LOVE THAT CAR

Built for comfort and safety.

The moment you sit in the Mitsubishi Mirage Hatch, you'll be surprised by the spacious interior with generous room for 5 adults. The 60:40 split rear seats fold down to provide your choice of cargo storage. And when it comes to safety, Mirage Hatch protects both driver and passenger with six airbags as standard. Hill Start Control (HSC – CVT only), Active Stability Control (ASC), Anti-lock Braking System (ABS) and Electronic Brakeforce Distribution (EBD) make driving a safe and highly enjoyable experience. And all the while, climate control air conditioning in LS ensures the cabin is maintained at just the right temperature.

Smooth Aerodynamic Design

The clean and stylish exterior of Mirage Hatch always invites second looks. The reduced weight of its construction and its smooth, aerodynamic design means optimal fuel economy and low CO₂ emissions that rate as one of the best in its class.

RISE Body

Mitsubishi's Reinforced Impact Safety Evolution (RISE) body system is a highly rigid, one-piece shell. RISE integrates a rigid frame and side impact bars with collision absorbing joints. This super-strength cabin cocoons you and your passengers with outstanding protection in the event of an accident.

Tight Turning Radius

4.6 metre
Mirage has an impressive 4.6m minimum turning radius allowing for easy manoeuvring even in the tightest city parking.

HSC

Hill Start Control (HSC – CVT only)
This technology makes it easier to drive up steep hills from a standing start, by preventing the vehicle from rolling backwards. By maintaining the braking force for two seconds it gives you time to move your foot from the brake to the accelerator. Simple, but highly effective.

ASC

Active Stability Control (ASC)
ASC maintains stability and control when cornering by automatically recognising under-steer or over-steer. It will then apply brake pressure to the appropriate wheels, to keep you online through corners.

ABS

Anti-lock Braking System (ABS)
With ABS Mirage Hatch is ready to expect the unexpected. ABS helps you maintain steering control and avoid hazards, by adjusting the braking pressure to prevent wheel-lock under hard braking, or during an emergency stop.

EBD

Electronic Brakeforce Distribution (EBD)
This technology reduces stopping distances, by detecting the car's passenger or cargo load, and then automatically adjusting the rear-braking force to deliver predictable and consistent stopping performance.

MIRAGE HATCH. FUN, FUEL EFFICIENT AND FANTASTIC VALUE.

LS Interior shown

Mitsubishi Mirage Hatch comes in two models – the ‘ES’ and top of the line ‘LS’. Both feature a lightweight 1.2 litre MIVEC petrol engine that gives Mirage effortless acceleration from standstill and importantly, when overtaking. So whether you are driving around town or on the expressway, the Mirage hatch will deliver a nimble and responsive performance.

And you can choose either a standard 5 speed manual transmission or an optional new generation Continuously Variable Transmission (CVT) with INVECS III Smart Logic. Here’s how it works – CVT offers infinitely variable gear ratios that allow the engine to operate at optimum RPM, irrespective of the vehicle’s speed.

That means you’ll enjoy smooth acceleration and deceleration, as well as efficiently selected gear ratios in all driving conditions.

It’s a pleasure to drive

Mirage Hatch also has a host of standard features, to ensure greater comfort for both driver and passengers – including Bluetooth® with audio streaming and steering wheel controls, power windows, an integrated audio system (with single CD/MP3, USB and AUX input), remote door locking, and an abundance of storage areas.

Mirage Hatch LS also features steering-wheel-mounted Cruise Control – automatically maintaining vehicle speed without having to keep your foot on the accelerator pedal, certainly means more relaxed driving on extended journeys. And simply pressing the clutch or brake pedal will disengage the system.

Cruise Control

Floor Console with Cup Holders

Front Door Pocket with Bottle Holder

Glovebox with Panel Tray

ES (KEY FEATURES)

Mechanical

1.2L 3-cylinder DOHC MIVEC engine
5 speed manual transmission
Continuously Variable Transmission (CVT) with INVECS III Smart Logic (optional)
Electric power steering

Exterior
