A word about this catalogue. We have tried to make this catalogue as comprehensive and factual as possible. However, since the time of printing some of the information you'll find here may have been updated. Also, some of the equipment shown or described through this catalogue may have been changed and/or is available at extra cost. Further, Holden Ltd. reserves the right to make changes at any time without notice, in prices, colours, materials, equipment and models. Your Holden Dealer has details, and before ordering, you should ask them to bring you up to date. No Holden Dealer or other person is authorised or permitted to give or make any statement, assertion or undertaking in relation to the quality, performance characteristics, descriptions or fitness for any purpose of any Holden product which is at variance with any written statement, assertion or undertaking on any of these subjects given or made by Holden Ltd. A.B.N. 84 006 893 232 in its published sales literature, and Holden doesn't accept any liability for any such unauthorised action. Holden Ltd. has authorised Retailers in many parts of Australia for the sale of service parts and the provision of service to owners of Holden's products. Every endeavour is made to ensure that such Retailers carry adequate stocks of service parts, but Holden Ltd. doesn't make any promise other than that contained in the New Vehicle Warranty given by Holden Ltd. that such parts or service facilities will be available at any specific location or at any particular time. Express warranties offered for Holden products are subject to the conditions set out in all vehicle handbooks. Details also available from Holden on request. This is an Australian brochure. While most specifications are applicable to New Zealand, some - and other content, may apply only to Australia. Please check with your Holden Dealer. December 2004. VECT0804 AD11522

NEW VECTRA. NEW THINKING One glance tells you this Vectra is new. An uninterrupted sweep from nose to tail. A new balance of mould breaking design and cutting edge technology. And a purposeful, yet distinctive, stance on the road. Designed and engineered in Europe to exacting standards, the Vectra range won Europe's coveted Golden Steering Wheel Award in 2002. From the CD hatch and sedan to the CDX and CDXi hatches, the Vectra range reflects a new confidence, challenging convention, rewriting rules and delivering all-new levels of performance, refinement and driving pleasure.

Front MacPherson Struts

3.2 Litre V6 Engine (155 kW)

Multilink Rear Suspension

INNOVATION AND PERFORMANCE WORKING FOR YOU In the new Vectra, our designers have redefined power and taken it to a new level of refinement resulting in a more fluid, responsive driving experience. In the V6 CD, CDX and CDXi models, an exhilarating 3.2 litre quad cam, 24 valve V6 engine produces a confidence-boosting 155 kW of power. There's also a touch responsive 5-speed Active Select transmission (standard on automatic models), that gives you the option of automatic or manual transmission modes. Add to this our innovative chassis design and construction in conjunction with front MacPherson struts, an all-new multilink rear suspension and you have a truly superior ride and handling package. This is performance technology that adjusts to the way you like to drive. Technology that puts you firmly in control.

A NEW SENSE OF SAFETY New Vectra incorporates active and passive safety systems until recently only seen in the most advanced European vehicles. The CDXi is equipped with the latest generation Electronic Stability Program (ESP Plus). The system uses sophisticated yaw sensors, which detect when the car is deviating from its intended course. The sensors automatically apply the necessary power or braking adjustments to up to 3 wheels and assist to correct the vehicle back onto its intended course. The Vectra range also incorporates the latest in safety technology, such as Cornering Brake Control, Anti-lock Brakes, Electronic Brakeforce Distribution, Traction Control and Emergency Brake Assist. All of these functions combine to ensure the load and brakeforce is distributed independently to each brake as and when needed, to keep you firmly in control. For added safety, driver, front passenger and side airbags are standard, with the CDXi model also equipped with curtain airbags. In the event of severe front or rear-end collisions, active head restraints on the front seats move upwards and forwards to meet the head as it moves back, helping reduce whiplash. Further proof of Vectra's forward thinking is the pedal release system, designed to automatically drop the pedals away from the driver, in the event of a severe collision helping to minimise injuries to the lower limbs. You can even activate a lights-off delay function to ensure the headlamps continue to shine 30 seconds after the vehicle is turned off, to see you safely to your door.

Automatic Models

VECTRA CD. A NEW BENCHMARK Whether hatch or sedan, what strikes you about the new Vectra CD is that it is more refined than ever, especially inside. Innovative engineering and thoughtful design have produced an environment that's spacious and sumptuous. Available with a powerful V6* or a refined 2.2 litre engine, driver and front passenger sports seats, air conditioning and a seven-speaker MP3 compatible CD sound system, you're in your own haven. The Vectra CD features steering wheel mounted audio controls at your fingertips, cruise control, power windows and exterior mirrors and 16" alloy wheels. Raising the bar significantly, active and passive safety features include dual front and side airbags, ABS, Traction Control, Electronic Brakeforce Distribution, Cornering Brake Control, Emergency Brake Assist and active front head restraints. All standard in your new Vectra CD.

