

CHALLENGER

love that car

LOVE THAT CAR

HERE AT MITSUBISHI, WE LOVE OUR VEHICLES. WE LOVE THEIR SUPERIOR QUALITY,

*WHAT THEY STAND FOR,
AND WHAT THEY'RE CAPABLE OF.*

AND WE WANT YOU TO FEEL THE SAME WAY.

IT'S WHY WE STRIVE FOR THE HIGHEST STANDARDS IN EVERYTHING WE DO,

*AND IT'S WHY WE BACK ALL OUR VEHICLES WITH OUR MITSUBISHI DIAMOND ADVANTAGE,
AUSTRALIA'S BEST NEW CAR WARRANTY, CAPPED PRICE SERVICING AND CUSTOMER CARE.*

OUR PROMISE

When you buy a Mitsubishi Challenger, or any vehicle from our range, you're buying a vehicle that's backed by world-class research, technical innovation, and leading performance. In every area of our business, we're continually focussed on four key values. By following these values, we never fail to create superior vehicles that people love.

STREET PRESENCE

We design attention grabbing vehicles with real street presence. We're focussed on delivering vehicle design that not only defines the best in innovation but embodies the essence of genuine performance, handling dynamics and absolute driving pleasure.

ADVANCED TECHNOLOGY

We'll continue to develop ground-breaking technology that focuses on better control, performance and lifestyle. This includes innovations such as our Mitsubishi All Terrain Technology (MATT™), our variable geometry turbo diesel engine and our leading Mitsubishi Multi Communication System (MMCS).

DRIVER CONFIDENCE

We're committed to raising the bar in terms of safety, which gives peace of mind to all occupants. Our Mitsubishi Reinforced Impact Safety Evolution (RISE) body design remains at the heart of our vehicle safety philosophy. Mitsubishi's leading active safety features like Active Stability Control and Traction Control put Challenger at the forefront of safety technology.

SUPERIOR VALUE

We'll constantly strive to deliver the ultimate customer experience at all times. This is reflected by the Mitsubishi Diamond Advantage, Australia's best new car warranty, capped price servicing and customer care, by our feature-packed vehicles, and our ongoing commitment to making our vehicles more cost effective and fuel efficient.

When you're a busy family your day can be hectic. You're always in and out of the car, running multiple errands and transporting anything from school bags to surf boards. We know that when it comes to doing all this, you want to be comfortable. You want a car you can rely on, feel confident and relaxed in, and be proud of when you sit behind the wheel. It's for these reasons that we designed the new, versatile Mitsubishi Challenger.

Challenger's stylish new design fuses Mitsubishi's proven 4WD credibility with the sleek and refined lines of a sporty SUV. The result is a vehicle that looks comfortable anywhere you are – whether it's an inner-city street, a busy freeway, or a remote rocky coastline.

Available in a well-presented LS and a premium XLS model, it has a spacious versatile interior that will make driving a pleasure. Under the bonnet, you'll find a fuel-efficient, 2.5L intercooled turbocharged Diesel Engine with the very latest in Mitsubishi's Common Rail Direct Fuel injection system. And thanks to Mitsubishi's Super Select 4WD system, you can cross from city streets to the great outdoors with the flick of a lever.

MITSUBISHI CHALLENGER
HAS EVERYTHING YOU WOULD EXPECT
FROM A *STYLISH* FAMILY SUV
PLUS THE ABILITY TO TRULY ESCAPE
TO THOSE FAVOURITE GETAWAYS
OFF THE BEATEN TRACK.

The Challenger features refined and luxurious styling and incredible seating versatility – so you can fit up to a family of seven with ease. Mitsubishi Challenger's ready for anything your family can throw at it. You can choose between two row (five-passenger) or three row (seven-passenger) seating options. The third row has a 50/50 split fold providing a variety of seating configurations.

Challenger's high driving position provides a confident view of the traffic around you. The stylish interior is durable to withstand all the family activities such as swimming lessons, trips to the beach or even weekend adventures. The interior is distinguished by clean, sleek, unbroken surfaces. The soft-touch upholstery, chrome interior handles and elegant wood-print inlays add an extra element of style. As well as leather seat trim, a leather bound steering wheel, gear shift and transfer lever, power windows, plus driver and front passenger power seats with slide, dual height and reclining functions.

