

NEW RENAULT KOLEOS

DRIVE THE CHANGE

FOR OVER A HUNDRED YEARS RENAULT HAS BEEN DRIVEN BY AN URGE TO DO THINGS DIFFERENTLY.

WITH THIS PASSION FOR PROGRESS, WE HAVE CREATED A WHOLE NEW APPROACH TO MOTORING FOR WHATEVER ROAD YOU WANT TO TRAVEL.

MILESTONES

1898

First Renault, **Type A** was built. Featured an innovative direct-drive gearbox which was more reliable and less dangerous than chain belts used at that time.

1899

Less than a year after Louis Renault launched his first car, he won his first race – from Paris to Trouville.

1902

Marcel Renault wins the Paris-Vienna road race; the race of races; in the **K-type** voiturette.

1906

Renault invented the compressed air starter and made it available on company models. Renault **Type AK** won the first Automobile Club de France Grand Prix, the predecessor of today's F1 races.

1926

The **40 CV** breaks the world 24-hour record: 4,167 km at an average speed of 173.6 km/h!

1956

A world speed record for the **Etoile Filante**; 308.9 km/h on the Great Salt Lake in the USA. The record still stands today!

1964

Renault 8 Wheels “Car of the Year”.

1965

Renault launched the world's first front-wheel drive hatchback – The **Renault 16** voted European “Car of the Year”.

1970

Produced in Australia from 1970-1980, **Renault 12** was voted Wheels “Car of the Year”.

1972

The first “urban” vehicle, **Renault 5** was an immediate success with its sleek modern design. Best-seller in France and all over Europe.

1973

Renault Alpine won the first World Rally Championships.

1977

Renault made its debut in the Formula 1 World Championship.

1979

Renault claims its first F1 victory at the Dijon Grand Prix.

1982

Renault 9 voted “Car of the Year” in France.

1983

Renault Fuego was the first car in the world to have a remote keyless entry system with central locking.

1984

Renault Espace birth of the world's first mini multi-purpose vehicle (MPV).

1990

Clio voted European “Car of the Year”.

1992 - 1996

The Williams-Renault team win five consecutive F1 Championships.

2001

Laguna the first car to be awarded 5-Star safety rating by Euro NCAP.

Renault Scenic first mini MPV launched in Australia.

2002

Laguna voted “Australia’s best luxury car under \$57,000”.
Clio voted “Australia’s best small car”.

2005 - 2006

Renault claims the constructors' and drivers' titles in the Formula 1 World Championship.

2008

Koleos awarded “Best 4WD under \$40,000” in Drive Car of the Year Awards.

2009

Renault Sport awarded the Top Gear (UK) “Manufacturer of the Year”.

2010

DeZir EV Concept illustrates Renault’s new design language. Powered by an electric motor, DeZir is proof that environmental concern and a love for cars are by no means incompatible.

Mégane Renault Sport 250 - voted TopGear Australia magazine’s 2010 “Car of the Year”.

2011

Captur Concept continues the rebirth of Renault design.

