

TRITON

BUILT TOUGH FOR WORK AND PLAY

In a Mitsubishi Triton you can take on whatever the day serves up – for work, play and everything in between. Engineered to deliver power, performance, 5-star safety, technology and towing capacity to get the job done. Triton's full-sized attitude and engine muscle comes in 4x2 and 4x4 Single Cab, Club Cab and Double Cab body styles, so there's a model for the farm, the building site, outback or around town. The Triton's dependable, durable design and toughness allows you to get the job done anytime, every time.

DOUBLE CAB

Triton Double Cab models have everything you want in a tough, reliable and durable ute. Whether it's the GLX or GLX+ for work, or the GLS and Exceed for play, Triton's range of 4x2 and 4x4 Double Cab models makes choosing the toughest job of all.

- + Double Cab models provide ample head and shoulder space in the front, and generous legroom in the back to easily carry five adults.
- + The GLS and Exceed models impress wherever they go, amplifying a strong off-road attitude with defined fender guards, HID headlamps, standard sports bar, 17" alloy wheels and LED Daytime Running lamps.
- + Automatic air conditioning and dual zone air conditioning (GLS and Exceed) add to interior comfort. The Exceed model is further equipped with leather seat facings, power driver seat, heated front seats, paddle shifts, electrochromatic rear view mirror and rear diff lock.
- + Cruise control and audio steering controls are also on hand to ensure the drive is just as relaxing as it is rewarding.
- + Triton Exceed, GLS and GLX+ models help you stay in touch with Smartphone Link Display Audio (SDA)^{*}, a true extension of your smartphone via Android Auto^{™1} or Apple CarPlay². Connected to a 7" touchscreen, you can access your phone's compatible apps and get directions, make calls, send and receive messages, and listen to music from any source including DAB+ radio. To ensure safety while you drive, the primary call and music streaming functions can be controlled by voice command or by steering wheel controls, so your eyes stay focused on the road ahead.
- + All models come standard with the Mitsubishi Link system which uses Bluetooth[®] wireless technology to connect to your smartphone. Primary phone call functions can be controlled by voice command or steering wheel controls to ensure safety while you drive.
- + Triton Exceed's Smart Key lets you lock and unlock doors, and even start the engine with the touch of a button, all while your Smart Key is tucked safely in your bag or pocket.
- + The Multi-Information Display in GLS and Exceed models keep you updated on driver information including trip computer, outside temperature, driving distance and fuel consumption.

*Smartphone Link Display Audio (SDA) supports Android 5.0 or higher/iOS 8.0 or higher for use with Android Auto / Apple CarPlay. Smartphone Link Display Audio will not operate in areas with no service signal and may not operate in supported areas where the signal is weak. Users are responsible for all charges incurred using smartphones and iPhones to connect to Android Auto and CarPlay respectively. Some functions may not be available for use depending on the user's location. Only compatible Apps can be used. 1. Android and Android Auto are trademarks of Google Inc. 2. Apple CarPlay and iPhone, are trademarks of Apple Inc., registered in the US and other countries.

**CLUB CAB – BUILT
FOR WHATEVER
IS ASKED**

The GLX Club Cab - Cab Chassis and GLX+ Club Cab - Pick Up 4x4 models have all the features you'd expect in a hard working truck, with reverse camera†, extra room to carry gear in the cabin or rear seats for the occasional passenger. Exterior features include clamshell style doors and platform style side steps for easy access.

- + Stay in touch wherever you go. Whether you're on a long trip to the river or just to the work site, Triton's Display audio with Bluetooth® phone connectivity & audio streaming with voice control helps you keep in touch. Close at hand steering wheel audio, phone and cruise control switches make driving and working much easier.
- + Tilt and telescopic steering is standard across the range, enabling drivers to find their own ultimate driving position.

- + Monitoring your Triton's performance is easy with the Multi-Information Display that includes trip computer, driving distance and average fuel consumption.
- + The easy to operate Easy-Select 4WD dial allows you to switch between 2WD and 4WD on the move at speeds under 100km/h.
- + GLX Club Cab-Cab Chassis models feature heavy duty suspension matched to all terrain tyres for greater grip offroad.
- + GLX+ Club Cab-Pick Up models feature Smartphone Link Display Audio (SDA*) connected to a 7" touchscreen and style and convenience features including 16" alloy wheels, side steps, rear step bumper, piano black interior accents, automatic air conditioning and reversing camera.

†Reverse camera comes standard with Genuine Mitsubishi Tray Accessory and Pick Up models. *GLX+ Club Cab-Pick Up shown with optional tub liner.

