An all-time classic is all-new again

In terms of tall tasks, they don't come much loftier than the challenge of improving the Honda CR-V. After all, for over 15 years it's been the SUV that other SUV's want to be, and discerning drivers want to own. But torturous trials are what Honda's intrepid engineers live for and they've well and truly outshone themselves with the all-new CR-V.

Just like previous generations, this latest addition combines comfort levels that would leave many sedans hanging their

heads in shame and practical spaciousness that will happily haul a whole family's worth of bits and pieces.

And while it's even roomier on the inside, Honda's devious designers have managed to make the outside a smidge smaller. So when it comes to handling, you could be forgiven for forgetting you're driving an SUV at all (until you take a turn off the tarmac, of course).

While the choice to buy a CR-V is one of the simpler propositions you're ever likely to ponder, you'll now have to decide between the familiar four-wheel drive or a new two-wheel drive option. Plus, with comprehensively redesigned engines and ECON Mode, it boasts impressive fuel economy, too.

Add to that Honda's famously stringent safety specs and a sleek, sporty style makeover and you have a whole new yardstick to measure SUV's by. Which is great news for you, not so good for the competition.

 Scan your CR-V to find out more.

CR-V 4WD VTI-L shown in White Orchid Pearlescent.

"Solid, meet Sleek"

How do you create a design that blends confident SUV capability with refined urban civility? It's a curly question with only one answer: the all-new CR-V. With a breathtaking balance of smooth, flowing lines and aerodynamic sportiness, it's the SUV that's just as comfortable prowling the inner-city or the great outdoors.

For Honda's engineers, though, no matter how stunning a piece of design, it first must have a purely practical reason for being. And the new CR-V is perfect proof of this philosophy in action.

As just one example, the windscreen has been moved forward, a change that adds to the CR-V's sleek new look. But this simple shift leaves more interior room for driver and passenger alike.

Other new touches include a more muscular front bumper and grille, bold wheelarches, a curved rear glass window, and alloy wheels as standard. Even the CR-V's signature vertical rear brake lights have been reimagined, now with a more three-dimensional presence.

All this in a package that's smaller on the outside than previous generations. And in a piece of typical Honda cleverness, they've managed to make the new CR-V's interior bigger, to boot. But that's a whole new story.

CR-V 4WD VTI-L shown.

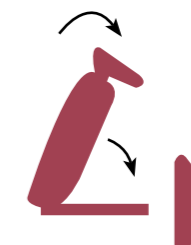

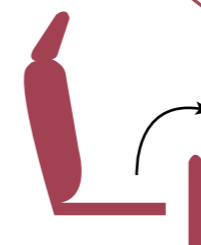

Inner peace and quiet

Call to mind the supreme sense of calm and freedom you feel when surveying your surroundings from a secluded hilltop. It was exactly this experience of space and openness that Honda's head interior designer wanted to capture with the new CR-V's interior.

It starts with the layout of the controls inside the cabin. In design terms, the layout is high on "ergonomic-efficiency." In everyday language, that simply means that everything in the CR-V's interior is just where you'd expect to find it. So from the very first moment you sit in it, you feel wonderfully at home.

And what a luxurious home it is. All the materials chosen, from delicately marbled fascia strips to sumptuous seating fabrics, are of the highest quality, and the attention to detail borders on the obsessive, even for Honda.

One thing you won't notice in the new CR-V, however, is the hustle and hubbub of the outside world. To reduce cabin noise, special sound insulating material has been fitted to the rear door, rear wheelarches, door frames, front bulkhead, and bonnet. Each door also features a double seal to make doubly sure your ride is profoundly peaceful.

If there's a single feature that really does lend the new CR-V a sense of space, it is, unsurprisingly, the enormous space created by its one motion-fold 60/40 split rear seats. With the simple pull of a handle, they fold flat to transform the CR-V from a family-friendly five-seater into a cavernous cargo carrier with up to 1648* litres of interior room.

Plus, the lower cargo floor and wider opening rear doors make it easier to load the new CR-V.

So whether it's tranquility or versatility you seek, the all-new CR-V is, quite simply, the pinnacle.

*Load to roof with rear seats down.

i-MID

How do you decide the best position to display driving data? If you're Honda, that's easy. You just analyse drivers' eye movements and then devise an instrument panel that shortens the visual distance between the most commonly referenced gauges and the road.

