PRO+

The van you need. Guaranteed.
Renault TRAFIC

EUROPE'S **NO.1**
VAN RANGE
18 YEARS RUNNING

The van you need.
Guaranteed.

Re-designed
for everything
you need.
Guaranteed.

Since 1980, the Renault Trafic has helped businesses get the job done. In 2015, the new Trafic has been redesigned, retaining everything that's made Renault No.1 in Europe for the last 18 years and adding extras to give you better practicality, running costs, comfort and quality.

There's the introduction of an innovative mobile office, more practical loading area and two new engine options for more performance and better fuel consumption.

Enhanced safety features and technology options give you more control while customisation makes it easy to tailor the Trafic to your needs.

To top it off, our comprehensive warranty and capped price servicing give you more peace of mind and value.

So if you're in the trade or a small business owner, Trafic has everything you need. Guaranteed.

Comfort. Guaranteed.
Sit comfier.
Drive easier.
Work better.

Twin Turbo Premium Pack shown

From the way you sit, to having things at arm's reach or simply enjoying your daily driving, the Renault Trafic is built to make your work-day better.

The new cabin creates a mobile office on the go – with a fold down centre seat in Twin Turbo models that converts into a workstation, plus laptop storage, detachable clipboard, phone and optional tablet holders. A leather wrapped steering wheel provides ultimate comfort.

To make driving easier, there's a practical 6-way adjustable driver seat with armrest, a digital speedometer to monitor speed and avoid fines, rear parking sensors and reversing camera on Twin Turbo models plus blind-spot mirrors for increased visibility on the road and when parking.

And then there's the storage. With up to 14 storage areas in the cabin alone, there's more than 90 litres of practical space for day-to-day items – giving you a cleaner, safer cabin with work gear stowed away.

With improved steering precision and ride, the Trafic also delivers better road holding and passenger car comfort.

The re-worked engine keeps noise down, reduces fuel consumption and combined with the MacPherson-type front suspension and hydraulic rear dampers, provides a more responsive drive. The front windscreen is also set on a greater angle than your average van for improved harmonics and a quieter drive.

1. 6-way adjustable driver seat with armrest (shown with optional Java upholstery) **2.** Optional Cyclade 17" alloy wheels **3.** Radio with audio streaming Bluetooth® and steering mounted controls **4.** Premium pack interior with 7" MediaNav touchscreen

Performance. Guaranteed.

Haul heavy loads. Drive long journeys. Reduce bottom line.

No matter what business you're in, the improved Renault Traffic engine helps you get the job done.

The Twin Turbo engine is smooth and responsive, ensuring performance and efficiency in the city or open roads. If you're hauling heavy loads, it gives you power and torque at low speeds – saving you fuel with no need to move down gears to get more grunt.

The Single Turbo engine gives you an alternative option suited for built up areas – a perfect balance in terms of performance, fuel consumption and price.

No matter which option you choose, every Renault engine is built with our Formula 1 expertise, where we've broken new ground getting more power out of smaller engines.

Space. Guaranteed.
More room.
More storage.
More options.

When you get more in, you can get more done, so the Renault Trafic combines an array of clever options for more storage.

There's up to 6.0m³ of cargo storage in back to load bulky items and a clever hatch beneath the passenger seat for long objects, such as pipes or ladders. In the Twin Turbo models, you can fit a class leading 3.75m of load length in the Short Wheelbase and 4.15m in the Long Wheelbase models. What's more, without the need for a roof rack for smaller loads, you'll save fuel, get easier access to low height areas and reduce the possibility of theft.

We've also loaded the Renault Trafic with practical equipment and optional accessories in the cargo area. There's up to 18 cargo ties to secure your gear, space to hang work clothes and keep the cabin clear, a 12V socket conveniently located near the rear door to charge equipment and ceiling rack accessories for even more clever storage.

[FIND A DEALER >](#)

Safety. Guaranteed.

Protect your people.
Protect your business.

Overseas model shown

There's no point working if you're not protected, so there's increased active and passive safety features for you and your passengers.

Across the entire range, ESC, Hill Start Assist and Grip X-tend give you control regardless of conditions – optimising the traction of the driven wheels on the road and providing greater stability when you hit the work-sites. With standard cornering foglights on Twin Turbo models, you can also see where you're headed in the toughest conditions.

For added safety, Load Adaptive Control (LAC) adjusts the ESC depending on whether the vehicle is empty or fully loaded. When parking, rear sensors help protect your van.

In the cabin, driver and passenger safety is ensured with front and side curtain airbags and a clever single passenger seat chest-level airbag. Seatbelts come with load limiters and headrests with 'anti-whiplash' function.

To protect you from flying objects, the bulkhead in Twin Turbo models has passed the 'fridge' test: providing protection from objects weighing 50kg travelling at 50 km/h.

1. Rear parking sensors
2-2a. Blind-spot side mirrors with optional wide angle mirrors
3. Hill Start Assist 4. Electronic Stability Control with Load Adaptive Control 5. Driver and passenger front and lateral curtain airbags

Value. Guaranteed.

Reduce overheads. Add peace of mind.

If there's a way to give your business more value, we've built it into the Renault Trafic.

Up front, the economical engines give you 6.2L/100km,* helped by low-resistance tyres and aerodynamic styling to reduce drag. Electric power steering on all models and Stop&Start technology on Twin Turbo models also keeps driving costs down.