**AN SUV THAT FEELS DIFFERENT.
BECAUSE NO TWO JOURNEYS
ARE THE SAME.**

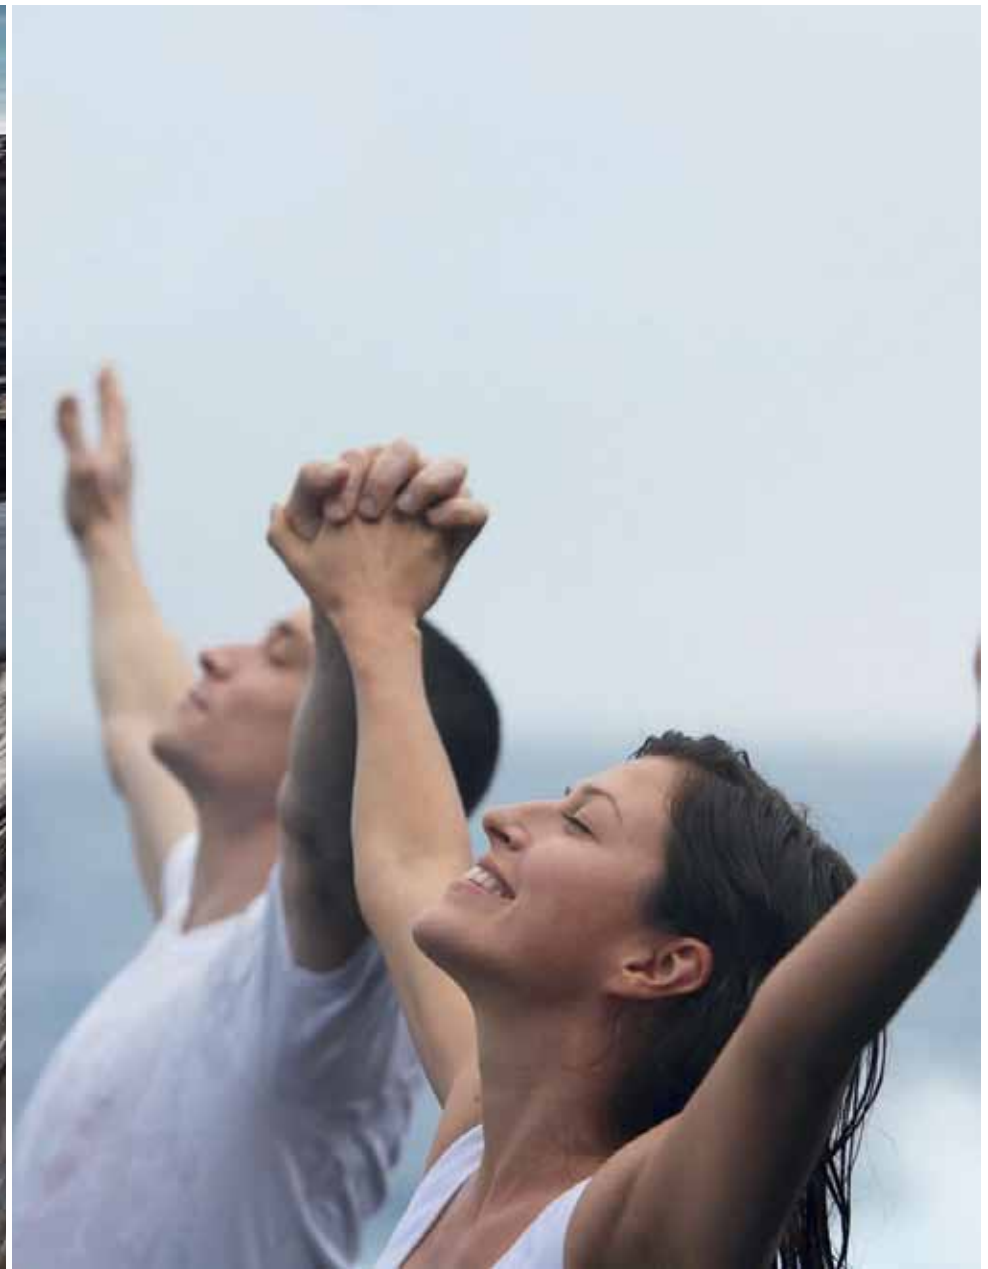

A NEW LOOK THAT SUITS EVERY DESTINATION.

The new Koleos is sophisticated yet strong, and this is reflected in its new look. The new grill and redesigned headlights underline its modern spirit and resilient character. Through its distinctive design, the new Koleos shows its dual personality: elegance and adventure in one package. Whether you're in the city or the outback, the Koleos is at home.

**ELEGANCE CAN BE POWERFUL.
POWER CAN BE KIND.**

From everyday escapism to urban adventure, there are no limits in the Koleos. It offers boundless energy, with engines of up to 126kW. Designed for ultimate handling and manoeuvrability, its superb control truly sets it apart. The ergonomic controls and precise steering leave you free to enjoy the road, wherever it leads. The Koleos Diesel delivers lowered CO₂ emissions and fuel consumption to respect the environment.

The Renault Koleos feels as elegant inside as it looks outside. Its dashboard is ergonomically designed; refined finishes and alloy wheels add to the premium look and feel. The dual-zone climate control system regulates cabin temperature automatically to make your comfort effortless. Relaxation and adventure come together seamlessly in the Koleos.

**COMFORT THAT APPEALS
TO ALL THE SENSES.**

THOUGHTFUL TECHNOLOGY THAT MAKES EVERY JOURNEY SIMPLE TO ENJOY.