Sitting at its heart lies the highly intuitive full-colour intelligent-Multi Information Display (i-MID for short).

This displays every important tidbit of driving-related information, such as fuel economy indicators, vehicle warnings and reversing camera as well as audio and Bluetooth® displays.*

And with simple-to-use steering wheel-mounted controls, it's all right at your fingertips.

Satellite Navigation system

The CR-V 2WD VTi Navigation Pack, 4WD VTi-S and VTi-L models also come with a Satellite Navigation system to help guide you virtually anywhere in Australia via the shortest or fastest route. A user-friendly interface means it's easy to find over a million landmarks and locations including restaurants, car parks, petrol stations and sports centres. And thanks to real-time SUNA® traffic integration, you'll be able to avoid congestion from road works and accidents.

It's versatile, too, because it doubles as a touch-screen control unit for radio, CD, DVD‡, USB and Bluetooth® phone and audio streaming.° And when reversing, it acts as a rear-view monitor, so you can avoid the curb in even the cosiest of car spaces.

Now that's a touch of genius.

More choices to use less

Engine

When it comes to engine design, Honda has one driving goal: to squeeze the absolute maximum amount of performance out of every precious drop of fuel. The results of this quest are the two powerfully efficient i-VTEC engine options you'll find in the new CR-V.

For the never-before-seen two-wheel drive version, the Honda team has created a ruthlessly efficient 2.0-litre i-VTEC petrol engine. A miserly marvel, it uses just 7.7L/100km* and produces fewer CO₂ emissions than ever before. One thing that hasn't shrunk, however, is its power, as evidenced by 114kW of power, and 190Nm of torque.[^]

If the adventurous four-wheel drive model is more your speed, it comes with an equally impressive 2.4 litre i-VTEC power plant that produces 140kW of power and 222 Nm of torque.[^] But that extra oomph doesn't come at the cost of efficiency, because you'll still only use 8.7L/100km.[~]

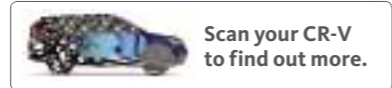

Eco Assist & ECON Mode

Also standard on every CR-V are Honda's acclaimed ECON Mode and Eco Assist systems. Hit the ECON button and the CR-V's throttle response and air-conditioning automatically adjust to use as little fuel as possible. You also have an onboard efficiency coach with the Eco Assist system. Should your right foot get a little heavy, the dashboard display will inform you with a white glow. Start driving more efficiently, and the speedometer will turn an encouraging green.[~]

Transmission

There are plenty of other clever touches, too.

For instance, there's a 6-speed manual[§] or a 5-speed automatic transmission. Choose the automatic, and you'll enjoy Honda's clever Grade Logic Control, a unique system that eliminates "gear hunting" whether you're going up, down or around.

Normal conditions:

You don't always need 4WD. The CR-V monitors road conditions and uses front-wheel drive when conditions are normal.

Loss of traction:

