

## The Audi Q5

## The SUV for progressive drivers.

### The Audi Q5.

World leading technology, revolutionary design and unsurpassed driveability come together in perfect unison in the progressive Audi Q5; an SUV that challenges convention with a strikingly streamlined design that still affords luxurious space and comfort.

Offering the full range of Audi-engineered automotive advances, this beautifully crafted SUV features quattro® permanent all-wheel drive with 40:60 torque split mated to a choice of FSI® petrol or performance turbo TDI® diesel engines. All engines deliver a powerfully efficient driving experience which stands the Q5 apart.

The latest generation of Electronic Stability Programme (ESP) intelligently manages the dispersion of weight when the standard roof cross-members are attached for safer driving in all conditions.

Individually, these distinctive attributes represent the cutting edge of automotive engineering. Collectively, they synchronise to create an overall driving experience so progressive, it will change the way the world sees the SUV forever.

● = Standard equipment

\* = Optional equipment, Manufacturer's List Price shown

- = Not available

NCO = No Cost Option

\* Individual Manufacturer's List Prices (MLP) of the factory fitted options quoted on this specification sheet separately include LCT. If the total price for the vehicle (excluding statutory charges) is below the LCT threshold then LCT is not applicable and the price of factory fitted options will need to be recalculated excluding LCT. Please enquire at your authorised Audi dealer for further details. This is a manufacturer's specification sheet and new vehicles must be purchased from authorised Audi dealers. Specifications are as planned from March 2012 and are subject to change without notice or obligation. All information in this specification sheet is correct at the time of publication, however variations may occur from time to time and Audi Australia Pty Ltd, in so far as it is permitted by law to do so, shall not be liable in anyway as a result of any reliance by any person on anything contained in this specification sheet. Authorised Audi dealers will provide up-to-date information on model specifications and prices. For individual prices please contact your local authorised Audi dealer.

1. Fuel consumption figures according to Australian Design Rules (AD) 81/02. The driving style, road and traffic conditions, environmental influences and vehicles condition can in practice lead to consumption figures which may differ from those calculated with these standards.

2. Towing bar, ball & tongue must be purchased separately through Audi Genuine Accessories.

3. Certain sections of the leatherette seat upholstery contain man-made material.

4. Option price includes Fine Nappa leather upholstered armrest.

5. Excludes Audi music interface connector cable which must be purchased separately through Audi Genuine Accessories.

6. Bluetooth mobile phone interface, phone cradle facility is not available.

7. Please note, 3D imagery of key city models, sightseeing information and topographical maps, which are described in the model brochure, are not available for Australian vehicles.

† The A5 2.0 TDI features new AdBlue technology. AdBlue solution is injected into the vehicles catalytic converter to reduce nitrogen oxide emissions (NOX). AdBlue solution is refilled during the regular vehicle service intervals. Under normal driving conditions, there should be sufficient AdBlue in the tank to last between services. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to AdBlue consumption which may differ between servicing.
