ALL 4 THE DRIVER™

**SUBARU**

# ALL 4 THE DRIVER™

All 4 the Driver™ is far more than a simple phrase for those of us that work for Subaru. It's a philosophy that ensures a culture that's united in its passion for putting you, our customer, first.

Basically, it's about creating an extraordinary experience for you, each and every time. It means we have an uncompromising commitment to quality, especially in our dealings with you and how we make you feel. At Subaru we are all accountable for making All 4 the Driver a real experience for you. And we're all motivated by that challenge.

To find the Subaru that is right for you - don't take our word for it, Drive It Your Way®. After all, there's only one way to find out how a Subaru feels, and that's by getting behind the wheel. Put your favourite Subaru to the test on the kind of roads where you need it to perform most - from a quick, local dash around the block, to a longer freeway cruise, there's a test drive route to suit you. Ask your local Subaru Retailer for details.

**Symmetrical All-Wheel Drive**  
**Horizontally-opposed Boxer engine**  
**Five-star ANCAP occupant safety**

ALL 4 THE PERFORMANCE, THE SAFETY, THE RETAINED VALUE

### Performance

Our Symmetrical All-Wheel Drive and horizontally-opposed Boxer engine technology have been developed to work together to provide superior handling, performance and balance - which gives our Drivers greater confidence. Confidence that makes for pure driving pleasure.

Our DNA is what makes Subaru different from every other car in the world, it's what makes a Subaru a Subaru. It starts with the heart and soul of every Subaru – Symmetrical All-Wheel Drive, a horizontally-opposed Boxer engine and the maximum five-star ANCAP occupant safety rating. Together, our technical innovations and safety credentials combine to deliver performance, enhance safety and maintain consistently excellent retained value for every Subaru owner. Here's why:

### Safety

Thanks to its uniquely balanced design, every Subaru is made to grip the road in just about any condition. A ring-shaped passenger safety cell and advanced crumple zone technology help protect Subaru Drivers and passengers from serious injuries. It's part of the reason every Subaru is awarded a five-star ANCAP occupant safety rating – the highest occupant safety rating available in Australia – ensuring a worry-free trip, wherever you're heading.

### Retained Value

Excellent retained value is no accident. Subaru starts with outstanding cars, adds world famous advanced driving technologies and provides every owner with maximum five-star occupant safety. But it doesn't end there. Our highly skilled service technicians at over 100 Subaru service centres around Australia ensure your Subaru is kept in peak condition at all times. Subaru has had an active focus on the retained value of all our models for many years. This is the result of delivering exceptional performance, safety technologies and DataDot™ theft protection to ensure that owning a Subaru is a good investment.

THE  
DIFFERENCE  
IS OUR  
DNA

# LIBERTY EXIGA 2.5i AND LIBERTY EXIGA 2.5i PREMIUM

**ALL 4**  
THE STYLE  
THE LUXURY  
THE EXTRA ROOM  
THE DRIVER

## Liberty Exiga 2.5i

The Liberty Exiga 2.5i combines six-seat luxury and versatility with the driving confidence of Symmetrical All-Wheel Drive and the safety of Vehicle Dynamics Control. Standard state-of-the-art Linerartronic™ Continuously Variable Transmission (CVT) and a long wheel base provide a comfortable and smooth drive. The 2+2+2 theatre style seating configuration means everyone travels first class and a standard rear DVD entertainment system ensures second and third row passengers can enjoy their favorite DVDs on those long trips. A six-stack CD player, handy storage compartments and subtle interior lighting complete the picture of luxury. And of course, the added safety of six SRS<sup>1</sup> airbags, including dual front, dual front side and curtain.

## Liberty Exiga 2.5i Premium

Want more luxury? Choose the Liberty Exiga 2.5i Premium model featuring leather<sup>2</sup> seats, eight-way power driver and front passenger seats, larger 17-inch alloy wheels, and a multi-information satellite navigation system with single CD/DVD<sup>3</sup> player, *Bluetooth*<sup>®</sup> wireless technology<sup>4</sup> and a rear view reverse camera.

