system.

DIAMOND warranty 5/10 YR ADVANTAGE

Mitsubishi Motors Australia Limited offers a 5 year/130,000km (whichever comes first) New Vehicle Warranty, a 10 year/160,000km (whichever comes first) non-transferable Powertrain Warranty and a 5 year Perforation Corrosion Warranty on all Mitsubishi cars and light commercial vehicles. Service conditions apply. See your dealer for details.

DIAMOND CUSTOMER ASSIST 24/7 ADVANTAGE

We're here to help, 24 hours a day, seven days a week. So just call Mitsubishi Motors Australia Customer Assistance Centre on 1300 13 12 11 if you have any questions, or for the location of your nearest Mitsubishi Dealer.

DIAMOND 200+ DEALER NETWORK ADVANTAGE

With a network of more than 200 dealers, Mitsubishi is never too far away.

DIAMOND 5 YR ROADSIDE ASSIST ADVANTAGE

Peace of mind is guaranteed anywhere in Australia with our free 5 year/130,000km (whichever comes first) Roadside Assist, 24 hours a day, 365 days a year. Our fast, comprehensive roadside service offers assistance, repairs, towing and storage. Our Premium Roadside Assist clients also enjoy the added benefits of accommodation, medical and transport facilities. Service conditions apply.

DIAMOND GENUINE PARTS ADVANTAGE

Your Mitsubishi will be serviced regularly by skilled Mitsubishi-trained technicians. Only genuine Mitsubishi parts are fitted to your car during scheduled servicing - parts that have been fully tested and meet Mitsubishi's stringent quality control. All these parts carry the Mitsubishi Genuine Parts 12 months unlimited kilometres guarantee.

DIAMOND ADVANTAGE

AUSTRALIA'S BEST
NEW CAR WARRANTY AND
CUSTOMER CARE

DIAMOND finance ADVANTAGE

Take the burden out of financing your new Mitsubishi vehicle with our competitive range of finance products, developed by Mitsubishi Motors Australia Limited and St. George Motor Finance Limited.

DIAMOND leasing ADVANTAGE

Our tailored fleet leasing services offer innovative, highly competitive features such as card purchasing, roadside assistance, specialist maintenance services, accident and claims management, optional insurance and more.

DIAMOND insurance ADVANTAGE

With the sound backing of Swann Insurance and Mitsubishi Motors Australia Limited, Mitsubishi owners can choose between vehicle and personal protection solutions including motor vehicle, gap cover and loan protection insurance as well as a range of tailored warranty policies.

DIAMOND GENUINE SERVICE ADVANTAGE

Mitsubishi offers one of Australia's best service intervals of 15,000km or 6 months. Regular scheduled servicing ensures the long-term reliability and safety of your Mitsubishi and our Scheduled Service Program also helps protect your car's resale value.

Front (2) and rear (2) tow hooks	S	S	S	S	S
Mitsubishi Body Optimised Suspension (MBOS) - independent front and rear	S	S	S	S	S

* Subject to state regulations and towbar designs. A Weight Distribution Hitch (WDH) is recommended for towball downloads exceeding 135kg. For further information, please refer to the Pajero owner's manual.

[†] These figures are obtained from controlled laboratory tests conducted by Mitsubishi Motors to Australian Design Rule ADR81/01 and are provided to assist you in comparing the fuel consumption of Pajero with other vehicles. The actual fuel consumption you achieve will depend, however, on many factors, including your driving habits, the prevailing conditions and your vehicles equipment, condition and use.

² Rear Differential Lock is only available on diesel models, except when combined with Sunroof on Exceed. Rear Differential Lock cannot be combined with Side and Curtain Airbags or Sunroof on R model.
