We haven't reinvented the wheel.  
Although after so many tests,  
you would almost suppose we had.

Audi cast aluminium wheels are subjected to constant strain during daily use. Comprehensive testing ensures that they nevertheless fulfill the high quality standards required of them. Complex casting processes also lead to very strong components and the multiple coats of high-quality paint do not just create a stunning look but also offer effective protection against scratches.

**1 Cast aluminium wheels, 10-spoke design, royal silver**  
High-quality and striking. In size 9 J x 19 for 255/35 R 19 tyres.

**2 Cast aluminium wheels, 5-arm design, ibis white**  
A coloured highlight on your TT. In size 9 J x 19 for 255/35 R 19 tyres.

**3 Cast aluminium wheels, 5-arm design, royal silver**  
An eye-catching turbo design in royal silver. In size 9 J x 19 for 255/35 R 19 tyres.

**4 Cast aluminium wheels, 5-arm design, black**  
A black wheel as a compelling contrast to the body colour. In size 9 J x 19 for 255/35 R 19 tyres.

## One must suffer for beauty.

Subject: Quality

Cast aluminium wheels

By undergoing a copper-accelerated acetic acid salt atomised spray test, for example. When our experts test the quality of Audi Genuine Accessories wheels, they are just as innovative as our designers. Strong heat, high humidity, intense sunlight – there is practically no limit to the number of possible tests. But the most extreme endurance test is the copper-accelerated acetic acid salt atomised spray test, known as CASS. In it, wheels which have been previously damaged by simulated stone chips are sprayed with this particularly corrosive solution for several days. Yet they must overcome all these challenges without visible adverse effects – so that even after many miles, you can be as thrilled by the design of your Audi Genuine Accessories wheels as you were on the first day.

**1 Cast aluminium wheels, 15-spoke design, high gloss turned finish**  
Elegant racing design with high-gloss turned rim. In size 9 J x 18 for 245/40 R 18 tyres.

**2 Wheel bag**  
Four-piece set with practical handles enables easy and clean transportation and storage of complete wheel packages. Tear-resistant plastic material. The wheel bolts can be stored in the outer pockets.

**3 Valve caps**  
The 4 metal valve caps with the embossed Audi logo provide better protection for the valve against dust, dirt and moisture. Available for rubber, metal and aluminium valves.

**4 Anti-theft wheel bolts**  
Can only be loosened with the special adapter provided. Helps to prevent theft.

**1 Side sill**  
Underlines the dynamic side sections and provides the vehicle with an individual touch.

---

**2 Tailgate spoiler**  
A fixed, and thus permanently visible, variation as replacement for the standard, electrically extending tailgate spoiler.

---

**3 Chrome finish trims for radiator grille**  
A refined, elegant look in no time.

---

**4 Exterior mirror housing in aluminium look**  
With integral LED indicators. Non-porous surfaces without visible dividing lines.

---

**Sports-style tailpipe trims**  
Twin design. In chrome-plated stainless steel. Available for four-cylinder models.

---

## The difference between looking good and “wow”.

A particularly stylish way to underscore the dynamic appearance of the TT Coupé and the TT Roadster. A tailgate spoiler and many other details such as chrome finish trims or stainless steel sports-style tailpipe trims emphasise the athletic character of your TT.

**1 Illuminated door sill trim\***

The illuminated logo is activated every time you get in or out of the car, by opening the door.

**2 Sports leather steering wheel**

Flat-based. Made from handsewn Nappa leather in 3-spoke design. Reinforced steering wheel rim. With good grip. Also available with multifunction and/or paddle switches.

**3 Adhesive sheets**

Creates sporty highlights with graphic design elements. The high-quality sheets are very thin and resistant to light and tearing. They can be removed without leaving behind any residue.

**It all began with the “vinyls”.**

**To develop the adhesive sheeting, our designers travelled back in time to its origins.**

This took them back to 1940s America. Back then, racing drivers customised their cars by adding so-called vinyls, stickers in the form of chequered flags, for example. The name stems from the type of plastic used, just as for vinyl records. Nowadays, the material is different, but the idea is the same: adhesive sheets personalise the vehicle and emphasise its sporty character. This is particularly the case because Audi designers develop their concepts for each individual model, and for precisely defined positions – where the combination of the car’s lines, the sheets and sunlight create the most impressive effect. A result which is made to be seen. Just like in the ‘40s. Only with much more Audi.

