do something out of the box

Introducing Subaru Levorg, the groundbreaking performance car with a licence to do.

A luxurious crossbreed of sports car, sedan and wagon, Levorg is small enough to fit into a tight parking space, big enough to pack in a load, and with its 197kW turbocharged Boxer engine, powerful enough to pack one hell of a punch.

With some of the latest safety, technology and infotainment, and an astounding number of features as standard, Levorg turns the everyday into the perfect day.

Do something out of the box. Experience the all-new, all-action, turbocharged Levorg by Subaru.

Levorg 2.0GT

power, packed

Load up. Settle back. Enjoy the ride. Subaru Levorg 2.0GT is the most fun you can have while getting stuff done. With its turbocharged horizontally-opposed Boxer engine delivering 197kW of raw power and Subaru's famed Symmetrical All-Wheel Drive vice-like road grip, every errand is a joy ride.

Inside and out, front to back, Levorg 2.0GT's range of features take it to a new level of luxury. 18" alloy wheels, EyeSight® Driver Assist safety technology, a 6.2" touchscreen, rear view reverse camera, rear spoiler, handsfree communication, and an uber-cool D-shaped leather steering wheel with silver stitching are just a hint of the fun.

Levorg 2.0GT-S Spec B

why Levorg?

Symmetrical force of power

Our All-Wheel Drive philosophy

Greater balance and control. That's the confidence you get from our unique Symmetrical All-Wheel Drive System, which delivers the drive distribution to all four wheels, all the time. Every Subaru Levorg has an innate sense of balance from the ground up, thanks to a near perfect symmetrical layout.

Boxing clever

Our famous Subaru Boxer engine

While most engines stand vertically, ours lay flat. The famous Subaru Boxer engine delivers handling like no other engine can. Sitting horizontally in the engine bay, it moves like a boxer's fists with a punch and counterpunch action. Lightweight, low and flat, it makes for perfect balance and a much lower centre of gravity. It creates less noise and vibration too. All of this means better on-road handling for you. More stability. More performance. More fun. And a more confident drive.

DataDotDNA®

Every Subaru is fitted with advanced engine immobilisers and the DataDotDNA® Theft Deterrent System¹. Microscopic dots are laser-etched with each vehicle's unique Vehicle Identification Number – making it a less attractive target for thieves.

Three Year Rebate on Theft Insurance Excess

DataDot Technology (Australia) Pty Ltd will pay your theft insurance excess² (up to a maximum of \$800 including GST) should your new Subaru be stolen and not recovered within 45 days despite the presence of DataDotDNA® and warning labels.

Finest safety

5 star ANCAP safety across the range

With spirit, quality and imagination comes some serious safety innovation. We want every Subaru to be amongst the safest cars on the road. Engineered full of cutting-edge technologies and the most intelligent design features. It's not a Subaru unless it carries the maximum 5 star ANCAP safety rating³.

Eyes in the back of your head

Rear view reverse camera

Manoeuvring back into a tight side street? Family driveway littered with toys? Reverse with confidence, thanks to our rear view reverse camera technology. The rear view reverse camera is like having eyes in the back of your head. This greatly improves your visibility and reduces the risk of bumps and scrapes. Rear view reverse camera standard on every Levorg variant.

1. DataDotDNA® is a theft deterrent not a theft prevention mechanism. 2. Vehicles must be comprehensively insured. Terms and conditions apply. 3. The Australasian New Car Assessment Program (ANCAP) gives consumers consistent information on the level of occupant protection provided by vehicles in serious front and side crashes.

Yet another world first

Lineartronic™ CVT

Pushing innovation beyond the bounds, we introduced an automatic transmission with no discernable steps or shifts. We called it Lineartronic™ CVT. And it's the reason our automatic models drive so smooth. It's the world's first longitudinally mounted system for AWD vehicles. Unlike a conventional automatic transmission – which uses fixed gear ratios – our Lineartronic™ CVT provides infinite variability between the highest and lowest available gears. So you now experience a smooth gear change, into any optimum gear for that moment. CVT comes standard on all Levorg variants.

Intelligently driven

Subaru Intelligent Drive

Heading to the shops? Taking on the Great Ocean Road? Each situation deserves a distinctive driving mode, so we crafted Subaru Intelligent Drive (SI-Drive) technology to do just that. Switch from smart, to sporty to even sportier. Intelligent (I) mode – perfect for everyday driving, Sport (S) mode – for enhanced acceleration and all-round sporty performance and Sport Sharp (S#) mode – for a truly thrilling drive.

We're looking out for you

EyeSight® Driver Assist

We were the first car company to exclusively use stereo camera technology to detect objects in our vehicles path. A sign of our future-thinking and our commitment to quality, technology and safety, EyeSight® Driver Assist is like your second pair of eyes, spotting potentially dangerous situations. If EyeSight® detects anything that might be of danger, it warns you audibly, urging you to take action and brake. And it automatically applies the brakes if you don't. EyeSight® Driver Assist comes standard on all Levorg variants.

interior desire

Subaru Levorg's luxurious and spacious interior makes being in the car a pleasure even before ignition begins.

It's all there at arm's reach. The latest touchscreen functionality and high end technology keep you entertained, connected – and protected thanks to Subaru's EyeSight® Driver Assist, a second pair of eyes that monitor the road ahead, alerting you to potentially dangerous situations.

Levorg's sporty D-shaped leather steering wheel with audio, EyeSight®, and Bluetooth® controls puts you well and truly in the driver's seat while the Levorg 2.0GT-S and 2.0GT-S Spec B variants also feature Pandora® compatibility and satellite navigation.