Put control at your fingertips – with the Mitsubishi Multi Communication System (MMCS). Enabled by a single touch screen, the MMCS has advanced satellite navigation functions and reversing camera. Fully iPod compatible you can charge and control your iPod, and it even has Bluetooth® phone connectivity.

*ENJOY A
COMFORTABLE
DRIVE NO MATTER
WHERE YOU'RE HEADING.*

XLS model shown with optional MMCS

WHETHER YOU'RE CRUISING ALONG
CITY STREETS OR EXPLORING
RUGGED TERRAIN, THE MITSUBISHI CHALLENGER IS READY
 FOR ANYTHING YOUR FAMILY CAN THROW AT IT.
 POWERED BY A 131kW, 2.5L INTERCOOLED **TURBOCHARGED**
 COMMON RAIL DIRECT INJECTION DIESEL ENGINE, **THE CHALLENGER DELIVERS**
FLAWLESS PERFORMANCE AND OUTSTANDING FUEL ECONOMY

3 TONNE TOWING CAPABILITY

Challenger is equipped with a powerful 3,000kg towing capacity. The turbo diesel engine and full-time 4WD capability will make towing the boat, caravan or trailer on your next family adventure a breeze.

2.5L COMMON RAIL HI POWER TURBO DIESEL WITH VGT

Challenger offers the latest in Common Rail turbo diesel technology. An enhanced variable geometry turbocharger (VGT) works to optimize the turbine flow rate in order to achieve high torque at low speeds and maximised power at high speeds. The result is excellent emission control, fuel efficiency and high engine power for superior performance. The 2.5 litre turbocharged diesel engine yields next generation quietness, smoothness and fuel efficiency, taking you further for less without compromise, with an impressive 131kW of power and 400Nm of torque for the manual and 350Nm for the automatic.

5 SPEED SPORTS MODE AUTOMATIC

Sports Mode allows you to enjoy the ease and comfort of an automatic, with the option of then switching to the versatility and control of a 5 speed manual without the use of a clutch pedal.

The clutch free operation reduces the rev and torque loss usually associated with engaging gears, meaning you can maintain momentum in off-road situations.

PADDLE SHIFTS

When the gear shift is in Sports Mode position, paddles on the Challenger steering wheel allow you to make lightning quick gear changes without your hands leaving the wheel.

COMPARISON OF SHIFT RESPONSE

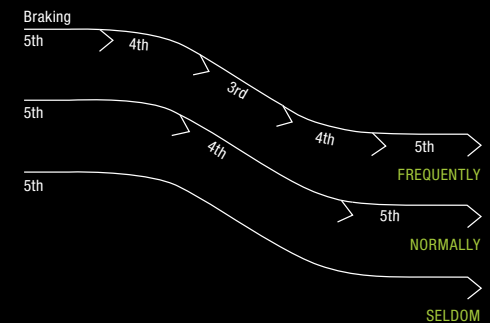

INVECS II SMART LOGIC

The Smart Logic transmission system learns and adapts to each driver's preferences by monitoring acceleration and foot brake data. The control logic then adapts the gearshift timing to suit your driving style.

ADAPTIVE SHIFT CONTROL DURING ACCELERATION

ADAPTIVE SHIFT CONTROL GOING DOWNHILL

Challenger is seriously 4WD capable thanks to its advanced 4WD system. Enjoy the confidence of knowing that whatever the destination you want to escape to with your family, Challenger will be up for the challenge.

Mitsubishi brings you the latest safety systems and superior 4WD technology. Challenger boasts rally proven MATT™ (Mitsubishi All Terrain Technology) for the ultimate in on and off road driver confidence. When it comes to giving you superior control we've left no stone unturned. So Challenger can take you places other conventional SUVs would struggle with.

SUPER SELECT 4WD

The versatile Challenger inherits the 4WD-handling heritage from a long line of Mitsubishi rally champions. Superior to most SUVs, Challenger's Super Select 4WD offers full-time 4WD with the option of four driving modes as seen below. The Super Select 4WD system also offers the benefit of on-the-fly shifts from 2WD to 4WD high range at speeds of up to 100km/h.

2H (2WD High Range)

Whether you're cruising down the highway or just going across town, 2H mode shifts you into rear-wheel drive for smooth, quiet, fuel-efficient performance.

4H (Full-Time 4WD)

When the weather turns bad and the road gets rough, get added traction in 4H mode. Challenger's Super Select 4WD system offers the flexibility of a centre-differential with viscous coupling unit, providing excellent traction in unpredictable road conditions or on volatile surfaces.

