HOLDEN SPECIAL VEHICLES

There is a perception. Cars are either luxurious, or they are powerful.  
Yet the new HSV Grange, HSV Senator, and HSV Senator Signature gives the lie to such clichés.  
These are cars for those who reject the prejudices of others, and make their own path in life.  
If you are one of those who refuses to compromise between luxury and performance,  
your time has come to consider these exclusive performance vehicles.

## GRANGE

If the currency of marketing is words, then for one word at least, the account is heavily over-drawn. The mindless repetition of the word "unique" renders it meaningless. Which is why it is all the more unusual when the word is employed as intended: to denote a creation, which is completely and utterly different from everything else. The specification of the new HSV Grange makes it clear that HSV's design team have, indeed, created something which is genuinely, truly, triumphantly unique in the world of cars. Graceful, empowering, forceful, authoritative, liberating, satisfying. As you slip into this limousine's driver's seat for the first time, rest assured that all this and more will become clear.

## HSV

Why do we do what we do? Why pursue this crusade to create such unique cars? The answer, quite simply, is because only we can. No other car company can offer uniquely Australian heritage, with lessons learned on the race-tracks of the world, combined with the very best in luxury, technology, engineering and automotive research sourced from all over the globe. No one else does what we do. The way that we do. Holden Special Vehicles. They are rare, indeed. Has your time come?