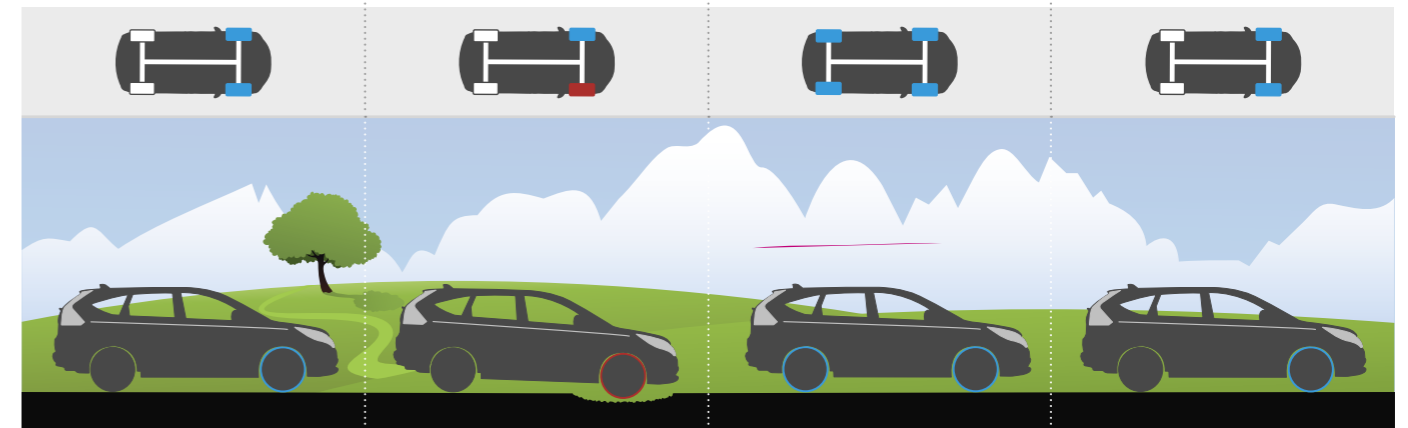

If changing road conditions cause a loss of traction, the CR-V detects this and takes into account the degree of front-wheel slippage.

4WD engaged:

The CR-V's innovative Real Time 4WD system automatically engages the rear wheels, when needed, to help regain traction quickly. As front-wheel slippage occurs, the torque is transmitted to the rear wheels.

Back to normal:

When normal road conditions resume, the CR-V switches back to front-wheel drive. The remarkable Real Time 4WD system is quick, seamless and automatic. All you'll notice is how sure-footed the CR-V is on all driving surfaces.

Real Time 4WD

And the CR-V has another trick up its sleeve: Real Time 4WD.

Unlike some other four wheel drive systems which are constantly engaged, Real Time 4WD delivers all the drive to the front wheels but then transfers power to the rear wheels if it detects them slipping.

By only operating when it's needed, it saves fuel, reduces wear and tear, and cuts down driving noise.

Suspensions

Add the CR-V's MacPherson strut front suspension and rear multi-link suspension and you have an SUV whose ride is so smooth and comfortable it will have many sedans hanging their heads in shame.

So with a host of clever new thinking onboard, plus an exciting new two-wheel drive option available, there are now more reasons than ever before to love the CR-V.

*The fuel consumption figures quoted are based on ADR81/02 combined test results for CR-V 2WD automatic. ^Performance figure for CR-V 2WD. ^Performance figure for CR-V 4WD. ~The fuel consumption figures quoted are based on ADR81/02 combined test results for CR-V 4WD automatic. §Only available on CR-V 2WD VTi.

Safety's nothing new in the CR-V

While this CR-V is an exciting new arrival, it comes with something you expect from every Honda: a comprehensive set of safety features. So whether you're on tarmac or trail, driving uphill or down, the CR-V is constantly on alert and ready to spring into action.

SRS Airbags

The CR-V's front airbags provide important protection for the driver and front passenger by optimising the airbag deployment to match the severity of a crash. They also help to minimise injuries that can sometimes be caused by the airbags themselves. Plus, front side and full-length curtain airbags provide an impressive line of lateral defence for all passengers.

Automatic Tensioning Seatbelts

The moment you're involved in a collision, the same sensors that deploy the CR-V's airbags automatically tension the front seatbelts. So you and your passenger are instantly pressed back safely in your seats.

Whiplash Mitigation Front Seats

The CR-V's front seats have specific spring range settings in both the seatback and bottom cushions. So if you get hit from the rear, they will help lessen the severity of neck injuries.

Real Time 4WD[^]

Some 4WD systems are constantly engaged and the result is wasted fuel, increased driving noise, and undue wear and tear to the powertrain. Honda's Real Time 4WD™ system senses when 4WD is needed and automatically switches to suit.

Anti-lock Braking System (ABS) with Brake Assist and Electric Brake-force Distribution (EBD)

The CR-V comes armed with ABS for superb stopping power. When emergency braking is detected, Brake Assist applies maximum braking pressure and the EBD monitors and adjusts the brake force applied to each wheel for greater control and stability.

Leaving Home/Coming Home Lights

Press the unlock button on the CR-V's remote key fob and its headlights turn on to help you make your way safely to the car. And when you arrive home and lock the CR-V, the lights stay on long enough to shine a path to your door.

Advanced Compatibility Engineering (ACE)

The CR-V has been designed with an innovative body structure, engineered to absorb and deflect the force of a frontal collision away from the passenger compartment, improving the safety of every occupant.

