

# HOLDEN PANEL VANS

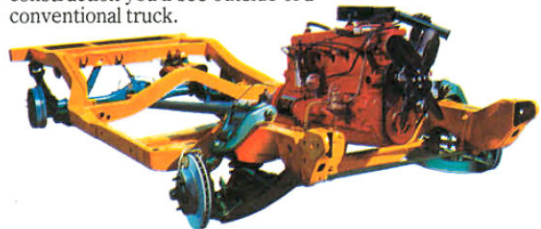

Work 'em as hard as you like. You'll like the way they work.

All illustrations and specifications contained in this catalogue are based on the latest product information available at time of publication approval. The right is reserved to make changes at any time, without notice, in prices, colours, materials, equipment, specifications and models, and to discontinue models. Some of the equipment shown throughout this catalogue is available at extra cost. Check with your Holden Dealer for complete information.

## Holden Panel Vans

More than ever, your first choice for work. Or play. They've got an enviable reputation, these Holden vans — and that reputation is built on a sound basis. A full-length box section steel chassis . . . the strongest form of construction you'll see outside of a conventional truck.

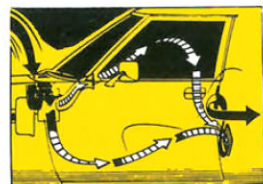

**Proven Power.** Both models (The Holden van and the new Kingswood van) use the well-proven '3300' six-cylinder engine. And that's power a plenty. Economical and reliable, too. Want still more? You can option up to a 4.2 litre V8 or the daddy of them all — a 5 litre V8.

And here's a real breakthrough! At the heart of the new Holden vans are the cleanest running engines we've ever built. They're equipped with a new pre-heat system. So the engine starts running cleaner sooner. And faster warm-ups also mean less engine wear.

**Double the distance between routine services.** More worktime, less downtime. Now routine service intervals have been extended to every 10,000 kilometres or 6 months. Good news!

### Work's a breeze.

Flow-through ventilation can get you through a hard day's work with a lot less hassles. Fan-booster ventilation is standard on Kingswood van, optional on Holden van at a small extra cost.

**Smooth Ride.** Big coil springs up front and big semi-elliptic leaf springs at back, coupled with commercial duty shockers, help give you and your load an even keel ride.

### Front Disc Brakes — Standard.

Power-assisted brake system with front discs and rear drums help provide you with all the stopping power you're ever likely to need.

**Tuckaway Handbrake.** Holden's floor mounted handbrake lies out of the way and is unobtrusive in both on and off positions.

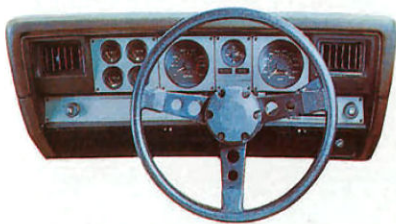

# OPTION YOUR VAN TO SUIT YOU

Holden has some great ideas to help you personalise your van for work or play.

## The Sandman Van.

Suddenly your van becomes a personal pleasure machine . . . and it won't turn into a pumpkin if you're not home by midnight! With Sandman you get bucket seats, sports instrumentation, GTS-type steering wheel with steel spokes and leather-like grip, six inch rally wheels. Plus attention-grabbing stripe sets and rear 'Sandman' decal. Interested? Ask for the special Sandman catalogue.

## Outback Pack.

Holden's built to take it. But if you want extra protection against really tough working conditions, this is on pack for you.

Factory-fitted at your request. Heavy duty air cleaner (6 cylinder only) . . . engine splash pan . . . rear shock absorber stone shields . . . heavy duty springs all round . . . heavy duty shock absorbers . . . front and rear fender mud deflectors . . . larger bumper rubber for front lower control arm.

## General Options.

Bucket seats, power steering, air-conditioning, tinted laminated windshield, push-button radio, limited slip differential, 6.00" rally wheels, radial ply tyres for regular or derated operating loads. Ask also about Holden's heavy duty suspension equipment options.

## Tail tent accessory.

An attractive, practical extra that gives you extra space to play with. A snug-fitting all weather annexe that adds additional 2 ft. of covered area to the already spacious interior. Great for camping. Available from your Holden Dealer.

Rally wheels are optional on regular Holden and Kingswood Van Models.

Kingswood model illustrated.

**Work doesn't have to be a chore.** In fact, it can be a pleasure when you're riding on the thick full foam cushioning of Holden's wide bench seat. Lots of leg room to stretch, too.

**Cop a load of this space!** Ready for the job . . . 2.9 cu. metres (105 cu. ft.) of usable load space. With a steel floor and double lower side wall construction for extra strength.

**Fingertip Control Stalk.** Here's a great new feature on your new Holden — a column control stalk that operates wipers/washers, high/low headlight beams, headlight flashing, turn signals. All at the touch of a finger.

**Lighter Steering.** The steering ratio has been increased to give lighter, easier handling when parking, in traffic and on the open road.

**Holden takes your safety seriously.** And Holden proves it with a long list of safety features — many of them Holden firsts.

Energy-absorbing steering column; glare-reduced mirrors and instruments; tandem master brake cylinder — split circuit hydraulic brake system; underslung and isolated fuel tank; fusible-link electrical wiring; power assisted front disc brakes . . . and many more on-the-job safety features your Holden Dealer will be happy to tell you about.

**Specifications of standard models.**

**Engine:** '3300' 6-cylinder.

**Bore and stroke:** 92.0 x 82.5mm (3.625 x 3.250 ins).