Your lower running costs are further enhanced by long servicing intervals. So while you spend less day-to-day, you also only need regular servicing every 12 months or 30,000kms – with the price of the first three services capped!† And for complete assurance, there's our 3-year, 200,000km warranty and 3 years Roadside Assist in the unlikely event you breakdown.

PRICE

*Combined cycle figures. Vehicle tested in accordance with ADR 81/02 based on combined cycle (city/highway). Actual fuel consumption and CO₂ emissions depend on factors such as traffic conditions, vehicle condition and how you drive.
†Scheduled services capped at \$599 for Trafic 66Kw/85Kw / \$599 for Trafic 103Kw for 3 years or 90,000km (whichever comes first) on new or demonstrator models.

Technology. Guaranteed. Inbuilt. Or optimised.

The Renault Trafic's integrated and optional technology gives you clever tools for today's conditions, keeping you safe and in control.

You can keep your eyes on the road with Bluetooth® technology* and keep track of your driving habits with a multifunction trip computer. A rear view camera* and sensors also keeps hidden objects in sight, while automatic headlights and rain sensing wipers* adjust to different conditions and ensure maximum visibility at all times.

The optional MediaNav system utilises a 7" touchscreen, giving you easy access to the radio, media, phone and satellite navigation. You can also access music from your mobile phone and control the radio via the touchscreen or steering wheel controls.

Eco Mode is standard in every model and influences engine torque, power management and gear change anticipation to help lower fuel consumption by up to 10%. ESM with regenerative braking systems recover kinetic energy when braking and decelerating to help save even more fuel.

The option of a 'Renault Smart Key Card' enables hands free entry and engine start and ensures the van can't be started if the Key Card is in the cargo area.

* Standard on Twin Turbo engines only.
Bluetooth compatibility may vary depending on phone.

Now available in 6 seater.
Trafic Crew.

If you thought there was no way the Renault Trafic could get any better, meet the new Renault Trafic Crew. Available exclusively in long wheel-base, with dual glazed sliding side doors for easy access to the three rear passenger seats. That brings the total seating capacity to six.

There's an integrated glazed bulkhead behind the second row seats to keep your cargo separate and your passengers safe. You'll find storage boxes and pockets under the rear seats to keep your van tidy and organised as well as anti-slip floor covering, door and roof trimming and a 12V accessory socket. Whether you're using it for work or pleasure, the dual-purpose Renault Trafic Crew is ready for anything you throw at it.

Comfort and safety.

Twice the seats,
twice the van.

The two-time award winning medium van of the year now has twice the passenger capacity with 3 individual rear seats added to the Renault Traffic Crew. Each seat features a 3-point seatbelt and headrest so you can carry your whole team to the work site, or your family around town, in comfort and safety, with room in the back for all of your tools and equipment.

The Renault Traffic Crew has been designed with enough storage space to keep all of your gear organised. There are seat storage pockets, two 49L storage boxes under the rear seats, not to mention the ample load space in the back. There's a place for everything in the new Renault Traffic Crew.

Fit out your Traffic Crew with an upgrade to the Lifestyle Pack and you'll get the space plus useful technology, including the MediaNav 7" touchscreen multimedia and navigation system, heated front seat and hands-free key card and engine start.

1. 3 individual rear seats **2.** 2 x 49L storage boxes under the rear seats **3.** Seat storage pockets **4.** Ample load space **5.** Plenty of space plus useful technology

Specialists at your service

Highly trained salespeople and service advisors with the extra skills required to sell and service commercial vehicles.

Decisions made easier

With more vehicles available, including conversions, choosing the right vehicle for your business is easy at a Renault Pro+ Dealer.

Your mobility guaranteed

A range of extra services to keep you mobile - extended workshop hours, on-site pick up and delivery, free service loan vehicles and more.

Warranties. Guaranteed.
Reassurance.
When you
need it most.

When you purchase a Renault Commercial Vehicle, you can look forward to years of productive and economical service, backed by a trusted and reliable brand.

Comprehensive Warranty

With over 100 years of Commercial Vehicle history, our experience is reflected in the design, performance and quality of every vehicle we sell.

We're so confident of the quality in your new Renault Trafic, we back it with a 3-year / 200,000 km warranty.

24/7 Roadside Assistance

Renault Roadside Assistance is a service Renault provides to you as a new Renault owner up to 4 years when you service your vehicle with Renault every 12 months, regardless of how many kilometres you travel. You could run out of fuel, lose your car keys, or have a flat tyre near or far from your home. Just call 1800 009 008 and we'll provide the support you need. Available 24/7, 365 days per year and covers you across Australia.

Servicing

For easy budgeting, you enjoy Capped Price Services for the first 3 scheduled maintenance services. ^ And to minimise disruption to your business, authorised Renault dealers also have low-cost loan vehicles available to use. Simply book one in advance when you book a service with a Renault dealer.

To ensure you enjoy Renault expertise, authorised Renault Dealers have Registered Renault Factory Trained Technicians (COTECHs), only use Genuine Renault parts and equipment and tools specially designed for your Renault.

There's also a 1-year parts and labour guarantee on all repairs and we offer clear, simple and transparent pricing structure for all servicing.