Active Cornering Lights

The CR-V 4WD VTi-L's headlights feature side lamps on either side of the CR-V that follow the direction you're turning, thereby reducing blindspots and helping bring potential hazards to light sooner.

Motion Adaptive Electric Power Steering (MAEPS)

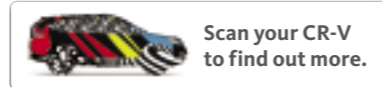

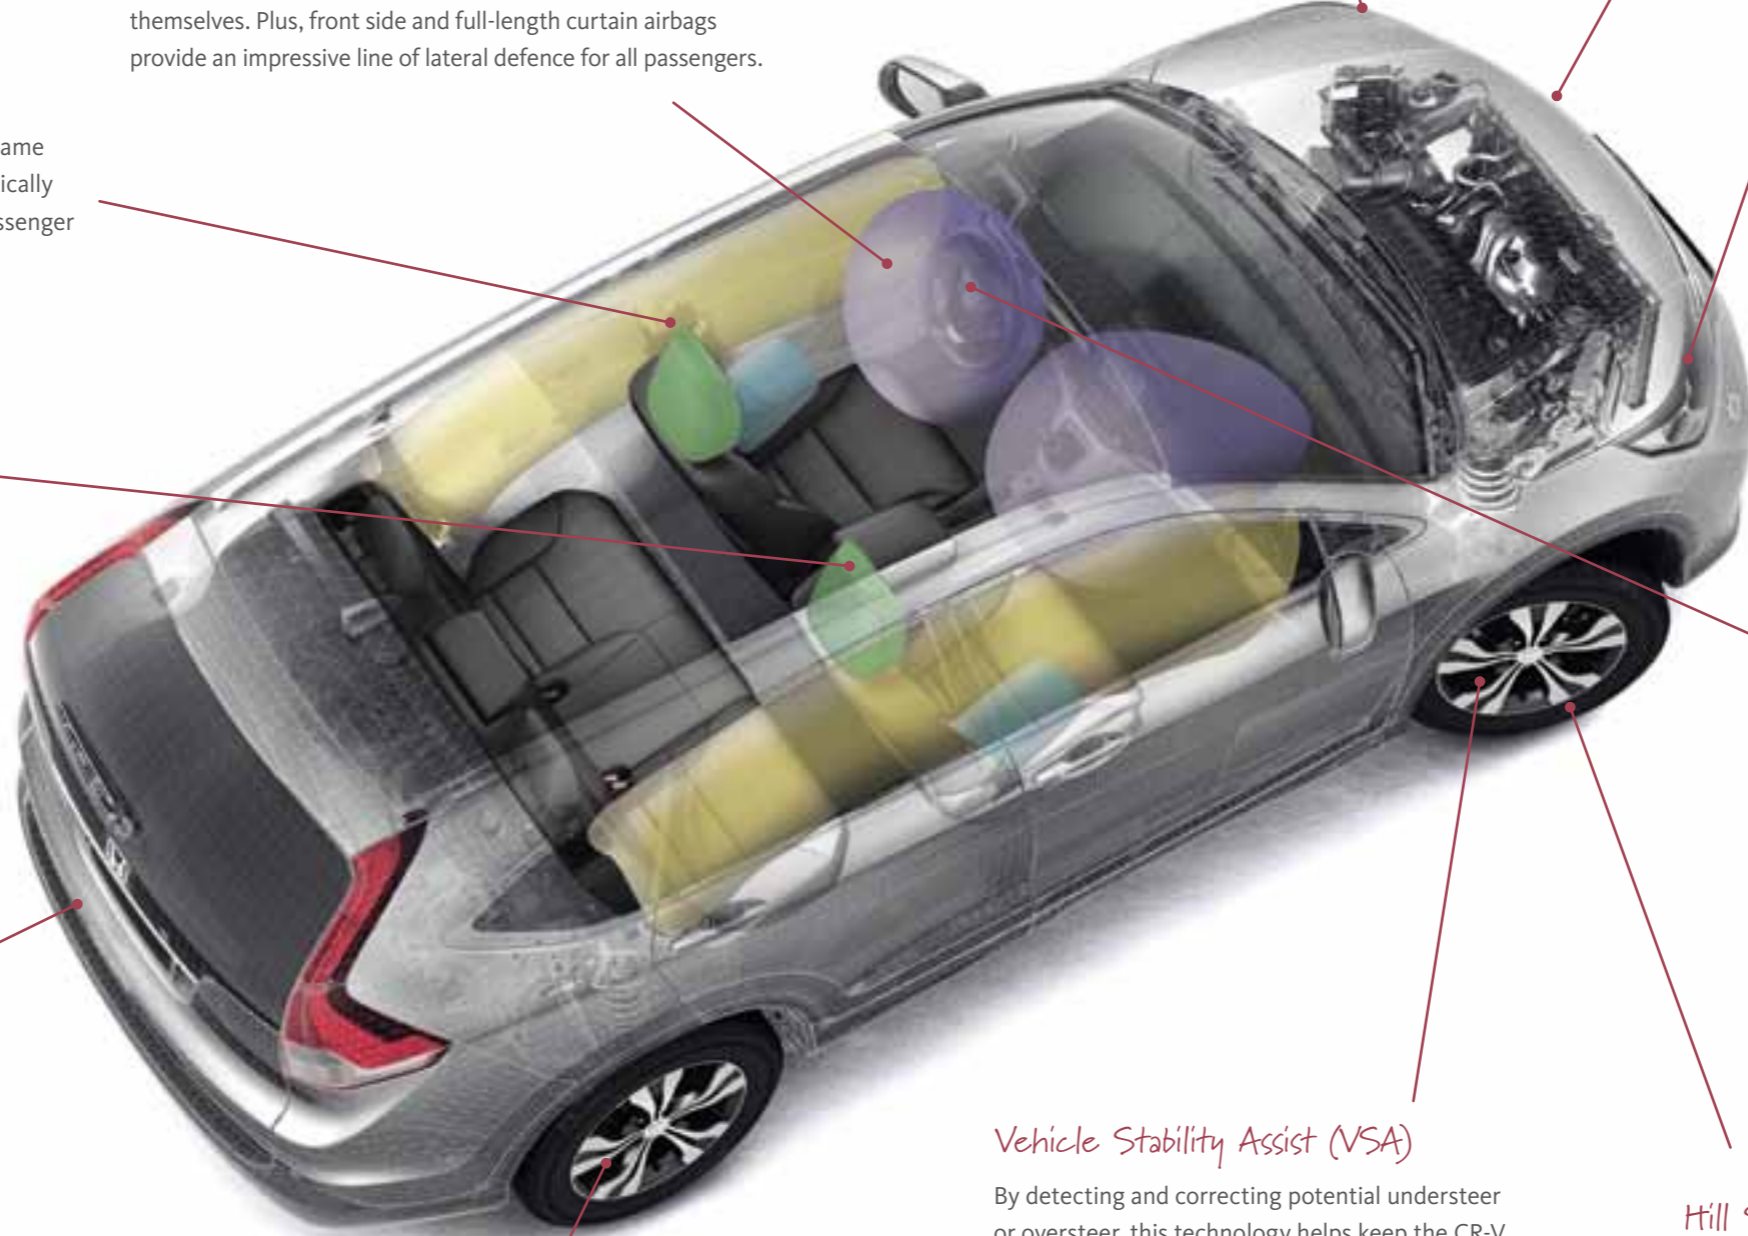

When VSA is activated, Motion Adaptive Electric Power Steering automatically adjusts steering pressure, making it decidedly easier to steer in the stabilising direction.

Vehicle Stability Assist (VSA)

By detecting and correcting potential understeer or oversteer, this technology helps keep the CR-V on-course should the road turn treacherous. If needed, VSA automatically reduces engine power and manages brake pressure to individual wheels to help regain control.

Hill Start Assist (HSA)

Hill Start Assist with automatic transmission prevents the CR-V rolling back when starting on an incline. A sensor controls brake pressure, keeping the car stationary for a moment after you release the brake pedal.

[^]Not available on the 2WD CR-V model. Overseas model shown.