Put the Renault Smart Card Key into your pocket and approach the new Koleos – the doors unlock automatically. Once inside, top-of-the-range technological features are controlled via a central console. To start the engine, simply press the 'start' button. The seven-function trip computer advises you on distance travelled, fuel consumption, fuel remaining, average speed and oil change range. Satellite navigation will keep you on track wherever adventure takes you. In the Koleos Privilège you will experience crystal clear, vibrant sound from the quality Bose® sound system while you marvel at the sky above through the electric panoramic glass sunroof.

**FIT MORE INTO
EVERY JOURNEY.**

The Koleos is practical as well as luxurious. The split tailgate transforms into a picnic seat and assists in the loading of heavy items. The rear benches fold down in seconds to accommodate bulky objects like surfboards. In both the front and back of the cabin, flaps and stowage offer ingenious space solutions, including a 15-litre lit and chilled glove box.

5-STAR SAFETY FOR 5-STAR PEACE OF MIND.

The driver, passengers and pedestrians are all safer thanks to preventative measures and a high level of active and passive features. The Koleos has cruise control with speed limiter, ABS and Emergency Brake Assist, front driver and passenger airbags, front side airbags, and front and rear curtain airbags as standard. In the event of impact, the doors unlock automatically, fuel injection is cut and hazard lights turn on.

The Koleos is able to quickly correct dangerous driving situations. The Electronic Stability Programme controls and corrects trajectory, while the braking assistance reduces stopping distance. Since it may be required to operate on challenging inclines, the Koleos 4x4 is equipped with Hill Descent Control set to 7km/h on gradients of 10% or more. Safety continues after you've switched off the engine too – the 'see me home' lighting function keeps the headlights on momentarily to help guide you to your front door in the dark.

1

1. SATELLITE NAVIGATION SYSTEM AND RADIO/MP3 CD WITH BLUETOOTH HANDS FREE CONNECTIVITY

A fully integrated Satellite Navigation, Radio/ MP3 CD (with auxiliary & USB input) and Bluetooth Hands Free system featuring voice guidance, highly developed voice recognition, 2D/3D mapping and dynamic intersection views displayed on an ultra-fast 7" 16:9 ratio full colour screen. Safe and convenient fingertip control using the console joystick and steering wheel mounted remotes.

2

2. HANDS-FREE RENAULT CARD

Just keep the card on you. The car unlocks automatically as you put your hand in the door handle.

3. 4X4 TRANSMISSION A choice of three modes

- **AUTO mode** (default mode when starting). The All Mode 4x4-i system guarantees best possible traction in all conditions by permanently optimising the torque split to the four driven wheels: those which benefit from the most grip receive more torque.
- **LOCK mode:** In more difficult conditions, and at speeds of less than 40km/h, torque is evenly distributed to the front and rear wheels, allowing Koleos to showcase its 4x4 ability.
- **2WD mode:** The two-wheel drive mode is ideally suited to dry roads or highway driving.

3

Standard equipment varies depending on specification level (refer to pages 22-27)

4. HILL DESCENT CONTROL (4WD ONLY)

With the 'lock' transmission mode selected, the Hill Descent Control (HDC) system stabilises the speed of Koleos at 7km/h, enabling steep downhill slopes to be negotiated in safety without need to use the brakes. It is activated by a fascia-mounted button.

4

5. HILL START ASSIST (4WD ONLY)

The Hill Start Assist function (HSA) is automatically deployed on slopes of 10% or more. The system prevents Koleos from slipping back down the hill when pulling away.

5

6. ELECTRONIC PARKING BRAKE

When the engine is switched off, the system automatically enables the handbrake.

6

7. BOSE® SOUND SYSTEM

Specially designed for the acoustics of Koleos' cabin, the Bose® sound system – comprises a digital amplifier, seven loudspeakers and a woofer – delivers sound of an exceptionally high quality.

7

1

1. ALARM

The fully integrated alarm system provides an audible warning if the doors, bonnet or boot are opened when the system is armed.

2. AIRBAGS AND REINFORCED STRUCTURE

The structure incorporates programmed crumple zones engineered to absorb a proportion of impact energy in an accident. Occupants are further protected by a package of six airbags, with front and side airbags for front passengers, plus front/rear curtain airbags.