SINGLE CAB – BUILT FOR HARD WORK IN MIND

The GLX Single Cab-Cab Chassis 4x2 and 4x4 models are robust, reliable and safe to get the hard jobs done. 4x2 models are available in diesel and petrol (manual only) while 4x4 models are available in diesel only.

- + Single Cab-Cab Chassis models feature heavy-duty suspension matched with all-terrain tyres on 4x4 models for greater grip offroad.
- + For extra peace-of-mind, all Triton models feature reverse camera[†], speed sensing auto door lock and crash detection door unlocking for added safety.
- + Single Cab-Cab Chassis 4x4 models have Easy-Select 4WD which allows you to switch between 2WD and 4WD on the move at speeds under 100km/h with the touch of a dial.

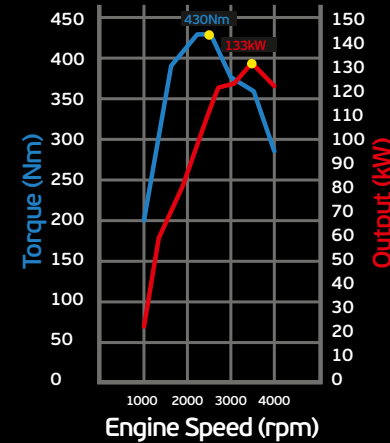

- + Display audio controls with Bluetooth® phone connectivity, USB Port and steering wheel audio, phone and cruise control switches are also close at hand ensuring you remain safely focused on the road ahead.
- + Single Cab-Cab Chassis models also feature Mitsubishi's Multi-Information display where information such as trip computer and average fuel consumption are all within easy sight of the driver.
- + Tilt and telescopic steering is standard across the Triton range, allowing even the fussiest driver to find the most comfortable driving position to suit.

[†]Reverse camera comes standard with Genuine Mitsubishi Tray Accessory.

BUILT FOR POWERING UP

Power – either you've got it, or you don't.
And with Triton you've got it in a big way.

2.4-litre MIVEC turbo diesel engine

2.4-litre petrol engine

2.4 LITRE MIVEC TURBO DIESEL ENGINE

At the core of Triton is this refined and super-responsive 2.4L DOHC MIVEC 16 valve common rail intercooled diesel engine. An aluminium cylinder block, and strong yet lightweight materials reduce weight, and with a compression ratio of 15.5:1, it's among the quietest and most efficient diesel engines on the market contributing to better torque and speed power across the whole rev range. In fact, we know it will exceed your expectations. Peak power is 133kW at 3500rpm, while torque is an impressive 430Nm at 2500rpm across both manual and automatic transmission models. The lightweight engine achieves low fuel consumption and CO₂ emissions measuring between 7.0 litres to 7.6 litres per 100kms* across the range, while also delivering outstanding power and performance.

6-SPEED MANUAL TRANSMISSION OR OPTIONAL 5-SPEED AUTO

Triton's turbo diesel power is matched to a 6-speed manual transmission or optional 5-speed auto transmission with Sports Mode.*

2.4 LITRE PETROL ENGINE WITH 5-SPEED MANUAL TRANSMISSION

The Triton GLX Single Cab 4x2 model is available with a 2.4-litre 4-cylinder multi-point fuel injection petrol engine. Coupled with a 5-speed manual transmission, this model provides the right balance between driving performance and fuel economy.

*Australian Standard ADR 81/02. Figures to be used for comparison across vehicles. Driving conditions will affect actual results.
*GLX 4x2 Double Cab-Pick Up, GLX+ Club Cab-Pick Up and Exceed available in automatic transmission only.

ALL TERRAIN CONFIDENCE

Because challenges come in all shapes and sizes, the Triton is designed to climb up, over, around and through the toughest terrain.

2H (2WD High Range)
For normal road conditions.

4H (Full Time 4WD)
For rough roads and hazardous conditions.

4HLC (4WD High Range with locked centre differential)
For rugged terrain with low-grip surfaces.

4LLC (4WD Low Range with locked centre differential)
For steep hills, sand, deep snow, etc.

SUPER SELECT II 4WD

Cutting edge four-wheel drive capability is synonymous with Mitsubishi, and the Triton is no exception. GLS and Exceed models are fitted with Mitsubishi's Super Select II 4WD system, which offers four driving modes: 2WD High Range, Full Time 4WD and High and Low Range 4WD with locked centre differential. For extreme and low traction surfaces including sand, thick mud, snow-covered or rocky ground.

REAR DIFFERENTIAL LOCK

Exceed features an electronic rear differential lock. Triton Exceed's rear differential lock delivers the traction needed to navigate treacherous offroad situations.

