Audi Q3 Accessories

**Audi**  
Genuine Accessories

# The Audi Q3 has got character. Now it's up to you to make it your own.

The Audi Q3 has its own unmistakable style. This is shown not only by its extraordinary design, but also by its flexibility. It is compact and adaptable, and offers a great deal of functionality, but with the individual solutions from Audi Genuine Accessories it offers even more: a great deal of personality.

## We haven't reinvented the wheel. Although after so many tests, you would almost suppose we had.

Audi cast aluminium wheels are subjected to constant strain during daily use. Comprehensive testing ensures that they nevertheless fulfill the high quality standards required of them. Complex casting processes also lead to very strong components and the multiple coats of high-quality paint do not just create a stunning look but also offer effective protection against scratches.

### 1 Cast aluminium winter wheels, 5-arm semi-Y design

Complete winter wheel, suitable for use with snow chains. Available in size 6.5 J x 17 with 215/60 R 17 tyres. The dynamic design sets the tone of your Q3.

### 2 Sports-style tailpipe trims

Twin-pipe design. Made out of chrome-plated stainless steel. Available for 4-cylinder models.

### 3 Anti-theft wheel bolts

Can only be loosened with the supplied adapter. Helps to prevent theft.

### 4 Valve caps

The 4 metal valve caps with embossed Audi logo provide better protection for the valve from dust, dirt and humidity. Available for rubber, metal and aluminium valves.

Cast aluminium wheels

## One must suffer for beauty.

**By undergoing a copper accelerated acetic acid salt spray test, for example.** When our experts test the quality of Audi Genuine Accessories wheels, they are just as innovative as our designers. Intense heat, high humidity, strong sunlight – there is practically no limit to the number of possible tests. But the most extreme endurance test is the copper accelerated acetic acid salt spray test, known as CASS. In the test, wheels which have been previously damaged by simulated stone chips are sprayed with this extremely corrosive solution for several days. Yet they must overcome all these challenges without visible adverse effects. so that even after many miles, you can be as thrilled by the design of your Audi Genuine Accessories wheels as you were on the first day.

## If your hotel does not offer sport and leisure facilities, just bring them with you.

Where will the mood take you next? Skiing in the mountains, for an extended kayak tour or on a relaxed bike trip in the countryside?  
Just make a spontaneous decision. The smart transport solutions from Audi Genuine Accessories give you the freedom to spend your leisure time as you want.

### 1 Carrier unit for roof rails

Carrier unit for various roof modules such as cycle mount, kayak rack or ski and luggage box. The profile section is made from anodised aluminium tube. The carrier unit is easy to install and lockable. Maximum permissible total weight of carrier, modules and load 75 kg. A practical storage bag is available separately.

---

### 2 Cycle fork mount

Easy to handle. Lockable. Suitable for cycles with a quick-action lock on the front wheel. Maximum load 17 kg. (Can only be used in conjunction with the carrier unit.)

---

### 3 Cycle mount

The cycle rack made of a specially shaped aluminium profile and powder coated steel enables a bicycle to be particularly easily mounted onto the vehicle. Lockable. Maximum load 17 kg. (Can only be used in conjunction with the carrier unit.)

---

## The Audi Q3 has enough space. But there are some things you can just never have too much of.

A loading volume of 1,365 l should really be sufficient. But Audi Genuine Accessories offers practical and attractively designed solutions for the transportation of bulky objects. So you really can fit in everything you want to.

**1 Ski and luggage box (480 l)\***

Ski box for winter sports equipment and other luggage. Lockable and can be opened from both sides. Easy-to-clean thanks to smooth surface. (Can only be used in conjunction with the carrier unit.)

**2 Trailer towing hitch**

With towing capacity of 750kg unbraked or up to 2000kg braked#, Chrome plated removable tongue. Requires fitment with towbar wiring kit optimally adapted to the vehicle's electronic system. (Overseas towbar shown.)

**3 Ski and luggage box (450 l)\***

Lockable and can be opened from both sides. Suitable for skis of up to 2.10 m in length. In some cases, opening of the tailgate may be restricted. (Can only be used in conjunction with the carrier unit.)

**4 Luggage box (370 l)\***

Compact box, easy to open with easy-to-clean surface, lockable. Its aerodynamic shape reduces wind noise more effectively. (Can only be used in conjunction with the carrier unit.)

\*Maximum permissible load 50 kg. #Refer to owners handbook for vehicle model specific towing and gradient capacities

Roof modules

### Whether you're going to the Simpson, the Snowies or Kakadu – our roof modules know the climate.

**Weather tests simulate the different climatic zones in which Audi Genuine Accessories products are used.** Hot and dry, cold and damp, hot and humid. The Earth's range of weather conditions poses considerable challenges for developers. Because, no matter if there is a storm, rain, or a burning sun; a product must be able to withstand the most varied climatic influences for a long time. This is why Audi examines and improves items such as the luggage box in specially designed extreme weather tests. Xenon lights and artificial rain are used to simulate the passing of an entire year in a shorter period of time. Furthermore, tests on the carrier units serve, for example, to optimise operating and driving comfort. This is why the strut shape of the carrier unit is inspired by the aerodynamic profile of aircraft wings to reduce wind noise. Many tests, one goal: An optimum start to your next holiday with Audi Genuine Accessories. Even if you are not going to the Simpson desert.

