The Power of Dreams

Honda Australia Pty. Ltd. ACN 004 759 611 ABN 66 004 759 611
95 Sharps Road, Tullamarine, Victoria, 3043. Freecall 1800 804 954. honda.com.au/cars

The specifications and major features listed herein are accurate as at the date of printing (March 2011/11YM). However, Honda Australia Pty. Ltd. reserve the right to change or modify specifications and major features at any time without prior notice. Due to ordering, shipping and freight factors, some colour and model availabilities may vary from time to time. Check with your Honda Dealer for current information on availability. Only Genuine Honda Accessories are made to fit Honda vehicles. The fuel consumption figures quoted in this brochure are based on ADR81/02 test results. You may experience different results depending on driving conditions and the condition of the vehicle. Honda warranties apply where due care is exercised by the owner and the vehicle is maintained in accordance with the vehicle's owners manual. Please refer to Honda's warranty documentation for exclusions and conditions. Honda Australia Pty. Ltd. recommends careful examination of all official Honda warranty documentation before purchasing. This brochure is printed on 90% recycled paper, 80% post consumer fibre and 20% totally chlorine-free pulp. It is FSC certified mixed source paper which ensures that all virgin pulp is derived from well managed forests and is manufactured by an ISO 14001 certified mill. Civic Si shown in Milano Red on cover.

HON8605

The closer you look
the better it gets

Dual zone dash

The intuitive, curved Dual Zone dash puts the most important details in plain view at the very top and less immediate details in the lower zone. So you can keep your eyes on the road.

Safety

The protective features in the Civic Si like EBD, VSA and ACE all spell just one word: Safe.

Clever styling

The Civic Si is a brilliant blend of beauty and brains... with a twist. It has all the comfort and practicality of a 5-door hatch but with cleverly disguised rear doors, so it's also got the head turning looks of an athletic 3-door.

Versatility

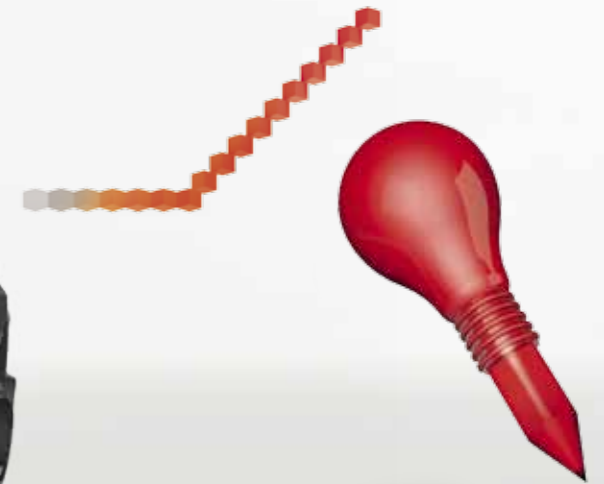

If you feel like a change of space, Magic Seats can stack just about anything in Long, Tall and Utility modes.

Performance

The very clever i-VTEC engine gives you optimum fuel economy at low revs and plenty of power at high revs. Which is why it can deliver the power you'd expect of a 2.0 litre engine with the efficiency more like a 1.6 litre.

Packed with features

This exciting hatch has a few surprises up its sleeve with a list of features as long as your arm.

The best of both worlds has never looked better

What if you could combine meticulous engineering and European design?

You'd get the Honda Civic Si.

And if you've got an eye for style, it's sure to raise your brow.

At a glance it appears to be a sleek three-door but a closer look reveals its clever secret — it is, in fact, a highly functional five-door.

Such a seamless marriage of form and function should come with a few special touches.

That's why it has a leather-wrapped steering wheel, USB and Bluetooth connectivity,* a refrigerated glove box, optional heated leather† seats and a bevy of boot space.

All the right ingredients have come together to create this innovative hatch.

Now the only thing missing is you.

*The Bluetooth word mark is owned by the Bluetooth SIG, Inc. and use of such mark by Honda is under licence. Please check the list of compatible phones at honda.com.au/bluetooth
†Leather includes vinyl material in selected high impact areas.