1. SRS: Supplemental Restraint System. Effective when used in conjunction with seatbelts.
2. Some parts of seating are not full natural leather.
3. Front DVD only operates when vehicle is stationary.
4. *Bluetooth*<sup>®</sup> is a registered trademark of Bluetooth SIG Inc. System operation ability is subject to the *Bluetooth*<sup>®</sup> wireless technology specification of individual's phone.

# ALL OR NOTHING

We pioneered Symmetrical All-Wheel Drive (SAWD) over 30 years ago and it remains one of our defining achievements. The combination of SAWD and the Traction Control System incorporated within the Subaru Vehicle Dynamics Control system (VDC) optimises tyre traction

and provides the driver with outstanding control. Partnered with our horizontally-opposed Boxer engine, and symmetrical drivetrain, it gives you a sense of poise and balance that not only inspires confidence, but delivers optimum safety – whatever the conditions.

## The benefit of symmetry

The drivetrain of your Subaru is perfectly symmetrical with the engine, transmission, propeller shaft and rear differential all arranged in a straight line.

The result is ideal weight distribution, a low centre of gravity, and perfect balance giving you sure-footed control, and smooth, receptive handling.

## Three distinctive advantages

### 1. Better balance

A low centre of gravity means less body roll, flatter cornering and improved response with the benefits of SAWD grip.

### 2. Less vibration

Our horizontally-opposed Boxer engines are flat in shape and sit low in the engine bay, meaning less vibration, noise and greater cabin comfort.

### 3. More grip and traction

SAWD offers distinct advantages over two-wheel drives when cornering by optimising traction and reducing the likelihood of oversteer or understeer.

Transfers power from the wheels that slip to those with grip

# ALL 4 THE EXHILARATION

You feel the difference on your very first drive. That quiet, smooth acceleration and light-footed responsiveness that has become the hallmark of the horizontally-opposed Subaru Boxer engine. Tuned for mid-range torque as well as top-end power, it offers the driver impressive performance – even when carrying a big load.

## INTELLIGENT TIMING

The Liberty Exiga 2.5-litre SOHC engine utilises our intelligent Active Valve Lift System (i-AVLS). i-AVLS varies the inlet valve lift and timing to improve fuel efficiency, power and low speed torque.

## Automatic transmission Lineartronic™ CVT:

The 2.5-litre naturally aspirated Liberty Exiga range features an innovation called Lineartronic™ Continuously Variable Transmission (CVT) – Subaru's first longitudinally mounted CVT system for an AWD production vehicle. What makes it so special is that unlike conventional automatics – which use fixed gear ratios – the CVT gives you smooth acceleration with no discernible steps or shifts.

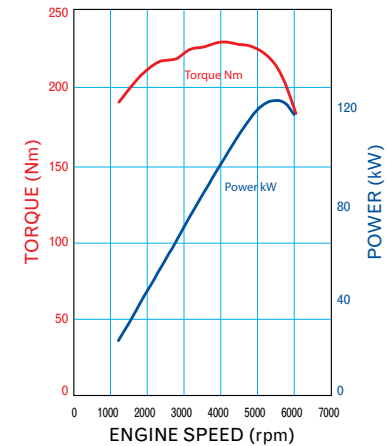

## SUBARU 2.5-LITRE FOUR-CYLINDER SOHC BOXER ENGINE

**Max. power: 123kW @ 5,600rpm**  
**Max. torque: 229Nm @ 4,000rpm**

The 2.5-litre naturally aspirated engine delivers 123kW of power at 5,600rpm; and provides a towing capability of 229Nm of torque at 4,000rpm. That translates to an even, well-balanced drive, with strong torque performance in both low and high rev ranges. All while providing impressive fuel economy with only 8.6<sup>1</sup> litres required per 100km giving you extended range with lower emissions.

