

The Audi TTS

The Audi TTS.

For those who live life above the red line.

Exciting around every bend, the Audi TTS provides a thrilling step up from our standard TT models. Whether you choose the Coupé or Roadster version, the sporty details, uncompromising performance and incomparable blend of dynamic performance and ride comfort make every trip a memorable experience.

The 2.0-litre TFSI engine kicks out a spine-tingling 200kW of power combined with an innovative, race-bred S tronic dual clutch transmission, providing super fast, seamless gear changes for even better performance. Both models incorporate Audi's legendary quattro® permanent all-wheel drive, offering greater stability and precision road handling.

A glance at the interior also makes it clear that the Audi TTS is all about performance. The instruments, with white-on-grey dials, are complemented by a high-resolution driver information system and lap timer. The Audi TTS Coupé and TTS Roadster brim with technical innovations, and a huge range of sporty equipment as standard.

The new Audi TTS is a clear embodiment of Audi's Vorsprung philosophy – leading performance, superior design and the ultimate in prestige.
