Protection

What does it take to ruin your investment?

Wear and tear on your vehicle may lead to premature depreciation, and hit your hip pocket when it comes time to sell. Keeping your Honda in showroom condition may help promote higher resale value and is now simple to do with Honda Genuine Protection Accessories.

Honda Genuine Rear Park Assist
– A virtual sixth sense.

Imagine how easy life would be if you always had someone to guide you when moving back into a parking spot. This is in effect what Honda Genuine Rear Park Assist does for you. If an object is within range of a Rear Park Assist sensor, the sensor detects its presence within the zones and depending on the distance will emit an audible beep. The closer you get to an object, the more frequent the beep sounds.

The air inside your car may contain billions of tiny particles that can trigger allergies – pollen, dust, fungus, plant spores and everyday pollutants such as exhaust fumes and soot – all of which can be up to six times more concentrated inside your vehicle than outside.

A Honda Genuine Dust and Pollen Cabin Filter is an easy and efficient way to help reduce them.