1. Based on Lineartronic™ CVT model tested in accordance with the ADR81/02 'combined cycle' test.

# SAFETY FIRST SECOND AND THIRD

## FIRST - BALANCE

Symmetrical All-Wheel Drive (SAWD) is an integral part of the Subaru driving experience. SAWD enhances control by taking advantage of the traction offered by all four tyres distributing power. Which means driving on low friction surfaces like wet or snowy roads and muddy tracks becomes much safer.

## SECOND - STABILITY

All Liberty Exigas come standard with a high level of collision avoidance technologies – an electronic driver assist system called Vehicle Dynamics Control (VDC). This is not just Electronic Stability Control (ESC) but a complete system of safety measures.

Subaru's VDC system is made up of both stability and braking technologies:

- Electronic Stability Control (ESC)
- Traction Control System (TCS)
- TCS Limited Slip Device (LSD)
- Anti-Lock Braking System (ABS)
- Electronic Brakeforce Distribution (EBD)
- Brake Assist

So in extreme situations – like when you have to swerve or brake suddenly – VDC is there to help. The VDC system is constantly analysing through an array of sensors, the parameters that affect vehicle stability of the Liberty Exiga whilst it's in motion.

Understeer or oversteer challenge even the best of drivers. The ESC technology incorporated within the VDC system aids the driver in maintaining control during cornering and emergency manoeuvres. When the road conditions are particularly challenging such as a muddy track the VDC Traction Control System and TCS Limited Slip Device kick in, minimising wheel spin and transferring power from the wheels that slip to the wheels with grip.

The Anti-lock Braking System (ABS) – including Electronic Brakeforce Distribution (EBD) and Brake Assist work together to help avoid wheels locking up, maximise stopping power and make sure the right amount of braking force is applied in an emergency. Every centimetre makes a difference. Put simply, all these features work together to give you control when you need it the most.

### THIRD - PROTECTION

#### Five-star safety...

Every occupant can feel that much safer knowing the Liberty Exiga has been awarded the maximum five-star crashworthiness rating for occupant safety from the respected and independent Australasian New Car Assessment Program (ANCAP)<sup>1</sup>.

Such a high safety rating has a lot to do with the innovative advancements that we've made an integral part of the Liberty Exiga. Advancements like the high-strength front seat frames and headrests provide enhanced protection against whiplash in heavy rear-end collisions. All rear seatbelts come with Automatic Emergency Locking Retractors, and the front seatbelts feature pretensioners that hold you securely in place in an accident.

#### ... That's tough, on the outside...

The Liberty Exiga's ring-shaped passenger safety cell is made to absorb impact – and features steel reinforcements, crumple zones and a strong, rigid build designed to help reduce injury in the event of an accident.

The chance of serious injury to the front occupants is further reduced by the ingenious positioning of the engine – low enough to slide below the cabin in a severe frontal collision. Plus the energy-absorbing collapsible steering column, and pedal intrusion limiting system help minimise driver injuries in a heavy frontal collision.

#### ... And soft on the inside

Six SRS<sup>2</sup> airbags help protect passengers from a heavy impact. Dual front, front side, and curtain airbags come standard in all Liberty Exiga models.

#### A grand vision

Subaru design engineers take special care to optimise your field of vision from the driver's seat, without compromising the protection of all your occupants. The result is a strong passenger compartment, with outstanding visibility – helping you to avoid accidents in the first place.

#### Did you know?

All Subaru Liberty Exiga models are fitted with advanced engine immobilisers and DataDot™ technology. Approximately 7,000 microscopic dots are laser-etched with your vehicle's unique Vehicle Identification Number – making your Subaru a much less attractive target for potential thieves.

1. The Australasian New Car Assessment Program (ANCAP) gives consumers consistent information on the level of occupant protection provided by vehicles in serious front and side crashes.  
 2. SRS: Supplemental Restraint System. Effective when used in conjunction with seatbelts.