Civic Si shown in Crystal Black.

Honda's definition of a 'good body'

The difficulty with buying a hatch has always been choosing between an athletic, shapely 3-door and a more practical 5-door.

But thanks to its ingenious body, the Civic Si gives you the benefits of both.

Its sporty, aerodynamic shape will grab your attention right off the bat with flowing lines, a honeycombed front grille,

wrap-around headlights, tapered spoiler and triangular fog lights, door handles and twin exhausts.

And you'll probably even think to yourself, 'That's a great looking 3-door.'

It's only on closer inspection you'll discover the cleverly concealed rear door handles.

Some cars use these finer details to hide the fact that there's nothing that separates them from the competition.

But the simple truth about the Civic Si is that it's made a once difficult choice easy.

And since the Civic Si doesn't compromise between style and substance, you won't have to either.

Civic Si shown in Crystal Black.

Sit down and be counted

The Civic Si is as beautiful as can be, but it's what's inside that really counts. Because brilliant design is about more than simply being attractive. It has to make sense.

The moment you ease yourself into its posture-supporting seats, designed to let you sit "in" rather than "on" them, you're sure to agree.

And because everyone's a little different you get to decide what makes sense for you with alternative trim options like black fabric or elegant plush leather[†] with built-in front seat heaters.

Every element is designed with you in mind. For instance, the fuel tank hasn't been repositioned on a whim. It allows for more generous leg-room in both the front and rear, so you won't feel like you're squished into an airplane seat.

Its revolutionary, curved Dual Zone dash isn't just for kicks, either.

It puts you squarely in the driver's seat with the most important details in plain view at the very top, for a more intuitive and safer drive, while other less immediate information and controls are placed in the lower zone.

And the fully-adjustable leather steering wheel has audio controls so you can browse your iPod[®] or MP3 player while keeping your hands on the wheel and your eyes on the road.

It's about effortless, fun driving.

That's why it includes cruise control, dual zone climate control, a refrigerated glove box cooler, auto dimming rear view mirror, automatic headlights, rain sensing front wipers, MP3-compatible 6 speaker stereo with CD player and a USB/AUX jack for all your techno-toys.

So whenever you take a seat in the Civic Si you'll know you've got everything you need.

Which is a beautiful thing, indeed.

[†]Leather includes vinyl material on selected high impact areas. iPod[®] is integrated through vehicle's audio system display for iPods from 5th Generation onwards and all iPod Nanos. Older iPod models will only operate through audio system when controlled through the iPod, and firmware updates may be required to achieve compatibility with the vehicle's audio system display and steering wheel mounted audio controls. Please refer to your iPod User Guide for information on iPod firmware updates.

Civic Si shown with optional leather appointed trim and heated front seats.

1.

Magic seats

There's no reason a hatch has to compromise on space. You just have to be clever. And since you can't change the odd shapes of things you need to fit in your car, you need the ability to change how the seats move to create the right space for the right shapes. And that's exactly what Magic Seats do.

At the pull of a lever they can fold into Utility, Long or Tall modes and a whole stack of configurations impossible in other cars. So you don't need to do physical or mental gymnastics to get a coat rack, bike or pot plant in the car without invading your driving space.

Simply fold the seats down into Utility mode for a perfectly flat, cavernous 1.5m floor. Or fully recline the front and back passenger seats into Long mode for 2.4m of space. And for Tall mode, flip the rear passenger seat base up, just like a cinema seat, so all the things that can't lay on their side can now stand tall and secure on the floor. Little wonder they're called magic!

1.

2.

Multi-information display

This LCD screen provides access to instant and average fuel economy, seat belt status, outside temperature and even how far you can go before you need to re-fuel.

3.

Rear parking sensors

Pressing this dashboard-mounted button will activate and deactivate the timely beeps that alert you to objects behind the car, helping you to reverse more safely.

4.

Bluetooth® phone system*

No matter where your mobile phone is in the car, this clever system lets you take calls while you keep your eyes on the road.

2.

3.

4.

5.

Dual zone climate control

Air conditioning with dual-zone climate control lets you and your front passenger set the temperature individually. The climate controlled glovebox keeps drinks cool on a long trip.