4HLC (4WD High Range w/Locked Centre Differential)

Keeping you on track in rugged or slippery conditions, 4HLC distributes power equally to all four wheels to meet off-road challenges with a steady sense of control.

4LLC (4WD Low Range w/ Locked Centre Differential)

Switch to 4LLC when you need all the tractor-like crawling power your Mitsubishi 4WD is capable of. Maximised low-end torque pulls you through even the roughest terrain, sandiest dunes, or deepest snow to get to that isolated spot that only a truly capable 4WD can take you.

THE CHALLENGER
 FEATURES SEVERAL IMPORTANT
SAFETY INNOVATIONS
 TO **PROTECT** YOUR FAMILY.

SIX SRS AIRBAGS

To provide essential protection for your family in the event of a collision, Challenger is fitted with driver and front passenger, side and curtain SRS airbags. The side airbags inflate from the side of the seat to protect the torso while curtain airbags activate from the roof to protect the head. The front seatbelt systems also include pretensioners and force limiters that combine to minimise the potential for serious injury in the event of a collision.

REVERSING CAMERA & REVERSING SENSORS

The MMCS reversing camera supports the driver's rear field of view, automatically appearing on screen when the reverse gear is engaged. In conjunction with the reversing sensors, which alert you when you are getting close to objects, it makes parking in tight spots a breeze. It also offers safety and peace of mind when you are backing in and out of driveways.

RISE SAFETY

At the heart of any integrated safety system is outstanding design. The Mitsubishi Reinforced Impact Safety Evolution (RISE) design combines an energy absorbing front section with a strong, rigid occupant cell to provide outstanding family protection in the event of an accident. The RISE body is coupled with a rigid ladder frame, side impact bars, and collision absorbing joints.

VISIBILITY

Challenger gives you the confidence of a high driving position that provides you a commanding view of the traffic conditions ahead. Large electric rear view mirrors and a reversing camera provide excellent visibility behind. In addition, rear parking sensors provide complete confidence and reassurance when reversing.

DUSK SENSING HEADLAMPS

Help you stay focused on the road at all times. A sensor on the windscreen automatically sends a signal to your lights and they will turn on when it gets dark or when you're travelling through a tunnel.

AUTO RAIN SENSING WIPERS

A sensor automatically detects moisture on the windscreen and according to the amount of rain present the system will activate the wipers at the appropriate speed.

HIGH INTENSITY DISCHARGE HEADLAMPS (HID)

Clever self levelling HID headlamps offer brighter illumination for night time driving.

Challenger is equipped with MATT™ (Mitsubishi All Terrain Technology).

MULTI-MODE ABS

Multi-mode Anti-Lock Braking System

This allows you to manoeuvre around objects under heavy braking conditions. Challenger's intelligent 4-channel, 4-sensor braking system works in conjunction with the drive mode to monitor different wheel speeds and activate brakes to individual wheels when required to deliver superior control.

EBD

Electronic Brakeforce Distribution

This technology reduces stopping distances by detecting passengers or heavier loads and automatically increases rear-braking force.

ATC

Active Traction Control

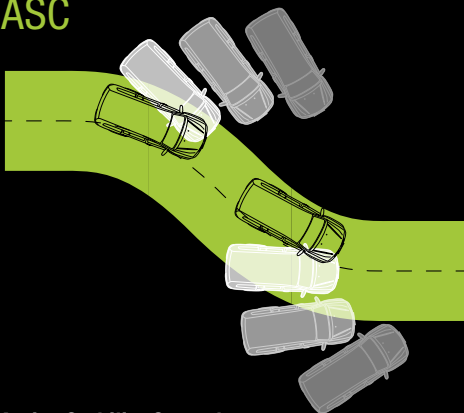

Helps you maintain traction on the most slippery or rugged of surfaces. This intelligent system automatically controls the engine output, so driving wheels are prevented from spinning. Sensing loss of traction in an independent wheel, it applies braking force to that wheel and sends extra power and torque to other wheels with traction to keep you moving.

REAR DIFFERENTIAL LOCK

Challenger comes standard with rear diff lock to provide superior traction for heavy duty four wheel driving. When locked, both wheels receive the same amount of driving force, regardless of surface - meaning maximum possible traction in difficult situations.

ASC

Active Stability Control

Maintains stability and prevents loss of control when cornering, automatically recognising under-steer and over-steer and applying braking force to the diagonal wheel to keep you online through corners.