2

3. ELECTRONIC STABILITY PROGRAMME (ESP)

The Electronic Stability Programme (ESP) constantly controls the grip provided by each wheel to optimise cornering stability, notably in wet conditions.

3

4. EMERGENCY BRAKE ASSIST (EBA)

EBA reduces stopping distances by automatically applying the car's full braking power in an emergency situation.

4

5. EURO NCAP

Renault Koles has been awarded 5 stars in the EURO NCAP crash tests

6. FRONT AND REAR PARKING SENSORS

Proximity sensors facilitate parking by warning you of the presence of obstacles in front of or at the rear of the car. Audible beeps become faster the closer the vehicle gets to such an obstacle.

7. CHILD MINDER MIRROR

It enables the driver to see passengers in the rear without having to adjust the rear view mirror.

5

6

7

Standard equipment varies depending on specification level (refer to pages 22-27)

COMFORT

1. ELECTRIC PANORAMIC GLASS SUNROOF

The vast electric sunroof ensures a brightly lit cabin and a panoramic view of the world overhead.

The front part of the sunroof opens and both parts are equipped with adjustable sunblinds.

2. CRUISE CONTROL WITH SPEED LIMITER

The cruise control with speed limiter enables you to pre-select a cruising or maximum speed.

The chosen speed can be adjusted by a steering wheel-mounted control.

3. SUNBLINDS

Passenger comfort is enhanced by retractable sunblinds incorporated in the rear doors.

4. RAIN AND LIGHT SENSORS

The front wipers are automatically activated and their speed adapted as a function of the amount of rain falling. The headlamps are automatically switched on by a light sensor in the dark or when entering a tunnel.

5. CLIMATE CONTROL

The dual-zone automatic climate control permits each front passenger to adjust the temperature to their individual requirement. Rear passengers can also choose the ideal setting thanks to the vents control located at the rear of the centre console. An in cabin filter protects passengers from pollen, dust and odours.

6. RADIO CONTROLS

Practical fingertip steering wheel-mounted remote controls allow you to scroll through the main audio menus.

Standard equipment varies depending on specification level (refer to pages 22-27)

1. GLOVEBOX

The generous 15-litre glove box is illuminated and chilled.

2. FRONT STORAGE

The front doors offer a storage tray that can hold a 500 ml bottle. There are closed stowage compartments in the armrests of the front doors and a drawer under the passenger seat to increase storage capacity.

3. MODULAR INTERIOR

According to your needs of the moment, the 60/40-split rear seat can be folded to form a flat floor. Items of up to 260cm in length can be carried by tipping the front passenger seat back forward.

4. SKI FLAP

The central rear armrest incorporates a ski flap. With the ski flap open, a snowboard can be carried.

Standard equipment varies depending on specification level (refer to pages 22-27)

5. EASY ESTATE SYSTEM

To free up additional load carrying capacity, easy-to-access levers in the boot or by the rear seats permit the 60/40-split rear seats to be folded forward, either individually or together.

6. REAR UNDERFLOOR STORAGE

The rear incorporates two discreet five-litre underfloor storage spaces.

7. CENTRE CONSOLE

The 7.3 litre multi-purpose centre console cubby houses a removable bin which is ideal for tidily storing your favourite CDs.

8. DRAWER

A drawer at the rear of the centre console and accessible from the rear seats offers a further 2.3 litres of storage.

EQUIPMENT LEVELS

EXPRESSION

Koleos Expression represents an outstanding value, yet it does not compromise on safety nor driving comfort. Koleos Expression comes standard with integrated satellite navigation system, dual zone climate control and 17-inch Fidji alloy wheels.

DYNAMIQUE

The charcoal colour scheme of the Koleos Dynamique's sporty interior combines carbon fibre and chrome effect trim. It also boasts leather trimmed upholstery (2), steering wheel, and gear knob. The Dynamique comes standard with stylish 17-inch Alyum alloy wheels (1).

PRIVILEGE

Black hues and graphite trim dominate inside the luxuriously appointed Koleos Privilege (also available in optional Sandstone/Beige interior at no cost). It features leather trimmed upholstery, steering wheel and gear knob. The Bose® sound system has been carefully matched to the characteristics of the luxurious cabin. The Privilege comes standard with powerful 18-inch Austral alloy wheels (5) to complete the package.