6.

USB connectivity

The audio system includes a USB port, so whether you have an iPod, iPhone or MP3 player, you can flick through all your music from either the audio system or the steering wheel-mounted controls.

7.

Heated front seats

Spoil yourself with the optional leather† trim seats and you'll get an extra reward because they're also heated.

5.

6.

7.

An engine that defies logic. Handling that defies corners

For years, those in the know would scoff at the suggestion that power and economy could go hand in hand.

But Honda's clever engineers took a different approach and asked: What if less gave you more and more cost you less?

Their answer was Honda's i-VTEC engine.

Exactly how does this engine achieve the previously impossible?

It has two different sets of cams.

One set for high output and the other for fuel economy.

And its variable valve timing system adjusts between the two depending on what you need. It's almost like having two engines in one!

Which is exactly what you get with the 1.8 litre Civic Si engine delivering 103kW at 6300rpm and 174Nm at 4300rpm, all while using a miserly 6.9L/100km*.

That's the kind of power you'd expect of a 2.0 litre engine with efficiency more like a 1.6 litre.

So power and economy are no longer perfect strangers but happy bedfellows.

We're just getting revved up

With a race-inspired engine start button and aluminium foot pedals you have a five-door hatch raring to live up to its sporting heritage.

And it certainly doesn't disappoint.