2

**1 Kayak rack**

For solo kayaks weighing up to 25 kg. (Can only be used in conjunction with the carrier unit.)

---

**2 Ski and snowboard rack**

For the easy transportation of up to 6 pairs of skis or 4 snowboards. Lockable. (Can only be used in conjunction with the carrier unit.)

---

**Luggage rack\***

For convenient transportation of additional items of luggage on the roof. Lockable. The profile comprises Eloxal aluminium. Corrosion-resistant. (Can only be used in conjunction with the carrier unit.)

---

\*Maximum permissible load 57 kg.

## A communications expert that also knows the way.

The diverse range of communication options in the Audi Q3 ensures that your favourite people and your favourite music are with you at all times. And, with the new map material for your navigation system, you might even discover a new favourite route.

**1 Navigation update\***

New map material with new content.  
More convenient and a more relaxed driving  
experience. Our tip: combine the update with your  
vehicle's next service interval.

**2 Adapter cables for Audi music interface**

Enable connection of various iPod models and other  
portable media players. Operation via the MMI system if  
the function is supported by the media player.  
Additional adapter cables are required to connect  
portable media players; for further information, please  
contact your Audi partner.

\*For more detailed information, please contact your Audi partner.

## So that you can pack everything into the car. Except dirt.

You can make yourself really comfortable in the Audi Q3. And it's also comfortable for your clothes for the meeting, your umbrella and your luggage. The intelligent solutions from Audi Genuine Accessories ensure tidiness and protect from soiling.

#### **1 Luggage compartment liner**

Custom-made luggage compartment protection. Washable and robust. The lip around the edge helps to protect the luggage compartment floor from any leaking fluids.

---

#### **2 Luggage compartment tray**

Ideally suited for all items of luggage which often leave marks behind during transport. The highly cut plastic insert is robustly built and easy to clean. Broad grooves reduce load slippage.

---

#### **3 Vehicle cover**

Made to measure in anthracite, with the Audi logo, made from breathable and anti-static material. Piping emphasises the shape of the vehicle. Provides excellent protection from dust and dirt. For indoor use only.

---

#### **4 Mud flaps**

Made from high-quality plastic. Reduce paint damage and dirt around the sill and rear apron areas. Available in sets of two for the front and/or rear.

---

#### **Loading sill protective sheet**

The precise-fitting loading sill protective sheet made from transparent film improves protection of the bumper from damage when loading and unloading the luggage compartment.

---

#### **Protective film for paintwork\***

Transparent and therefore almost invisible high performance protective film with an extra layer of clear varnish. Reduces the effects of stone chips, scratches and scrapes. For installing on the front of your Audi.

---

\*For information on when this feature will be available, please contact your Audi partner.

### 1 Premium textile floor mats

Cut to the dimensions of the Audi Q3's floor. Made from hard-wearing, densely woven velour. Connected to the vehicle by means of additional back coating and attachment to the fastening points in the vehicle's floor area. With Audi Q3 logo.

### 2 Rubber floor mats

Exact fit. Offer improved protection from heavy soiling. Connected to the vehicle by means of the provided points in the vehicle's floor area. With Audi Q3 logo.

## Who says that high heels only play a role in fashion?

Subject: Quality

Floor mats

**Our testers pay particular attention to them in a particular stress test.** Braking, changing gear, accelerating. These movements are made almost automatically by most drivers, but they put constant strain on the floor mats. This is because the floor mats are severely damaged by the shoes during these movements. To this end, Audi Genuine Accessories make use of a special testing procedure to test the durability of the materials. This involves clamping a floor mat in a special device. A rubber heel is then used to simulate the strain on the floor covering around the accelerator, brake and clutch pedals. The resulting findings are used to continuously optimise the product. So even when it has been in use for a long time, the floor mat continues to meet the high standards of Audi Genuine Accessories – and, of course, your own. You see, high heels play an important role at Audi too. At least when this is a good thing for your vehicle's floor mats.

Even more Q3? But of course.

You can experience the world of your Audi Q3 at [www.audi.com.au](http://www.audi.com.au)  
Enjoy your voyage of discovery.

## Audi Genuine Accessories Catalogue

In the "Audi Genuine Accessories" catalogue you will find accessories for all models, including many functional items such as leather covers for keys, and a high-quality cool bag, but also products that give your Audi an individual look such as high-quality valve caps. Contact your Audi partner to get a copy of this catalogue.