## ALL 4 FIRST CLASS TRAVEL

Style, comfort and space define the Liberty Exiga interior. Starting with the theatre style seating for six passengers and the rear DVD entertainment system, everyone travels first class.

Versatility is a huge feature for the Liberty Exiga with multiple seating and cargo options coupled with user-friendly storage space, like door pockets with integrated bottle holders and a rear centre tray.

If you are looking for luxury, the Liberty Exiga 2.5i Premium model features leather<sup>1</sup> seats, eight-way power driver and front passenger seats, larger 17-inch alloy wheels, and a multi-information satellite navigation system with single CD/DVD<sup>2</sup> player, *Bluetooth*<sup>®</sup> wireless technology<sup>4</sup> and a rear view reverse camera.

1. Some parts of seating are not full natural leather.
2. Front DVD only operates when vehicle is stationary.
3. *Bluetooth*<sup>®</sup> is a registered trademark of Bluetooth SIG Inc. System operation ability is subject to the *Bluetooth*<sup>®</sup> wireless technology specification of individual's phone.

 FAR RIGHT: REAR DVD ENTERTAINMENT SYSTEM  
 CENTRE: SATELLITE NAVIGATION SYSTEM (LIBERTY EXIGA 2.5i PREMIUM)

**Entertainment**

Wherever your adventures take you, you'll always be accompanied by the perfect soundtrack. And the best part is, it's all at your fingertips, with audio controls right there on the leather steering wheel.

**Standard audio**

With six speakers, and a six-stack CD player that's MP3/WMA compatible, our standard audio system is anything but standard. Door speakers and tweeter positions ensure rich sound all through the cabin.

**Satellite navigation**

Destinations are at your fingertips with the Subaru satellite navigation system powered by the renowned Whereis™<sup>1</sup> Map database. The touch screen based system is fitted in the dashboard centre console and is designed to be intuitive, making it easy to move between menus. Frequently used

locations can be stored in the memory, while drivers are offered a huge variety of vertical map views, ranging from as close as 50 metres to 256 kilometres. It also incorporates dual trip meter functions plus journey duration, distance and average fuel consumption.

And to pump out your favourite soundtrack, there's a single CD/DVD<sup>2</sup> player with MP3/WMA compatibility that also features Bluetooth® wireless technology<sup>3</sup> (operation ability is subject to Bluetooth® specification of individual phone) and a rear view reverse camera.

# THE LIBERTY EXIGA RANGE

LIBERTY EXIGA 2.5i

LIBERTY EXIGA 2.5i PREMIUM

# MAKE A GENUINE DIFFERENCE

## Subaru Genuine Accessories

The small things can sometimes make the biggest difference. So to set your Subaru apart, personalise it with any of our Subaru Genuine Accessories. From the added protection of carpet mats to towing and adventure packed roof carrying systems, we have a great range of accessories to help you get your Subaru just right for your lifestyle. You can see the complete range of accessories at [subaru.com.au](http://subaru.com.au)

## Genuine accessories Genuine warranty

All Subaru Genuine Accessories come with a manufacturer's warranty:

- When you have them fitted at the time you purchase your new vehicle (or at your first scheduled service by your Subaru Retailer) you get a three-year/unlimited-kilometre warranty.
- When you purchase accessories and have them fitted by your Subaru Retailer any other time you get a two-year/unlimited-kilometre warranty.
- When you purchase accessories from your Subaru Retailer at any other time, you get 12-month/unlimited kilometre warranty.

You can get full warranty information at [subaru.com.au](http://subaru.com.au)

# ALL 4 THE HUE THAT'S... YOU

One of the final choices – but one of the most important! The colour you choose for your Liberty Exiga makes a bold statement about who you are.

So we've made sure you've got lots of ways to express yourself – with a wide range of colours to make your Liberty Exiga more... you.

Satin white pearl

Galaxy blue silica

Spark silver metallic

Crystal black silica

Graphite grey metallic

Note: Paint colours are representative only and subject to variation due to the printing process.