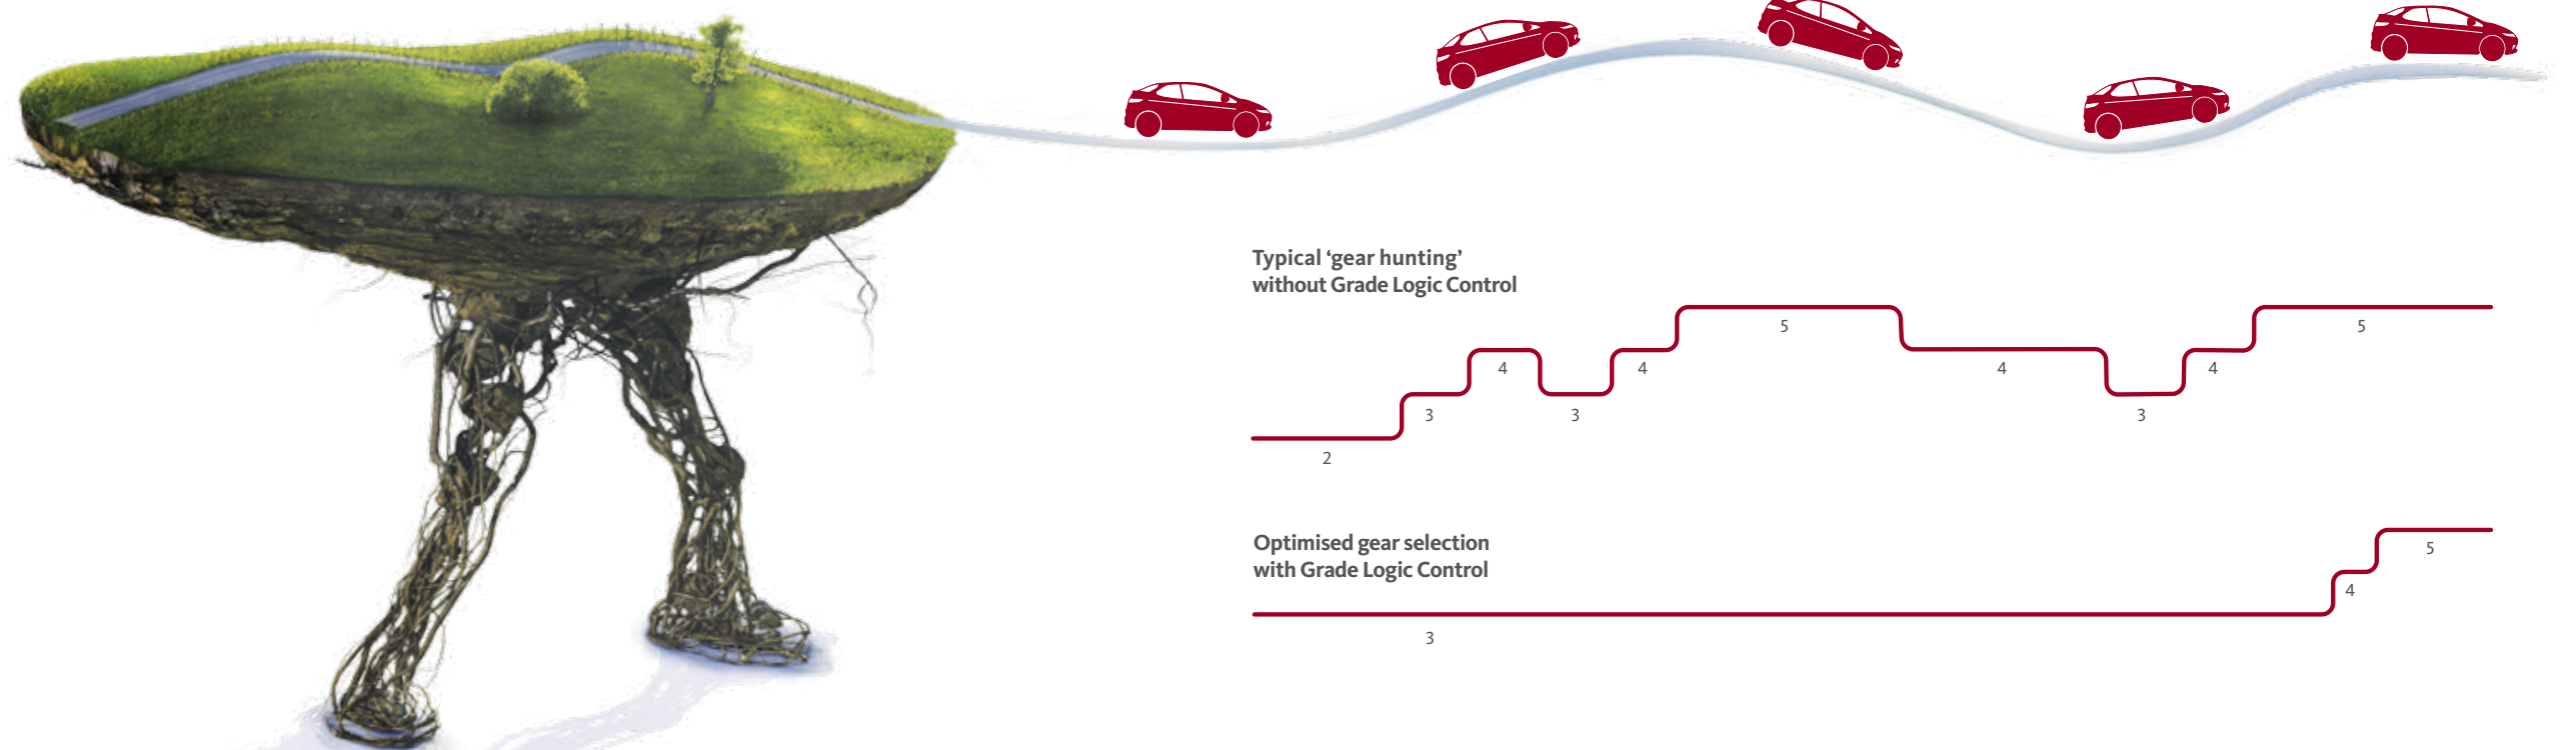

The electronic drive-by-wire throttle gives you more precise and smoother acceleration while its rear torsion beam suspension and wide stance allow for sharper, flatter cornering.

Made all the more fun by its light and easy electric power steering (EPS).

What's more, you also have the choice of a sporty, lightweight 6-speed manual transmission, or a 5-speed automatic with Grade Logic Control.

This unique system eliminates 'gear hunting' whether you're going up, down or around. By holding and extending the gear range on gradients, it tackles inclines and declines with ease to enhance your driving efficiency and performance.

So now you only have to decide which road you want to take.