Subject: Design

Adhesive sheets

\*Only in conjunction with the basic package CAN-BUS TT.

## If your hotel does not offer sport and leisure opportunities, just bring them with you.

Where will the mood take you next? Skiing in the mountains, for an extended kayak tour or on a relaxed bike trip in the countryside? Just make a spontaneous decision. The smart transport solutions<sup>1</sup> from Audi Genuine Accessories give you the freedom to spend your leisure time as you want.

### 1 Luggage box (370 l)<sup>2</sup>

Compact box, easy to open with easy-to-clean surface, lockable. Its aerodynamic shape reduces wind noise. (Can only be used in conjunction with the carrier unit.)

### 2 Ski and luggage box (480 l)<sup>2</sup>

Ski box for winter sports equipment and other luggage. Lockable and can be opened from both sides. Easy to clean thanks to smooth surface. (Can only be used in conjunction with the carrier unit.)

### 3 Ski and snowboard rack

For convenient transport of up to 6 pairs of skis or 4 snowboards. Lockable. (Can only be used in conjunction with the carrier unit.)

### 4 Carrier unit

Carrier unit for various roof rack modules such as cycle mount, kayak rack or ski and luggage box. The profile section is made from anodised aluminium tube. The carrier unit is easy to install and lockable. Maximum permissible total weight of carrier, modules and load 75 kg.

### 5 Kayak rack

For single kayak weighing up to 25 kg. (Can only be used in conjunction with the carrier unit.)

### 6 Bicycle fork mount

Easy to handle. Lockable. Suitable for bicycles with a quick-action lock on the front wheel. Maximum load 17 kg. (Can only be used in conjunction with the carrier unit.)

## A communications expert that also knows the way.

The versatile range of communications options in the Audi TT ensures that you can always talk to those you want to while also listening to your favourite music. And, with the most up-to-date map material for your navigation system, you might even discover a new favourite route.

### 1 Mobile phone adapter\*

Connection with the exterior antenna enables telephone conversations to take place without the person having to be exposed to much radiation. Enables the battery to be charged and the mobile phone to be safely stored during the journey. Available for many popular mobile phone models. Prerequisite: mobile phone fitting (Bluetooth).

### 2 Navigation CD/DVD

Navigation data (where digitised) for Andorra, Austria, the Baltic states, Belgium, Czech Republic, Finland, France, Germany, Great Britain, Greece, Hungary, Ireland, Italy, Liechtenstein, Luxembourg, Monaco, the Netherlands, Poland, Portugal, San Marino, Scandinavia, Slovakia, Slovenia, Spain, Switzerland, the Vatican City.

### 3 Adapter cables for Audi music interface

Enable connection of various iPod models and other portable media players. Operation via the MMI system if the function is supported by the media player. Additional adapter cables are required to connect portable media players, further information is available from your Audi partner.

### 4 Bluetooth hands-free facility

Reproduction using vehicle sound system. Voice control for all functions and without prior training. Connection to up to 5 different contact lists. Reception and display of text messages if this function is supported by the mobile phone.

### CD changer

For installation in the glove compartment, for six CDs, vibration-proof, easily accessible; each CD can be loaded and changed individually.

\*For more detailed information, please contact your Audi partner.

## Drive an Audi. Before you even learn to walk.

Even if it will still be a few years before the youngsters are driving themselves, the child seats from Audi Genuine Accessories ensure that the little ones have just as much fun on the journey as the grown-ups.

### 1 Audi baby seat

Can be secured using the three-point belt. The integral full-belt safety harness provides improved restraint, whilst the attached cover provides protection from sunlight. Suitable for infants weighing up to 13 kg (approx. 15 months).

### 2 Audi child seat with ISOFIX

With adjustable seat. The seven-fold height adjustment of the belt is made with just one move of the hand. Washable fabric cover. Suitable for children from 9 to 18 kg (approx. 1 to 4 years).

### 3 Audi child seat youngster plus

Offers excellent comfort thanks to intelligent belt guidance. The backrest is adjustable in height and width. Adaptations can be made via a viewing window for size adjustment. Suitable for children from 15 to 36 kg (approx. 3½ to 12 years).

### 4 Child seat colour variants

All child seats are available in the combinations classic silver/black or sporty signal orange/black. The fabrics used are gentle to the skin, breathable, non-fading and washable. Spare covers are available from your Audi partner.