EASY SELECT 4WD

Easy Select 4WD on GLX and GLX+ models offer 2WD and 4WD High and Low Range. Both systems have an easy-to-operate four-wheel-drive selector dial that allows the driver to switch between 2WD and 4WD on the move at speeds under 100km/h.

11.8
METRES
TURNING CIRCLE

11.8 METRES TURNING CIRCLE

Triton's J-line design enables exceptional manoeuvrability and fuel economy without compromising interior cabin or load space. The compact wheel-base delivers an outstanding turning circle of 11.8 metres making parking and negotiating tight spaces easy.

ROBUST DESIGN AND HANDLING

The Triton is built for maximum stability and traction. Its chassis contributes to solid handling and its body is aerodynamically designed for stable highway performance. Reliable 4WD traction combines with an advanced upfront double wishbone suspension and extra reinforcement in the rear frame to keep you in touch with surface conditions and help keep you in control.

JUST LOAD IT UP

Pile it on: Triton can take it. The strong and reliable Triton is built to handle whatever week or weekend challenges come your way.

Double Cab

Club Cab

Reinforced rear corners

6 cargo bed inner hooks

TRITON HAS YOUR CARGO SORTED

The cargo bed on Double Cab models provide ample load capacity with 1520mm length and 475mm depth. Featuring inner hooks and a rear gate with an easy to use single handle, the extra reinforcement in the construction of the spacious cargo bed makes it even more durable. In the cargo bed, the rear corners are specially reinforced to disperse the force of impact when your cargo shifts and prevent damage.

BUILT TO TOW YOUR BIGGEST TOYS

Double Cab 4x4 models have a 3.1 tonne braked towing capacity. With a Gross Combination Mass rating of 5.885 tonne and low kerb mass. 4x4 Single and Club Cab models have a 3 tonne braked towing capacity. Triton provides the perfect balance between towing capacity and vehicle payload to suit a range of towing requirements. So whether you're towing the family fishing boat, equipment or trailer, the Triton has you covered.

GUIDE. PROTECT. CONNECT.

MiTEC

Mitsubishi Motors Intuitive Technology or MiTEC, is an integrated system^ of brilliant innovations in action, working in unison to guide and protect, alert and connect, even entertain. It thinks like you, reacts like you, before you even know it. MiTEC delivers unsurpassed safety and next generation features to the modern-day driver.

These significant safety features coupled with Mitsubishi's Reinforced Impact Safety Evolution (RISE) body have earned Triton the maximum ANCAP safety rating of 5 stars so you can rest assured you're driving one of the safest cars on the road.

Active Stability Control

Mitsubishi's Active Stability Control intuitively recognises when you over-steer or under-steer and applies brake force to appropriate wheels to keep you stable through corners.

Active Traction Control

Mitsubishi's Active Traction Control helps maintain traction on most slippery or rugged surfaces. Active Traction Control automatically controls the engine output – so driving wheels are prevented from spinning. Sensing loss of traction in independent wheels it then applies braking force to that particular wheel and sends extra power and torque to other wheels with traction, to keep the vehicle moving and in control.

Auto Dusk Sensing Headlamps*

Mitsubishi's Dusk Headlamps automatically illuminate in fading light or when travelling through a tunnel, allowing you to keep your hands on the wheel and your focus on the road ahead.

Auto Rain Sensing Wipers*

Mitsubishi's Rain Sensing Wipers activate automatically when moisture is detected on the windscreen, allowing you to keep your hands on the wheel and your focus on the road ahead.

Reverse Camera#

When reverse gear is engaged, the reverse camera image appears automatically on the audio system display, supplementing the driver's field of view.

Anti-lock Braking System

Mitsubishi's Anti-lock Braking System allows the driver to maintain steering control of the vehicle and manoeuvre around obstructions in heavy braking situations.

Electronic Brakeforce Distribution

Mitsubishi's Electronic Brakeforce Distribution works hand-in-hand with your car's Anti-lock Braking Systems computer to assess load and distribute braking force between the front and rear wheels. When you have a load in the rear, it helps you stop in a shorter distance than with standard brakes.

Trailer Stability Assist

To prevent 'trailer-swing' when towing at speed. Trailer Stability Assist controls individual wheel slip to stabilise the trailer. The system detects when the trailer is starting to oscillate and automatically warns drivers behind by flashing brake lights on both the car and trailer.

Hill Start Assist

Steep city streets or congested shopping mall ramps are no longer a problem with Mitsubishi's Hill Start Assist technology. It prevents the car from rolling backwards by maintaining braking force to give you time to move your foot from brake to accelerator.