*Fuel consumption figure based on ADR81/02 combined test results for Civic Si manual transmission.

Shift patterns are examples only.

Civic Si shown with optional leather appointed trim and heated front seats.

The very best at handling the worst

You can expect to have fantastic fun driving the Civic Si, but the road can prove unpredictable at times.

Happily, the Civic Si is brilliantly equipped with a load of clever features to help prevent trouble before it happens.

Rear Park Assist is a perfect example. It alerts you with a warning sound to help you avoid any unwanted bumps.

There's a seatbelt warning, too.

Plus a new Tyre Deflation Warning System monitors tyre pressure and alerts you to a potential puncture.

The Civic Si's Electronic Brake-force Distribution (EBD) works simultaneously with its Anti-lock Braking System (ABS) to control the front and rear brake distribution, improving stability and braking performance in case of an emergency.

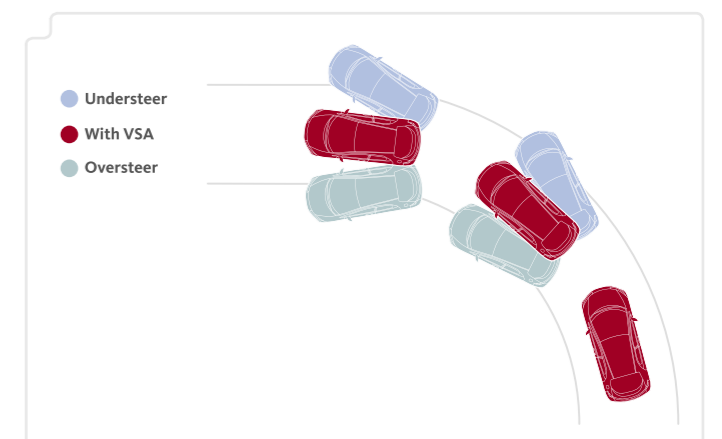

And Vehicle Stability Assist (VSA) with Traction Control detects wheel-slip and automatically performs a combination of braking and engine control to regain traction.

If you are bothered with a bingle, the Civic Si's Advanced Compatibility Engineering takes the force of a frontal impact from vehicles of different sizes and disperses it around the body frame, away from you and your passengers.

That's why it's called ACE for short.

Inside, the Civic Si also comes standard with dual front, side and full-length curtain airbags and active front head restraints to reduce whiplash injuries.

So you can be carefree without throwing caution to the wind.

Find your true colour

Civic Si Specifications

Corner styling guards (front)

Accentuate the Civic Si's sporty styling while helping keep chips and marks at bay.

Corner styling guards (rear)

You won't need eyes in the back of your head with these guards to protect the rear of your Civic Si.

Door styling guards

Protect the doors from paint damage while maintaining the sleek look of your hatch.

Aluminium sports fuel cap

Add a touch of sporting style to the athletic exterior.

This time it's personal

It's only fitting for a hatch that surprised you on first inspection to still have a few tricks up its sleeve.

And so it is, with these Genuine Honda Accessories that let you put your own stamp on the already unique Civic Si.

Each of these practical additions is designed to enhance your driving experience while maintaining the high quality and style you'd expect from any Honda.

To find out more, simply contact your local Dealer or visit honda.com.au/civicsi.

Civic Si shown with rear tailgate spoiler, front and rear under spoiler set, side skirt set and aluminium sports fuel cap.

Interior panel set

The high quality carbon-look finish gives the interior a strong, sharp appearance.

Accent interior light set

These create a relaxed ambience inside the Civic Si.

Illuminated door sill garnish set^o

Step in and out in style with these protective door sills.

8-disc CD stacker

You'll have stacks of tracks at your fingertips with this convenient glovebox-mounted CD stacker.

^oIncludes 2-piece illuminated front door sill garnish and 2-piece non-illuminated rear door sill garnish. 2-piece speaker ring set also shown. See your Honda Dealer for advice regarding Genuine Honda Accessories. Pictured accessories are all sold separately. All Genuine Honda Accessories installed at the time of retail sale of a new motor vehicle are covered by Honda's 3 Year/100,000km Warranty. If installed after retail sale, they are covered for the remainder of the warranty or a minimum of 12 months - whichever is greater - provided that the the accessory is fitted only to the vehicle for which it was intended by Honda Motor Co.