### 5 ISOFIX fastening for Audi baby seat

For improved restraint of the Audi baby seat. Enables seat to be installed and removed quickly. The adjustable supportable base ensures additional stability. Optimises protection for babies.

### 6 Audi children's world

The comfort cushion and blanket, neck supports, cocoon blanket and baby comfort sack offer a feeling of security for your child. The Audi plush steering wheel, comfort cloth, baby toy chain and cuddly toy ensure fun and games. Matches the child seat designs.

1

## We think it's simply a myth that sports cars are not practical.

Of course sportiness is the primary feature of the Audi TT, but that does not mean that it cannot be functional too. You have some very easy options to protect your TT from traces of wear or create additional storage space. Best of all, because the accessories are perfectly tailored to it, it remains a pure-bred sports car.

2

### 1 Audi Tracking Assistant and Audi Tracking Assistant plus<sup>1</sup>

Enable a stolen vehicle to be located and tracked via GPS/GSM technology in 27 European countries. Available in 2 variants. Audi Tracking Assistant plus with automatic driver recognition and intelligent restart obstruction.

### 2 Vehicle cover

Exact-fit, in anthracite, with Audi logo, made of breathable and anti-static material. Piping accentuates the shape of the vehicle. Perfectly protects your vehicle from dust and dirt. For indoor use only.

3

### 3 Garage door opener

The operating buttons with 3 programmable presets are integrated in the sun visor. The garage door opener can be used to open and close garage doors and gates. In addition, control of security and lighting systems is possible.<sup>2</sup> For TT Coupé only.

### 4 Storage pocket

Practical all-purpose pocket for versatile storage space to keep the vehicle neat and tidy. Attached to the backrest. Can be easily folded up and taken with you.

4

### Mud flaps

Made from high-quality plastic. Reduce paint damage and dirt around the sills and the rear apron panel. Available in sets of two for the front and/or rear.

<sup>1</sup> For more detailed information, please contact your Audi partner. <sup>2</sup> If the stated systems are compatible.

**1 Cruise control system**  
Keeps the desired speed constant at approx. 30 km/h and above.\* Active braking intervention, e.g. when driving downhill, is also possible, as is operation via separate steering column stalk. The set speed is displayed in the driver information system.

**2 Luggage net**  
Ensures that luggage is held safely. To be fastened to the existing fastening points in the loading area using 4 hooks.

**3 Boot tray**  
Lip all the way round provides the boot floor with better protection against soiling. Non-slip pattern reduces any slipping of the load. Easily stowed away and takes up little space.

**4 Boot liner**  
Custom-made luggage compartment protection. Washable and robust. The lip around the edge better protects the luggage compartment floor from any leaking fluids.

**5 Rubber floor mats**  
Exact fit. Improved protection from heavy soiling. The floor mats are attached to the vehicle by means of the fastening points on the vehicle floor. With TT logo.

**6 Premium textile floor mats**  
Cut to the dimensions of the Audi TT's floor. Made from hard-wearing, densely woven velours. They are attached to the vehicle by means of additional backing and the fastening points provided in the floor. With TT logo.

**Textile floor mats**  
Made from hard-wearing velours; good protection from soiling. Attached to the vehicle floor by means of fastening points. Available in, for example, titanium grey, black or luxor beige.

**Parking system**  
Supports the driver by indicating acoustically how far away the vehicle is from an obstacle. 4 ultrasonic sensors are concealed discreetly in the rear bumper. Activation by engaging reverse gear.

## What can you learn from bats about parking?

Subject: Comfort

Parking system

Quite a lot, we would say. Like navigating using ultrasonic signals. Bats use this technique to get their bearings in even the toughest terrain, with impressive accuracy. So it is obvious that Audi would make use of the same principle for its retrofittable parking system, to support your parking and manoeuvring. The 4 sensors in the bumpers, which can be painted over, send alternating ultrasonic signals which are reflected back by obstacles. The retrofit kit is individually calibrated to achieve an extremely precise system in the relevant zone from 1.4 m to 30 cm. This means that the Audi Genuine Accessories trailer towing hitch, for example, does not cause incorrect detections. So ultrasonic signals get the bat to its destination and your Audi safely into the parking space.

\* Provided engine power output and engine braking effect permit.

## Even more TT? But of course.

You can experience the world of your Audi TT at [www.audi.com](http://www.audi.com)  
Enjoy your voyage of discovery.