*Automatic models only

VECTRA CDX. THE CLASS ACT OF ITS CLASS Striking European design, 17" alloy wheels and the subtle touches of chrome finish discreetly tell you luxury has never been in better shape. Our standard 5-speed Active Select automatic transmission, coupled to the silky-smooth 155kW V6 engine lets you drive enthusiastically, or effortlessly, however you like to drive. Distinctive too, are the integrated front foglamps and big bold halogen headlights that can turn night into day. And, as you'll soon discover, inside the Vectra CDX continues to shine.

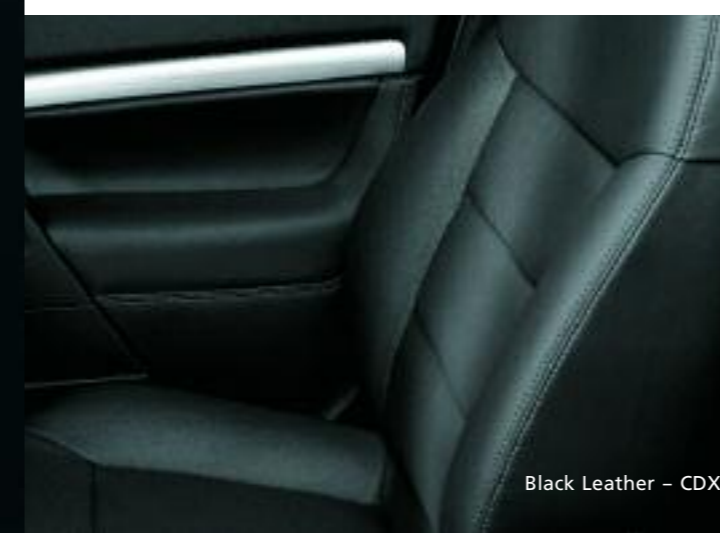

VECTRA CDX. ALL THE COMFORTS OF FIRST CLASS Once you're settled snugly inside your Vectra CDX, you may feel reluctant to leave. Plush black soft touch velour upholstery sits comfortably alongside other soothing and tasteful textures, colours and finishes, designed for function as well as style. The Vectra CDX features a leather wrap steering wheel with remote stereo controls at your fingertips. It also welcomes you and your passengers with warm, River Elm ornamentation, dual zone climate control, separate rear ventilation, a six-stack 'in-dash' CD player with no less than nine speakers, and a graphic information display to keep you well informed. Wherever you go, it's nothing but first class.

VECTRA CDXi. THE POWER TO PERFORM With a 3.2 litre 155kW V6 engine the CDXi offers you a highly responsive, exhilarating drive with smart touches like rain sensitive front wipers and headlamps that switch on automatically if it's dark outside. And every inch looks the part. Dark head and tail lamp styling, body colour side skirts, deeply vented sports bumpers and a rear spoiler accentuate its distinctive body kit. But there's also substance beneath the style. 17" alloys sit purposefully on an advanced sports suspension for a more dynamic driving experience. A dual branch sports exhaust system tells you it means business. While our latest generation Electronic Stability Program (ESP Plus), helps keep you firmly in control.

VECTRA CDXi. A NEW LOOK INSIDE As you'd expect, the Vectra CDXi offers just as much inside as out. Snugly contoured electric heated front seats with memory adjustment and a sports steering wheel, all wrapped in supple black leather are complemented by a stylish interior with matt alloy-look highlights. A six-stack in dash CD player and dual zone climate control (with pollen and odour filters) ensure that your comfort always comes first. Add to these luxury features safety systems including driver, front passenger, side and curtain airbags and you have a car that truly rewrites the rule book. That rivals Europe's finest. That well and truly points to the future.

NEW CHOICES Like everything with the new Vectra, your choice of interiors and exteriors redefines luxury. Our designers have ensured that nothing has been left unfinished. The colour of your interior fabric has been chosen to complement all exterior colours available. Vectra CD has Duke-Malta cloth trim, the CDX Muna-Amana velour and CDXi sumptuous black leather. All models are available in the following exterior finishes: Star Silver, Casablanca White, Silver Lightning, Pannacotta, Sapphire Black, and Ultra Blue.

As these are printed colours and not actual samples, variations between those illustrated and actual paint/trim may occur. All paint finishes are metallic except for Casablanca White. Metallic paint is an extra cost item and certain colours may not be available from time to time. Customers are encouraged to contact their Holden Dealer for current colour availability.

