

Even its seats are magic

The Jazz Hybrid's ethos of economy even extends to its interior, with Magic Seats that cleverly fold 18 different ways so that you can make the most of every inch of space. Use Utility Mode™ to create a space roomy enough for two adult bikes, use Long Mode for a full 2.4m length of space or even Tall Mode where the rear seats flip up like cinema seats to allow awkward items to sit on the floor.

Of course, there'd be no point having all that room inside if you couldn't fit things through the doors in the first place. That's why the Jazz Hybrid is appointed with a low floor and doors that open to an extremely accessible 80 degrees.

~Utility Mode differs slightly from petrol variant. Image shown for illustrative purposes only.

Looks after the world. Looks after you

We've gone through how well the new Jazz Hybrid looks after the environment and your bank balance, but now let's look at how well it looks after you. In that regard, you can rest easy, because the Jazz Hybrid has been built to Honda's stringent safety standards.

It boasts features like Vehicle Stability Assist, that guards against under and oversteer, adjusting brake pressure and reducing engine power as needed.

Anti-lock braking (ABS) is included along with the Electronic Brake-force Distribution, a sensory system that monitors weight balance and adjusts brake-force accordingly. There's also 6 airbags – dual front airbags, side airbags and full length curtain airbags too, so every occupant's safety is fully covered.

You're never alone in a Honda

Buy a Jazz Hybrid and you'll be amazed how well you're looked after. The care starts with a 3-year/100,000km warranty, 6-year rust perforation warranty and an 8-year/unlimited kilometre warranty on the IMA battery¹.

Plus, as a Jazz Hybrid owner you'll have access to our exclusive HondaONE website. This secure site gives you all the important information you never knew where to find, like up-to-date service history, vehicle records, maintenance tips and personalised service reminders.

And by using your Honda Dealer, you'll also be sure they'll protect your investment by using Honda Genuine Parts and

Accessories. With all these benefits, your Jazz Hybrid will be as pleasurable to own as it is to drive.

Finance

Your Honda Dealer can help you find a financial solution that suits you as perfectly as your Jazz Hybrid does. For more info visit honda.com.au/finance

Insurance

If you're looking for cover every bit as reliable as your Jazz Hybrid, you really need Honda Motor Vehicle Insurance².

Jazz Hybrid Specifications

Description Hybrid

POWERTRAIN	
Engine	Inline 4 cylinder SOHC i-VTEC with IMA
Displacement	1.3 litre – 1339cc
Maximum power	72kW @ 5800rpm
Maximum torque	167Nm @ 1000-1700rpm
Compression ratio	10.8
Bore x stroke (mm)	73 x 80
Emission standard	Euro 4
CO2 emissions (g/km)	107
Automatic transmission	– with Grade Logic Control CVT
Auto-stop mode (fuel saver)	– with transmission shift lock ✓
Fuel type	Unleaded (91RON or higher)
Fuel supply system	Honda Programmed Fuel Injection (PGM-FI)
Fuel consumption combined (litres/100km)*	4.5
Fuel consumption urban (litres/100km)*	4.6
Fuel consumption extra urban (litres/100km)*	4.5
Drive By Wire throttle system (DBW)	✓

CHASSIS	
Body type	Monocoque
Front suspension	MacPherson strut
Rear suspension	Torsion beam axle
Stabiliser bars	Front and rear
Steering system type	Electric power assisted
Front brakes	Ventilated disc
Rear brakes	Drum

EXTERIOR	
Body coloured front and rear bumpers	Impact absorbing
Body coloured door handles	✓
Body coloured power door mirrors	✓
Front fog lights	✓
Grille	Chrome with blue finish
Headlights	Halogen with blue tinted lens
Privacy glass	✓
Rear combination lights	LED type
Rear garnish	Chrome
Rear window demister	✓
Remote keyless entry	✓
Wipers	– front 2-speed and intermittent ✓ – rear ✓

INTERIOR	
Accessory power outlet (12v)	✓
Air conditioning	Climate control
Central locking	✓
Cruise control	✓
Cup holders	10
Digital clock (in radio)	2 (Front)
Door pockets	✓
Driver's footrest	✓
Driver seat height adjustment	✓
Dust and pollen filter	✓
Eco Assist system (speedometer display)	✓
ECON Mode	✓
Glovebox	Double
Grab rail	4
Headrests (height adjustable)	5
IMA assist indicator	✓
Lighting	– interior light ✓ – luggage area light ✓ – map lights ✓

Lights-on warning (audible)	✓
Low fuel warning light	✓
Luggage area parcel shelf	✓
Magic Seats system with underseat storage compartment	✓

The most clever Jazz yet

The new Honda Jazz Hybrid is proof that smart things come in small packages. Building on the heritage of Honda's popular Jazz, the Jazz Hybrid is the perfect combination of good looks and practicality with an engine that is kinder to the environment, and your petrol bill.