SETTING THE STANDARDS IN SUSPENSION

Double-wishbone front suspension with coil springs combined with a 3-link coil spring rear suspension, both with stabiliser bars, give unmatched traction and stability with a high ground clearance for your off-road adventures.

WITH **VERSATILITY** THAT HAS BEEN **DESIGNED**
WITH THE **FAMILY IN MIND**, CHALLENGER BOASTS A
RANGE OF CONVENIENCE FEATURES,
CLEVER STORAGE AND SEATING CONFIGURATIONS.

STORAGE

Clever storage areas throughout the cabin ensure there's plenty of room for everything an active family could need. A handy, underfloor compartment in the seven seat option also provides extra storage when you really need it.

Overseas model shown

SEATING COMFORT

Challenger is available with either tan or black leather facing front and second row seats, whilst both the driver and passenger seats are power adjustable.

POWER WINDOWS

Challenger makes it easy to enjoy the scenery or to keep the weather outside at bay with the convenience of power windows. The driver's window also has a convenient auto up and down function.

CRUISE CONTROL

When it comes to travelling long distances for family getaways it's important to be as comfortable as possible. Thanks to Challenger's easy-to-use cruise control, you can stay relaxed on the open road, reduce fuel consumption and avoid the risk of accidental speeding. Simply set your specific speed, sit back and enjoy the drive.

CARGO AREA

Sometimes, instead of getting away from it all you want to take it with you. Challenger's spacious cargo area can fit those large cargo items, and the folding seats give you that extra room to carry any additional suitcases, golf bags, kids toys or whatever else your family might need. And with the easy-opening tailgate, loading and unloading everything is a breeze.

SEATING CONFIGURATION

Challenger has plenty of room for the whole family with five seats and the option of a third row of two additional – seven comfortable seats.

The front seats fully recline to provide a flat surface together with the rear seats.

The second row seats have slide, recline and tumble-forward flexibility. This means you can easily create extra room when it's needed, whether it's for school bags, camping gear, sporting equipment, or even just everyday shopping.

The third row seats have a recline function and can fold away to allow for extra luggage space.

CHALLENGER BOASTS A RANGE OF
NEXT GENERATION TECHNOLOGY
 THAT AIMS TO MAKE ACTIVE FAMILY LIVING
**SIMPLE, STRESS FREE
 AND FUN.**

MULTI FUNCTION DISPLAY*

The LED Multi Function Display provides handy vehicle information such as fuel consumption, a trip computer and outside temperature functions. You can configure the display to show you exactly the information you want.

MITSUBISHI MULTI COMMUNICATION SYSTEM (MMCS)*

MMCS is an integrated communication and media system that provides satellite navigation, audio control, DVD function and a host of other features, controlled via the 7" full colour in dash touch screen. MMCS also shows audio settings with digital display for equaliser, surround sound and listening positioning.

CONNECT YOUR OWN MUSIC

Incorporating the latest technology to make every drive a pleasure, the MMCS is iPod compatible – which means you can connect, charge and play your iPod. Challenger also has an audio input jack allowing you to connect and play MP3s whenever you like.

BLUETOOTH® PHONE CONNECTIVITY

Challenger has the latest Bluetooth® phone connectivity that allows you to operate calls using the vehicle's audio system. With MMCS calls can be made and received using the touch screen, allowing you to stay focused on the road ahead.

MITSUBISHI POWER SOUND SYSTEM

Mitsubishi's exclusive sound system delivers high power audio output throughout the interior via a 420W high power amp, and 8 speakers including 4 tweeters. Speakers are placed for optimal sound balance and maximum enjoyment of all occupants from front to rear.

*When MMCS option is selected, the Multi Function Display is deleted and the trip computer and environment functions including range to empty, average fuel consumption, altimeter, barometer and outside temperature display are disabled.

When Genuine Accessories are fitted to your new vehicle at the time of delivery, they are covered by the Mitsubishi 3 year/130,000km (whichever comes first) Accessory Warranty. When they are fitted after purchase of your new vehicle they are covered for the remainder of the Accessory Warranty or 12 months/20,000km, whichever is longer. In the case of Diamond Spectrum Accessories the warranty is 12 months/20,000km (whichever comes first).
^Diamond Spectrum Accessories. Pictures shown for illustration purposes and may not be product specific. Please check with your Mitsubishi dealer for specific model applications. aca1007. MIT3805. 11MY – July 2010