Star Silver

Casablanca White

Silver Lightning

Pannacotta

EASY PURCHASE OPTIONS

FINANCE	SmartChoices Provided by GMAC Financial Services is an array of automotive finance products designed to help the dream of driving a new Holden become a reality. Just select the product, term and payment structure that best suits your lifestyle and your Holden Dealer can provide more information.
----------------	--

INSURANCE	Holden SmartCare Insurance provided by GMAC Financial Services offers a range of competitively priced insurance products, providing tailor-made protection, at whatever level of cover you need. For more information, call the SmartCare hotline on 1800 060 094.
------------------	--

LEASING	Holden Leasing Whatever the size of your fleet, Holden Leasing offers a range of flexible, value driven, specialist fleet leasing products. Years of experience means they can provide the best solution for you. Call Holden Leasing on 03 9696 7400 for more information.
----------------	---

HOLDEN MASTERCARD	Holden MasterCard can assist you to get into a new Holden sooner. 10% of credit purchases on this card goes towards a Rebate of up to \$3,000 on your new Holden. ¹ That's a \$1 saving towards a new Holden for every \$10 spent. There are a range of extra features including up to 45 days interest free ² on credit purchases and a competitive interest rate. Apply ³ online at www.holden.com.au/mastercard or call Holden MasterCard's 24 hour help line 1300 650 696.
--------------------------	---

OWNERSHIP BENEFITS

SERVICE	Holden Service With over 300 Holden Dealers, Holden can supply an enviable level of customer care. Our Service Network is one of the largest in the country. Only Holden Dealership technicians have access to regular Holden factory training.
----------------	---

WARRANTY	Holden Warranty Every new Holden comes with a New Vehicle Warranty, covering your Holden for 3 years or 100,000 kilometres, whichever comes first. This factory backed warranty covers items including the engine, transmission, interior and exterior components. For support after that, a Holden Extended Warranty can be purchased for vehicles that have travelled less than 100,000 kilometres and prior to the vehicle being registered for 3 years from date of first registration. Refer to your owner's handbook or see your Holden Dealer for full terms, conditions and exclusions.
-----------------	---

ROADSIDE ASSISTANCE	24 Hour Roadside Assistance Provided for the first year of your new Holden's life ⁴ , Holden Roadside Assistance is one of Australia's most comprehensive assistance packages with over 3000 Roadside Assistance patrols nationwide. ⁵ There to help with even the smallest service, the toll-free Roadside Assistance hotline is always open, 1800 817 100.
----------------------------	--

¹ A total of \$3000 in the form of Holden Card 'Core' Rebate (plus additional 'Bonus Rebate' accumulated via the Partner Program) accrued over a maximum of five years may be applied per eligible vehicle purchased. Vehicle sales for which a fleet allowance is paid are not eligible for Holden MasterCard Rebate. Earning and redemption of Rebate towards a new Holden is subject to the Holden Card Rebate Program Rules. ² The interest-free period applies where the card account is fully paid by the due date each month. ³ Applications are subject to Westpac's normal lending criteria. ⁴ From date of first registration. ⁵ In remote or sparsely populated areas you may experience delay in obtaining Roadside Assistance. Refer to the Roadside Assistance brochure in your glove box for full terms and conditions of this service.

GLOSSARY OF TERMS

ABS provides additional vehicle control by preventing the wheels from locking up, allowing you to steer while braking heavily in slippery conditions.

Electronic Traction Control when sensors detect imminent driving wheel spin, engine torque is reduced. If one wheel is about to spin, braking is applied to transfer torque to wheel with better traction.

Active front seat head restraints help prevent whiplash injury from severe collisions from behind. They move upwards and forwards to meet the head as it moves back, helping reduce whiplash.

Cornering Brake Control senses different wheel rotational speeds and controls braking of individual wheels to help prevent oversteer/understeer.

Electronic Brakeforce Distribution distributes brakeforce front and rear, enhancing braking, including when heavily laden.

Emergency Brake Assist senses urgency when brake pedal pressed and increases braking pressure, promoting shorter emergency stopping distance.

ESP Plus is the latest generation Electronic Stability Program. Via several sensors, ESP Plus recognises critical driving situations and helps the driver retain control over the vehicle by regulating engine torque and applying the brakes of individual wheels.

Pedal release system automatically drops the pedals away from the driver in the event of a severe collision, helping minimize injuries to lower limbs.

Sun sensor climate control advanced form of climate control which detects the intensity of the sunlight and communicates it to the climate control system, providing precise cabin temperature.

5-speed automatic transmission features: Active Select system that makes driving more enjoyable by giving you the option of automatic or manual transmission mode by simply tapping the gear into the second shift gate.

Adaptive transmission system where the gear change shift points automatically adapt and modify according to your personal driving style (be it sporty or economical).
