Audio and Electronics

Switching to smart technologies

Upgrade the City experience by choosing from a range of smart technologies, such as the Bluetooth® Phone System and Premium Tweeter Speaker Set. Communicate easily and keep your ears entertained with accessories that are wired into your Honda's system and deliver exceptional quality and convenience.

6 Bluetooth® Phone System† – communicating made easy.

No matter where you've left your mobile phone in the vehicle, this intelligent system lets you take calls with your hands on the steering wheel and your eyes on the road. Using versatile technology, the Bluetooth® Phone System is easy and safe to use. It automatically detects a call and conveniently turns down the audio system. Once the call has finished, the audio system is turned back up. No wires, no cradles, no hassles. Please check mobile phone compatibility with your Honda Dealer.

7 Premium Tweeter Speaker Set – music to your ears.

The City not only looks great, it sounds awesome. The high-power, high-tech stereo has a 180W amp, four speakers and DSP graphic equalizer. The CD player reads MP3, WMA and AAC files. Plug your iPod® into the USB jack and select your favourite tunes using the City's steering wheel mounted audio controls. The USB and auxiliary jack mean you can hook up other audio players as well and your mobile phone.

Sound sensational? Well the Premium Tweeter Speaker Set will make it even better. The set delivers an improved high frequency response for more detailed sound reproduction. The quality and definition will blow you away – or you can adjust the sound to prevent blowing away! If you're serious about sound, you seriously need to check out the Premium Tweeter Speaker Set.

Honda Genuine Rear Park Assist
– A virtual sixth sense.

Imagine how easy life would be if you always had someone to guide you when moving back into a parking spot. This is in effect what Honda Genuine Rear Park Assist does for you. If an object is within range of a Rear Park Assist sensor, the sensor detects its presence within the zones and depending on the distance will emit an audible beep. The closer you get to the object, the more frequent the beep sounds.