2WD VTi

The CR-V 2WD VTi comes standard with:

POWERTRAIN

- 2 litre SOHC i-VTEC
- 114kW and 190Nm
- 5-speed auto or 6-speed manual
- 7.8L/100km manual*
- 7.7L/100km automatic*
- Cruise control

SAFETY

- 6 airbags
- ACE body structure
- Anti-lock Braking System (ABS)
- Electronic Brake-force Distribution (EBD) with Brake Assist
- G-force control technology
- Hill Start Assist (A/T only)
- Reversing camera
- Vehicle Stability Assist (VSA) with Traction Control
- Whiplash mitigation front seats

EXTERIOR

- 17" alloy wheels with full-size spare alloy
- Auto-off headlights
- Intermittent wipers
- Power door mirrors with integrated turn lights
- Remote keyless entry with jack knife key
- Shark fin antenna

INTERIOR

- Air conditioning with rear seat ventilation
- Bluetooth® phone/audio connectivity*
- Cloth trim seat
- Conversation mirror
- ECON Mode
- Eco Assist driver coaching
- Intelligent-Multi Information Display (i-MID)
- iPod compatible USB connectivity*
- Power windows with driver auto up/down
- Steering wheel-mounted cruise and Bluetooth® controls°
- Trip computer

i-MID

USB connectivity

4WD VTi

Additional features over the CR-V 2WD VTi:

POWERTRAIN

- 2.4 litre DOHC i-VTEC
- 140kW and 222Nm
- 5-speed auto
- 8.7L/100km*
- Real Time 4WD

EXTERIOR

- Chrome exhaust pipe finisher
- Roof rails
- Reverse tilt passenger door mirror

INTERIOR

- Steering wheel-mounted gear shift paddles
- Tonneau cover

SAFETY

- Security alarm

2WD VTi Navigation Pack¹

Additional features over the 2WD VTi:

- Satellite Navigation with SUNA live traffic alerts²
- DVD player³

Reversing camera

Cloth trim

Tonneau cover

Clever storage

Paddle shifts

COLOURS				
Crystal Black Pearllescent		Urban Titanium Metallic	Carnelian Red Pearllescent	Alabaster Silver Metallic

✓Standard feature. ■ Accessory option. – Not available. *The fuel consumption figures quoted are based on ADR81/02 test results. ¹Leather interior includes some PVC vinyl material. [^]4WD VTI-S alloy wheel design is different compared to the 2WD VTI and 4WD VTI. [®]The Bluetooth[®] word mark is owned by the Bluetooth SIG Inc. And use of such mark by Honda is under licence. Please check the list of compatible phones at honda.com.au/bluetooth. Not all devices are compatible and functionality will vary depending on device. [‡]SUNA is a registered trademark of Intellematics Pty Ltd. [‡]DVD player operates only while vehicle is stationary. [‡]iPod is a trademark of Apple Inc. iPod is integrated through a vehicle's audio system display and controls for iPods from 5th Generation onwards and all iPod Nanos. Older iPod models will only operate through the audio system when controlled via the iPod device itself, and firmware updates (if available) may be required to achieve compatibility with the vehicle's audio system display and steering wheel mounted audio controls (where applicable). Please refer to your iPod User Guide for information on iPod firmware updates.

Make it yours with Modulo

There's no question that the new CR-V is a stunning vehicle from the get-go. But with the Modulo Sports Pack, available as a full set or piece-by-piece, you can customise your CR-V so it's sleeker, sportier, and 100% yours alone.

CR-V 4WD VTI-L in White Orchid Pearlescent shown with 19" upsized alloy wheels and Modulo Sports Pack:

- Front aero bumper[^]
- Rear aero bumper[#]
- Rear tail gate spoiler
- Chrome sports grille
- Side step set (metallic)

*Available for VTI-S and VTI-L variants only. [^]Not compatible with Front skid plate. [#]Not compatible with Rear skid plate, Rear park assist and Tow bar kit. See your Honda Dealer for advice regarding Genuine Honda Accessories. Pictured accessories are all sold separately. All Genuine Honda Accessories installed at the time of retail sale of a new motor vehicle are covered by Honda's 3-Year/100,000km Warranty. If installed after retail sale, they are covered for the remainder of the warranty or a minimum of 12 months - whichever is greater - provided that the accessory is fitted only to the vehicle for which it was intended by Honda Motor Co.

Exhaust pipe finisher*

Chrome lower door garnish

Chrome tail gate garnish

Luggage area protector tray

Chrome mirror garnish

Chrome fog light garnish

Time to get active

If you've decided that the CR-V is the car for you, the chances are very good that you're hardly the stay-at-home type. So if you're ready for action, it's only fitting that your CR-V is, too.