The Jazz Hybrid boasts a stylish, modern exterior, top-notch safety features and the adaptable Magic Seats that have made the Jazz famous. But as well as all the things you'd expect from a Jazz, it's also a hybrid that combines a petrol engine with a small and powerful electric motor so you can do the right thing, while saving money at the pump at the same time.

Say hi to a hybrid

It wouldn't be a Jazz without the zip, and so it was important to create a hybrid model that saved fuel, but still had the get up and go that the Jazz is known for.

This balancing act was achieved via the Jazz Hybrid's Integrated Motor Assist (IMA) System, which partners a 1.3-litre i-VTEC 4-cylinder petrol engine with a light and powerful electric motor. It's a pairing that delivers both power and efficiency in equal measures.

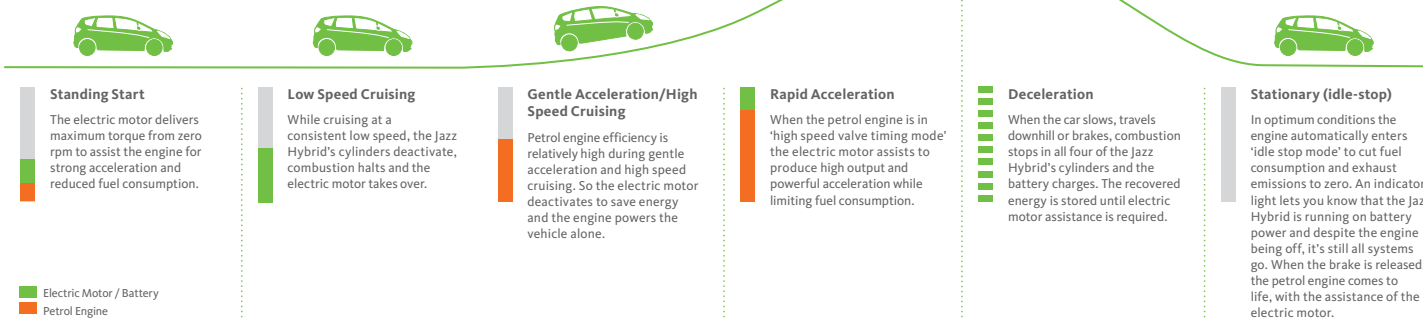

During acceleration, the engine draws on the electric motor for supplementary power. For low-speed cruising, the electric motor takes over and when braking, it replenishes the battery pack so it never needs recharging from an external power supply. Finally, in optimum conditions, the engine automatically switches itself off when idle to keep fuel consumption – and running costs – down to an absolute minimum.

The Jazz Hybrid also boasts Honda's automatic Continuously Variable Transmission (CVT) that leads to still further efficiency. By always selecting the most efficient drive ratio, the CVT offers better fuel economy and acceleration compared to more traditional transmissions. It also creates a smoother ride by eliminating annoying 'gear-hunting'.

The end result is fewer emissions, and a serious cash saving at the pump, as you'll only use as little as 4.5 litres of petrol per 100km*.

*Fuel economy based on ADR81/02 combined test results. Fuel use is impacted by an individual's driving style and environment.

How it works...

ECO is in its DNA

Being as efficient as possible isn't just about the car – it's about the driver too. That's why the Jazz Hybrid is equipped with Eco Assist. When you brake or accelerate sharply, the display glows blue. Drive smoothly and the display will turn an encouraging green.

You can keep track of your progress on the Multi Information Display. As you drive, a flower icon grows – the more efficiently you drive, the more it blooms.

Then there's the ECON button. Once pressed, it not only harmonises the engine and transmission for maximum efficiency, it also monitors and adjusts the air conditioning, extends idle stop time and increases regenerative charging when you brake.

A new look

It's not just the fuel economy that's been enhanced. The Jazz Hybrid features brand new, unique design touches for an even sharper look. Inside, the dashboard is lit with blue back lighting for a sophisticated night-time glow. The theme is continued outside, with clear blue headlights and rear combination lights, a chrome blue finish front grille and a rear tailgate garnish. So you'll always look good, while doing good.
