

## Why be like everyone else?

If you're looking for something out of the ordinary, the Civic Si is sure to catch your eye. In fact, with only a limited number of these luxury hatches available in Australia, you're guaranteed to stand out from the crowd.

This is a bold, smart piece of design that simply can't be ignored. A short front and muscular stance accentuate the Civic Si's sporty side. And concealed rear door handles ensure an unspoilt, unusually elegant bodyline.

But why should your sense of sight be the only one that's indulged? Step inside and prepare for some serious pampering. Beautifully finished, black leather† seats with built-in seat heaters envelop and embrace you. A leather-wrapped steering wheel with cruise and audio controls waits patiently for your touch. Honda's revolutionary Dual Link Concept dashboard design places everything you need instantly at reach, while a dual zone climate control ensures you enjoy it all in perfect comfort. There's even a climate controlled glovebox to keep food and drinks in comfort, too.

When you need your space, however, the Civic Si opens a whole new world of possibilities thanks to its Magic Seats. It gives you three different modes to choose from – Tall, Utility and Long Mode. So you can either fold the back seats flat or tip up their bases and create a space suitable for almost anything. Flat packed furniture? Golf clubs? That painting you couldn't live without? Yes, yes, and yes.

Interior colour for Civic Si is Black. †Leather interior includes some PVC vinyl material. \*The fuel consumption figure quoted in this flyer is based on ADR81/02 combined test results for Civic Si manual transmission. \* Firmware updates required for iPod models older than 5<sup>th</sup> Generation to achieve compatibility with steering wheel mounted audio controls.

On the road, the ride is astonishingly quiet thanks to its lightweight anti-noise body structure, which leaves you to enjoy its 6 speaker CD player with MP3 compatibility and USB connectivity. So once you've plugged in your iPod\* you can select your tunes straight from the steering wheel mounted audio controls.

Sporting a powerful 1.8 litre SOHC i-VTEC engine generating 103kW, the Civic Si uses only 6.9 litres of fuel per 100km. And that's why we like to say you'll "drive every drop". It also comes with a specifically designed, lightweight 6-speed manual transmission or an impressive 5-speed automatic. And by combining finely tuned suspension with an attractive wide stance, this 5 door offers flat and sharp cornering stability, pinpoint handling and ultra responsive steering. So smooth and sporty are no longer mutually exclusive.

Of course, the Civic Si also comes with Honda's advanced G-force Control (G-Con) technology which includes an innovative Advanced Compatibility Engineering (ACE) body structure. The Civic Si also offers a comprehensive list of safety features such as Vehicle Stability Assist (VSA), Anti-lock Braking System (ABS) with Electronic Brake-force Distribution (EBD) and full curtain airbags and dual front and side airbags.

This is certainly one car that will indulge you in luxury, and still woo your practical side.

## Civic Si Specifications.