CR-V 2WD VTi in Alabaster Silver Metallic shown with 18" upsized alloy wheels and Active Pack:

- Door visor set
- Luggage area protector tray
- Skid plate set*
- Roof rack cross bar set*
- Roof rail set*
- Side step set

*Available on 2WD VTi variant only. *Not compatible with Front and Rear aero bumpers. ~75kg load capacity. Required to be fitted with Roof rail set for 2WD VTi variant. In the interest of aerodynamics, Honda recommends Roof rack set be removed when not in use. ~Required on 2WD VTi to fit Roof rack cross bar set. *Rear door garnishes are non-illuminated. ^Tyres sold separately. Consult your Honda Dealer. 18-inch not available on 4WD VTi-L. 19-inch available for 4WD VTi-L only. See your Honda Dealer for advice regarding Genuine Honda Accessories. Pictured accessories are all sold separately. All Genuine Honda Accessories installed at the time of retail sale of a new motor vehicle are covered by Honda's 3-Year/100,000km Warranty. You're never alone in a Honda

Buy a CR-V and you'll be amazed at how well you'll be looked after.

The care starts with a 3-year/100,000km warranty and 6-year rust perforation warranty.⁵

And for a small extra investment, you can enjoy a huge amount of peace-of-mind with Honda Warranty Plus⁵ including Premium Roadside Assist.

Plus, as a CR-V owner you're entitled to a 5-year subscription to *Honda The Magazine* and access to our exclusive HondaONE website. This secure site gives you all the important information you never knew where to find, like up-to-date service history, vehicle records, maintenance tips and personalised service reminders.

And by using your Honda Dealer, you'll also be sure that they'll protect your investment by using Honda Genuine Parts.

So with all these benefits, your CR-V will be as pleasurable to own as it is to drive.

Insurance

If you're looking for cover every bit as reliable as your CR-V, you really need Honda Motor Vehicle Insurance.

You'll enjoy a range of benefits, including:

- 3-year new replacement if your Honda is a total loss
- Genuine Honda approved parts for the first 3 years
- Lifetime guarantee on authorised repairs

Approved applicants only. Normal underwriting and excess payment rules apply.⁶

Finance

Whether you're buying a Honda for yourself or a business, we have a wide range of flexible finance and leasing options.

So see your Honda Dealer to find a financial solution that suits you as perfectly as your CR-V does.

Merchandise

Show your true colours with genuine Honda merchandise. For everything from apparel to travel goods, visit your local Honda dealer or view the range at honda.com.au/merchandise

The Power of Clever Thinking

As a CR-V owner, you're part of a brand that's always doing something new.

Because if there is one thing Honda prides itself on, it's seeking out the challenging and unexpected.

It was this inventive spirit that led to developing the ingeniously clever Eco Assist driver coaching system.

It also produced the CR-Z, the world's first sports hybrid.

And that's not our first 'world first' either.

There's the FCX Clarity, which is powered by a hydrogen cell and whose only emission is water vapour.

Or the unique CIGS solar cells that produce twice as much energy than they take to make.

Then of course there's ASIMO, the world's most advanced humanoid robot and the incredibly fuel-efficient HondaJet with its unique above-the-wing engine design.

And now there's a glimpse of the future with the altogether different U3-X, a personal mobility device that takes you in any direction by simply shifting your weight.

All of these things, which were once dreams, are now realities thanks to Honda.

That's the power of clever thinking.

⁵Honda warranties apply where due care is exercised by the owner and the vehicle is maintained in accordance with the Owner's Warranty and Service Manual. Please visit honda.com.au/warranty for full terms and conditions. ⁶Honda Insurance is underwritten by Allianz Australia Insurance Limited Licence No. 234 708 ABN 15 000 122 850 (Allianz). In arranging this insurance Honda Australia Pty Ltd ABN 66 004 759 611 and the authorised dealers act as agents of Allianz and not as your agent. In entering into a contract of insurance for this policy, you acknowledge that this Product Disclosure Statement (PDS), your Schedule and any other document which we tell you forms part of this policy (Policy Documentation), sets out the entire agreement that exists between you and Allianz in connection with this policy.