To protect and serve

These Genuine Honda Accessories make things easier to store, and help protect your Civic Si from damage, all while looking as suitably slick as anything you'll find in a Honda. To find out more, simply contact your local Dealer or visit honda.com.au/civicsi

Other accessories include:

- Bonnet protector
- Leather maintenance kit
- Touch up paint

Mud guard set

Help protect the Civic Si's paintwork from debris and dirt damage. (Front and rear set sold separately).

Rear bumper and bootlip protector

Help prevent scratches and scuffs on the rear bumper and bootlip.

Deluxe tailored mat set

These high quality, durable mats complement the stylish interior and help reduce the daily wear and tear on your carpeting.

Roof rack set[±]

These aerodynamic roof racks hold up to 60kg in weight, limit wind noise and drag and are a breeze to install and remove.

5-row ski or snowboard attachment

Before you hit the slopes, attach this to the roof rack to securely transport your gear and keep the interior free for you and your mates.

Bike attachment

Free up interior space for your passengers with this trouble-free way to transport your bike.

Organiser box

This nifty system helps keep the boot neat and tidy and folds away flat.

Luggage area protector tray

Constructed from quality, moulded plastic, the tray protects the cargo area from spills, scuffs and dirt. It's also easy to remove for cleaning.

[±]In the interest of aerodynamics, Honda recommends roof rack set be removed when not in use. See your Honda Dealer for advice regarding Genuine Honda Accessories. Pictured accessories are all sold separately. All Genuine Honda Accessories installed at the time of retail sale of a new motor vehicle are covered by Honda's 3 Year/100,000km Warranty. If installed after retail sale, they are covered for the remainder of the warranty or a minimum of 12 months - whichever is greater - provided that the accessory is fitted only to the vehicle for which it was intended by Honda Motor Co.

You're never alone in a Honda

Buy a Civic Si and you'll be amazed at how well you'll be looked after.

The care starts with a three year/100,000km warranty and six year rust perforation warranty.⁵

And for a small extra investment, you can enjoy a huge amount of peace-of-mind with Honda's extended warranty and Premium Roadside Assist.*

You'll also have access to HondaONE, our exclusive website that gives you up-to-date service history, vehicle records, maintenance tips and service reminders.

And by using your Honda Dealer, you'll also be sure that they'll protect your investment by using Honda Genuine Parts.

So with all these benefits, your Civic Si will be as pleasurable to own as it is to drive.

Insurance

If you're looking for cover every bit as reliable as your Civic Si, you really need Honda Motor Vehicle Insurance.

You'll enjoy a range of benefits, including:

- 3 year new replacement if your Honda is a total loss
- Genuine Honda approved parts for the first 5 years
- Lifetime guarantee on authorised repairs.

Approved applicants only. Normal underwriting and excess payment rules apply.⁴

Finance

Whether you're buying a Honda for yourself or a business, we have a wide range of flexible finance and leasing options.

So see your Honda Dealer to find a financial solution that suits you as perfectly as your Civic Si does.

What's next?

As a Civic Si owner, you're part of a brand that's always doing something new.

Because if there's one thing Honda prides itself on, it's always asking, "what's next?"

It was this inventive spirit that led to developing the Insight's brilliantly playful Eco Assist system.

It also produced the new CR-Z, the world's first sports hybrid.

And that's not our first 'world first' either.

There's the FCX Clarity, which is powered by a hydrogen cell and whose only emission is water vapour.

Or the unique CIGS solar cells that produce twice as much energy than they take to make.

Then of course there's ASIMO, the world's most advanced humanoid robot and the incredibly fuel-efficient HondaJet.

And now there's a glimpse of the future with the altogether different U3-X, a personal mobility device that takes you in any direction by simply shifting your weight.

All of these things, which were once dreams, are now realities thanks to Honda.

So what's next?

⁵Honda warranties apply where due care is exercised by the owner and the vehicle is maintained in accordance with the vehicle's owners manual.
